Chicago, Nov. 9.—Joseph Maruska walked into the lower corridor of the City Hall this afternoon, armed to the teeth and intent on killing Mayor Swift. Maruska asked in an excited manner to be directed to the Mayor's office. An officer took him to detective headquarters, where the desk sergeant was introduced to him as the Mayor. Maruska declared that the Mayor was a menace to society, and [illegible] his hip pocket. He succeeded in [illegible] a bulldog revolver, but was disarmed by the officers at hand. Maruska swore he would kill Mayor Swift, and then go to Canton and despatch President-elect McKinley, both of whom, he said, must die before the country could prosper. He was handcuffed after a hard struggle and locked up.

Twenty Passengers Drowned.

Seville, Spain, Nov. 9.—Two steamers have been wrecked by collision at the entrance to the Guadalquivir River. One of the steamers was sunk and 24 passengers were drowned. Most of those lost were wealthy and prominent persons. No names are given.

"Turn the rascals out"—the familiar partycry — may be applied to microbes as well as to men. The germs of disease that lurk in the blood are "turned out" by Ayer's Sarsaparilla as effectually as the old portmasters are displaced by a new administration.

Mr. Legate, Traveller for McCormack & Co., London, says: "Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill druggist.

Captain Sweeney, U. S. A., San Diego Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 399 George Street.

THE TOWN MULCTED IN $250 DAMAGES.

MRS. GEORGINA JANE JACKSON WINS HER SUIT.

The Expensive Penalty of Defective Walks—Record of the Cases before the Court—The Second Day's Proceedings.

Meldrum vs. Consolidated Milling Co.

Meldrum & McAllister in this case claimed that they sold to the defendants 10,000 bushels of wheat to be delivered at Midland at 71½c per bushel, and the defendants would not accept the same or pay the plaintiffs therefor, whereby the plaintiffs incurred expense, in keeping and reselling the wheat, to the amount of $1,242.82, which amount they seek to recover.

In their statement of defence the defendants state that the sale was made on the understanding that the wheat was a new purchase of 20,000 bushels, of which the defendants were to take 10,000 bushels at cost price. The defendants affirm that they discovered at a later date that the wheat was not a new purchase, but stock which was on hand. They claim therefore that a fraud was perpetrated in the sale, thus rendering it null and void.

E. B. Stone for plaintiff; Dumble & Johnston for defendants.

In this case the Judge dismissed the jury and took the evidence himself.

Judgment is reserved.

Bullock vs. Jory.

The plaintiff, W. J. Bullock, of Douro, claimed $500 damages from the defendant, Thomas E. Jory, of Douro, for having said, concerning him, "He has committed forgery—he forged the name of my father to money orders on the treasurer." The plaintiff was at that time a candidate for election as a member of the municipal council of Douro, and claimed to have lost votes through the publication of these words, and that he was greatly injured in his credit and reputation.

The defendant denied the charge, but stated that if he used the words it was in a joke, and not with the intention of attributing any wrong doing to the plaintiff.

In this case the prosecution brought forward Robt. Charlton, David Darling, Jno. McCormack and Wm. Abbott, all of Douro, as witnesses, all of whom stated that when the defendant was canvassing for votes as councillor of Douro, against the plaintiff, he stated that he was running because he thought Bullock should not be in the council as he had signed his (Jory's) father's name to a pay sheet as pathmaster and drawn the money from the treasury the year before.

When the defendant went into the box he stated that he had told these men that a grant of $25 had been made for the road between Lakefield and the cheese factory and that Bullock, as councillor, had superintended the work, instead of his father, who was the pathmaster. Bullock had also drawn the money from the treasury and paid the men, signing his (Jory's) father's name at the top of the pay sheet, as pathmaster, which the defendant had stated "looked like forgery."

The jury retired and after an hour's deliberation brought in a verdict awarding the plaintiff one dollar as damages, thus effectually vindicating his character from any stigma which may have become attached to it through the aforesaid statements.

Stratton & Hall for plaintiff; E. B. Stone for defendant.

Ashe vs. Collins.

The plaintiff, as assignee of the estate of John Baskin, insolvent, sought to recover from Joshua W. Collins, lumber dealer, of Toronto, a balance said to be due the estate of $243.94.

The defendant denied the charge and submitted a statement of the transaction, showing the balance due the plaintiff to be $33.09.

Judgment of $33.09, with costs as a set-off.

W. A. F. Campbell, of Norwood, for plaintiff; Thorne, Warner & Starr, of Toronto, for defendant.

JACKSON VS. PETERBOROUGH.—This was a case brought by Georgina Jane Jackson, wife of Wm. Jackson, to recover $500 damages for injuries alleged to have been sustained by a fall on Park street on Saturday, June 27th, the fall being as alleged, due to a missing plank in the walk on the east side of the street, between Sherbrooke and Dalhousie streets. The case was tried without a jury, Mr. John Green appearing for the plaintiff and Mr. E. B. Edwards for the defendants. All present in the court room seemed to take a deep interest in the case, arising perhaps from the fact that the town had just emerged from a protracted and unsuccessful suit of a similar kind.

THE FIRST WITNESS.

Mrs. Georgina Jane Jackson testified that she resided on Rubidge street and that at the time of the accident she was proceeding to her sister's on Sherbrooke street. On the east side of Park street a little south of Sherbrooke street there was a plank off the walk, and she stepped into the opening. It was on the 27th of June, between 9.30 and 10 o'clock. Her left foot went through the opening, and she fell outward, striking her elbow and also her leg against the scantling that had supported the plank. She felt severely shaken; her shoulder was badly hurt, and her left leg was injured, leaving a mark. The soreness in the bone still remained. Suffered greatly from internal injuries, from which she had not yet recovered. The doctor attended her the next day. She was laid up three or four weeks. Her injuries prevented her attending to her household duties. She had to employ assistance, but the work was not done as well as before. Her sufferings were severe. She had noticed the condition of the walk a week before. She noticed other boards off the walk in the vicinity—about fifteen or twenty yards away there were three or four boards off the walk. Had no knowledge of repairs being done to this walk. Had no ailment or sickness before this accident. At the time of laying the damages witness did not state the full extent of her injuries. The damages were placed at a low figure with the hope of inducing the town to come to a settlement.

To Mr. Edwards—Witness said she had known this piece of walk for some time, and had passed over it frequently. She had passed over the walk the afternoon previous to the accident. It was reasonably light at the time of the accident. Was not thinking of the state of the walk at the time. She fell to the left and forward. She judged the hole was about eighteen inches deep from the place where her leg was injured. The following Tuesday witness went on a visit to Havelock. On her return home she walked home from the station—kept a girl for two weeks. The week before the accident there were three or four boards out of the walk.

To Mr. Green—The course witness took was the most direct to her sister's place. Did not stay as long at Havelock as she would have done but for her illness.

THE SECOND WITNESS.

Mrs. Spillsbury, sister-in-law of the plaintiff, testified that she was with the plaintiff at the time of the accident. They were walking along talking, and just as she stepped over the hole Mrs. Jackson stepped into the opening and fell. She had not time to warn Mrs. Jackson. She seemed to be hurt and was trembling. Witness did not know that the board was out before she came to the spot. They passed over a loose board shortly before.

To Mr. Green.—She did not see the hole till she came up to it.

THE THIRD WITNESS.

Dr. Pigeon testified that he was called on a Sunday to see Mrs. Jackson, who was suffering from bruises on her left leg and arm and complained of internal pains she had suffered from the accident the night before. A day or two afterward she complained of being worse. She complained of an injury to the bladder. The urine was tinged with blood.

To Mr. Edwards—As far as he could judge she was about well now.

To his Lordship—His bill would be about $25 now. There was considerable suffering. The chief injury was to the bladder.

THE FOURTH WITNESS.

Wm. Jackson, husband of plaintiff, testified that he first knew of the accident when Mrs. Jackson returned home. She complained of being hurt inwardly. On account of her injuries she had to employ a servant and also a boy. Knew of the walk in question—and of the loose planks.

To Mr. Edwards—The boy was paid 10 cents a week for carrying witness' dinner. He had known of loose boards on this walk.

To His Lordship—The scantling seemed to be sound. The plank had been off for some time, as the nail holes were filled up The hole was about a foot and a half deep.

THE FIFTH WITNESS.

Mr Wm. Madill testified that he had gone over the walk, and there were planks off between Sherbrooke and Dalhousie, on the east side of Park. There were three or four planks off.

To Mr. Edwards—He noticed the planks off the latter part of May or the first of June. Couldn't tell whether the planks had been replaced or not.

To His Lordship—There were planks off here and there. The scantling was not very good where the planks were off.

THE SIXTH WITNESS.

Joseph Lannin testified that he had lived in town six years. He knew the walk in question. He had noticed that several planks were loose some time last May.

THE SEVENTH WITNESS.

Wm. Lloyd testified that he lived about 100 yards from the walk in question. He knew the walk well. On the 26th of June he fell into a hole in the sidewalk. There were two other planks off.

To Mr. Edwards—It was about 15 feet from Dalhousie street where he fell into the hole.

To His Lordship—There was a considerable traffic on this street.

THE EIGHTH WITNESS.

Thos. Dunlop testified that he had often passed over the walk. It was loose and shaky with an odd board off. The boards would be laid on again. The sidewalk was naturally loose. This was the condition during the summer. Sometimes the walk was very shaky.

To His Lordship—The loose planks were due to the age of the sidewalk.

THE NINTH WITNESS.

Matthew Cooper—Knew the sidewalk in question over a year. He had passed over the walk on his way to work. There were loose boards on the walk between Dalhousie and Sherbrooke. The walk was not in very good repair last summer. Had never noticed any repairs being done.

To Mr. Edwards—The walk was not in a very bad condition for an old walk.

This was the case for the plaintiff.

THE DEFENCE.

Mr. Edwards—I submit, my lord, that there is no case, inasmuch—

His Lordship—If you have any witnesses you had better call them.

THE FIRST WITNESS.

John Cunningham worked on the corporation walks. About the latter end of June he put in three planks in the walk in question. He noticed no other loose planks. He had had no notice of an accident. After the walk was repaired he considered it perfectly safe. The walk was taken up; the scantlings were then sound enough to hold the nails. Owing to the nature of the soil this walk gave a good deal of trouble. Made no repairs previously.

To Mr. Green—The repairs were made after the present action was brought. He put down all the planks that were loose.

To Mr. Edwards—The top of the walk was about eight inches from the ground.

To His Lordship—He fastened all the loose planks when he repaired the walk.

SECOND WITNESS.

Joseph Christo, sworn, stated that he assisted the previous witness. He remembered working on the repair of the sidewalk on the day in question.

THIRD WITNESS.

W. S. Hutchinson, sworn, stated that he had witnessed the taking up of the sidewalk. The sidewalk was generally kept in good repair. He never noticed any loose planks in it.

Cross-examined he stated that he did not have occasion to pass over the sidewalk regularly.

FOURTH WITNESS.

Wm. Jones passed over the sidewalk once or twice a week. He had been over it in June. The material in the sidewalk was good. A crowbar was required to raise the planks. On being asked how the planks became loose, the witness stated that the boys were in the habit of pulling them up to make bonfires.

Cross-examined the witness stated that he did not have to use the sidewalk in question as he lives on the other side of the street. Through habit he crossed the road to use it.

In answer to a question from the Bench the witness stated that he had seen boys prying up the planks. He was sure on this point.

FIFTH WITNESS.

Mrs. Jones had seen a plank out of the sidewalk on one occasion. She had seen the boys building bonfires by the sidewalks. In answer to Mr. Green she stated that with her husband she had often been in the Police Court. It was on pay day—the 25th of June—when she saw the plank out of the sidewalk.

Questioned by the bench the witness could give no reason why she placed the date as the 25th rather than the 10th of June, which was also a pay day.

SIXTH WITNESS.

Robt. Clinkscale, street inspector, stated that he had never received notice that the sidewalk was out of repair. He had sent a man down in that vicinity, and about a week afterwards he had heard of the accident. Four men were continually working on the sidewalks. About $4,000 had been expended this year on repairs.

Cross-examined—He was not sure of the date upon which the sidewalk had been taken up. It had been decided by the Street and Bridge Committee that it was useless to build a new one as it was used so seldom.

SEVENTH WITNESS.

Mayor Yelland stated that no communication had been addressed to the Council stating that the sidewalk was out of repair. The first notification of it being out of repair was when the notice of the accident was sent in.

S. R. Armstrong, town clerk, testified to the average expenditure on streets and bridges of $12,000 for the last three years. A third of this amount would be spent on the repairs of streets.

The Judge finds that the sidewalk was out of repair, and that the town was at fault in not providing a proper sidewalk. That the plaintiff had used all ordinary care. This the town had acknowledged by tearing up the sidewalk immediately after the accident had happened. He gave the plaintiff $200 damages and $50 to the husband,—which, it is estimated, with costs, will amount to somewhere about $500.

Queen vs. Edward Sanderson, larceny. True bill. [The prisoner was arraigned, and Mr. J. A. Barron, Q.C., was in charge of the Crown business. The jury was asked to decide whether the prisoner was sufficiently compos mentis to plead.]

Buy direct from the makers, Grafton & Co.

SENATOR COX.

Mr. Geo. A. Cox and Hon. David Mills have been appointed to the Senate vacancies, caused by the death of Sir David Macpherson and Hon. Dr. Ferguson. Both are admirable appointments, but it is with Mr Cox that the people of Peterborough and this district are most deeply interested. No one, of the thousands that know Mr. Cox, will deny that in his elevation to the Senate, the requirements of especial fitness for the discharge of the duties as well as a recognition of eminent services in numerous capacities of citizenship have been carefully regarded. For many years Hon Mr. Cox has been a prominent figure in the financial world, and he is everywhere recognized as the leading spirit in various enterprises requiring especial financial aptitude and financial grasp. His pre-eminence in this regard is evidenced by his occupying so prominent a position as President of the Canadian Bank of Commerce, besides that of President of the Central Canada Loan and Savings Company, and the Toronto Savings and Loan Company. He is also President of the British America Assurance Company and the vice-president of the Western Assurance Company. He is also a director of the Canada Life Assurance Company, of the Toronto General Trusts, of the Canadian General Electric Company and the Toronto Street Railway Company. Mr. Cox is also actively associated with a large number of minor enterprises, and in all respects his great influence and ability are directed to the promotion of enterprises that have for their aim the advancement of the industrial and financial interest of the country. He is one of the most influential and enterprising of the leading men of the country, and while his specialty is finance, he finds time to actively assist in the forwarding of moral and educational movements. He has given substantial evidence of his great interest in Victoria University, of whose senate he is a member. He is one of the most prominent and respected laymen of the Methodist church, and he has been for years a consistent advocate and active promoter of the temperance movement. In every way he may be considered, Mr. Cox is a thoroughly representative citizen and his elevation to the Senate in conjunction with other recent appointments will go far to justify the existence of that body and make it an influential factor in moulding and directing the legislation of this great country. The EXAMINER in extending congratulations on this occasion to the country, to the Senate, and to Hon. Mr. Cox himself, feels that it is voicing the universal public sentiment.

Every individual taste can be gratified in our fashionable Society Stationery.

Calling Cards.
We carry none but the best Ivory Bristol in each size, with the finest finish, in pure white, thick and thin, neatly put up in boxes.

Playing Cards.
Special prices for Evening Parties, whether Progressive Games, Pedro or Euchre—5c, 10c, 15c, 25c and 50c per package.

Evening Games.
All the popular games so helpful and amusing in filling in the long evenings of the coming winter.

Crokinole.
Combination Crokinole, Checkers and Table. Readily taken up, and adapted to old and young of both sexes. A very social game, as it admits of free conversation and furnishes entertainment to any number of spectators as well as the parties playing. Sufficiently fascinating to make home the most attractive place.

Fort.
Purely a game of skill. Everyone present can take part. Played with cue and balls.

Louisa.
Parcheesi Revised. Combines chance with moderate skill. Played by the throws of two dice, four men of each player are entered.

Steeple Chase.
A mimic horse race. Horses are entered and moved over the spaces on the race track according to the throws of dice.

Parcheesi.
The back gammon board of India. The Eastern Rajahs are passionately fond of Parcheesi.

Halma.
A magnificent game to while away a pleasant hour. It is for two, three or four players, but even one may play a lone hand and improve the mental faculties by studying its "solitaires."

Go-Bang.
One of the most remarkable games. It is tit-tat-to improved. Yet with all its simplicity it fascinates old as well as young.

Lotto.
A set of cards, laid off in properly numbered squares, and a set of ninety numbered pieces. Well-known and largely played.

Daily Examiner.

TUESDAY, NOVEMBER 10, 1896.

THE MIDLAND COLTS HAVE RE-ORGANIZED.

DICKSON DAVIDSON ELECTED AS THE NEW PRESIDENT.

Norwood and Lindsay Admitted and the Association Divided Into Northern and Southern Groups—A Bonspiel Will be Held in Peterborough on or Before the First day of February.

The Midland Colts Association met last evening in the Oriental to re-organize and the members were much pleased to find delegates from Lindsay and Norwood present applying for the admission into the Association of the colts of their respective towns. Needless to say that they were received with open arms and the first business of the evening consisted in voting them into good standing in order that they might deliberate and vote on any matters which might come before the meeting.

There were present Messrs. T. W. R. McRae, of Belleville; Fred. J. Smith and George Benor, of Campbellford; Geo. J. Horkins and Charles N. Brown, of Peterborough; J. A. Campbell, Port Hope; W. A. F. Campbell, Norwood; J. H. Hart and F. W. Greer, Lindsay.

Both Cobourg and Kingston were unrepresented.

The President, Mr. F. J. Smith, presided, and, as stated, the first business taken up was the

ADMISSION OF LINDSAY AND NORWOOD

into the Association, which is now composed of the Colts of Campbellford, Belleville, Peterborough, Kingston, Port Hope, Cobourg, Lindsay and Norwood. The two new clubs were admitted on the understanding that no player would curl who has been on the ice previous to '93 and the membership of the other clubs was extended one year.

Lists of the memberships of the various clubs were presented in order that the Association may be in a position to know what players will take part, and also be in a position to ascertain when their period of Coltship expires, and they become ineligible for membership. No list was presented from Kingston, and the Secretary was instructed to write and ask for such a document to be filed forthwith, each of the other clubs having sent in a list each year.

The matter of the grouping of the clubs then came up for discussion, as did also the manner in which the games should be played off.

Mr. Horkins had prepared a schedule in which the clubs played home and home games, one rink remaining at home whilst the other went away.

Mr. Davidson proposed that the association be divided into a northern and southern division, to be composed of Campbellford, Peterborough, Lindsay and Norwood on the north, and Port Hope, Cobourg, Belleville and Kingston on the south. Each division could hold a bonspell, as was done last year, and the winners of the two groupings could then play off for the trophy. He also suggested another scheme which he thought would

GENERATE A GREAT INTEREST

in the Association and create a more friendly feeling amongst the members, many of whom never became acquainted with each other under the present arrangement. His idea was to have one grand bonspell, lasting a couple of days, in which the entire draw could be played off and the championship decided.

This question was discussed at great length, but as it was thought that some of the players living at more distant points would have to be absent from home for four days to attend the bonspell the scheme was dropped.

Mr. Hart, of Lindsay, stated that (aside from the championship) the Colts would be given an opportunity of meeting together at the grand bonspiel which was to be held in Lindsay, beginning on January 7th, when a special trophy would be offered for competition amongst the Colts.

On motion of Messrs. Campbell, of Port Hope, and Horkins, of Peterborough, the Association was divided into two groups with Port Hope, Cobourg, Belleville and Kingston in the south, and Lindsay, Peterborough, Campbellford and Norwood in the North, the draws to be played off at bonspells to be held on or before the first of February in Peterborough of the northern division, and Cobourg of the southern.

Mr. T. W. McRae was appointed convenor for the north, and F. J. Smith for the south, and the drawing took place at once, resulting as follows:

NORTHERN DIVISION.

Norwood.....vs.....Lindsay
Peterborough.....vs.....Campbellford

SOUTHERN DIVISION.

Kingston.....vs.....Cobourg
Belleville.....vs.....Port Hope

The winners in each division will play as arranged hereafter.

The election of officers was the next business in hand and the Mr. and Mrs. W. H. Biggar, of Belleville, were unanimously chosen as the patron and patroness. Mr. Horkin's suggestion that the appointment be made a permanent one was received with three cheers and the singing of "He's a Jolly Good Fellow."

Mr. Biggar, it might be stated, is the "father" of the Colts Association, having made a most handsome donation towards the trophy.

Another appointment which was made permanent as long as he is a member of the Association is that of Mr. T. W. R. McRae, of Belleville, as Secretary-Treasurer. Mr. McRae's work on behalf of the Association is known and fully appreciated amongst the membership.

Appended is the entire

LIST OF OFFICERS.

Patron and Patroness—Mr. and Mrs. W. H. Biggar, of Belleville.

President—Dickson Davidson, of Peterborough.

1st Vice-President — Geo. Benor, of Campbellford.

2nd Vice-President—J. A. Campbell, of Port Hope.

Sec.-Treas.—T. W. R. McRae, of Belleville.

Executive Committee—J. H. Hart Lindsay; G. M. Stephens, Cobourg; G. H. Allen, Kingston; W. A. F. Campbell, Norwood, and the above named officers.

The next place for the annual meeting to be held was the next business to be disposed of. Mr. Horkins explained that the idea was that this honour should go around. Campbellford, Belleville and Peterborough had already had the pleasure of entertaining the delegates.

On behalf of Port Hope, Mr. J. Campbell extended a hearty invitation to the Association to meet in that town next year, and on motion of Messrs. W. A. F. Campbell and J. H. Hart, the invitation was accepted.

The meeting was characterized throughout by the good feeling which exists amongst the clubs in the Association, and

THE ENTHUSIASM SHOWN

was such that a long life is doubtless assured the organization, which is doing so much to develop the young curlers. On no point whatever was there the slightest disagreement, all the delegates appearing to have the sole end in view of forwarding the welfare of the Association, to the expense of even personal sacrifice.

At the conclusion of the business meeting, the delegates were invited to the Palace Restaurant, where they became the guests of the Peterborough Colts and enjoyed an oyster supper.

The following toast list was honoured during the evening:—

"The Queen."

"The New Officers"—Messrs. Dickson Hall, George Benor, J. Campbell, T. W. R. McRae.

"The New Members"—Messrs. W. A. F. Campbell and J. H. Hart.

"The Grey Beards"—Georges. J. Horkins.

"The Press"—Alf. Terrill.

"Auld Scotia Curlers"—Dickson Hall.

THE PRESENTMENT.

The Grand Jury Very Emphatic About the Poor House Scheme.

At noon to-day the Grand Jury filed into the court room and the following presentment was made:

To His Honour, Sir Wm. Meredith, Chief Justice of the Court of Common Pleas, presiding at the Peterborough Fall Assizes:

Your Grand Jurors for the said county beg to take this first opportunity of congratulating Your Lordship upon your elevation to the honourable position which you now so much adorn and express our great satisfaction that Her Gracious Majesty, our beloved Queen, has been pleased to confer upon you the honour of Knighthood.

The Grand Jurors fully approve of the changes made in both the Grand Jury and Petit Jury systems.

We have visited the Nicholls Hospital, St. Joseph's Hospital and the House of Providence connected therewith and the Peterborough Protestant Home and are pleased to report all these institutions well conducted and well provided with everything necessary for the comfort and treatment of the inmates. We have visited the county gaol and found the inmates well cared for and everything clean and in good order, but we regret very much to find therein so many persons who have not committed any offence save that of being poor. We find there several aged persons and two young men, apparently respectable, well able to do any sort of work which might be provided, and who express their willingness to work, and we look upon it as a disgrace to a Christian community that these people should be compelled to associate with criminals and to a certain extent be branded as criminals.

We understand that the County Council have already expressed their willingness to join with the town of Peterborough in providing a house of refuge for the poor of the town and county of Peterborough, and that the town council have persistently neglected and refused to do their part in making such provision, and we would suggest that if the town council continues in that course that the county council do apply to parliament for legislation to compel the town council to act in the matter, or to give the county power to proceed with the work and compel the town to pay their proper share of the expenses.

All of which is respectfully submitted.

M. E. SANDERSON, Chairman.

Peterborough, Nov. 10th, 1896.

His Lordship, in replying, stated that it was most satisfactory to ascertain that the hospital and public buildings were being so well looked after as the report showed them to be. He stated that he would present the report to the proper authorities and hoped that it would be unnecessary to resort to compulsion to have the town agree to erect and maintain a proper poor house. The present state of affairs was indeed most deplorable, as the younger people were being thus thrown into associations which would cause them to become members of the criminal class.

Before dismissing the jury His Lordship thanked the members for their kindly references to himself in the presentment.

PERSONAL

Mr. Henry Greene, traveller for J. J. Turner & Sons, left for Sudbury this morning in the interests of the firm.

Mr. D. C. Edwards, of Toronto, is in town to-day adjusting the loss by fire on the lumber of the Dickson Company.

Mr. Thos. Blezard, M. P. P., and his daughter, Miss Lottie, and Dr. McNaughton and wife, of Westwood, spent Sunday in town with Mr. and Mrs. G. Learmouth, Sherbrooke street.

Mrs. H. Phelan has gone to Ottawa, being called there owing to the very serious illness of her father, Mr. Nagle, whose friends in Peterborough will regret to learn of his seriously impaired health.

Can Rheumatism be Cured?

The application of Nerviline—Nerve pain cure—which possesses such marvellous power over all nerve pain, goes greatly to prove that it can. Nerviline acts on the nerves, soothes them, drives pain out, and in this way gives relief. Try it and be convinced.

PIPES! PIPES!

Why pay 25 to 50 per cent. more for a Pipe, when you can save that much by buying at Clegg's Retiring Sale? Pipes, Pouches, Tin Tobaccos, Cigars by the Box, all at cost price. E. B. CLEGG.

$16 UP TO $30.

NET CASH PRICES, ACCORDING TO MATERIAL AND FINISH. SMOOTH FINISHED FABRICS SUCH AS INDIGO BLUE, BEAVERS AND MELTONS; SHETLAND FINISH FABRICS IN SERGES AND CHEVIOTS.

Mercer's

REV. J. G. POTTER SPEAKS ON ARMENIA.

AN INTERESTING ADDRESS ON A PRESENT-DAY QUESTION.

The Armenians are a Hard-Working Class, and through their Industry were Acquiring Wealth in Turkey Prior to their Persecution.

There was a large attendance at St. Andrew's Y.P.S.C.E. meeting last night. Mr. F. W. Gladman, president, occupied the chair, and led the devotional part of the meeting.

The Rev. J. G. Potter gave an address on the Armenian Question. Armenia, which signifies Land of Aram, is not spoken of as such in the Hebrew Scriptures, although it is translated "Armenia" in II Kings xix. 37, where it refers to the district of Ararat. It is a lofty plateau—is actually the centre of the mountain system of Westerm Asia, and from it pours forth the waters of the Euphrates, Tigris, Araxes and Acampsis.

The Armenians are the farmers, mechanics and commercial men of Eastern Turkey. Their industrious habits have made them the superiors of the Turks, and in spite of the excessive taxation, the business of the country is in their hands. Even twenty-five or twenty-six years ago they were not permitted to hold property, and simply rented and farmed the land. The Moslems proved inefficient and incapable to cultivate the soil, so that the Turks sold their property into the hands of the Armenians, who in time have become the proprietors, and have left their original owners without income. The result of this

STATE OF AFFAIRS

will be that when these people are exterminated it means financial ruin to the whole country.

The Armenians are simple and frugal, cheerful and uncomplaining, and they continue in one occupation from generation to generation. The aged are held in great esteem, and as might be expected, their counsel is sought at all times.

The women do not occupy the high position held in this land, and in this they have copied from the Turks among whom they live.

The Armenians, as a race, have apparently no desire for conquest, no ambition to become a strong and ruling nation, yet in battle their courage and prowess are wonderful. They are the most intelligent of all the people of Eastern Turkey, and in Western Turkey they are only rivalled by the Greeks. They have strong inclinations for an educated manhood, and their ability to attain eminent scholarship has been shown in recent years by the large number of young men—natives of Armenia—who are to be found in nearly all European and American Colleges. Well equipped and excellent colleges are to be found in Kharpoot, Anitab, Marsovau and Constantinople, among the students of which are many Armenians. The history of these people takes us back many centuries. Their first chief was Haik, the fifth from Noah, and all down through these centuries we are told they have remained an independent nation until 1375, A.D., since which date they have been a subject people. Soon after the resurrection of Jesus, Abgar, their king, with all his court, accepted Christianity. It was not, however, till the third century that the Armenians became a Christian nation. Gregory, called the Illuminator, was their leader, and gave his name to this national church, which is

KNOWN TILL TO-DAY

as "Gregorian." They worked in harmony with the Greek church until 451, A.D., when they separated on the question of our Lord's Divinity. The character of their church government is essentially Episcopal, having at the head a Catholicos as spiritual leader, and also a patriarch whose office is chiefly in connection with the Turkish government. They had the Bible in their own language in the fifth century, yet owing to the ignorance of many of their clergy, with regard to Scripture truth, their doctrines were kept alive by oral teachings. Things have changed among them in recent years, and for the past eleven centuries they have passed through storms of persecution and with wonderful patience and endurance have never relinquished their faith. A few years ago they numbered 12,000,000. At the beginning of the present year they had decreased in numbers to about 3,000,000.

The present persecution is the blackest for many years. We had hoped that in this enlightened age this was well nigh impossible. Yet the history of the Turk has presented page after page of unspeakable horrors.

In 1822 50,000 Greeks were slaughtered; in 1850, 10,000 Nestorian and Armenians; in 1860, 11,000 Maronites and Syrians; in 1876, 15,000 Bulgarians; in 1894-96 about 100,000 Armenians.

The Turks are to-day ruled by a Sultan, whose office corresponds to that of the *Czar of Russia* and the *Pope of Rome*. He is the head of the church and state, and is the successor of Mahomet.

Mahometanism took its rise in the seventh century, and while embracing much of the Old Testament there is compiled in its teaching much that is mythical and traditionary. They have a blind faith in a professed

GOD, OR ALLAH,

and Mahomet is his prophet. Their method of propagating their religion is at the point of the sword, and only one of three ways is before you:—(1) Choose freely and willingly and confess Mahomet; (2) under coercion to be forced to submit; (3) to perish. The life of the present Sultan is summed up in a few lines by W. T. Stead: "It appears that when a mere youth, he was conspicuous even in Constantinople, which is so notorious for its immortality, for the excesses of his private life. There was then little probability of his ever ascending the throne and as he was condemned to a life of idleness, he plunged into all the wickedness of the capital and led a life of debauchery. Suddenly and without any cause that has ever been explained, he changed his course. He quitted his evil ways and became a devout follower of Mahomet. With this change, however, came a fierce intolerance which has led him into a crusade against the Armenians, whom he hates because they are Christians."

The lecturer then described scenes of carnage, bloodshed and bitter and painful persecution as occurred in Erzeroum, Van, Oorfals, Bireyik, Shepik, Arabkir, Kharpoot and Diarbekir, and also referred to the work done by American missionaries, which comprises 152 missionaries, 102 churches, 12,000 communicants, 70,000 adherents, 48 high schools and 356 common schools. Already the Turk has arisen and destroyed her churches and colleges and thousands of her members and adherents slain. How long shall this fiendish work continue?

WHAT ARE THE LESSONS WE LEARN?

1. Mahometanism is stamped, in the eyes of the whole world, as a savage monster.

2. The influence of enlightened Christianity will be as great in crushing the spirit of the Turk as it has been in stopping the recurrence of the massacres in past centuries in other lands.

3. An alliance of at least all English speaking countries in upholding one great common cause of righteousness, benevolence and peace should be our hope and prayer.

4 The endurance and loyalty to truth teaches us to be ever loyal to God and our Saviour. Christ is denied for a much less cause oftimes.

5. A weeping and suffering humanity demands our sympathy.

"We cannot break the oppressor's iron rod;
But we can minister to the oppressed.
We cannot loose the captive's heavy chains;
But we can bind his wounds and soothe his pains."

Reference was then made to the fact that in accordance with the Word of God, while Christian Endeavourers were beginning to implore the throne of mercy with one grand and united effort, the Lord was answering their prayers. In the latest despatches cabled by the United Press Association, it was learned that already the Sultan had capitulated to the French ambassador, and that in one important centre—Diarbekir—the Vali had been dismissed for the share he took in the troubles there, and a successor has already been appointed. Telegrams have also been sent by the Porte to all the military governors informing them that they will be answerable for any bloodshed.

ACCIDENT TO MR. FRANCIS WEIR.

He is Thrown From a Load of Hay and Breaks His Leg.

Mr. Francis Weir, of the Norwood Road, met with a serious accident while returning from his farm with a load of hay last evening. His horses became frightened on Mr. David Hunters's Hill, upsetting the load and throwing Mr. Weir forward among the horses' feet.

One leg was broken and the other very severely bruised. On the whole he is badly shaken up. His many friends will, however, be glad to learn that his attending physician reports him progressing favourably this morning.

ANOTHER HUNTING PARTY.

Belle Chasse to be the Scene of Operations.

A large hunting party left this morning for Chemong, where they will be picked up by the steamer Idle Hour and taken up to Stony lake, where Mr. Harry LeBrun will open up his summer cottage, "Belle Chase" for their reception.

The party is composed of Commodore H. LeBrun, G. W. Hatton, Ed. Brown, H. A. Allen, R. B. McKee and W. D. Parker of Peterborough, and R. Ruddy of Millbrook.

Mr. E. B. Stone joins the party tomorrow morning.

Mr. T. Hooper is being taken along to act as cook.

Isn't it a pity that so many women go through life as nervous, fretful invalids, always in a sick-bed or on the verge of it. They are to be sincerely pitied for the great majority have in them the making of healthy, amiable, capable wives and mothers. These cases become sadder still when it is realized that the sufferings they endure are unnecessary. Any woman can be healthy and amiable and helpful if she will take care of the health of those delicate organs that are essentially feminine.

The greatest known medicine for women is Dr. Pierce's Favorite Prescription. It cures all weakness and disease of the organs that make wifehood and motherhood possible. It allays inflammation, soothes pain, and restores calm and strength to the shattered nerves. It prepares for wifehood and maternity. Over 90,000 women have testified to its virtues. Druggists sell it.

"I commenced using your medicine three days after my child was born," writes Mrs. A. J. Bryant, of Wilbraham, Hampden Co., Mass. (care of Wesleyan Academy). "It was the fourth one, and I never got up so strong and well. I can do all my own work. I have recommended my friends to try the 'Favorite Prescription.'"

If somebody was offering to give away gold mines for the asking what a scrambling there would be! When a mine of health is offered there is some lively scrambling too. Over 680,000 people hurried to get Doctor Pierce's Common Sense Medical Adviser at $1.50 per copy. It has 1,008 pages with over 300 illustrations. Something over 90 of these pages relate to diseases peculiar to women. This book may now be had free. Send 21 one-cent stamps, to World's Dispensary Medical Association, Buffalo, N.Y. (the cost of customs and mailing *only*), for book in paper covers; or, 50 stamps for cloth binding.

DRESSING THE HAIR.

Simple Methods Are Again in Vogue—One New Coiffure.

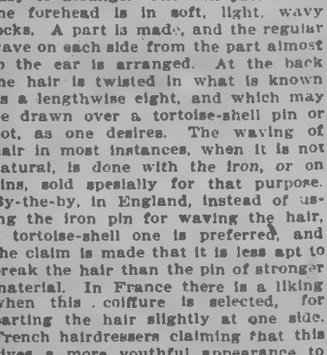
The modes of dressing the hair most in vogue are decidedly simple. Hair dressers have endeavored to make popular the elaborate coiffures, coiffures that one could not arrange one's self, but fashion has protested. Dame Fashion objects, most of all, to the long, frizzy bang; next to that she abhors the flat, straight bang, which is only suggestive of the penitentiary.

A coiffure particularly liked for a woman with an oval face is one that

AN ABSOLUTELY NEW COIFFURE.

painters rave over, and yet which is easy to arrange. The hair just across the forehead is in soft, light, wavy locks. A part is made, and the regular wave on each side from the part almost to the ear is arranged. At the back the hair is twisted in what is known as a lengthwise eight, and which may be drawn over a tortoise-shell pin or not, as one desires. The waving of hair in most instances, when it is not natural, is done with the iron, or on pins, sold spesially for that purpose. By-the-by, in England, instead of using the iron pin for waving the hair, a tortoise-shell one is preferred, and the claim is made that it is less apt to break the hair than the pin of stronger material. In France there is a liking when this coiffure is selected, for parting the hair slightly at one side. French hairdressers claiming that this gives a more youthful appearance to the face. It, however, takes away from the womanly effect produced by what are known as the Madonna parting and waves.

A pretty arrangement of the hair has the blouse roll in front, and at the back three puffs, framed by a very narrow rope twist. As these puffs are light and soft-looking one's own hair may form them, while a light switch may make the twisted rope that is about them. Another coiffure, which has the blouse roll for the front arrangement, shows a Psyche knot also framed by a twist of the hair. Shell pins are generally used when a Psyche knot is arranged. By-the-by, in speaking of the puffs back of the blouse roll, it may be well to mention that they are not high on the head; but so arranged that they end just at the roots of the hair in the back. While the wave of the front hair is still considered good form, the elaborate waving of



A PRETTY ARRANGEMENT.

the back hair is no longer liked. The most fashionable woman in arranging her coiffure aims at producing what she calls "the natural effect." As it would not be natural for the hair to wave from the roots up at the back she allows her back hair to be straight and disposes of it in the most becoming manner.

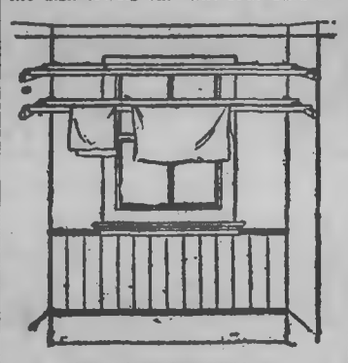
A pretty and absolutely new coiffure is the one that, while it rather gives the blouse effect, really consists of three deep waves that turn back, and which are, of course made by the iron. At the back the hair is arranged in a double eight twist that shows well at the sides, but does not rise above the top of the head. Women who have very little hair can tie it close to the head, fasten the switch on by a string drawn through its loop, which is the best way, and then, pinning down their own hair close to the head, arrange the switch to form the double eight. Elderly ladies, especially those whose hair has grown entirely white, wear it oftenest in Pompadour roll, which

PAINTERS RAVE OVER IT

requires a small pad under it, and then in the back have a plaited switch carefully pinned to the hair in a loop-like fashion. Many ladies who have reached middle age or passed it adhere to the coiffure selected as becoming when they were young, and it must be confessed that there is a certain dignity about this.—Isabel A. Mallon, in Ladies' Home Journal for September.

Kitchen Clothes Bars.

Convenient clothes bars can be made with very little trouble and no expense if one has just the place to put them. In almost every kitchen there is a nook. In the illustration there is a space of about five feet between the chimney and the side of the room. In the space two sets of cleats were nailed to the side and chimney, with grooves to slip the bars in; when not in use the bars can be taken out, but they are always convenient to hang the dish towels on. The four bars are



CONVENIENT CLOTHES BARS.

smoothly finished and are made of pine. If one has but little room these bars are much more convenient than the clothes horse, and are never in the way.—Millie Abbott, in American Agriculturist.

Catarrh in the Head

Is a dangerous disease. It may lead directly to consumption. Catarrh is caused by impure blood, and the true way to cure it is by purifying the blood. Hood's Sarsaparilla cures catarrh because it removes the cause of it by purifying the blood. Thousands testify that they have been cured by Hood's Sarsaparilla.

Hood's Pills are purely vegetable and do not purge, pain or gripe. All druggists. 25c.

Dr. Nansen's Home Life.

The home of Dr. Nansen, the noted Arctic explorer, is at Christiana, in Norway. The picturesque house stands in the strand, overlooking the sea, and it was there that Nansen studied out his trip to the Northland.

When at home Dr. Nansen spends most of his time in his library. In this room there are Arctic pictures everywhere and drawings and maps are strewn profusely on the table.

Dr. W. C. Broegger, the correspondent of Verdens Gang, an excellent Norwegian weekly, describes a visit to the Nansen home on the day before the departure of the Fram for the Arctics. He says:

"After supper we gathered in the parlor. Mrs. Nansen played and sang for hours, and Dr. Nansen seemed like a man in a dream. She sang the old Norse ditties and beautiful cradle songs handed down from Viking ancestors, but she showed herself also thoroughly familiar with the classics."

Mrs. Nansen is a true daughter of the North, strong and cheerful and fond of outdoor exercise. During her husband's three years' absence she never lost hope ,and always believed he would succeed.

English Lances.

It is proposed to substitute bamboo for ashwood for the lances of English cavalry regiments, as the ash used is said to be brittle and not to be trusted in actual warfare.

FOUND A JEWEL.

An Important Find by a Brockville Jeweller.

Mr. Joseph Lane, the well-known jeweller of Brockville, says: "For some years I have suffered with severe pains in my back and sides and flashes of heat between my shoulders. I had a tired, wornout felling.

"The numerous medicines that I took gave me very little relief. Hearing of Doan's Kidney Pills I thought I would try a box, and got one at Curry's drugstore.

"After the first two or three doses I felt much relieved, and the longer I took them the greater the change for the better in my condition. I am much better in every respect and recommend Doan's Kidney Pills to all sufferers from kidney trouble as the best remedy I know of."

Sold by James Lynch, druggist, 168 Hunter street, Peterborough.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Tobacco Heart

Much heart and nerve weakness is caused by undue use of tea, coffee, and tobacco; palpitation, nervousness, irritability, excitability, lack of confidence, etc., are sure symptoms. Milburn's Heart and Nerve Pills bring ready relief, by steadying the nerves and regulating the heart. They are true heart and nerve food.

Hog Cholera Ravages.

Windsor, Ont., Nov. 7.—Dr. Golden, Government Veterinary Surgeon, found unmistakable traces of hog cholera on Walpole Island and at Whitebread, a small settlement on the mainland. The Government has ordered the slaughter of almost one thousand hogs in the vicinity of Wallaceburg. Dr. McEachran has quarantined 14 more farms near Maidstone Cross to prevent the spreading of the disease. About 200 hogs have died.

Heavy Crop of Sugar Beet.

Washington, Nov. 7.—Consul Muth of Magdeburg reports to the State Department an abnormal German sugar beet crop, almost assuming the unprecedented yield of 1894. In Austria and France as well as other European countries the crop exceeds that of last year, though in some districts the quality is inferior. This is apt to affect the falling off in Cuba to some extent.

McKinley Replies to Bryan.

Canton, Ohio, Nov. 6.—At noon to-day Major McKinley sent this telegram: "Canton, Ohio, Nov. 6. To Hon. William J. Bryan, Lincoln, Neb.: I acknowledge the receipt of your courteous message of congratulation with thanks, and beg you will receive my best wishes for your health and happiness. (Signed) William McKinley."

A MESSAGE TO MEN.

Proving that True Honesty and True Philantrophy Still Exist.

If any man, who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge, the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-being to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind, but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c. silver to cover postage and address, Mr. Geo. G. Strong, North Rockwood, Mich.

Karl's Clover Root.

the great Blood purifier, gives freshness and clearness to the Complexion and cures Constipation, 25 cts., 50 cts., $1.00. Sold by John Nugent, 399 George street.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagyard's Pectoral Balsam.

B Uniocks all the clogged Avenues of the Bowels, Kidneys and Liver, carrying off gradually, without weakening the system, all the impurities and foul humors of the secretions; at the same time Correcting Acidity of the Stomach, curing Biliousness, Dyspepsia, Headaches, Dizziness, Heartburn, Constipation, Dryness of the Skin, Dropsy, Dimness of Vision, Jaundice, Salt Rheum, Erysipelas, Scrofula, Fluttering of the Heart, Nervousness and General Debility; all these and many other similar complaints yield to the happy influence of BURDOCK BLOOD BITTERS.

Good Square Pianos

FOR A MERE SONG.

Our warerooms are overcrowded with excellent square second hand pianos which we have taken at different times as part payment on new Mason & Risch Uprights, Most of them were exchanged by the original owners, not because they were bad, but simply because they were squares and took up more room than the average modern city parlour allows of.

Most of them are in first rate order, 7 octaves, carved legs, ivory keys, iron frames and rosewood cases. They are made by such well known firms as Fischer, Heintzman, Decker, Chickering, etc. Most of them are worth about $250.00 each, though we don't intend to ask this. Now listen to our proposition.

First write us for a list and description of what may happen to be on hand at the time of writing, giving us some idea as to what you would like, and how you wish to pay; whether cash down or on terms; if on time how much time, how much down you can pay and how much per quarter.

On receipt of this information we will make the best possible selection and ship it to you **FREIGHT PREPAID ON APPROVAL.** If you do not like it, **SHIP IT BACK. IT WON'T COST YOU ANYTHING** If you like it we will await checque (if cash) or send you the usual papers for signature. The price of no Piano is to exceed $150.00 and many will be less.

If you have ever heard of a fairer offer than this, let us know of it.

If you prefer a good second hand Upright of course it will cost more, but write us all the same; it is no trouble to answer questions and give quotations and terms; that's what we are here for.

CANCER CURED
—AND A—
LIFE SAVED
By the Persistent Use of
Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. FIELDS, Bloomfield, Ia.

AYER'S
The Only World's Fair Sarsaparilla.
Ayer's Pills Regulate the Liver.

HOME ELECTRICITY.

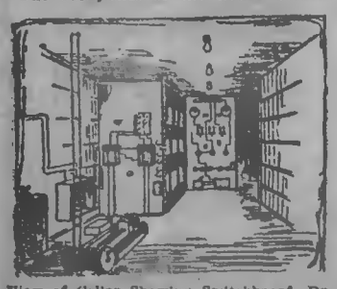
ALL YOU HAVE TO DO IN THIS HOUSE IS PRESS THE BUTTON.

The Up-to-Date Home of a Rich New Yorker—He Has Turned the New Power to Many Uses—Best Electrically Equipped House in the World.

A litle girl who had become heartily sick of the ordinary duties of life once wished that she might go to fairyland where she could dream away existence and have nothing to do. The gnome heard of her foolish desires and one day while she was asleep conveyed her to the land of perpetual sunshine and installed her in a beautiful palace surrounded by gardens full of fragrant flowers. Here she found her slightest wish always anticipated. If she wanted to pluck a flower, it forestalled her by dropping into her hand. If she wished to go to a distant spot, it came to her before she could make a movement. Even her food conveyed itself to her mouth and saved her the trouble of swallowing it. Everything in fact was done at her slightest inclination. She, however, soon tired of an enforced inactivity and was glad when at last she was allowed to return to the workaday world.—Old Fable.

The nearest actual approach to the fairyland of the fable exists in New York City. It is the home of the president of one of the large exchanges, and it is situated on West Seventy-fifth street. In this house it is almost impossible to do a stroke of work or perform a series of concerted actions. Everything is done for you, apparently by magic, though really be electricity. It is probably the most elaborate electrically equipped residence in the country if not in the world. Everything is done by the current, and it is only necessary to reach out your finger to have it done. It would seem as though the family of the owner must die of lassitude, and the servants grow lazy as never to be fit for work in another place. Most of the servants are figureheads, anyhow, they have so little to do.

The occupants of the house seldom



View of Cellar Showing Switchboard, Dynamo Room, Storage Battery and Elevator Apparatus.

or never walk up stairs. An electric elevator carries them from floor to floor and even up to the private roof garden fitted out with electrical devices. No attendant is required to work this elevator. It is the perfection of automatic action. A single push button on each landing controls it. No matter if the car is above or below your floor, a pressure of the button will call it to you. This is, of course, possible because of the automatic action of the pole-changers and switches which are placed at every floor and are worked by the car itself. Once a certain push button has been pressed the car passes under the button, and no matter how much the other buttons are pressed they will not act until the first one is released. This is done by means of a commutator which throws all of the other buttons out of circuit; for if two persons on different floors should attempt to work the car at one and the same time it might prove fatal to human life. The car door also is automatic and the car cannot be moved until the door is shut and locked. This elevator is lighted by tiny but brilliant electric lamps, and there is a flexible tube telephone in the car which enables one to speak to any part of the house.

Such a thing as the ordinary opening and shutting of a door never occurs in this house. Near every door there is a push button. Press this and the door slides into the wall or vice versa. The pressure of another button locks or unlocks the door. Sometimes it is not necessary to be near the door in order to open or close it. Hanging down beside the beds are what is known in electrical circles as "flexible"—bifurcated cords with wooden knobs or handles on the ends. In each handle are four buttons marked successively Asleep, Awake, Shut and Locked. The pressure of the first two buttons sends a signal to various parts of the house that the master or mistress is asleep or awake. The bedroom is approached by a long hall or entry way. Lying in bed the occupant of the house can shut and lock or unlock and open the door at the end of the fifty-foot passage by merely pressing the proper buttons. Hanging near the bed is another flexible cord carrying buttons which mean all kinds of qualified summons to the house servants.

There is no such thing as groping in the dark in this house. Every room can be lighted before entering by pressing a button in the hall approaching it. Furthermore, you can at will light up one or a dozen or every light in the room and there is also one switch which enables every lamp in the house to be lighted at once. Dark closets are unknown in the house. The very act of opening a closet door automatically turns on the current and the interior is lighted up. All of the table lamps are electric and in several cases they are marble statues holding incandescent lamps—small patterns, as it were, of Edison's famous statue of the Triumph of Electric Light. One of them, which stands in the front hallway, was on exhibition at the World's Fair.

The roof of the house with its electrically lighted garden presents a beautiful sight from a distance, just as the distance is beautiful when viewed from the room, for the Palisades lie off to one side with the Hudson in between. Here the family spends its evenings when home in the summer time. In the kitchen all the cooking is done by the current and so much of it is done according to new methods that the cook would be practically useless in an old fashioned kitchen. When a chicken has been prepared and placed in an electric oven it is only necessary to press a button and watch the clock. As the heat is obtained from overcharged wires it is distributed evenly all around the bird. Basting is therefore not necessary and the expertness of cooking becomes a mere question of time allowance. A leg of lamb, for instance, will require just one hour and ten minutes to cook. Left in the oven three minutes longer than this and it would be overdone. It is not necessary to look at it in the meantime.

The dining room of this house is exquisite in tone, the lights shedding a gentle radiance down from the ceiling. It is said that the owner even contemplated an electric table which would sink out of sight and its place be taken by another after each course had been eaten, much after the Roman fashion of table removal. The nearest approach in this case, however, is an electric dumb waiter, large enough to carry a whole dinner course. It is

HOUSEHOLD UTENSILS UNDER NEW RULE.

but one remove from the other idea. The dining table abounds in call bells. The master of the house can even give a private signal through the floor by means of a foot push button.

The current used in this plant is all generated on the premises. The house is not situated along the line of a street current. The owner had therefore to install his own plant. Storage batteries supply the current to the house. The cells themselves are stored by a dynamo which is worked in its turn by a gas engine. This entails no trouble, however, because the switches on the elaborate switchboard are worked automatically by a side current from the cells. A colored man servant keeps a supervising eye over the machinery and an experienced electrical man pays the house a visit at intervals of one or two months. This in a measure proves the feasibility of electric lighting for country residences.

In fact everything seems to be done at a touch of a button in this house and the inhabitants have become thoroughly used to it. The owner has tried to enjoy some of the delights of ordinary activity by becoming a photographic fiend, but here the modern destiny of the mansion has pursued him and his private studio is "electric" Arc concentrating lamps enable the owner to take pictures day and night and there are electric developing processes on which he experiments. He has even had wires run underground from his cellar plant to the houses of his business partners and for his father-in-law on the next street. He supplies them with lighting current. It is not apparent that there are any electric hair curlers or electric cigar lighters in the house, but there is no reason why they should not have been concealed in some out of the way corner. In short, if there is a genii of domestic electricity stalking abroad it would probably select this house for its city residence.—New York Sun.

As a blood maker, blood purifier, health giver and system renovator **Manley's** Celery-Nerve Compound is unrivalled.

"The eruptions on the face particularly have been removed, and the trouble in my back as well, and I feel like a new man. I consider Manley's Celery Compound better than doctor's medicine for blood and liver troubles, as it has proved so in my case." Isaiah Leffler.
Waterford, Ont.

Sold in Peterborough by John McKee.

The Useful Egg.

An egg added to the morning cup of coffee makes a good tonic.

A mustard plaster with the white of an egg will not leave a blister.

A raw egg taken immediately will carry down a fish bone that cannot be got up from the throat.

The white skin that lines the shell of an egg is a useful application for a boil.

White of an egg beaten with loaf sugar and lemon relieves hoarseness. Take a teaspoonful once ever hour.

A raw egg, with the yolk unbroken, taken in a glass of wine, is beneficial for convalescents

Break It Gently.

Brown—Have you read this article upon "How to tell a bad egg"? Jones—No, but if you have anything to tell a bad egg, my advice is to break it gently.

Both Empty.

Mr. Fussy—I don't see why you wear those ridiculous big sleeves, when you have nothing to fill them. Mrs. Fussy—Do you fill your silk hat?

The two most critical times in a woman's life are the times which make the girl a woman, and the woman a mother. At these times Dr. Pierce's Favourite Prescription is of incalculable value. It strengthens and invigorates the organs distinctly feminine, promotes regularity of the functions, allays irritation and inflammation, checks unnatural, exhausting drains, and puts the whole delicate organism into perfect condition. Almost all the ills of womankind are traceable to some form of what is known as "female complaint." There are not three cases in a hundred of woman's peculiar diseases that Dr. Pierce's Favourite Prescription will not cure.

Dr. Fowler's Extract of Wild Strawberry cures Diarrhœa, Dysentry, Cramps, Colic, Cholera Morbus, Cholera Infantum, and all looseness of the bowels. Never travel without it. Price 35c.

There's . . Solid Comfort

For every lady, in having a coat or wrap which is light in weight and yet has such wind proof qualities that it keeps out every breath of cold wintry air.

Fibre Chamois

Gives these results and adds as well the necessary stiffness to give body and style and keep the garment in its original shape through any amount of wear.

See the Red Star when buying. Only 25c a yard now.

THE EYES OF THE WORLD
Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognized this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why should anyone suffer distress and sickness while this remedy is practically at their hands?

W. H. HILL,
Manager for Central Ontario,
400 Water Street, Peterborough, Ont.

What Makes Us "BEST?"

There are two ways of supplying Furs at ever decreasing prices. One is to use a large outlet, and complete organization in manufacture and purchase, as levers to gather directly goods from all parts of the world, always maintaining the highest and best qualities of stock.

The other way is to substitute and reduce qualities to correspond with prices.

THE FIRST WAY IS OUR WAY. With ever increasing output, Peterborough, Toronto and Lindsay,—with all our energies focussed on the study of the things to be known and the things to be done, the best qualities, the best markets, the best time to buy, the quantity, the styles, the lowest freights, the labour saving inventions, the whole field from A to Z.

Where else can you be so sure that close prices do not mean reduced qualities. IT'S OUR LIFE BUSINESS. We began in boyhood and we have the pride in it that makes us know it through and through, and places us in a position to sell you to your advantage as well as ours. Call and see our Fur stock. None finer, none larger, none so up-to-date.

FAIRWEATHER & CO.

WARSAW.

(From Our Own Correspondent.)

Miss Forsythe, of Peterborough, was in town Sunday.

Misses McBurney and Waller, of Havelock, who have been visiting at Mrs. Wasson's, returned on Saturday.

W. J. Doughty was in Ingersoll on business for a few days last week.

Mr. Earl, of Toronto, was in town on Saturday.

Mr. Arch. Reid, who has been visiting friends in Darlington, returned on Saturday.

Rev. Mr. Johnston, of Sterling, conducted the services in the Baptist church on Sunday last.

Mr. Morgan, one of the hunting party, returned from the scene of operations on Friday. He reports good success so far, the party having secured nine deer.

At the Normal examinations held in connection with the Presbyterian Sabbath school, Miss A. Campbell was second highest. This is quite an honour as the examinations were open to the county.

A meeting of the Bible Society will be held in the Presbyterian church on Tuesday evening at seven o'clock. A silver collection will be taken up in aid of the society.

Miss Campbell and Mr. Herb Kidd attended the convention at Peterborough last week.

The cheese factory closed down on Saturday for the winter, and a meeting of the shareholders will be held on November 11th. The company are well pleased with the way in which Mr. Payne has managed the factory during the past season and have re-engaged him as manager of the creamery during the coming winter. Since Mr. Payne has taken charge of the factory extensive improvements have been added, making it complete in every respect, and this, with Mr. Payne's ability in this line, make the factory second to none in this district.

At 5 p.m. on Wednesday evening last, Mr. Wm. Little was united in the holy bonds of matrimony to Miss Duart, eldest daughter of John Duart. The ceremony was performed by the Rev. Mr. Robinson at the manse, after which the happy couple repaired to Mr. Duart's for the evening. They left for their future home in North Dummer on Thursday. The wedding was a very quiet one, only the intimate friends being present.

Neuralgia is the prayer of the nerves for pure blood. Hood's Sarsaparilla is the One True Blood Purifier and nerve builder.

As Well as Ever.

Dear Sirs,—After suffering for two years from acute indigestion I tried B.B.B. I took only three bottles, which made me as well as ever I was. I highly recommend B. B.B. to all dyspeptics.

Mrs. John White, Austin, Man

CANADIAN SUCCESS RECOGNIZED ABROAD

An American Company Organized With Offices at Buffalo.

A MILLIONAIRE BANKER

At the Head of the New Company—The Fame Earned by Dodd's Kidney Pills in Canada Wins the Confidence and Capital Necessary for a Solid Syndicate.

At a time when most business men are resting on their oars, pending the result of the election, it is interesting to report the details of a new organization that promises to enlarge Buffalo's reputation as a business centre, and bring many thousands of dollars here for local distribution. This has reference to the Dodds Medicine Company, with a suite of offices in the Elliott Square Building, substantial business men in control, and ample capital at its back. Nothing of the kind in recent years begins to equal the importance of such a business in its relation to the community. The new company has been organized for the manufacture of Dodd's Kidney Pills, a remedy that has won fame and fortune over in Canada, and that comes to the United States in response to a well defined demand. There is nothing fictitious about the preparation and nothing doubtful about its results. It is claimed to be a supreme and complete triumph, backed by thousands of legitimate testimonials and indorsed by men and women of more than average intelligence. Because it comes from Canada it is none the less a triumph. It has won its spurs over there.

There is no more progressive business in Buffalo than the big World's Dispensary, and there is every reason to anticipate similar activity in connection with the manufacture of Dodd's Kidney Pills. Every condition fully warrants it. The new company represents men of large experience and business ability, with the Hon. F. G. Babcock, of Hornellsville, as president; Mr. J. A. McKee, of Toronto, as vice-president, and Mr. Blinn Yates as secretary and treasurer. Mr. Babcock is president of the Bank of Hornellsville, owner of the famous Babcock Stock Farms, once the home of the mighty Smuggler, and the present home of the beautiful stallion Voodoo, for which Mr. Babcock paid $24,000, when it was about 21 months old, and about 60 more of the finest blooded stock in the country. Mr. Babcock is a man of vast business interests, and one who has been wonderfully successful in everything he has undertaken. The Elmira Telegram calls him "a wealthy and public-spirited citizen, and just the kind of a man to make a place famous and prosperous." The development of this new business will give him a direct interest in the growth and prosperity of Buffalo, and will turn to our advantage in more ways than one. Mr. McKee is President of the Dodd's Medicine Company, whose energy and enterprise have made Dodd's Kidney Pills famous throughout the length and breadth of the Dominion. Mr. Blinn Yates is manager of the Buffalo office of the Charles H. Fuller's Newspaper and Magazine Advertising Agency of Chicago and New York, and has recently removed here from New York City.

The new business starts out under the most favorable auspices, with no possible question as to its success and with every intention of making things hum. It is easy to see that Buffalo is fortunate in being headquarters for the States. It means steady work for scores of people, and no end of free advertising for the city.

YOUNG'S POINT.

(From Our Own Correspondent.)

Mr. C. Young, his many friends will regret to learn, is confined to his home with a severe cold.

Owing to the large number being away from the Point enjoying nature's beauty, and looking for deer, matters at the Point are very quiet.

Messrs. Richard Herd, Alex. Baptie and Wm. Hockaday compose one party while our genial host of the Macfarlane House accompanied a party from Lakefield.

Mr. J. E. Kearney has his eagle eye out in the north of Burleigh with another party. Jim generally gets the full limit allowed by the game laws, but as we have not heard from any of the hunters we do not know what they have procured.

The roads, owing to the heavy rains, are in poor condition. It is to be hoped that the time will soon come when statute labour will be abolished and that a more perfect and substantial system of road construction will be adopted. We were glad to notice that the Legislature last year appointed a general man for the Province. I do not know what his duties are but I hope he will "jolly" the municipality of the township of Smith. If we had three or four good road-makers in the township of Smith like Steve Nicholls of Buckhorn, who would expend a portion of the amount raised by taxes we would in a very short time have roads which would be dry the year round. However, our roads are not yet as bad as George street, Peterborough, and even for this we have much to be thankful.

Rev. Mr. Hartley has removed to the residence formerly occupied by Mr. Brooks and the latter has removed to the residence of Mrs. Robert Young.

On Wednesday evening the congregation she of English church hold a tea and entertainment in Mr. Hurd's Hall; will send you particulars next week.

Young's Point sawmill was closed down last week owing to a breakage in the machinery.

The Mary Ellen is still plying on the waters north of the Point, and it is said the proprietor purposes giving her a thorough overhauling during the coming winter for the increased traffic on the lakes next summer. It has been suggested that instead of overhauling the Mary Ellen that the proprietor purchase the fast little steamer North Star, which is a very rapid craft that would be an important addition to the Stony Lake fleet.

The stone repairing and tuck-pointing at the locks has been about completed and in a week or two the job, as far as the locks are concerned, will be finished by the Ontario Government. It is expected that this winter the timber will be ordered by the Ontario Government for the road along the bank of the approach to the canal. It is an important work which should be seen to be at once appreciated, as each spring the gravel is worked into the locks to the injury of the gates.

LIST OF AUCTION SALES BY JOHN HAGGART.

Nov. 10th—Sale of household furniture of Miss Greer, Aylmer street. Sale at 1 o'clock.

Defying the Probs

AND FORCING THE SEASON.

We Can't Change the Weather

BUT WE CAN CHANGE OUR PRICES.

At no time of the year are we satisfied to sell at regular prices. At no time of the year can we afford to allow unseasonable weather to clog our business. Our stocks must keep on the move. We're constantly running across lots of goods offered to us at Special Prices. That means ample opportunity to discount the trade in Clothing, Boots and Shoes, Hats and Furnishings without any trouble. Please remember that this business is PERSISTENTLY in advance of every other, and that prices here are always, with seldom an exception, the LOWEST.

We start off this week with a double head of steam to Reduce all our prices on all our stock, and make business boom in defiance of the mild weather.

WHEAT'S UP! CLOTHING'S DOWN! We quote below a few sample prices that tell the tale of how well we are loaded up with Bargains all over our two **BIG STORES**

Men's Clothing.

Men's Clothing at Boys prices. A few minutes reading will show.

600 All Wool Canadian Suits	$ 2 90

Ordered Work.

Tweeds and Worsteds must get a quicker move on like everything else. Boom! Boom! all along the Cloth Department. Well dressed men come here—this store appeals to gentlemen of refined taste, and provides most fully for all. Our Fall Stocks of Cloths and Tweeds for custom work will please all who prefer their garments made up to their own measure from carefully selected fabrics. We deny the right of High Prices to exist while this balmy weather hangs on.

Just imagine the condition of things where everything is held for a regular profit until sold. Gough Bros. the progressive and aggressive leaders of Low Prices, make prices the moving power all along the line. "Always Good (and Cheap) at Goughs," but especially during unseasonable winter weather like this.

Gough Bros.

MISS RUDKINS

412 George St. Crystal Block, Opposite EXAMINER Office.

The Question Of Trousers

With well dressed men is a very live one. The best of them will get baggy at the knees; but the ones we cut and make-up with our correct measurements and excellent trim will not bag so quickly as others do.

A pair of our Merchant Tailor-Made Trousers cut and fitted on the most Comfortable Model—that will neither wrinkle here, drag there or bag anywhere—will cost you all the way from

$3.50 UP TO $5.00

according to the cloth, trimmings and workmanship. But the cheapest as well as the dearest will be correct to your model.

Our Tweeds and Scotches, Worsteds and West of England Jerseys, are all in line with the present styles.

IF YOU SEE IT IN OUR WINDOWS IT IS RIGHT.

P. SIMONS & CO

WANTED.

SERVANT WANTED—A GOOD GENERAL Servant—Apply at EXAMINER Office.

WANTED—TWO FURNISHED ROOMS in a private family by a young gentleman. Box 10, EXAMINER Office. 3d110

SERVANT WANTED—A COMPETENT general Servant wanted at once; good wages. Apply stating references to Box "D," EXAMINER Office. dtf

BOARDERS WANTED—GOOD ACCOMODATION and comfortable rooms for a number of boarders. Apply at 264 Hunter St.

ACCORDING TO AGENTS' REPORTS, "Queen Victoria; Her Life and Reign," introduction by Lord Dufferin, will reach high water mark of circulation; one agent reported twenty-nine orders the day after he got his prospectus, many take orders from three-fourths of calls made; we need canvassers for Canada and Australia; prospectus free on deposit of $1 as guarantee; if you want a share in this gold mine hustle, for territory is going fast. The Bradley-Garretson Co., Ltd., Toronto.

Salesman Wanted

In every district, to handle reliable goods samples free; salary and expenses paid from start for full time. Permanent employment. For particulars write LUKE BROS. CO., Montreal. w-s

THE NEW SENATORS

Mark the First Step in Reforming the Upper Chamber.

CAPE COLONY GIVES US A REBUFF

The Government of the Sister Colony Will Have None of Our Fruit Trees—Filled Cheese Sent Through Canada for the Old Country Again—Ottawa News.

Ottawa, Ont., Nov. 10.—The Premier to-night confirmed the report that Hon. David Mills and Mr. George A. Cox, president of the Canadian Bank of Commerce, have been appointed to the Senate for the Province of Ontario, filling the vacancies created by the deaths of Dr. Ferguson of Welland, and Sir David Macpherson. The appointment of Messrs. Mills and Cox was made at the last meeting of the Cabinet, and the orders-in-council are now on the way to Lord Aberdeen in British Columbia for his signature. As soon as His Excellency approves of them he will advise the Government by telegraph.

The Journal says: The appointment of Messrs. Mills and Cox to the Senate is an indication that the Government is going to make an effort to reform the upper chamber, and that there is no intention of abolishing it. Mr. Cox is one of the ablest financiers in the country. His name was mentioned at one time in connection with the position of Finance Minister. As for Mr. Mills, he is one of the leading public men of Canada. His long service to the state as a Minister of the Crown and in Parliament make him eminently fitted to aid the leader of the Senate, Sir Oliver Mowat, in bringing about those reforms which he has promised in connection with that institution.

The attention of the Government has been called to a law just enacted by the Legislature of Cape Colony, which prohibits the importation into that country, under heavy penalties of "any stone-fruit trees, or any fruit, scion, cutting graft, root or seed, the growth or product thereof, from either Canada or the United States." Heavy penalties are provided for violation of this law. While it may be true that no great quantity of fruit or fruit trees are exported to the Cape, yet the Fruit Growers' Associations desire us that the freedom of Canadian orchards from disease may be demonstrated, and this unjust embargo, evidently made in ignorance of the facts, removed. It is likely, therefore, that the Department of Agriculture will take the matter up, with a view to showing to the Cape authorities that this law was passed in ignorance of the facts.

According to information which has reached the Agricultural and Dairy Commissioner, another lot apparently of "filled" cheese has been sent to Liverpool from Chicago via Montreal. Since Prof. Robertson was advised of the first shipment of filled cheese to England, the inspector appointed to examine into different shipments has carefully watched each lot of cheese going through in bond. On Saturday last a suspicious looking lot of 177 boxes were found en route from Chicago to Glasgow. They were not branded in accordance with the regulations of the United States law, dealing with the manufacture and exportation of filled cheese. Prof. Robertson was forwarded full particulars of the lot to the chief of the dairy division of the Department of Agriculture at Washington, in order that such action may be taken as will effectually prevent the shipment of any filled or inferior cheese through Canadian ports to Great Britain, unless properly branded as such.

The Premier is sanguine as to the outcome of the negotiations regarding the school compromise. On being asked to-night about the report from Winnipeg of a hitch in the negotiations, Mr. Laurier characterized it as "All bosh."

Recently petitions were sent to the Minister of Justice, asking for the remission of the sentence on Patrick Lyon of Toronto, who is doing a term in Kingston Penitentiary for perjury. These petitions have been considered, and it is understood the sentence will not be interfered with.

According to the view of Government officials Capt. Ruelle, owner of the Detroit mud-scow, is entirely out of court with his claims for damages. Clause 181 of the Customs Act says that if the owner or claimant of a thing seized or detained, or the person alleged to have incurred the penalty, does not within 30 days after having been notified of the Minister's decision, give him notice in writing that such decision will not be accepted, the decision shall be final. Capt. Ruelle failed to comply with this provision of the law hence any court of law will doubtless rule him out.

The officers of the analyst branch of the Inland Revenue Department will take up the question of the adulteration of honey and analyze samples obtained in different parts of the country. It will be remembered that through the energy of Dr. Sproule, M. P., an act was passed last session, prohibiting the feeding of sugar to bees. The proposed test by the analyst will demonstrate to what extent honey now on the market is being adulterated.

Major C. Kitson, of the King's Royal Rifles, reported commandant of the Royal Military College, is a past staff college man. He is major of the 4th battalion of his corps. He is just 40 years of age and has served in the army since 1875. He was A.D.C. to the Brigadier-General at Aldershot in 1884-85, A.D.C. to the Major-General commanding the Western district till 1886, and district staff officer and Deputy Assistant Adjutant-General in Bengal in 1890. He saw active service in the expedition to Manipur, India, in 1891, and was mentioned in despatches to London for the same. Former commandants of the R.M.C. have been of higher rank that the Major As there are lieutenant-colonels attending the college, Major Kitson, if he be the nominee for Kingston, is evidently an able officer. He is at Aldershot, stationed with his corps. The procedure is for the nomination to be made by the home authorities and confirmed by order in council here.

The Dominion Analysts have been looking into the samples of vinegar that were collected in different places and put up by different makers. The examination bears out this fact, that the term "vinegar" is about as indefinite as can well be imagined. There are different kinds of vinegar, all selling under the same name, but quite different from one another. For example, there is the true article made from the grape or wine. Then it is made from malt, from spirits, and the cheapest way of all by diluting down acetic acid. The people who pay their money for wine vinegar should have some guarantee that they are not getting the acetic acid mixture, so dealers may be called upon to distinguish between the kinds named.

The Danish Government is asking for information in regard to Canadian pulp wood. Denmark's supply has been drawn from Norway, and it has been playing out for years, till prices have gone away up, and there are good prospects of Canadian pulp wood finding a market there.

The relic hunter has struck Ottawa occasionally, as well as other cities. Some vandal has made a big hole in one of the curtains over the Vice-regal Throne in the Senate Chamber and carried away a pice of those rich old hangings that came up from Quebec, where they had done service in the Legislative Council Chamber.

The medical staff of the Protestant Hospital are again at loggerheads with the hospital directors, and it is said that the resignation of the entire Medical Board is one of the probabilities of the next few days. The trouble is over the election of two new attending physicians by the directors last week, replacing two old physicians.

A sign of prosperity in the States is evidenced by an order just received by the Pontiac and Pacific Junction Railway to be prepared to ship ten car loads of iron ore daily from the Bristol mines, Quebec, to Pittsburg, Pa. The mines have been worked under lease by Ennis & Co. of Philadelphia for some years.

An action for $50,000 for breach of agreement was entered in the High Court here to-day by Messrs. MacCracken, Henderson, & McKay, acting on behalf of Messrs. John F. Hendrie and S. S. Ryckman of Hamilton. The defendants are Messrs. Rufus H. Pope of Cookshire, Quebec, and J. P. Graves of Spokane. Plaintiffs state that the agreement referred to was entered into at Hamilton, Ont., on July 20 last, and was that defendants agreed to sell and convey, by good and sufficient conveyance to plaintiffs, a three-fifths interest in the mineral claims "Mascot" and "Mascot Fraction," situate in the Trail Creek district, West Kootenay. The purchase price for the claims was $24,000. Of this $4000 was paid down, and the rest was to be paid in thirty days. Plaintiffs claim that defendants disposed of the mines to other parties before the thirty days had expired. As the property is now valued at the large sum of $1,500,000, they therefore claim $50,000 for breach of the agreement.

Dr. Saunders, director of the Experimental Farm, has returned home from a trip to the Maritime Provinces, where he held a course of meetings, at which he and the Minister of Agriculture gave addresses.

A number of Quebec politicians arrived here to-night, among them being Senator Thibaudeau, Mr. Prefontaine, M.P., and Mr. Lemieux, M.P.

There is every prospect of a lively Mayoralty contest here, four candidates being in the field. They are ex-Mayor McDougall, Ald. Cluff, and ex-Ald. Crannell and Bingham.

T. P. Owens of the Hansard staff left to-day for British Columbia, being appointed Official Stenographer by the Canadian Government to the Behring Sea Claims Commission. The United States Government will appoint the other stenographer, and it is probable that Mr. McBride of the Congressional Record Staff may get the position.

Senator Temple was here to-day. He left for Toronto to-night.

DISPLAYED NO CARE.

Mrs. Sternaman on Trial at Buffalo.

THE FIGHT FOR HER EXTRADITION

While the Accused Woman Betrayed No Nervousness Her Mother's Eyes Were Red With Weeping Doctors Who Treated the Dead Man for Arsenical Poisoning.

Buffalo, Nov. 10.—The fight begun by the Canadian officials for the extradition of Mrs. Oliver Adell Sternaman of this city, charged with poisoning her husband, Geo. S. Sternaman, is reaching its end. United States Commissioner Fairchild last week began the hearing of the case, and this morning resumed it, and from present indications the hearing will be continued right along until finished. The public is familiar with the details of the case. Mrs. Sternaman's arrest was made on a telegram received from the officials of Cayuga, Canada, asking the police here to arrest her on a charge of murder.

This morning Commissioner Fairchild's room in the Postoffice building was crowded with witnesses and spectators. Mrs. Sternaman, without the shadow of a care on her face, was brought in shortly before 10 o'clock. She had hardly seated herself before her sister, accompanied by an elderly woman, who kissed Mrs. Sternaman affectionately, came in also and took seats beside her. They were shortly afterwards followed by Mrs. Sternaman's parents. The mother sat by her daughter, and her eyes were red from weeping. The father, a medium sized man, with iron grey hair and side whiskers, sat on the opposite side of the room.

Shortly after 10 o'clock Messrs. Duckwitz and Thayer, attorneys for Mrs. Sternaman, appeared. They were closely followed by Charles Thomas, who is attorney for the Canadian Government, and J. Wilson Murray, the Canadian Chief Inspector of Immigration, who is the official representative of the Canadian Government at the trial. Mrs. Sternaman manifested a keen and lively interest in the case, and frequently smiled upon her relatives and friends. Whatever her guilt may be she has splendid nerve, and appears to be very confident of ultimate triumph.

Commissioner Fairchild heard four witnesses this morning. They were William Ralph Leitley, agent of the John Hancock Insurance Co.; Charles A. Medlicott, resident claim agent of the Metropolitan Insurance Co.; Dr. Wm. Langley, examiner for the Insurance Co.; and Frederick Dodsworth of the Hancock Insurance Co. All were formal witnesses, simply identifying the policies and other papers, and testifying to Sternaman's good health when examined for the insurance.

Mr. Thomas, attorney for the Canadian Government, attempted in his examination of these witnesses to show the fabrications resorted to by Mrs. Sternaman in order to cover her guilty deeds and obtain her husband's insurance. Mr. Thayer, her attorney, on the contrary, tried to prove the genuineness of the policies and the absurdity of the supposition that she entertained any schemes at the time for the death of her first and second husbands.

Detective Murray of Toronto was placed on the stand at 1 o'clock. He testified that he was the duly authorized detective in the Sternaman case, and that he had obtained all the expert medical evidence read at the first examination.

Drs. W. C. Phelps and Edward L. Frost, who attended Sternaman and Mrs. Sternaman's first husband during their illness, was called to testify this morning. Both were formal witnesses, testifying to the condition of the man when they were called, etc.

One important statement was made by Dr. Frost in response to a question put by Attorney Duckwitz. Dr. Frost said that, in his opinion, a man might suffer from chronic poisoning months after taking a dose of arsenic, and that death might come a month or more afterwards from the same dose.

This evidence, while interesting, is not relevant to the points at issue, and was not contradicted by the attorneys and the officials who are trying to get the extradition warrant.

A recess was taken until 2.30, but it was 3 o'clock before the proceedings began. Dr. Frost was recalled. Dr. Frost attended Sternaman while he resided at 27 Elsie-place, Buffalo. He first visited him on June 24. He urged Mrs. Sternaman to have her husband removed to a hospital, but she absolutely refused to do this.

Dr. W. C. Phelps was called in consultation, and agreed with Dr. Frost in advising Sternaman's removal to a hospital. Sternaman, when he saw that his wife objected to such a procedure, said that he would remain at home, where he could receive her attention. Dr. Frost treated Sternaman for arsenical poisoning.

The hearing was, at 4 p.m., adjourned till 10 o'clock to-morrow morning.

Babe Without Bones.

Warren, Pa., Nov. 10.—A boneless child is the latest curiosity discovered by Councilman Conarro, who is authority for the statement that the child, whose name is Parks, is composed of nothing but skin and muscle. The family is poor and the child will be taken in charge by the County Commissioners.

Steamer Monteagle Hard Aground.

Kingston, Nov. 10.—Early this morning as the steamer Monteagle was passing the four-mile point she struck a shoal and is hard on. A tug and lighter have gone to her assistance, and as the weather is fine it is expected she will be relieved without much damage. She was loaded at Duluth for Kingston with 59,000 bushels of grain.

More Work and More Pay.

Cleveland, Nov. 10.—J. C. Moorehead, General Superintendent of the Erie Railroad, issued an order which will affect for the better several thousand men. The order calls for longer hours and increased pay and men.

A Broker in Trouble

SavFannah, Ga., Nov. 10.—Alfred L. Hartridge, a well-known broker, has been arrested, charged with forgery by raising Southwestern Railway stock scrip. The amount involved is between $20,000 and $30,000.

Boils

It is often difficult to convince people their blood is impure, until dreadful carbuncles, abscesses, boils, scrofula or salt rheum, are painful proof of the fact. It is wisdom now, or whenever there is any indication of

Impure

blood, to take Hood's Sarsaparilla, and prevent such eruptions and suffering.

"I had a dreadful carbuncle abscess, red, fiery, fierce and sore. The doctor attended me over seven weeks. When the abscess broke, the pains were terrible, and I thought I should not live through it. I heard and read so much about Hood's Sarsaparilla, that I decided to take it, and my husband, who was suffering with boils, took it also. It soon purified our

Blood

built me up and restored my health so that, although the doctor said I would not be able to work hard, I have since done the work for 20 people. Hood's Sarsaparilla cured my husband of the boils, and we regard it a wonderful medicine." MRS. ANNA PETERSON, Latimer, Kansas.

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1.

Hood's Pills cure liver ills, easy to take, easy to operate. 25 cents.

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month. $3.00 for six months.

Daily Examiner.

WEDNESDAY, NOVEMBER 11, 1896.

INCREASE OF POPULATION.

The wide-awake West is wide awake to the question of a more aggressive and successful immigration policy, recognising that only population is wanted to bring about the development of its undoubted agricultural possibilities. While this question is important as regards the Northwest, there is a hint of needed action in this direction in Ontario, and it would not be amiss if the Ontario Government devoted special attention to the matter of peopling the large arable area of this province available for settlement. Enterprises like the Wabigon Farm are, in every way, commendable, but they are only preliminary, and do not meet the great want of population. What is required is a broad liberal immigration policy that will result in a decided increase to our population. The fertility of our large unsettled areas is not questioned, nor their desirability as fields for agricultural operations and what we require is to have their advantages presented in such a manner as to bring home the fact that Ontario has homes in the rough, capable of being made by ordinary industry and prudence the happy homes of moderate thrift. The country would, we are sure, loyally support a policy that will people our now waste places with "the bone and sinew"—as the farmer is very aptly called. While it is true that we do not need population for our centres of population, to compete with those who find the conditions of living sufficiently difficult, yet if we get our lands settled we shall create consumers, whose demands will increase the prosperity of those dwelling in our towns and cities. A penurious policy in this direction is not statesmanship, and we are quite satisfied that the Liberal party and the people at large would much rather have increased population at the price of increased expenditure than stationary population and a parsimonious expenditure. It is to be recollected that Ontario has lost largely in population by emigration to the Northwest. While we naturally deplore the loss of thousands of our most energetic farmers it is a decided gain to the Northwest. But we must have this loss made good, and it is not to be done by the slow process of natural increase, but by a bold and aggressive immigration policy, which will draw from the congested rural populations of the old world.

LAKEFIELD.

From our own Correspondent.

Miss Edwards, of Warsaw, is the guest of Mrs. John Hunter.

Mr. Jas. Baptie, Dummer, was in the village last week.

Rev. John McEwan passed through here last week for the mission field at Apsley and Clydesdale.

Mr. John Cooper and wife returned home from their trip to England on Saturday. They came over on the steamer "Canada," which made a very speedy voyage.

The D. & L. Emulsion
Is a marvellous flesh producer and will give you an appetite.

50c. & $1 per Bottle

Be sure you get the genuine | Lyman & Lawrence Co., LTD. MONTREAL

Mrs. Falls, of Bobcaygeon, is the guest of her brother, Mr. A. Fairbairn.

Miss Barr, of Dummer, was in the village on Saturday.

Mr. S. Henderson and T. Neelands, of Port Hope, who have been deer hunting in the neighborhood of Buckhorn, returned home last week.

Rev. W. A. Johnson, of Stirling, preached in the Baptist church on Sunday.

No meeting of the school board last week for want of a quorum.

On Thursday evening, Guy Fawkes' night was celebrated. The boys had a very good time early in the evening, and burned the effigy on the Town Hall square. Later on another was burned by the older boys. Young Canadian L.O.L. No. 1385 held a social and entertainment in the Sons of England Hall, which was liberally patronized, notwithstanding the inclement weather. An address was given by Rev. T. J. Edmison, also a literary and musical programme. At the close a physiog torchlight procession was formed, headed by the Lakefield brass band, and paraded the principal streets, Guy Fawkes being one of the principal figures in the procession, and afterwards they came to the square where a short speech was made, and Guy was burned. Fully six hundred people were on the streets to see it.

Mr. Richard Darling and daughter, of Poplar Point, Manitoba, are the guests of his son, Mr. David Darling.

Mr. R. H. Braden, Mr. Joseph Paul and Mr. W. M. Graham were in Peterborough this week attending the assizes as petit jurors, and Wm. Harper as grand juror.

Mr. Alfred Simpson is in Hamilton this week.

OMEMEE.

From Our Own Correspondent.

The weather is all that could be desired this week for corn planting, taking up roots and ploughing.

Mr. J. Cummings, late proprietor of the Windsor House, left here for Peterborough last week, having completed his engagement. John became quite popular with the boys here, understanding their human nature.

The death of one of our oldest residents, David Cornell, sr., has occurred at the advanced age of 85. The deceased located in Ops when a wilderness, and leaves an example to the present generation of what perseverance, energy and industry will accomplish, leaving all his family of eight sons and five daughters well provided for. He leaves a widow equally advanced in years. The funeral was largely attended, there being about one hundred conveyances in the cortege, amongst whom were some of the deceased's relatives, Peterborough Masons, etc.

One of the greatest social and musical events that our citizens and surrounding country have the pleasure of enjoying is the Rose Emslie Concert Coy. in Bradburn's Opera House on Nov. 19th. Mrs. Emslie was a favourite here before and Charles Kelly's first appearance as a basso combined, will no doubt attract a large and appreciative audience. The Presbyterian Church Committee is to be congratulated on securing this excellent company, bearing the high reputation they do from city and most cultured audiences everywhere.

Church of England Clergyman

A Philanthropist Makes Personal Investigation.

RYCKMAN'S KOOTENAY CURE HAS SAVED ME

Was the Verdict in the 25 Cases he Investigated.

St. Peter's Mission House,
HAMILTON, ONT., Sept. 25th, 1895.
S. S. Ryckman, Esq., M. P.,
Hamilton, Ont.

DEAR SIR,—Acting upon your suggestion, I made personal inquiries from 25 persons of different ages and various social conditions who have been suffering from Rheumatism and kindred diseases, as to the effect of your medicine upon them. From each and every one the testimony was the same:—"Kootenay Cure" has saved me. Several very striking cases of Chronic Rheumatism, Paralysis, Loss of Sight and Hearing came under my notice, and had it not been for the personal testimony of the patients themselves I could not have believed that such results were possible. From young and old came the same hearty and grateful testimony of pain removed, health restored, and a new lease of life gained.

Wishing you continued success,
I am, yours faithfully,
THOMAS GEOGHEAN, Rector.

Aylett Surrenders.

London, Nov. 10.—The missing defendant Aylett, who was jointly accused with Lady Anne Scott, John Cockerton and Frederic Kast, with having criminally libelled Earl Russell, Lady Scott's son-in-law, and fled to Algiers to escape arrest, surrendered himself in the Bow-street Police Court this morning, having come from Algiers to meet the charges against him. He was committed for trial with the other defendants.

He Fell Down the Hatch.

St. John, N.B., Nov. 10.—Capt. Johannes Aarreberg, captain of the Norwegian barque Noah VI., was accidentally killed last night by falling down a hatch into the vessel's hold head first. Capt. Aarreberg was 57 years of age, and his home is at Stavanger, Norway. He has been commander of the barque Noah VI. for six years, and was part owner in a number of Norwegian ships.

Rebels Defeated.

Madrid, Nov. 10.—Official advices from Manila, the capital of the Philippine Islands, say that the Spanish troops have defeated a force of 4,000 rebels at Montaloan. The insurgents lost 60 men killed and the Spanish had only one killed.

Fell to His Death.

Napanee, Ont., Nov. 10.—Lauchlin McGowan, a painter about 60 years old, while painting the West Ward Academy to-day, fell from the scaffold, a distance of about 25 feet, and died in about 30 minutes afterwards from the injuries. Mr. McGowan was an old and respected citizen.

Many people, when a little constipated, make the mistake of using saline or other drastic purgatives. All that is needed is a mild dose of Ayer's Pills to restore the regular movement of the bowels, and nature will do the rest. They keep the system in perfect order.

CASTORIA

For Infants and Children.

Mrs. T. S. Hawkins, Chattanooga, Tenn says: "Shiloh's Vitaliser 'Saved my Life. I consider it the best remedy for a debilitated system I ever used." For Dyspepsia, liver or kidney trouble it excels Price 75c. Sold by John Nugent, 339 George Street.

UNCLE SAM'S CROP YIELD.

A Better Outlook for November Than for Last Month—Increase in Most of the Products.

Washington, Nov. 10.—The returns to the Department of Agriculture for the month of November, as to the rates of yield, make the average of corn 27.3 bushels, which is above the yield indicated by the condition figures in October.

Last year the preliminary estimate of yield was 26.2 bushels.

The average yield of buckwheat is 13.7 bushels per acre, against 20.1 bushels last year, and 16.1 for the year 1894.

The average yield per acre of potatoes is 86.8 bushels, which, though not phenomenal, is nevertheless above the average for the past two years. The average yield of hay, as indicated by the preliminary returns, is 1.36 tons, against 1.06 last year. The average yield of tobacco is 670 pounds per acre, against 743 pounds last year and 733 pounds in the year 1894. The European agent notes the lack of trustworthy estimates of the Russian wheat shortage.

The advance in price, which is expected to be fairly maintained, will result in increased acreage in Great Britain. Wet weather in October throughout Central Europe was unfavorable for the potato crop. A good corn yield has been realized on the lower Danube.

Owing, presumably, to the Presidential election the returns of the Department's correspondents as to the comparative and prospective yield of the cotton crop are too meagre for a trustworthy report, though such returns as have been received indicate a somewhat greater yield than was promised in last month's reports.

Dr. Fowler's Extract of Wild Strawberry cures Diarrhœa, Dysentery, Colic, Cramps, Cholera, Cholera Infantum, Cholera Morbus and all summer complaints and fluxes of the bowels in children or adults.

ONTARIO FAT STOCK CLUB.

The Executive Held a Meeting in Guelph and Arranged a Program.

Guelph, Nov. 10.—(Special).—A meeting of the Executive Committee of the Provincial Fat Stock Club was held at the Royal Hotel parlors this afternoon to make final arrangements for the holding of the show. President Hobson occupied the chair, and amongst those present were: President Mills, O.A.C.; Messrs. J. C. Brethour, Burford, president Swine Breeders' Association; James Tolton, Walkerton; A. Elliott, Galt; Prof. J. K. Day, J. M. Duff, Major Hood and F. W. Hodson, Guelph. A program was arranged for a meeting at which the Hon. John Dryden will act as chairman. Mayor Lamprey will deliver an address of welcome and Dr. Mills will reply. An address will also be delivered by the Hon. Sydney Fisher, Minister of Agriculture, also Charles E. Thom of the Agricultural Experimental Station, Wooster, Ohio; and Mrs. Hoodless, Hamilton, president of the Dominion Y.W.C.A., will also deliver addresses.

DEVOURED BY A WILD BEAST.

A Young Methodist Minister Killed in the Wilds of Montana.

Troy, Mont., Nov. 10.—Alexis Burk, a young Methodist minister from Chicago,, who has been preaching on a circuit in the Flathead Mountains, started out through the hills with a hunting party last Thursday. On Saturday he sought adventure alone. That night he did not return, and when morning came a relief party was organized. Several miles from the camp the searching party found blood on the snow, and later came to a place where a struggle had taken place. The trail in the snow to the point where the animal had dragged the body was followed, and what was left of it was found mangled, torn, shredded and frozen. From tracks in the snow the fight must have been a fearful one. The body had been partly devoured by the animal.

TORONTO MARKETS.

Flour—The market is strong, in sympathy with wheat. Straight rollers are held at $4.20 to $4.25, but no sales reported.

Bran—Trade quiet and prices steady; dealers asking $7.50 west. Shorts, $9 to $9.50 west.

Wheat—The market is very firm. The advance in Liverpool of about 2d to-day caused holders to ask more money, and white cannot be had under 85c at Ontario points. No. 1 Manitoba hard sold early at 95c, while sales were made this afternoon at 95c, Toronto freight.

Buckwheat—The market is dull, and the price nominal at 30c west.

Barley—Trade quiet, with No. 1 quoted at 33c, No. 2 at 31c to 32c, and No. 3 extra 27c to 28c outside.

Oats—Offerings moderate and prices steady. White sold outside at 21c, and mixed at 19c to 20c.

Peas—Trade quiet and prices are steady, there being sales outside at 44c.

Rye—Trade quiet, with sales outside at 35c east.

Corn—Market dull, with prices firmer at 29c to 29c outside.

Oatmeal—The market is unchanged, with car lots quoted at $3.15 to $3.25.

TORONTO LIVE STOCK MARKET.

The receipts of live stock were small today, there being only about 20 loads on the market. Prices throughout show no material changes. Cattle dull, with exporters unchanged, the range being 3¼c to 3½c per lb. Choice bulls 3c to 3¼c. There were few choice butchers' cattle and they would bring 3c to 3¼c per lb.; medium butchers' at 2½c to 2¾c, and inferior at 2c to 2½c. Milch cows unchanged at $25 to $40 each, and calves firm at $4 to $7 per head, with a good demand.

Sheep and lambs in moderate supply and firm. Export sheep sold at 3c per lb., and bucks at 2½c to 2¾c. Lambs are steady, there being sales at 3c to 3¼c per lb.

Hogs in moderate demand and steady. The best sold at 3¾c to 3¾c lb., weighed off cars, thick fats at 3¼c to 3½c, lightweights at 3¾c to 3¾c, sows at 2¾c to 3c and stags at 2c per lb.

BRITISH MARKETS.

Liverpool, Nov. 10.—Spring wheat, 7s 0d to 7s 1d; No. 1 Cal., 7s 0d to 7s 7d; corn, 3s 3d; peas, 4s 11d; pork, 50s; lard, 23s 3d; bacon, l.c., heavy, 30s 6d; do., light, 29s 0d; do., s.c. heavy, 25s; tallow, 20s 0d; cheese, white and colored, 51s.

London—Opening—Wheat off coast nothing doing, on passage firm. English country markets steady. Maize on passage quiet and steady.

Liverpool—Spot wheat firm; futures easy at 6s 11½d for Nov. and Dec. and 6s 11¾d for Jan., Feb. and March. Maize firm at 3s 3¼d for Nov. and Dec. and 3s 2¼d for Jan., Feb and March. Flour, 23s 6d.

Paris—Wheat, 22f 5c for Dec.; flour, 46f 20c for Dec.

London—Close—Wheat off coast and on passage firmer and 3s 6d higher. Maize on passage firm.

Paris—Flour easy at 46f 10c for Dec.

Liverpool—Wheat firm at 7s 0½d for Nov., Dec., Jan., Feb. and March. March steady at 3s 3d for Nov., 3s 3¼d for Dec. and 3s 2¾d for Jan., Feb. and March. Flour, 24s 3d.

One Every Night.

SALISBURY ENDORSED

Mr. John Morley Approves of the Premier's Remarks

ON THE VENEZUELAN QUESTION.

A Conservative Elected in a Three-Cornered Contest in Bradford—Release of Mrs. Castle From Prison—Another Massacre of Armenians—General News by Cable.

London Nov. 10.—Right Hon. John Morley, formerly Chief Secretary for Ireland, spoke to-night at Montrose, Scotland, which district he represents in the House of Commons. In the course of his speech he expressed approval of Lord Salisbury's statement at the Guildhall banquet last night, regarding the practical settlement of the Venezuelan question. He said he did not believe that there was any international discussion of more importance, not even that regarding the eastern question, than the one relative to permanent arbitration between Great Britain and the United States.

The statement was greeted with cheers by the audience.

Continuing, Mr. Morley said he trusted that the two nations, who are far ahead of the great military monarchies in a thousand other respects, had set them in this matter a splendid and beneficent example.

MORE BUTCHERY.

Turks in Asia Minor Plunder a Village, Kill a Hundred People and Burn the Place.

London, Nov. 10.—A despatch from the United Associated Presses' representative in Constantinople says advices received in that city from Kaisarieh, Asia Minor, state that a band of Turks have plundered the village of Everek, killing one hundred of the Armenian inhabitants, and setting fire to and destroying fifty houses. Not one of the Turkish marauders was killed. Kaisarieh, the advices further state, has been thrown into a state of panic by the outrage.

MRS. CASTLE IS FREE.

The Unfortunate Woman Released Because of Her Afflicted Condition.

London, Nov. 10.—Bernard Abrahams, solicitor for the defence in the case of Mrs. William M. Castle of San Francisco, who, upon pleading guilty of shoplifting, was sentenced to three months' imprisonment, received a communication from Sir Matthew W. Ridley, Home Secretary, last evening, stating that in consideration of her mental condition and other circumstances, Mrs. Castle would be discharged and restored to the care of her husband to-day, and Mr. Castle accordingly went to the Wormwood Scrubbs prison this morning and took his wife away. The physical and mental condition of Mrs. Castle is such as to make her immediate sailing for America impossible, and at present she will be taken to a quiet English country retreat, where she will be kept absolutely free from excitement.

It is officially stated at the Home Office that after receiving reports on Mrs. Castle's condition from Dr. Scott, the physician in charge of the hospital at Holloway jail, Dr. Patmore of the Wormwood Scrubs prison, and Dr. Nicholson of the Broadmoor Lunatic Asylum, all of whom examined the woman physically and mentally, the Home Secretary ordered her release, her husband undertaking to convey her back to America with the least possible delay.

A CONSERVATIVE ELECTED.

Capt. Greville of the Life Guards Returned for Bradford in a Three-Cornered Fight.

London, Nov. 10.—The election in the East division of Bradford to fill the vacancy in the House of Commons caused by the death of Henry Byron Reed took place to-day. The result of the polling was announced to-night as follows: Ronald Henry Fulke Greville, Conservative, 4021; Alfred Billson, Radical, 4526; J. Keir Hardie, Independent Labor, 1041.

At the last election Mr. Reed, Conservative, received 5843 votes, with S. Calne, Liberal, 5139.

Captain Greville is the eldest son of Lord Greville. He was born October 14, 1864, and holds a commission in the First Life Guards.

Geraldine Ulmar Secures a Separation.

London, Nov. 10.—Geraldine Ulmar, the actress and singer, has secured a deed of separation from her husband, Ivan Caryll. About three years ago Mrs. Caryll and her husband secured a verdict of £1000 against the London correspondent of a New York newspaper for defamation in alleging that Mr. Caryll was taking proceedings for divorce.

Prominent Men Were Lost

Seville, Spain, Nov. 10.—The victims in the sinking of the steamer Asnafurache include the auditor and cashier of the Bank of Spain and several merchants and officers.

WE WANT TO KNOW.

Not a Single Reply to our Question—Not a Failure to Cure—A Half-Million Users of Dodd's Kidney Pills Satisfied.

Toronto, Nov. 2 (Special)—Without a single reply, for over two years, we have advertised this question:—"Does anyone, anywhere, know of any case wherein Dodd's Kidney Pills have failed to cure any kidney disease at any stage?"

We estimate that a half million people must have joined in using the two and a half million boxes already sold in Canada, and yet not a single complaint—not one failure to cure.

Now, reader, here's one for you:—Do you know of a death from kidney disease or of heart failure, the victim having used Dodd's Kidney Pills?

Constipation Cured.

Gents,—I was in very poor health for over four years; the doctor said it was constipation. Not wanting to spend too much cash I got three bottles of B.B.B. and took it regularly, I can certify that I am now in the very best of health and feel very grateful to B.B.B.

ALFRED THEOUX, Montreal, Que.

Mrs. S., says: "I suffered from Rheumatic Pains for months. Miller's Compound Iron Pills cured me." Sold in Peterborough by Wm. Madill druggist.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

FIGHT WITH A BEAR.

Niagara Falls Sportsmen Had a Right Thrilling Time in Parry Sound District.

Burk's Falls, Ont., Nov. 10.—Word has just reached here that the Bampfield party of Niagara Falls, Ont., camping on Duck Lake, Parry Sound District, had a thrilling experience with a huge black bear. Frank Jeffries, John Bampfield and W. L. Lundy tracked the bear to its lair in the swamp, where Jeffries, with a well-directed shot, succeeded in wounding it.

Turning suddenly, the bear attacked Mr. Lundy, who, at close range, sent a bullet into it, but notwithstanding this, there was still lots of fight in brain. In less time than it takes to tell it the brute had almost closed on Mr. Lundy, who was prevented from firing a second time for fear of shooting his comrades, but drawing his hunting knife he was preparing for the worst, when a ball from Mr. Charles Doran's rifle pierced the bear in a vital spot.

Old settlers say that the bear is one of the largest seen in this section for years.

"Turn the rascals out"—the familiar partycry—may be applied to microbes as well as to men. The germs of disease that lurk in the blood are "turned out" by Ayer's Sarsaparilla as effectually as the old portmasters are displaced by a new administration.

MR. LEGATE, Traveller for McCormack & Co., London, says: "Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill druggist.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c 50c. and $1.00.

To destroy worms and expel them from children or adults use Dr. Low's Worm Syrup.

DODD'S KIDNEY PILLS ALWAYS CURE

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 29TH JULY, 1896.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

Good Square Pianos

FOR A MERE SONG.

Our warerooms are overcrowded with excellent square second hand pianos which we have taken at different times as part payment on new Mason & Risch Uprights. Most of them were exchanged by the original owners, not because they were bad, but simply because they were squares and took up more room than the average modern city parlour allows of.

Most of them are in first rate order, 7 octaves, carved legs, ivory keys, iron frames and rosewood cases. They are made by such well known firms as Fischer, Heintzman, Decker, Chickering, etc. Most of them are worth about $250.00 each, though we don't intend to ask this. Now listen to our proposition.

First write us for a list and description of what may happen to be on hand at the time of writing, giving us some idea as to what you would like, and how you wish to pay; whether cash down or on terms; if on time how much time how much down you can pay and how much per quarter.

On receipt of this information we will make the best possible selection and ship it to you **FREIGHT PREPAID ON APPROVAL.** If you do not like it, **SHIP IT BACK. IT WON'T COST YOU ANYTHING** If you like it we will await checque (if cash) or send you the usual papers for signature. The price of no Piano is to exceed $150.00 and many will be less.

If you have ever heard of a fairer offer than this, let us know of it.

If you prefer a good second hand Upright of course it will cost more, but write us all the same; it is no trouble to answer questions and give quotations and terms; that's what we are here for.

To the "EVENING EXAMINER" who do not receive their paper regularly each evening, will oblige by promptly leaving word at the business office.

Daily Examiner.

WEDNESDAY, NOVEMBER 11, 1896.

LOCAL NEWS.

Stamped Linen.

I am selling Stamped Table Centres for 10c, 15c and 25c each. Miss Melville, Fancy Goods Store, 424 George street.

A Long Walk.

Annie Wallace, an old woman, who states that she has walked to Peterborough from Cornwall, was given shelter at the police station last night. She is on her way to friends in Lindsay.

Worth Fifty Cents.

The Black Tea Mason & Co. are offering at 50 cents per pound is worth 50 cents, and is the best va' for the money a customer ever got. The largest variety of tea is at Mason & Co., 429 to 431 George street.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

More Fire Hose Received.

The local Fire Department is now splendly equipped with hose as four hundred feet were received at the fire hall this morning from the Gutta Perch Company, Toronto. There are now over 3000 feet of good hose possessed by the town.

A Cosy Bath.

The latest caper in Haskill's Gold Dollar Barber Shop is a private bath-room cosily fitted up with hot and cold water. It will be a luxury for many who have been wishing for something of the kind to start up. Buy your little pasteboards and enjoy a quiet dip. 6d111

Children's Aid Society.

It has been arranged that Rev. Dr. Milligan, of Toronto, will lecture in Peterborough on November 24th for the benefit of the Children's Aid Society. A meeting of the Society is called for to-morrow afternoon at four o'clock to arrange the preliminaries.

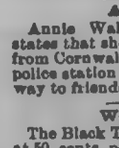
City Bakery Changed Hands.

I beg leave to inform my customers that I have sold my Bakery Business to Mr. A. E. Sims, a practical baker, who will in future continue the business. I take this opportunity of thanking my patrons for their liberal patonage and can confidently recommend my successor as a first-class baker. E. J. Laing.

Who Will Get It?

We have a great bargain for some one in thirty volumes of the Encyclopedia Britannica. It must be sold by the middle of the month. Anyone anxious of securing this valuable work, but who may have financial considerations, should not miss this chance, as the price has been greatly reduced. A. H. Stratton & Co., Peterborough Bookstore.

Royal Black Preceptory.



A meeting is called of the Royal Black Preceptory, No. 261, in the True Blues' Hall, Simcoe street, at 8 o'clock p.m., to-morrow night. All Sir Knights are requested to be present, as business of importance will be brought up.
Joseph Saunders,
Preceptor.

Newspaper Change.

Mr. George VanBlaricom, of this city, says the Belleville Intelligencer, has purchased and taken possession of the Mount Forest Confederate, an old established and reputable journal. Mr. VanBlaricom is an up-to-date journalist, and in his hands the Confederate is sure to improve its previous excellent reputation.—[Van's many Peterborough friends will be glad to hear that he is steadily climbing the ladder.]

KILLED ON THE TRACK.

A Nephew of Mr. W. J. Devlin, the Victim of a Railway Accident.

Mr. W. J. Devlin has received word from Appleton, Wisconsin, of the death of his nephew, David Fitzgerald, of that place.

It seems that the young man was driving a herd of cattle to one of the near fields on his farm, and in so doing had to cross a railroad track. Some of the cattle it is supposed, ran down the track, being frightened by an approaching train, and in endeavouring to avert danger from them he was struck by the engine and instantly killed.

The accident occurred on October 22nd, and the young man was 29 years of age.

CATHOLIC ASSOCIATION NOTES.

Completion of the Organisation of the Ladies' Auxiliary.

On Monday evening about thirty young ladies met in the Association rooms to complete the organization of the Ladies' Auxiliary. Mrs. (Dr.) Moher was chosen as president of the Auxiliary, and the ladies no doubt will take a deep interest in the society.

It is proposed by the directors, with the hearty co-operation of the ladies, to furnish a room to be used as a library for the lady members, where periodicals and books will be placed at their disposal.

During the month of December it is understood that two members of St. Basil's Literary Union, Toronto, in the person of Messrs. Lee and Day, two well known legal lights, will debate with representatives of the local Association.

Mr. M. Kenny, a well known debater, late of the C.L.A., of Lindsay, but at present in Toronto, together with a son of the late Sir John Thompson, will, it is said, cross swords with two local debaters during the coming season.

The Association further intends introducing several light comedies during the season.

The membership of the Association is rapidly increasing, and the coming year promises to be a profitable one in every respect.

GRAND TRUNK OFFICIALS.

A Party of Them in Town on an Inspection Tour.

General Superintendent McGuigan, of the Grand Trunk, accompanied by a number of officers, arrived in town this morning from Belleville in two private coaches.

The party is out on a general inspecting tour over the division, but did not remain in Peterborough over an hour. Whilst here the officers drove up to Auburn and examined the piers which have been constructed for the new bridge, and general satisfaction was expressed at the appearance of the work of Messrs. Larkins & Sangster, the contractors.

A trip was made over the Lakefield branch, after which the party of officials left for Lindsay on a special train.

Besides the general superintendent the party is composed of Messrs. Joseph Hobson, chief engineer; James Webster, supt. of division; James McNab, roadmaster, and George Mitchell, bridge inspector.

AFTER THE DEER.

Another Hunting Party off For the North.

The R. B. Rogers hunting party left for the north this morning.

They will drive to Burleigh and may possibly take the houseboat from there down into Stony Lake.

Amongst those who accompanied Mr. Rogers were Messrs. Arthur Stevenson, W. L. Allen and W. D. Parker. As the houseboat is most comfortable and can easily be towed by one of the steamers to any point of the lake, a most enjoyable outing will doubtless be enjoyed. The party returns to town on Saturday.

QUARTERLY BOARD.

Charlotte Street Church has Not Chosen a New Pastor Yet.

The Quarterly Board of the Charlotte Methodist church met last evening to endeavour to come to a decision regarding making arrangements to select a pastor for the next term. After an informal discussion, during which a number of names were brought forward, it was decided not to take any decisive step at present and the meeting adjourned.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Port Hope's council may be reduced in membership next year.

—A grocer was fined $10.00 this morning for selling tobacco to minors.

—Something is wrong with the furnaces in the town buildings and the municipal offices had no heat to-day.

—A large number of plate glass windows in Port Hope have been greatly damaged through being scratched with a diamond.

—Timothy Fobert, a very old vagrant, was given six months in gaol this morning in order that he might have a home for the winter.

—A fine brown team which is being given a trial at the fire hall were taken out on the hose wagon and acted well yesterday.

—The veterans of 1866 have permanently organized in Belleville, and elected officers. What happened to the Peterborough veterans, who were also to organize?

—If you want to economize burn the People's Coal Coy's coal. All kinds of coal in stock, including best hard coal for stoves and furnaces, soft coal for grates, and smithing coal. Office—230 Charlotte street. Telephone 36d.

PERSONAL

Mr. Joseph Armstrong is in Belleville on business.

Mr. T. H. Hamilton is registered at the Hotel Quinte, Belleville.

Chief Justice Meredith left on this afternoon's train for Toronto.

The Hastings Star says: Mrs. Pope, of Peterborough, is the guest of Mrs. Quigley Albert street.

Mr. R. J. Kidd, who has been in Manitoba and the Northwest in the interests of B. F. Ackerman during the past eight weeks, is expected home to-day.

The Lindsay Post says: Mr. R. P. Gough, head of the firm of Gough Bros., Peterborough, is in town, and is the guest of Mr. and Mrs. B. J. Gough, Glenelg street.

Mr. Walter Phelan has returned home after spending a month or two in Chicago and the west. By his return to town the Hockey Club will be greatly strengthened for the winter.

Buy direct from the makers, Grafton & Co.

Electric Lamps.

China Hall has a full assortment—4, 6, 10, 16 and 32 candle power—at lowest prices

New Fancy Goods Store.

Mrs. Appleby wishes to inform the ladies of Peterborough that she will open out on Saturday, November 14th, a stock of fancy goods at 426 Water street, south of Mason's greenhouse. A share of your patronage is respectfully solicited. Look out for new advertisement next week. 4d112

FALL ASSIZES.

The Court Adjourned To-day—Costs to go With the Verdict in Bullock vs. Jory.

Yesterday afternoon the jury, which was empanelled to decide whether Edward Sanderson was of sufficiently sound mind to plead his case in a charge of larceny, brought in a verdict deciding that he was not. The prisoner will probably be removed to a proper place of confinement.

In the Bullock vs. Jory slander case, in which a verdict of $1.00 was found for the plaintiff, the Chief Justice allowed the costs to go with the verdict.

WEDNESDAY MORNING.

At the opening of the court this morning there was practically a bare court room. Before the arrival of the judge the sheriff had sent the jurors down to the Treasurer, and two or three lawyers were present to hear judgment delivered in the case of

Meldrum vs. Consolidated Milling Company. His Lordship summed up the evidence and gave his reasons for the judgment he had arrived at. He gave judgment against the plaintiffs and also against the defendants in their counter claim, and allowed costs to neither party. Mr. E. B. Stone for plaintiff; Messrs. Dumble & Johnston for defendants.

Waddell vs. Goodfellow.

Hugh Waddell, the plaintiff in this case, recovered judgment against the defendant Andrew Goodfellow, on Sept. 17, 1895, for the sum of $379 33, but as the defendant had transferred all his property to his son, the amount of the judgment was not recoverable. The plaintiff asks the court to allow the property transferred to be sold. The son of the defendant, Andrew Albert Goodfellow, claimed that the lands belonged to him, but that as his father had an annuity of $100 the claim should be liquidated through the annuity. The father, Andrew Goodfellow, had deeded to his son all his property, and at that time the father owed the plaintiff in this case, Hugh Waddell, about $500, and the gist of the action was to set aside the conveyance from the father to the son as being a fraud on creditors. The father claimed as against the son that the deed was procured from him by misrepresentation and undue influence. The judge on hearing the evidence of the father, expressed strong disapproval of such an unseemly contest between father and son, and urgently advised the parties to effect a settlement. This was agreed to, and in court this morning Mr. Poussette announced that a settlement had been arrived at. The settlement was to the effect that all the parties are restored to their former position as before the conveyance of the father's lands to the son, the father to get the land back and the son is to be repaid any outlay he may have made in connection with the farm—each party to pay its own costs. Mr. E. B. Edwards for plaintiff; Mr. A. P. Poussette for defendant, Andrew Albert Goodfellow; Mr. G. M. Roger for defendant Andrew Goodfellow.

The Court rose.

ST. ANDREW'S BROTHERHOOD.

A Conference With the President of the Canadian Council.

Monday night several members of the local Chapter of St. Andrews. St. John's, as well as several of the Boys' Chapter, convened at the rectory to confer with Mr. N. F. Davidson, of Toronto, president of the Canadian Council. The Rector occupied the chair, and after brief devotions reports of the work of both Chapters were given, showing that a great deal of quiet but effective work was being done.

Mr. Davidson, the president of the council, then addressed the meeting and expressed himself as well pleased with the large amount of aggressive work that was being done by the Peterborough Chapters. He pointed out the necessity of more succient and detailed reports to the council in order to keep the chapters in different parts in touch, and encouraged by the material knowledge of what was going forward.

He pointed out that the Canadian brotherhood compared very favourably with that of the United States. The great need of the brethren was an overpowering sense of duty as contrasted with mere theoretical knowledge of the duty of members. He urged all who could to attend the international convention at Buffalo next year, as presence of members at a large convention was a great inspiration.

The conference was a great encouragement to the local workers.

PARK STREET BAPTISTS.

The Ladies Hold a Thanksgiving Service.

Last evening the ladies of the Park street Baptist Mission Circle held their first annual thanksgiving offering service.

An interesting programme consisting of music, recitations and three interesting papers on mission work, was given. A goodly number of the Murray street Circle, together with the Park street ladies, made up a large attendance.

At the close of the programme a social hour was spent and refreshments were served. An offering of ten dollars was made, which goes to mission work.

OUR STREET CAR SERVICE.

To the Editor of the Examiner

Dear Sir.—If the directors of our street railway knew how much the trolley is missed by many of our citizens, they would probably make haste in their decision to get the cars running again. There can hardly be any excuse for not having the line on George street open again, and even if the operation of the railway should not prove a financial bonanza, the accommodation of the public is to be looked at. Come, gentlemen, let us have an opportunity of placing our five cent pieces in the conductor's punch once more, and you will earn the gratitude not only of myself, but of hundreds of others in our town.

Yours truly,
George Street.

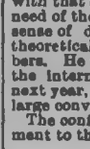
MOUNT PLEASANT.

(From Our Own Correspondent.

H. Shield has returned from Dakota and has no desire to go back there again and become a resident of that frozen country. He will continue a British subject and reside in his native Ontario.

Business is taking up in our town now, and when the swamp road is opened by a grant from the town of Peterborough it will then become the centre of gravity.

You Should Hear This.



A well spent evening will be the return for your attendance at the Granville Kleiser entertainment to-morrow (Thursday) evening at the Opera House. Mr. Kleiser's ability as a reciter and impersonator places him in the front rank of the profession. His programme includes the personnel of the charming comedy, "Our American Cousin," and the mirth and humour are of the most infectious kind. Prices are reasonable, only 25 and 35c. The plan is open at Stratton's Bookstore.

Shiloh's Cure

Is sold on a guarantee, it cures Incipient Consumption. It is the best Cough Cure. Only one cent a dose. 25 cts., 50 cts., and $1.00. Sold by John Nugent, 389 George Street.

Norway Pine Syrup cures Coughs, Colds, Hoarseness, Sore Throat, Asthma, Bronchitis, etc.

BAY OF QUINTE CONFERENCE.

The Missionary Committee Meets in Cannington.

The Missionary Committe of the Bay of Quinte Conference of the Methodist Church, consisting of the chairman of district and one layman from each district, met in Cannington yesterday. Rev. T. M. Campbell, president of the Conference, occupied the chair. The ministerial members were all present and the following laymen :—John Hull, Lakefield; Wm. Johnston, Belleville; E. D. O'Flynn, Madoc; Dr. Mallory, Colborne; Geo. Wilson, Port Hope; D. Rose, Tamworth; J. L. Smith, Whitby.

The sum of $5,900 was appropriated to the mission work of the Conference, and this sum was by this committee distributed to the various missions of this Conference. There are twenty-eight domestic missions, exclusive of several Indian fields, within the bounds of the Bay of Quinte Conference. On the Peterborough district there are two domestic missions and two Indian fields.

The annual Missionary meeting of the Conference was held on Monday evening, and able and eloquent addresses delivered by Revs. Caleb Parker and Thos. Manning.

The Anniversary Sermons were preached on Sunday by Rev. W. Johnston, of Trenton.

The next session of the Committee will be held in Port Hope in November 1897.

Before the meeting closed the following resolution was unanimously adopted. Moved by Rev. W. J. Crothers, D.D., and seconded by Rev. Caleb Parker :—

"That in view of the possible re-adjustment of our work in this conference and in view of the reduced grants to the superannuated Ministers, the Quarterly Official Boards of the Bay of Quinte Conference be recommended to exercise great care in recommending young men as candidates for our Ministry, and we urge district meetings not to recommend the continuance on trial of any probationer not decidedly successful in their work, and that this resolution be forwarded to the Christian Guardian for insertion.

The session closed with hearty votes of thanks to the pastor and people of Cannington for their great hospitality.

NATURAL SCIENCE ASSOCIATION MEETS.

THE PRESIDENT'S INAUGURAL ADDRESS DELIVERED.

An Interesting Collection of Birds' Eggs Submitted for Examination—An Instructive Essay Also Read.

At the meeting of the natural Science Association last evening an interesting collection in birds' eggs was submitted for examination. An instructive paper on "The Instinct of Birds" was also read.

The President, Mr. James A. Fife, read his inaugural address as appended :

To the Members of the Peterborough Natural Science Association :

LADIES AND GENTLEMEN :—Our society has now almost reached its first birthday and we are assembled to-night to resume the work which we pursued last year with profit to ourselves and some little interest to the town generally.

As a direct outcome of the organization of the society several members have made very fair beginnings in collections of birds, insects and plants, which are very valuable to themselves and of which the society will reap the benefit.

It is with very great pleasure, indeed, that we refer to the most interesting public lecture given by Rev. Dr. Bethune, of Trinity College School, Port Hope, under the auspices of this society ; many of those present expressed themselves as very much pleased and anxious that something of a similar character should be given in the near future.

With this brief reference to the past we will turn for a little to the aims and objects of the Association, viz. :

1. To promote the study of science generally.
2. To become acquainted with the Fauna and Flora of our own neighbourhood.
3. To make collections of animals, plants and fossils which shall be the property of the society and which shall form the nucleus of a museum for the town.

OUR SOCIETY

is not for teachers alone, as some have thought; we wish particularly to interest the young in this work, those who are interested in noticing habits of animals ; the arrival of the first harbingers of Spring ; how they build their nests and where ; in making collections of insects and mounting them.

We have room for the chemist, the botanist, the mineralogist and the physicist—all are cordially invited to our ranks.

One great advantage which we have in undertaking this work is that abundance of material lies everywhere around us. "The world we live in is a fairyland of exquisite beauty," "and yet few of us enjoy as we ought and none appreciate fully the beauties and wonders which surround us.

Every garden and hedgerow contains objects of beauty and interest to the lover of nature, every stream and lake abounds with forms which will repay his closest study ; every morning walk fills him with happy thought, contentment and

PEACE OF MIND."

"Nature never did betray
The heart that loved her ; 'tis her privilege
Through all the years of this our life, to lead
From joy to joy ; for she can so inform
The mind that is within us, so impress
With quietness and beauty, and so feed
With lofty thought, that neither evil tongues,
Rash judgments, nor the sneers of selfish men,
Nor greetings where unkindness is, nor all
The dreary intercourse of daily life,
Shall e'er prevail against us, or disturb
Our cheerful faith, that all which we behold
Is full of blessings."—*Wordsworth.*

"Happy indeed is the naturalist" says Sir John Lubbock. To him the seasons come round like old friends ; to him the birds sing ; as he walks along the flowers stretch out from the hedges or look up from the ground ; and as each year fades away he looks back on a fresh store of happy memories."

"Though we can never remount the river of our years, he who loses nature is always young."

It is said that probably flowers have contributed more to the happiness of our lives than either

GOLD, SILVER OR PRECIOUS STONES,

and that our happiest days have been spent out of doors in the woods and fields when we have "found in every woodland way the sunlight tint of fairy gold."

Flowers then are worthy of our attention, and when we learn that every detail in their organization, their colour, form, size, etc., has a significance, they become invested with fresh interest and even with new beauty.

Then may it not be said of us as it was of Peter Bell, to whom

"A primrose by a river's brim,
A yellow primrose was to him
And it was nothing more."

But not flowers alone are beautiful and interesting. Animals of all kinds are equally attractive ; the habits and structure of even the meanest of them are worthy of our attention The gay plumage and graceful movements of many of our birds attract the eye of even the most careless observer, and the rich full notes of many of them charm the ear and refresh the mind.

In speaking of the pleasure given by a study of the habits of birds, we cannot do better than quote from Mrs. Catherine Parr Traill's "Pearls and Pebbles," (page 59) as follows :

"It is a pleasure to be here and watch the birds as they flit to and fro so gaily among the trees and garden shrubs, carolling and twittering in

THE UNALLOYED GLADNESS

of their nature quite heedless of my presence.

Let me see who of my old acquaintances are among them. There are the first little snow sparrows which are among the first and most constant of the small birds to meet us, coming from the cold Northwest to make spring and summer holiday in our more genial climate. In mild winter they were wont to come as early as the middle of March, but that was in the early days of the colony, when the thick forest gave warm shelter to the wild birds ; but since the trees are fast disappearing, the snow sparrows and crossbills and the tom-tits or black caps and many others delay their coming till April or May."

And as follows : "A lively burst of song greets me overhead in the angle of the beams of the verandah. How well I know the cheerful notes ! It is the dear little brown house wren's song. Yes, there they are, the bright little couple. They look down shyly at me from their cologne of vantage above, and then, as if quite sure it is an old and trusted friend, they burst out with a joyous chorus of greeting, as if to say :—"Here we are again ; glad to see you alive and well old lady." And the old lady looks up and nods a hearty welcome to the tiny brown bird.

In the words of the poet :

"The birds around me hopped and played ;
Their thoughts I cannot measure ;
But the least motion which they made
It seemed a thrill of pleasure."—*Wordsworth.*

Not less interesting and instructive than the birds and flowers are the rocks, their construction and formation. Fresh fields and pastures now open up before our minds when we think of the constant crumbling and grinding of our present rocks, forming deposits which, with quantities of soil, are carried down the mountain side by the streams and thence into rivers and on to the ocean and there being deposited layer upon layer and thus forming new land. Then can we with the poet hear :

"The sounds of streams that swift or slow
Flow down Cnian hills
And sow the dust of continents to be."

OBSEQUIES OF THE LATE FATHER HIGGINS.

They Took Place Yesterday at Hastings—A Large Number of Priests Were Present.

The obsequies of the late Father Higgins, which took place yesterday in St. Mary's parish church, Hastings, were of a most impressive character. The church was heavily draped. Above the altar, in white letters on a black ground, was the scroll "Requiescat in Pace." The remains had been removed to the church on Monday afternoon and lay in state. A great number of people visited the church to have a last look at the priest who had faithfully served in the ministry of his Lord for more than half a century. The body was robed in his sacerdotal vestments. On the casket lay his stole and biretta.

On Tuesday morning at 10 o'clock the solemn Requiem Mass was begun. The celebrant was the parish priest, Rev. Father Connelly, who was assisted by Rev. D. O'Connell, of Peterborough, as deacon, and the Rev. Thos. Davis, of Madoc, as sub-deacon. The master of ceremonies was Rev. Father Collins, of Brighton. Besides these Right Rev. Monsignor Farrelly, V.G., Belleville ; Ven. Archdeacon Casey, Peterborough ; Rev. Father McClosky, Campbellford, and Canon Frankford, occupied seats in the sanctuary. A large congregation of the laity was present to pay the last tribute of respect to the deceased.

The Right Rev. Monsignor prefaced his remarks by stating that he had been just asked to say a few words on this solemn occasion. A half century had passed since he first became acquainted with the lamented Father Higgins ; his veneration, respect and admiration of the sterling qualities of mind and heart of Father Higgins had grown with the passing years. He had know the difficulties that Father Higgins had to meet with when fifty years ago he came to this parish of Hastings. He was the only priest between Belleville and Peterborough. Long sick calls over miserable roads, in all seasons of the year. It was his lot to have succeeded Father Higgins in this parish, therefore he well knew what the deceased had to undergo, yet he never wearied. Twenty years afterwards, when they were together in the Cathedral at Kingston, the same virtues marked his life as when he began his priestly career. His whole desire was to do the work of his Master. Like the youthful Samuel he seemed ever to say, "Lord speak, for thy servant heareth." His arduous duties were ever accomplished with the same characteristic humility, patience and charity. The name of Father Higgins is loved and blessed to-day wherever he has laboured. Father Higgins was a humble man. He was more, he was charitable. He spent his life among the poor ; he knew their wants, their trials and their sufferings, and he gave to them with the unsparing hand. Like his Master he loved poverty. He has indeed died poor in this worlds goods, but rich in the things of God, who will not fail to reward the faithful servant, who has preserved the faith, and who has fought the good fight. But nothing defiled can enter Heaven, therefore we are gathered here to pray Almighty God that any stain that may have attached itself to his saintly soul may be purged away and purified, that his soul may enter into the glory of God.

May the soul of Father Higgins rest in peace.

The Wabash Railway Trains

running every day in the year between Detroit, Chicago, St. Louis and Kansas City are the finest known to the railway service ; they are complete and solid vestibuled from end to end, the entire train being a moving palace of connected apartments, all furnished with the most luxurious elegance and perfection of accommodation known to car builder's art. They include free reclining, palace, sleeping, and dining cars of the latest and best patterns. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

THE STREETS OF PETERBOROUGH.

The lesson of the expensive experience of the town in the matter of the Mason case seems to have been lost. Again the town by the judgment in Jackson vs. Peterborough has been let in for damages which, in connection with the costs of the case, will amount to between $500 and $600. From the evidence submitted at the trial, there seems to be no doubt that the walk was in an unsafe condition, and liable at any time to cause serious accident. In delivering his judgment his lordship characterized the walk as being in a condition unworthy of a town of the size of Peterborough, and he pointed out that the town acknowleged the bad condition of the walk by repairing it immediately after the accident, and removing it altogether subsequently. In addition the town incurred, it seems, additional responsibility and blame from the circumstance that when a new walk was built opposite, to practically take the place of the old walk, the latter was allowed to remain as a trap to pedestrians, wary as well as unwary. There can, therefore, be little doubt that the town is responsible, and such a state of affairs must remain so long as the present haphazard and unsystematic way of dealing with our streets is pursued. It is very natural to put the blame upon the councillors, generally and the chairman of the Street and Bridge Committee, especially. While they are responsible to the people, and responsible as well for a good deal of lax dealing and bad judgment in respect to our streets, yet the conditions of which suits for damages and adverse verdicts are the outcome are to a very great extent the inevitable results of an evil system, or, rather, lack of system. We cannot reasonably expect that councillors and chairmen of committees, who receive nothing for their services, can devote the time and attention necessary to secure a thorough and effective supervision of the streets, such as a town of the wide area and commercial importance of Peterborough requires. Besides, as a rule, these persons have little or no expert knowledge of the principles of road construction and street management. This fact, taken in conjunction with the fact that no fixed and indeviating grade of streets is in existence and that no semblance of a system of street improvement exists, accounts for the decidedly unsatisfactory results that give us costly suits for damages, and the name, at home and abroad, of having generally execrable streets. It may be considered unpatriotic to point this fact out. But it is unwise to ignore facts that are unpleasantly evident to every outsider that visits the town, especially when the desire is not to merely find fault but to suggest a remedy.

While our streets are undeniably bad in one sense there is nobody to blame directly. Their condition is due to the system—call it system for convenience of definition—pursued. Under the circumstances we can expect no better results. We need the services of an expert. To illustrate. The Board of Education is composed of gentlemen, who, it will be conceded without much argument, are the equals in point of intelligence, integrity and business capacity of the members of the town council. Yet the Board does not appoint one of its members to perform the work of inspector of the schools. Still, it is evident that any member of the Board is as capable of performing the duties of inspector of the schools as the average councillor is of taking efficient charge of the work of street inspection, street construction and repair. Fancy the muddle that would ensue from a school trustee exercising the functions of a school inspector and you have a condition analogous to that of an average member of a town council undertaking the management of our streets. The results in both cases would be bad, and in the case of our streets are actually bad, and necessarily so. What the town requires is the employment of an expert at street-making—a person thoroughly qualified for the work. And make him responsible. To put an inexperienced man, and one ignorant of the first principles of road-making, in charge of our streets, and demand that he do good work, is like asking him to make bricks without straw. He does not know how to set to work, and be he ever so conscientious, honest and anxious to do right, he evidently must be a failure. The city of St. Thomas employed an expert in road-making and street construction, and the result has been in every way satisfactory — excellent streets and an expenditure of money that is represented by solid value in solid streets. Peterborough should do likewise, and if it costs the town a thousand dollars a year, the money would be well invested. At the trial of Jackson and the town yesterday, it was sworn that in the past three years the average expenditure on the streets amounted to $12,000 a year, and it is pretty certain that in the past ten years $150,000 has been spent on our streets. Will any one say that the present condition of our streets show that we have received value for that expenditure? It is pretty certain that, if we had spent $10,000 less under proper conditions, we should have had better streets than we have to-day. If, of the $12,000 a year we spend on our streets yearly, one thousand dollars or more were paid for the services of a properly qualified street supervisor, we should have the satisfaction of having the best possible streets.

We cannot expect real improvement, we cannot expect immunity from the payment of damages, till we adopt some plan by which a person specially qualified is employed to devote his whole time. To get a proper official of this kind a big salary will have to be paid, but it will be a good investment and we shall receive our reward in possessing better streets for a smaller expenditure of money.

We need not expect good streets till we have adopted a proper system in exchange for the present hap-hazard hand-to-mouth patch-work style of attending to our streets. We must aim at permanent roadways and then aim at keeping these roadways in repair. Constant repair of the best constructed highway is the price of good roads. In no other respect is the proverb, "What is worth doing is worth doing well" so applicable as to the making of roads and sidewalks.

See Crafton & Co's Dress Overcoats for men and young men.

Y. M. C. A. NOTES.

Members of the Chorus Club are hereby notified that the rehearsals will take place hereafter Saturday evenings at 8.30, commencing Saturday, Nov. 14.

Can Rheumatism be Cured?

The application of Nerviline—Nerve pain cure — which possesses such marvellous power over all nerve pain, goes greatly to prove that it can. Nerviline acts on the nerves, soothes them, drives pain out, and in this way gives relief. Try it and be convinced.

New Furniture.

At A. Clegg's :—A large assortment of floor rocker cobler seats, in oak, natural birch and mahogany finish. These are of superior styles and finish and very cheap. Also a lot of reed and rattan rockers—cheap ! cheap ! Several cases of pictures, good subjects, complete, at less than you have been accustomed to pay for frames only. A. CLEGG, 427 George street.

We "Meat" Everybody

At our store, and tender tender meat to our patrons. Our mutton is sold as mutton—not spring lamb. Same with beef—cuts are sold as such. Yet the people keep coming to JOHN J. HOWDEN'S Meat Store, 416 George street. Telephone 39.

PIPES ! PIPES !

Why pay 25 to 50 per cent. more for a Pipe, when you can save that much by buying at Clegg's Retiring Sale ? Pipes, Pouches, Tin Tobaccos, Cigars by the Box, all at cost price. E. B. CLEGG.

Over Wand's Sash Factory, Ashburnham.

Many a man will protect his money at the risk of his life. Thousands decline to protect their lives because it would require the sacrifice of a few dollars of their money. This seems almost incredible but it is true. Men feel and realise that the most relentless enemy of mankind, consumption, is slowly but swiftly creeping upon them. But in the mad race for money they refuse to stop and drive off the dread disease. It would require a sacrifice of both time and money and so they neglect it, until it is too late.

There is no excuse for this. A sure and quick remedy is at hand. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption. It remedies all disorders of the digestion. It invigorates the liver. It makes new rich blood and builds up firm healthy flesh. It enters the blood and drives out all impurities, and acts directly upon the lungs driving out all disease germs. It builds sound vital tissue in the lungs. Thousands have testified to their cure by this wonderful remedy after they were given up by the doctors and all hope was gone. Druggists sell it.

"I have taken Dr. Pierce's Golden Medical Discovery, and can and do recommend it every place I go," writes Mrs. J. D. Graves, of Salamanca, Cattaraugus Co., N. Y. (Academy Street). "I am a traveling saleslady and have been for eighteen years. When I find people who are afflicted I tell them what Dr. Pierce's medicines have done for me. Twelve years ago I was given up to die. I had what all my physicians called consumption. I had hemorrhage of the lungs, night-sweats, and in fact I fully realized my condition. I begged of them to let me try the 'Golden Medical Discovery,' and the result is, I still live and do lots of hard work."

Dr. Pierce's Pleasant Pellets. It is better to do mending while the damage is slight, than wait until the whole structure is ready to fall. Constipation is the one, all-embracing disorder that is responsible for many other diseases. Doctor Pierce's Pleasant Pellets cure it. Druggists sell them. They never gripe. One little "Pellet" is a gentle laxative, and two a mild cathartic. They are tiny, sugar-coated granules. Nothing else is "just as good." A permanent cure.

A DISGUSTED STUDENT

As Bought a "Handy Letter Writer" and Was Very Much Disappointed.

The proprietor of the second-hand book store was awakened from a gentle doze by the book which was slammed down on the counter in front of him, according to the Detroit Free Press. He jumped to his feet and exclaimed:

"Has something tumbled over?"

"Take it back," said the man who had made the noise, "I don't want it."

"But we never exchange goods after they have gone out of the store."

"All right. Ye kin keep it es a present from me, then."

"I don't see what there is offensive about that book. You wanted a 'Handy Letter Writer,' and I gave you the best one on the market. There aren't any opinions in it about politics or religion, and I'm blest if I can see what you could find to bring you raging and hammering around as if you'd been insulted."

"I don't blame you fer standin' up fer your own wares. But when a man goes ter buy a handy letter-writer he makes a confession. He wants ter buy sense. He ain't got sense enough to write a letter the way it orter to be hisself an' he wants ter git somebody's knowledge ter help him out."

"That's very true. But it's no reason for you getting out of patience with me."

"I ain't sayin' anything about you. It's the feller that got out this book that I'm talkin' 'bout. I set down with it in a studious frame o' mind ter write a letter ter my landlord, an' the fust model I struck went like this:

"'Dear Sir: I take my pen in hand.'

I didn't git no furder'n that. I read it over two or three times an' then I shet the book up an' brought it here ter see ef ye wouldn't trade it off fur some 'Jack Harkaway' er 'Deadwood Dick' stories, or most anythin' that yer keep in stock ter palm off on folks that don't know better. They might be purty bad, but they couldn't be no wuss'n that there.'

"I don't see what there is so very objectionable about that."

"Don't say any such thing. Ye ain't so innocent es not ter notice thet a feller es went ter work serious an' put that on paper would jes' be makin' a fool er hisself. The idee o' tellin' a man ye take yer pen in hand! Whut did he s'pose ye wus goin' ter take yer pen in—yer foot? Don't my landlord know dern well thet I ain't no armless phenomenon like ye see ter the side-show in the circus? Mebbe it's intended ter be funny, but er feller thet's writin' ter 'is landlord, don't want ter git frolicsome. I like ter be entertainin' when the occasion comes, but when I'm tellin' a feller thet the water pipes is leakin' an' thet the plaster is comin' off the parlor ceilin' I don't wanter make a monkey of myself, an' I don't wanter pay nobody 25 cents a volume ter do it for me, neither."

The Best Way To Cure

Disease is to establish health. Pure, rich blood means good health. Hood's Sarsaparilla is the One True Blood Purifier. It tones up the whole system, gives appetite and strength and causes weakness, nervousness and pain to disappear. No other medicine has such a record of wonderful cures as Hood's Sarsaparilla.

Hood's Pills are the best after-dinner pill; assist digestion, prevent constipation. 25c.

Invulnerable.

The girl confronted him without faltering. In her defiance she was magnificent.

"Do your worst!" she cried. "I am not a new woman. I am neither married nor engaged. I do nothing to conceal my age. I never bathe in the surf. I do not shop. I haven't the remotest idea if I can cook or not."

With a snort of baffled rage the humorist fled.

Back-Ache, Face-Ache, Sciatic Pains, Neuralgic Pains, Pain in the Side, etc.

Promptly Relieved and Cured by

The "D. & L." Menthol Plaster

Having used your D. & L. Menthol Plaster for severe pain in the back and lumbago, I unhesitatingly recommend same as a safe, sure and rapid remedy; in fact, the best like magic.—D. LaPointe, Richmondhurst, Ont.

DAVIS & LAWRENCE CO., Ltd. Proprietors, MONTREAL.

HAMILTON'S INTERNAL AFFAIRS.

A Wrangle in the Sewer Committee—Judge Snider's Report on the House of Refuge Investigation.

Hamilton, Nov. 9.—(Special.)—A lively session of the Sewers Committee of the City Council was held this evening, the principal business being consideration of matters relative to Foreman Bailey, who had been given charge of the sewage disposal work, and who, it was charged, had been discriminating in favor of men residing in certain wards. Bailey had refused to make a statement showing names and addresses of the men employed by him. Other charges were that he had received and accepted various loads of sand at night and showed no return of various lots of cement rejected as bad. Bailey's removal was demanded by Ald. Teneyck. The debate which followed was exceedingly warm, and partook of a personal repartee between members of the council, but came to an end when several aldermen arose and left the room. No definite action was taken.

The remains of the man found dead at the intersection of Barton and Catharine-streets have been identified as those of Michael Dundon, a laborer, residing at 53 Ferry-street west. Drs. Rogers and Stark made an autopsy of the remains this evening and found the organs in good condition.

The property-owners of Ward Four, to the number of 400, appeared before the Court of Revision to-day, appealing against the assessments of their respective properties made by Assessor Hutton. In all some $40,000 was stricken from the assessment.

To-morrow the cases of residents who claim the value of their property has been materially affected by the construction of the T., H. & B. tunnel on Hunter-street, will be heard.

Judge Snyder this evening handed in his findings in the investigation into the irregularities charged against Small & Son, contractors for the House of Refuge. The report was read and referred to the appropriate committee, who will now consider the advisability of proceeding against the contractors. His Honor finds, among other things, that the sum of $200 had been paid by Peacock Bros. to induce other intending tenderers for the meat contract to offer no real opposition, that meat had been so delivered that it was impossible to determine whether the proper proportion of hind and forequarters had been delivered, and that there has been no check on these deliveries, either as to proportions of the dearer and cheaper parts, or as to correctness of weights charged. The report also shows that from Jan. 14 and Sept. 15, 1896, the contractors had delivered 23,293 pounds of beef, in addition to a quantity of veal, lamb, ham and chicken and turkeys, the total number of inmates at the home, including servants, being but 206.

It was further found that large quantities of tea, costing from 10 to 15 cents per pound, had been delivered, and charged up at 60 cents, including in invoices the weight of packages. The same method of charging up packages was found to have been employed in the deliveries of sugar.

The report concludes with a strong criticism of the matron's conduct, saying that, while the evidence does not show connivance on her part, the duties of her office, so far as checking deliveries of supplies to the refuge was concerned, were absolutely neglected.

The council, on a protest filed by Martin Malone, has decided to reconsider its decision to purchase a quantity of souvenirs from The Times Printing Company.

PACIFIC MAIL SUBSIDY.

North German Lloyd Company to Be a Competitor With the Canadian Line.

London, Nov. 9.—The Canadians in London interested in the Pacific mail subsidy scheme regarded as significant the news that the German Bundesrath has approved the bill to subsidize the North German Lloyd Company by an additional 1,500,000 marks annually for fifteen years, thus providing for a fortnightly mail service to China instead of the present monthly service. It is stipulated that the speed shall not be below fourteen knots, and the preamble of the bill points out that the last eight years of subsidized mail service to East Asia have greatly aided German commerce and industry. The tonnage of goods has doubled and the value of the goods carried has trebled since 1888. The Canadians think these facts ought to weigh in the deliberations in regard to the proposed Canadian subsidy.

THE CABLE CONFERENCE

Sessions Resumed and After a Chat Adjourned Till Thursday Next.

London, Nov. 9.—The Pacific Cable Conference resumed its sessions at noon to-day in the room of the Earl of Selborne, Parliamentary Under-Secretary for the Colonies, at the Colonial Office.

The Earl of Selborne presided and Mr. W. Hegworth Mercer acted as secretary. All the delegates were present. After an hour and a half of informal chats, during which the routine of subject and the order of the witnesses were discussed, it was decided to begin with the technical questions and all this will probably require one or two Canadian witnesses. The first regular working session of the conference will take place on Thursday next.

Stone Avalanche at Montmorency.

Quebec, Nov. 9.—A serious landslide or stone avalanche occurred recently at Montmorency Falls. The top of the cliff, which rises some 300 feet above the sea level, moved forward by the prolonged action of the rain, and tumbled downward with terrific force, smashing the outer covering of the main water-power pipe of the cotton mills, and causing extensive damage to the property below. Some hundred feet away another avalanche took place. The stones smashed through the lower part of a house and removed a barn some feet away.

Still No Rain in India.

London, Nov. 9.—The Viceroy of India, the Earl of Elgin, cables that there has been no rain anywhere in the famine districts during the past week and test relief works have been opened in all the Madras and Deccan districts, and in parts of the Bombay Deccan, as well as in Kamatak, Konkan, Chappur, etc. Prices are still rising slowly. About 67,000 men are already engaged on the relief works.

The Duchess Very Ill.

London, Nov. 9.—Mrs. Hungerford ("The Duchess") is dangerously ill with typhoid fever at her home in Ireland.

A MESSAGE TO MEN.

Proving that True Honesty and True Philantrophy Still Exist.

If any man, who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge, the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-being to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind, but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c. silver to cover postage and address, Mr. Geo. C. Strong, North Rockwood, Mich.

Tobacco Heart

Much heart and nerve weakness is caused by undue use of tea, coffee, and tobacco; palpitation, nervousness, irritability, excitability, lack of confidence, etc., are sure symptoms. Milburn's Heart and Nerve Pills bring ready relief, by steadying the nerves and regulating the heart. They are true heart and nerve food.

TORONTO MARKETS.

Flour—The market is strong, in sympathy with wheat. Straight rollers are quoted at $4 to $4.10.

Bran—Trade quiet and prices firmer; dealers asking $8 west. Shorts $9 to $9.50 west.

Wheat—The market is firm, but there is very little trading; holders are asking big prices and buyers hold off. A sale of white is reported at 84½c west, and odd cars of No. 1 Manitoba hard sold at 93c to 93½c, Toronto freight.

Buckwheat—The market is quiet, with sales at 31c outside.

Barley—Trade quiet, with No. 1 quoted at 38c, No. 2 at 31c to 32c, and No. 3 extra 27c to 28c outside.

Oats—Offerings moderate and prices steady. White is quoted outside at 20½c to 21c, and mixed at 19½c west.

Peas—Trade quiet and prices are steady, there being sales outside at 43½c to 44c.

Rye—Trade quiet, with sales outside at 35c.

Corn—Market dull, with prices at 27c to 28c at outside points.

Oatmeal—The market is unchanged, with car lots quoted at $3.15 to $3.25.

BRITISH MARKETS.

CANCER CURED
—AND A—
LIFE SAVED
by the Persistent Use of
Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. Fields, Bloomfield, Ia.

AYER'S
The Only World's Fair Sarsaparilla.

Ayer's Pills Regulate the Liver.

OVERSKIRTS AGAIN.

NOT EXACTLY LIKE GRANDMOTHER'S, BUT STILL OVERSKIRTS.

Beautiful Street and Calling Costumes Conforming to the Latest Dictate of Dame Fashion—Outline of the History of the Movement in This Direction.

The revival of the overskirt is the latest startling announcement in the world of fashion. Bodices no longer monopolize the attention of the modistes. Skirts are asserting themselves. Simplicity is out of date, the day of the plain skirt is past, and the overskirt, that quaint fashion of long ago, is ready to receive fresh honors. Just whether it will or not is the question of the moment.

The plain skirt had much to recommend it both to the tall, slender woman and her short, plump sister. But

A STREET COSTUME.

the overskirt was never made for a little woman, and the stout woman with hips of generous proportions should refrain from even thinking of it. However, there are tall, willowy women, and they are sure to welcome it.

To the student of things fashionable the revival of the overskirt is not unexpected. The trimmed skirt, which timidly made its appearance last year, was a sure indication that the overskirt would follow, as was also the Marie Antoinette skirt, which revealed an under petticoat. It was merely a question of time. And then the overskirt had been a long time dead to the world of fashion, and that meant it was sure to come back to life and fame very soon. For when any fashion has become old enough to be forgotten its revival as the novelty of the hour may be expected.

The overskirt was in vogue two centuries ago. During the time of Louis XVI. it was part of the gorgeous apparel of the women of the day, and later on Marie Antoinette wore it in apron fashion at Trianon. Since then its history has been most varied and interesting.

About twenty-five years ago the overskirt had one of its greatest revivals. It was made in a variety of shapes, one closely following the other. First it was very short, and had much the appearance of an odd little apron. It was made with a band of its own, however, and was put on separately over the skirt.

From this the overskirt developed very rapidly. It was much trimmed and suddenly grew longer, requiring more material, and, consequently, adding not only to the price, but the weight of the gown.

In 1876 the long overskirt was at the height of its glory. It was equally long back and front, and, unless draped with great care, was apt to

A CALLING COSTUME.

be ungainly. As a rule, all these overskirts differed from the underskirt over which they were worn. Both long and short overskirts were in fashion until about 1879, when they began to gradually disappear to make way for the clinging skirt, which was the prevailing style in 1880.

From then until last spring but few suggestion of overskirts were seen. But about Easter time it was discovered that they were all made with two skirts; that is, the silk underskirt was only fastened to the skirt proper at the waistband. This made the silk petticoat seem more like a separate skirt than a silk lining.

The trimmed skirt was the next step in the restoration of the overskirt. This skirt has had a hard fight to gain a foothold, owing to the popularity of the plain skirt. But this fall it is the trimmed skirt which is considered the most fashionable.

And now the Paris skirts have real overskirts. They are not exactly like the overskirts of long ago—Dame Fashion would never allow this—but they are just as distinctly overskirts as those which our grandmothers wore.

Perhaps the nearest approach to the old-fashioned apron overskirt is seen on the latest Paris-made party frocks.

A charming gown which is sure to win admiration at the first dance at which it appears, is made with the most fetching little overskirt imaginliked for evening gowns for young girls. Silk crape is particularly difficut to develop. If it is sewed with the lining it is apt to pull out of place, and when it is sewed apart from the lining, as it should be, it is so difficult to make lining and outside fit that I cannot advise the amateur dressmaker to undertake it. Chiffon, which is equally pretty, can be developed much more easily with a certainty of success.

A dainty little frock of white chiffon has a flaring skirt with a white silk lining, the white silk being very inexpensive, and really costing only a little more than would a good lining of the ordinary kind. The skirt is decorated with three ruffles, hemmed by hand, graduating in width, but reaching quite to the knees. The bodice is a draped one with the neck cut out in the "Dutch square" fashion. The sleeves are full puffs that reach to the elbow, puffs that droop rather than stand out, and below each is a frill of chiffon over the lower part of the arm and headed by a twist of pale blue velvet. Over each is a strap of the velvet that extends below the bust-line in front and at the back, and ends in a sharp point. At the back and front across the square is a deep frill of chiffon that reaches almost to the waist, and which has for its heading a narrow beading, through which is drawn white Tom Thumb ribbon.

The lower edge of the bodice is sharply pointed at the back and front, arches over the hips, and is confined by a twist, a narrow one, of the velvet, which is knotted just at the point at the back and is in smaller knots at each side of the point in front. With this little frock may be worn either black or white satin slippers, and the stockings would match the slippers chosen. The gloves are white undressed kid and reach to the elbows. It would be permissible for a young girl to wear a string of pearl beads about her throat with the bodice showing the "Dutch square." The hair is parted and waved, drawn to the back and twisted in a lengthwise figure eight. A knot of velvet ribbon, the blue of that on the bodice, is knotted in high loops and ends, has a white aigrette springing from its centre and is placed at one side of the back hair very near to the top.

Another pretty evening gown is made of dotted muslin. The lining is white silk, and the skirt, which is quite separate from the lining except at the waist, is decorated with one wide and three narrow ruffles of the Swiss edged with very narrow Valenciennes lace. The bodice, which is in effect a draped blouse, is made entirely of Valenciennes insertion alternating with white satin ribbon the same width. The sleeves reach to the elbows, are of Swiss and each has for its finish a deep frill of Valenciennes that falls far down on the arm. Between the elbow and the shoulder of each sleeve satin ribbon is tied around the puff so that a double puff effect is achieved. The neck is not cut out, but outlines a high square rather than the usual round, and this is finished by a very full frill of Valenciennes drawn in to fit. A tiny rosette of the satin ribbon is at the front and one at the back.

Break Up a Cold in Time
BY USING
PYNY-PECTORAL
The Quick Cure for COUGHS, COLDS, CROUP, BRONCHITIS, HOARSENESS, etc.

Mrs. Joseph Norwich, of 66 Sorauren Ave., Toronto, writes: "Pyny-Pectoral has never failed to cure my children of croup after a few doses. It cured myself of a long-standing cough after several other remedies had failed. It has also proved an excellent cough cure for my family. I prefer it to any other medicine for coughs, croup or hoarseness."

H. O. Barbour, of Little Rocher, N.B., writes: "As a cure for coughs Pyny-Pectoral is the best selling medicine I sell. My customers will have no other."

Large Bottle, 25 Cts.

DAVIS & LAWRENCE CO., Ltd.
Proprietors, Montreal

Prevent sickness and save doctors' bills at this season by keeping your blood rich and pure with Hood's Sarsaparilla.

Dr. Fowler's Extract of Wild Strawberry cures Diarrhœa, Dysentry, Cramps, Colic, Cholera Morbus, Cholera Infantum, and all looseness of the bowels. Never travel without it. Price 35c.

Caprices of the Hour.

A silk waist that has begun to show the ravages of time may have its days lengthened by covering it smoothly with open grass linen embroidery, and putting in puffed sleeves of the same goods.

Basket work cushions are among the novelties. Strips of open work ribbon in pronounced colors are laid over a square of buckram, the strips being two inches apart. Cross pieces are then woven in and out. When brilliant colors are used the effect is rather oriental.

Tomatoes Remove Freckles.

While tomatoes are ripe and plentiful, they are excellent to remove freckle, tan and muddiness from the skin. A thorough rubbing of the skin once or twice daily while the season lasts, with a ripe tomato will work wonders.

The two most critical times in a woman's life are the times which make the girl a woman, and the woman a mother. At these times Dr. Pierce's Favourite Prescription is of incalculable value. It strengthens and invigorates the organs distinctly feminine, promotes regularity of the functions, allays irritation and inflammation, checks unnatural, exhausting drains, and puts the whole delicate organism into perfect condition. Almost all the ills of womankind are traceable to some form of what is known as "female complaint." There are not three cases in a hundred of woman's peculiar diseases that Dr. Pierce's Favourite Prescription will not cure.

Captain Sweeney, U. S. A., San Diego Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 399 George Street.

THE EYES OF THE WORLD
Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognized this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why should anyone suffer distress and sickness while this remedy is practically at their hands?

What Makes Us "BEST?"

There are two ways of supplying Furs at ever decreasing prices. One is to use a large outlet, and complete organization in manufacture and purchase, as levers to gather directly goods from all parts of the world, always maintaining the highest and best qualities of stock.

The other way is to substitute and reduce qualities to correspond with prices.

THE FIRST WAY IS OUR WAY. With ever increasing output, Peterborough, Toronto and Lindsay,—with all our energies focussed on the study of the things to be known and the things to be done, the best qualities, the best markets, the best time to buy, the quantity, the styles, the lowest freights, the labour saving inventions, the whole field from A to Z.

Where else can you be so sure that close prices do not mean reduced qualities. IT'S OUR LIFE BUSINESS. We began in boyhood and we have the pride in it that makes us know it through and through, and places us in a position to sell you to your advantage as well as ours. Call and see our Fur stock. None finer, none larger, none so up-to-date.

GEORGE STREET SOCIETY

Monday night was literary evening in this society. Mr. W. J. Wattam, president, presided, and under his direction a programme of vocal and instrumental music was rendered. Miss Flanlay, convener of this committee, presented the plan of work in vogue and also the future plans of this department. At the close the Social Committee took charge and dispensed fruit to all present. The Lookout Committee are doing an excellent work. Twenty new members have been added since the beginning of the term. Each member of this committee wears a badge. This makes it an easy matter to distinguish them from the ordinary members of the society.

PARK STREET SOCIETY.

On Wednesday evening, November 4th, at the close of the consecration meeting the Society elected the following officers to act for the ensuing term:

Pres.—Mr. A. L. Grover.
Vice-Pres.—Mr. Archie Jackson.
Sec.—Miss Ina Mowry.
Rec.-Sec.—Miss Mattie E. Mann.
Treas.—Mr. Albert Rome.
Organist—Mrs. Geo. Benton.
Asst. Organist—Miss Maud Coombs.
Lookout Committee—Mrs. Robt. Wright, A. Jackson, Edith Gillespie, Lillie Throop, Lizzie Anderson, Alex. Eggleson,
Missionary Committee—Misses Maggie Mann, Jennie Harmer, Annie Rickner, Evelyn Plummer, Gertie Martin, Lulu Redmond.
Prayer Meeting Committee—Jas. Anderson, Geo. Throop, Ina Mowry, Jennie Harmer.
Invitation Committee—Mattie E. Mann, T. G. Gillespie, Rev. F. Tapscott.
Sick Visiting Committee—H. Iukpen, Jas. Dotten, Sarah Pilling, Thos. Job, Mrs. Doten.
Social Committee—Bertha Hunt, Maud Coombs, Addie Scott, Nelson Graham, Albert Rome, Geo. Glass.

The first named on each committee to act as convenor.

ST. PAUL'S.

This society held a very interesting meeting on Monday evening, when Mr. T. H. Martin presided. The hour was far too short to hear of "The most interesting thing I know in mission work." The meeting was well arranged, the hymns being of a missionary character. Special mention was made of Armenia and her woes in all the prayers offered. Several interesting placards were hung up around the room, pointing to the needs of the world for light in darkness.

ST. ANDREW'S SOCIETY.

The Rev. Mr. Potter delivered an address on the Sufferers of Armenia, which proved very interesting. During the evening a quartette was rendered by Misses Tremble and Fowler and the Messrs. Potter.

BETHEL—KEENE CIRCUIT.

Oct. 21—This meeting was in the hands of the Executive Committee. The committee's convenor spoke of the work that should be done and if the present committees have not done their best, we hope that those for the coming term will profit by the information furnished and endeavor to do their best.

Oct. 28th was the last meeting of the term. The attendance was good, many took part telling "their favourite proverb and why." This was a help to all present. Let us as individuals think of them and use them in our daily life. The regular business meeting was then held, committee convenors reporting work done in the past term. The reports were satisfactory. We thank God for any success we have had and trust him to guide us in the coming term.

RE-OPENING OF ST. MARKS' PORT HOPE.

A Surpliced Choir of Men and Boys Introduced on Sunday.

The following from the Port Hope Times will be of interest to Rev. C. B. Kenrick's many Peterborough friends:

Sunday was the first anniversary of the re-opening of St. Mark's church after restoration, and the opportunity was taken of introducing a surpliced choir of men and boys. Nothing could have been more successful. The effect of the large body of voices was most striking and the appearance of the snowy surplices over the robes of black with broad turned down collars was most inspiring. There was a procession round the church at the beginning and end of each service. The brilliancy of the boys voices added to the rich fullness of those of the ladies stationed in the organ chamber made a most happy combination, which the effect of the whole body of voices—men, boys and ladies—singing the Gregarian chants in unison, was most telling. Both singing and ritual were surprisingly well rendered, especially considering that the boys have only been in training for three months. At the 11 o'clock service the rector preached on "The Ministry of Boys," choosing for his text I Sam. 2; 18: "But Samuel ministered before the Lord, being a child girded with a linen ephod." In the evening the subject was "The Surpliced Choir," the text being II Chron. 5; 12: "Also the Levites which were the singers with their sons and their brethren, being arrayed in white linen." The preacher said the service of the Jews was ordained by God and was a service of pomp and beauty. This was because man had an outward nature as well as a spiritual nature, and the outward part or body must worship God as well as the spiritual. Moreover the soul was reached through the medium of the body. The use of ceremonial war was not abolished by Christ; the very sacraments He appointed were ceremonial in their nature and the revelation of St. John could never have been written if the Christian conception of worship was one without form or ceremony. In restoring the surpliced choir they were reverting to the ancient customs of the Church of England which, if it had lapsed in parish churches since the reformation, had always been continued in the cathedrals of the old land. He, the speaker, was proud of the glorious history of the nation to which they belonged. But he was prouder still of the history of their ancient church. The church of England was not a church created at the reformation but was one and the same with the ancient church of Britain and had never lost its identify in all the changes and vicissitudes through which it had passed. Concluding, Rev. C. B. Kenrick said that the white robes of the choir should be a constant reminder of the innocence and purity which should distinguish those who had been baptised into Christ and signed with the sign of the cross, and they should teach them that the priesthood of the church was a ministry in which laymen as well as clergy had a share—a share of worship and a share of work. Rev. E. H. Brooghall, of T. C. S., assisted at the evening service. The congregations were large and the church was uncomfortably crowded in the evening.

SELWYN LITERARY SOCIETY.

The regular meeting of the Selwyn Literary Society was held in the Temperance Hall on the 6th. The meeting was opened at eight o'clock with the president in the chair. The minutes of the last meeting were read and confirmed, after which the following programme was rendered:

Chorus	Society
Critics paper	M F Howson
Reading	Mr F McKee
Instrumental music	Messrs F McConkey and R Pearson
Address	President
Duet	Mrs Sanderson and Miss Howson
Speeches	Messrs F McIlmoyl, J McIlmoyl, N Nichols, S Trenum
Recitation	Mr J Roberts
Paper	Editor

God Save the Queen.

A Puny and Fretful Baby.

This is now quite unnecessary! Like many others, you may have your baby fat laughing and happy, if you give it Scott's Emulsion. Babies take it like cream.

As Well as Ever.

Dear Sirs,—After suffering for two years from acute indigestion I tried B B B. I took only three bottles, which made me as well as ever I was. I highly recommend B. B. B. to all dyspeptics.

Mrs. John White, Austin, Man

PUBLIC MEETING FARMER'S INSTITUTE.

The Winter Meeting of the West Peterborough Farmers' Institute.

Circulars are being issued to the effect that the public meetings under the auspices of the West Peterborough Agricultural Society will be held in Peterborough on the afternoon of December 15th, North Monaghan town hall in the evening and Lakefield on December 16th.

The speakers will be Messrs. A. McNeil, Windsor; Thos. A. Duff, Toronto; and Andrew Elliott, Galt.

At Lakefield Mr. Elliott will speak on "Growing and Feeding Turnips" and Sheep Feeding for Profit," Mr. McNeil on "Every farmer his own mason or how to use concrete in farm structure" illustrated with plans, "Fruit growing as a specialty or with general farming" and "The education of the farmer"; Mr. Duff on "Method of caring for feeding and housing poultry," "The Requirements of the English market" and "The Value of the Farmers' Institutes."

At Peterborough Mr. McNeil will discuss "Every Farmer his own Mason," and "Some Insect Foes." At North Monaghan he will speak on "The Social side of Farm Life." Mr. Duff's subjects at Peterborough will be "Method of Caring for, Feeding and Housing Poultry," and "Diseases of Poultry and Simple Cure." In the evening at North Monaghan his subject will be "Canada, our Home." At Peterborough, Mr. Elliott will speak on "The Dairy Farm," and at North Monaghan on "Economy."

These gentlemen will also address meetings at Bobcaygeon, Millbrook and Bethany. Messrs. R. E. Birdsall, Asphodel; J. M. Drummond, Keene; S. R. Payne, Warsaw; G. Y. Payne, North Monaghan; J. F. Davidson, Smith; G. J. Galvin, Lakefield; R. Q. Dench, Lakefield, have been also asked to address these meetings. Supplementary meetings will be held at Bridgenorth on January 30th, and at *North Monaghan on* February 1. The speakers will be G. E. Day, B.S.A., Guelph; G. C. Caston, Craighurst; A. Rawlings, Forest; J. E. Meyer, Kossuth. These gentlemen will also address a union meeting under the auspices of the West Peterborough and East Durham Institutes at South Monaghan on January 6th,

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eyes.

The Ottawa, Arnprior and Parry Sound Railway is now completed from Ottawa to the waters of the Georgian Bay. It was started in July, 1892. Since that time 220 miles of railway has been laid as the result of four and a half seasons' work.

In future the G. T. R. employees will have to secure permission from the trainmaster of their district when they wish to lay off from duty, under penalty of being discharged. Sickness will be the only valid excuse, and G. T. R. surgeons have or are about to receive instructions to be very careful in issuing certificates.

A new regulation has been made whereby Grand Trunk brakemen on all freight trains are now required to be on top of their trains when passing stations, whether the train stops or not. The forward brakeman must also change signals with the rear man. This regulation is looked upon as an improvement by the official staff, but the brakemen themselves think it is something of a hardship. They are kept on the alert all the time.

A MARVELLOUS CURE.

Helped by the First Box—Could not Lift Fifty Pounds—Cured by a few Boxes of Dodd's Kidney Pills.

Arthur, Nov. 9. (Special).—Among his more intimate friends it has long been known here that Mr. J. C. Morrison had been gradually failing in health for many years. The acuteness of his sufferings was known only to a few. His complete recovery is a surprise here and is causing much talk. Of his cure he says:—"Yes I got help from the first box of Dodd's Kidney Pills and I have taken fifteen boxes. I kept getting better every day. When I commenced I could not lift fifty pounds; now I am as strong and well as ever in my life."

LIST OF AUCTION SALES BY JOHN HAGGART.

Nov. 10th—Sale of household furniture of Miss Greer, Aylmer street. Sale at 1 o'clock.

Nov. 12th—Farm Stock and Implements of Mr. James McKibbin, Smith.

Nov. 13th—Farm Stock and Implements of Mr. Thomas Murray, Dcuro. The sale begins at 1 o'clock.

JOHN HAGGART, Auctioneer.

See posters.

"M'kado" Still in the Market.

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blends of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER Millers.

Protect Your Horses, etc.

Nothing is more needed for horses at this inclement season of the year than a waterproof horse cover. I make them to order and keep them in stock as well. Hoods, heads, backs and breasts in black waterproof, impervious to water, soft and pliable. Any kind or style of ordered goods required. Lap rugs, strictly waterproof. Also cheese covers as requested by members of the Cheese Board, and for covering all kinds of goods liable to damage from wet. A. KINGSCOTTE, Tent, Sail and Awning manufacturer, 344 Water street, opposite market.

Defying the Probs

AND FORCING THE SEASON.

We Can't Change the Weather

BUT WE CAN CHANGE OUR PRICES.

At no time of the year are we satisfied to sell at regular prices. At no time of the year can we afford to allow unseasonable weather to clog our business. Our stocks must keep on the move. We're constantly running across lots of goods offered to us at Special Prices. That means ample opportunity to discount the trade in Clothing, Boots and Shoes, Hats and Furnishings without any trouble. Please remember that this business is PERSISTENTLY in advance of every other, and that prices here are always, with seldom an exception, the LOWEST.

We start off this week with a double head of steam to Reduce all our prices on all our stock, and make business boom in defiance of the mild weather.

WHEAT'S UP! CLOTHING'S DOWN! We quote below a few sample prices that tell the tale of how well we are loaded up with Bargains all over our two **BIG STORES**

Men's Clothing.

Men's Clothing at Boys prices. A few minutes reading will show.

Men's Hard Felt Hats, from 25c up.	

It's the young men's trade we cater to, any if any old men want to look young they should buy their Hats at Gough's.

Footwear.

Surprising Shoe-selling, another proof of the leadership of this best shoe store. Another proof of the helpfulness of its methods. First-rate Quebec Shoemakers were short of work during the summer, and they were glad to sink profits and move on the order we offered—for it bridged them over a bad gap and enabled them to keep their organization together. The Shoes are here:—

500 pairs Women's fashionable toes $1.50 Button Shoes, at	$ 1 50
300 pair Women's $1.60 Fancy Kd button Boots, with pointed toe caps, at	1 19
200 pairs Ladies' Fine Dongola Kid button Boots, regular $2.25 at	1 70

Gough's World Beater All Wool Rib Top Sox	10
Men's White Dress Shirts 39c, 50c and 75c	

Ordered Work.

Tweeds and Worsteds must get a quicker move on like everything else. Boom! Boom! all along the Cloth Department. Well dressed men come here—this store appeals to gentlemen of refined taste, and provides most fully for all. Our Fall Stocks of Cloths and Tweeds for custom work will please all who prefer their garments made up to their own measure from carefully selected fabrics. We deny the right of High Prices to exist while this balmy weather hangs on.

Just imagine the condition of things where everything is held for a regular profit until sold. Gough Bros. the progressive and aggressive leaders of Low Prices, make prices the moving power all along the line. "Always Good (and Cheap) at Goughs," but especially during unseasonable winter weather like this.

Gough Bros.

The Wonderful Cheap Men, - 375-379 George Street, Peterborough

HE WAS JOHN BYRNE.

The Unfortunate Man Who Was Killed by the Cars at Shakespeare.

Stratford, Ont., Nov. 10.—The young man killed at Shakespeare Station last night was John Byrne of this city. He left home last evening between 6 and 7 o'clock, intending to go to Toronto, where work had been procured for by him by an employment agency. The mangled body was found on the track after the evening train for the east had left Shakespeare. Life was extinct and death was apparently instaneous. No railroad ticket was found on the body, and the ticket agent here has no recollection of selling him one, and the supposition is that he was helping himself to a ride. As deceased was very short-sighted it is supposed in retaking the train at Shakespeare he missed his footing and fell to the rails.

Coroner Rankin visited the scene during the night and decided an inquest unnecessary. Byrne was 30 years of age and lived here with his parents.

The Question Of Trousers

With well dressed men is a very live one. The best of them will get baggy at the knees; but the ones we cut and make up with our correct measurements and excellent trim will not bag so quickly as others do.

A pair of our Merchant Tailor-Made Trousers cut and fitted on the most Comfortable Model—that will neither wrinkle here, drag there or bag anywhere—will cost you all the way from

$3.50 UP TO $5.00

according to the cloth, trimmings and workmanship. But the cheapest as well as the dearest will be correct to your model.

Our Tweeds and Scotches, Worsteds and West of England Jerseys, are all in line with the present styles.

IF YOU SEE IT IN OUR WINDOWS IT IS RIGHT.

P. SIMONS & CO

THE TARIFF ENQUIRY

Will Begin In Toronto on Tuesday Next.

MR. MULOCK DOING GOOD WORK

The Postmaster-General Believes He Can Make the Service Almost Self-Sustaining—Prof. Saunders' Report Frowned Down by the Sen— Other Ottawa News.

Ottawa, Ont., Nov. 11.—Hon. Mr. Fielding, Minister of Finance, this evening authorized the following announcement respecting the tariff enquiry:

The Ministers who are to conduct the enquiry will begin their work at Toronto on Tuesday morning next, the 17th inst. They will remain in Toronto three days, and perhaps a day or two longer, if necessary. The Board of Trade rooms have been kindly placed at the disposal of the Ministers for the purpose of the enquiry, and will be used as far as may be found convenient. In some cases, doubtless, it will be found convenient for the Ministers to receive deputations at their hotel. Parties who desire to be heard are requested to give early notice to Mr. Edgar A. Wills, secretary of the Board of Trade, Toronto, who will make the necessary arrangements. While the Ministers will endeavor to receive all who have views to present, it is hoped that representatives of the different lines of industry may be chosen, so that as much ground as possible may be covered in the time available.

The Ministers will subsequently visit Hamilton, London, and possibly other points in Ontario. Dates for these visits will be announced hereafter.

Evidently the Mounted Police are having exciting times in connection with the attempt to capture the Alberta Indian murderer, "Charcoal." To-day intelligence was received at the Mounted Police Department that yesterday a hot chase took place after Charcoal, and Sergt. Wilde of the Pincher Creek detachment was shot dead by him. Another of the men, Corp. Armour, was also wounded. Charcoal is now surrounded and cannot escape, as large parties of police are out after him. Mr. White, Controller of Police, says Wilde was an ex-Life Guardsman and an excellent officer.

Mr. Mulock is engaged at his office nearly every night until midnight examining mail contracts, which number about 8000, for the entire Dominion, and aggregate over $725,000. The Postmaster-General is sanguine that when he has got through the list he will have effected an annual saving of $80,000, and for this even Tories will commend him, as in the past it has been a case of despoiling, not Liberals alone, but Tories also, in the awarding of these contracts. A large number of new contracts have been let, in each case to the lowest tenderer.

Prof. Saunders, who has just returned from the Eastern provinces, says that the agricultural conditions in Prince Edward Island have much improved since 1880, and that this has been brought about mainly by the introduction of dairying and the subsequent improvement in the fertility of the soil, which is attendant on that industry. In 1872 the only cheese factory there produced cheese to the value of $6000; in 1895 there were 28 cheese factories in operation, all in charge of the Dairy Commissioner and his able assistant, on the island, Mr. Dillon, and the value of the output was $140,000. Winter butter-making is also being carried on with success. In 1894-5 the first creamery was started, and the value of the product was $2500. In 1895-6 two winter creameries and four skimming stations were in operation, with an output valued at $20,000. During the present year the industry has been still further extended. Nearly all the factories are now run by the farmers themselves, and the quality of the products made is very satisfactory, and they command the highest market rates.

With the more general introduction of stock, much of the coarse grains which were formerly shipped out of the country is now fed to cattle, and about nine-tenths of the fertility drawn from the soil by the crops is returned to the land with the increased barnyard fertilizers provided.

A large and increasing egg trade is being done with Great Britain, and potatoes are extensively grown for the West Indian market. Grain crops during the past year in all the Maritime Provinces have been good.

Minister Fisher and Prof. Saunders spent a day inspecting the progress of the work at the branch experimental farm at Nappan, where excellent crops have been grown this year, after which meetings were held at Wolfville and Kentville. The meetings were all well attended and enthusiastic, and practical addresses on farm topics delivered by the Minister and others were much appreciated.

Apropos of the alleged interview with Minister Fielding, published in a New York paper, the Finance Minister says he was never interviewed at all. The reporter who wrote the alleged interview showed that he was fairly well posted on Canadian politics. Mr. Fielding, however, says he probably uttered in conversation there with friends some such views as he was credited with.

Senator Thibaudeau, Messrs. Prefontaine, Lemieux, Beausoleil, Bruneau, Guay and Mignault, M.P.'s, and Mr. Beauchemin of Sorel saw the Premier and Minister of Railways to-day and submitted a proposition for the building of that portion of the Atlantic and Lake Superior Railway from Montreal along the south shore of the St. Lawrence River to Quebec, forming, with the Sorel line and the Baie des Chaleurs Railway, direct communication to Gaspe. The western portion of the old Atlantic and Superior scheme for a line from Montreal to Sault Ste. Marie is not included in the present request. Senator Thibaudeau, who is president of the Baie des Chaleurs Railway, and interested largely in the present proposal, speaking on behalf of the promoters, said they merely desired to talk over in a general way with the Government their plans, and to secure the approval of the Ministry to them.

A practical turn was given yesterday to the "X" ray experiments, which have for some time been going on in the electrical branch of the Inland Revenue Department. Inspector Higman and assistant Chief Analyst McGill turned the rays upon the foot of one of the messengers, Napoleon Potvin, who had the misfortune about ten years ago to run a needle into his knee. The resultant photograph of the foot showed the needle to have worked its way into the instep near the toes. Now that the needle has been located, Potvin will undergo an operation for its removal.

The Fisheries Department is informed of a seizure made on Lake Huron by Captain Pearson of the cruiser Dolphin, a large number of trout nets being confiscated. There has been very little for the cruiser to do in the way of seizures this season on Lake Huron, the fact being that fishing was not good enough to warrant any contravention of the regulations.

Chief Justice Hagarty of Toronto has been granted six months' leave of absence.

Col. Anderson, chief engineer of the Marine Department, has returned from the Maritime Provinces, where he was locating sites for lighthouses.

Justice Taschereau of the Supreme Court has been granted seven months' leave of absence from the 1st of October. He is now in the East Indies.

At the request of a New York gentleman the Dominion statistician made up a table to-day showing the Chinese population in Canada. Mr. Johnson places it at 13,110, an increase of 4000 since 1801.

The Commissioner of Fisheries has received a piscatorial curiosity from British Columbia. It was sent by Inspector McNab, who thinks it is a cross between a whitefish and a salmon. Prof. Prince will examine with a view to determining its nature.

Mr. A. Bodard, emigration agent for Canada in France, is in the city receiving his instructions for next season's work. Mr. Bodard says he finds it extremely difficult to make much headway in France, but he is by no means discouraged as to the outlook.

Mr. W. J. Gage of Toronto was here to-day. He saw Mr. J. R. Booth in regard to the transportation of patients from this section to the Muskoka sanitarium.

Mr. Edwin Haynes of The Timber Trades Journal of London arrived here to-night. He is commissioned by his paper to write a series of articles on the forest products of Canada.

Major-General Gascoigne has not received any advices confirmatory of the rumored appointment of Major Kitson to the command of the Royal Military College.

WHO'LL BE BISHOP OF ALGOMA?

The Synod Meeting in Montreal Will This Week Select a Successor to Rev. Dr. Sullivan, Now of St. James', Toronto.

Montreal, Nov. 11.—(Special.)—The session of the Provincial Synod which opened to-day is important from the fact that it was called to elect the Bishop of Algoma. It is not probable, however, that a choice will be made before to-morrow evening. Among those present are: Archbishop Lewis of Ontario and the Bishops of Fredericton, Nova Scotia, Montreal, Niagara, Huron, Ottawa, with Bishop Sullivan, late of Algoma. In the morning a sermon was preached by Rev. Canon Spencer, which was an able effort, while in the afternoon the lower house met and elected Rev. Dean Carmichael prolocutor and Rev. Dr. Brigstoke of St. John deputy. Bishop Sullivan delivered an address upon the diocese of Algoma, its clergy and its wants. This evening the House of Bishops did not sit, but it is probable their nomination will be made to-morrow. Amongst the names mentioned are Dean Carmichael, Canon Mills and Dr. Brigstoke.

At to-night's meeting of the Anglican Synod a resolution was adopted recommending that hereafter the Episcopal stipend for the Diocese of Algoma be met by the interest from the Episcopal fund, and that there should be no further demands on the various dioceses.

SHOT HIS BROTHER,

Royal Gawley of Saugeen Thought He Saw a Deer and Fired, Killing His Relative.

Wiarton, Nov. 11.—While deer hunting this morning near Pine Tree Harbor on the Saugeen Peninsula, young Royal Gawley of Spry shot his brother Richard fatally. He mistook him for a deer. The bullet entered at his shoulder, going through the lungs. The unfortunate man lived but a few hours.

ALBERTS HAD A FALL.

The Canadian Who Was Leading at Saratoga is Now Out of It.

Saratoga, N.Y., Nov. 11.—Interest in the six days' bicycle contest in the Casino Rink continues to increase, and to-night a very large crowd was present. An accident which occurred to Frank Alberts, the Canadian champion, who, with W. T. Hofstetter of Florida, was tied for first place, throws the chance of success in Hofstetter's favor. During the 197th mile the tire of the front wheel of E. C. Smith's bike came off, throwing him to the floor. Alberts, who was going at a terrific pace immediately behind, struck Smith's body and fell heavily, breaking his collar-bone. He immediately remounted another wheel and rode over three miles before getting off for medical aid. In the interim Hofstetter secured a lead, which it will be almost impossible for the other to overcome. At the end of the 10th hour the score stood: Hofstetter, 210 miles 1 lap; Smith, 200 miles 6 laps; Schoch, 200 miles 5 laps; Golden, 200 miles 5 laps; Alberts, 200 miles 4 laps.

MRS. STERNAMAN

Tells the Story of Her Married Life at Buffalo

AND DISPLAYS NO NERVOUSNESS

Appearances Indicate That if the Woman is Not Innocent She is a Stoic. Her Marriage to Ezra Chipman and the Events Following Given in Detail.

Buffalo, Nov. 11.—Mrs. Olive Adele Sternaman, who is charged by the Canadian authorities with the poisoning of her husband, George H. Sternaman, is either an innocent woman or has the hardihood and fortitude of a Stoic.

Mrs. Sternaman was the first witness called at 2 o'clock this afternoon, when United States Commissioner Fairchild resumed the hearing, in the application for extradition papers in her case. For an hour or more she sat in the witness chair telling an apparently honest story of her life with Sternaman, and of their relations previous to his death. Mrs. Sternaman was examined by her attorney, Mr. Thayer, and her answers were given in a low voice, so low that often Commissioner Fairchild called to her to speak louder. Her eyes were cast down until she gave her answer, then they were lifted and gazed steadily into the eyes of her questioner, until the last word of her answer left her lips.

An interested listener was United States Attorney W. F. Mackay, who sat at the right of Commissioner Fairchild, and never once took his eyes from the face of Mrs. Sternaman. Attorney Thomas, who represents the Canadian Government, and Inspector Murray of the Dominion force, were also attentive listeners, and took copious notes of her story.

Mrs. Sternaman, in substance, told her life as follows:

"I was born in Canada, near where the parents of Sternaman live. I came to Buffalo with my parents when 12 years old, and am now 29 years of age. Shortly after coming here I went to work for a Mr Simpson of Bouck-avenue, and worked with him for three years, doing general house work. Then I met my first husband, Ezra E. Chipman. He was a carpenter, and I believe that he came to this city from Canada. Our courtship lasted while I was working for Mr. Simpson. I married him and we went to live at Hampshire and 14th-street. I married him on Feb. 3, 1890, and we lived at the same place until he died, which was on Jan. 20, 1895. Two children were born. One is now 9 and the other 7 years old.

"I first met Sternaman when my husband came home one night and told me the next morning Sternaman would call and arrange to stay at our house for a few weeks, until a job nearby, on which he was employed, was finished. Sternaman came and after the job was finished he did not say anything about leaving. My husband and I talked it over and decided that he could stay if he wished. He remained with us steadily until his father was taken sick. Then he went to Canada, remained there a month or more, returned to Buffalo and came to our home again.

"My husband and Sternaman often worked together, and I did up both their lunches. We were all friendly and I never saw anything in the conduct of Sternaman that led me to believe that he loved me, that is while my first husband was alive. I noticed nothing suspicious in his manner and he and my husband seemed the best of friends.

"Sternaman came to our place between 18 months and two years before my husband died. Some time before my husband died he would come home nights and complain of feeling tired out. He did this for a long time before he was taken sick and I grew worried, but he seemed all right just the same." When asked if Sternaman ever did anything about the house, Mrs. Sternaman replied, "Yes, George used to help my husband clean the lamp chimneys every Sunday morning. He used to say that he did this when living home. He was a man of good habits and staid home nights, except when we had company. Then, lots of times, he would go away for the day.

Mrs. Sternaman was the only witness examined, and her testimony had not been concluded when the court adjourned at four o'clock until to-morrow morning.

A TARIFF BILL NECESSARY.

Senator Sherman Says a New Measure Must be Passed at Once, and He Expects No Democratic Opposition

New York, Nov. 11.—Senator John Sherman of Ohio, who is at the Fifth Avenue Hotel, talked freely to-day about the outlook for legislation in the next Congress.

"It will be necessary to pass a tariff measure at once," he said. "The Dingley Bill with some changes will do for the present. The Democrats made a great mistake in not permitting that bill to pass in the last Congress. It was only a temporary measure intended to raise the revenue that the Government absolutely needed, and if the Democrats had let it go through there would have been no necessity for bond issues, and the Democratic administration would have escaped a great deal of the censure and criticism that was heaped upon it. Of course it was right to issue bonds to save the credit of the nation, but the Dingley measure would have obviated the necessity. I would accept the Dingley bill as it is, although some changes might be advisable. It would be in force only a year and a half, and would give us the revenue we need."

"Do you think the Democrats in the Senate would oppose the bill?" was asked.

"I doubt it," said Senator Sherman.

What the Poll Tax is for.

Constantinople, Nov. 11.—The receipts from the collection of the poll tax recently levied are intended for use in defraying the expenses of providing full equipment for a force of 1300 men in the event of Turkey becoming involved in war.

Sarony's Funeral.

New York, Nov. 11.—The funeral services over the remains of the late Napoleon Sarony, the artist, were held to-day in the Church of St. Leo. They were conducted by Rev. Father Dineey. Many men distinguished in art, literature and music were in attendance. There were many floral offerings. The remains were taken to Greenwood Cemetery for interment.

Death in the Blizzard.

Topeka, Kas., Nov. 11. The first death in a Kansas blizzard this season is reported from the Colorado border, where the body of J. M. Moran has been found in a snowdrift. He had lost his way in the storm, and, turning loose his horses, sought shelter behind the wagon box.

A Bishop Goes to Penitentiary.

Fort Scott, Kas., Nov. 11.—Rev. W. Johnson, Bishop of Fort Scott District of the Independent African M. E. Church, has been convicted of making false returns to officials and must go to the penitentiary.

A Puny and Fretful Baby.

This is now quite unnecessary! Like many others, you may have your baby fat laughing and happy, if you give it Scott's Emulsion. Babies take it like cream.

That

Extreme tired feeling afflicts nearly everybody at this season. The hustlers cease to push, the tireless grow weary, the energetic become enervated. You know just what we mean. Some men and women endeavor temporarily to overcome that

Tired

Feeling by great force of will. But this is unsafe, as it pulls powerfully upon the nervous system, which will not long stand such strain. Too many people "work on their nerves," and the result is seen in unfortunate wrecks marked "nervous prostration," in every direction. That tired

Feel-

ing is a positive proof of thin, weak, impure blood; for, if the blood is rich, red, vitalized and vigorous, it imparts life and energy to every nerve, organ and tissue of the body. The necessity of taking Hood's Sarsaparilla for that tired feeling is, therefore, apparent to every one, and the good it will do you is equally beyond question. Remember that

Hood's
Sarsaparilla

Is the One True Blood Purifier. All druggists. $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are easy to take, easy to operate. 25 cents.

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month, $2.00 for six months.

Daily Examiner.

THURSDAY, NOVEMBER 12, 1896.

EDITORIAL NOTES.

THE people of the United States are talking of a reform in the manner of marking ballots in elections. They had better turn their attention to providing a ballot that will be a little less cumbersome than a well map.

THE Mail and Empire in reference to the elevation of Messrs. Cox and Mills to the Senate, says that "two better Liberals could not have been selected." Will the organ kindly point out what two better members of the Conservative party could have been chosen.

IF Sir Charles Tupper has gone to England with the wild idea of loosening Lord Aberdeen's scalp, he should consider that he will meet, not ward politicians, but British statesmen, who are not yet converted to the idea that the bigger half of the North American continent was created for the express benefit of the Tupper family.

THE Hamilton Herald takes the ground that only those who have votes in deciding the question of prohibition, should vote in the Dominion Plebiscite. The Woman's Christian Temperance Union, it appears, wishes the vote to be taken on the municipal lists. As this would not be a true test of the opinion of those whose votes have the deciding of the question, it would seem that the Herald is right in objecting to municipal lists being used.

HON. DAVID MILLS and Geo. A. Cox are, says the Montreal Star (Conservative), the kind of men which the constitution intended should be called to the Senate. Mr. Mills is an experienced public man, possessed of a remarkable store of information and a political career without a blemish. It would be a distinct loss to the country if his services should be no longer available because of the action of a single constituency. Mr. Cox is a prince of financiers and must prove to be an invaluable counsellor in the conduct of the business of the Dominion. He is typical of Toronto enterprise and will worthily represent the financial interests of Ontario.

REV. J. C. MADILL, the ex-president of the "P.P.A.," has discovered that the duties of the Gospel ministry and practical politics are incompatible. He was a minister of the Congregational Union and had a church at Sarnia, but it appears he neglected his work and was notorious two or three years ago as president of the P.P.A., and through his connection with this he has got into trouble. He was accused of telling falsehoods, and of saying things which were not calculated to promote harmony among church people, and the Western Association of the Congregational Churches appointed a special committee, at the last meeting in Paris, to investigate the charges against the reverend brother. Mr. Madill refused to appear before the committee, and the committee were compelled to recommend his expulsion from the Congregational Church Union, and their report was unanimously adopted. When ministers are clamouring to be relieved of their duties to the extent of having a part of their work performed by the teachers of the public schools, it is evident that they are too much overworked to be able to give time to such unsavoury secular work as politics, especially politics of a pronounced polemical character.

"Mikado" Still in the Market.

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blends of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER Millers.

NORWOOD.

From Our Own Correspondent.

The annual meeting of the Norwood Branch Bible Society will be held in the Methodist church here Wednesday evening. The Rev. R. Douglas Fraser, of Bowmanville, the society's agent, will address the meeting. A meeting of the young people's societies in connection with the different churches will be held at seven o'clock.

The ladies of the Methodist church in giving an oyster supper on Friday evening.

A Thanksgiving dinner will be held in Presbyterian church here on Thanksgiving evening.

The rink will be run by a syndicate this year, Mr. Buck not caring to continue the management.

On Tuesday afternoon Police Magistrate Edmison held court here. The cases were McMaster vs. Searight, on a charge of assault, and some of those who were out on Hallowe'en were arranged. The prosecution won in the first case and the other was let stand over until the next court.

The Hockey Club intend organizing next week.

Miss Gallagher, of Warkworth, is visiting in town.

Miss Dawson, of Peterborough, is visiting friends in town, the guest of H. G. Buck.

Jas. Cameron has returned home for the winter after three years absence.

P. O'Reilly left Monday morning for British Columbia.

Messrs. Code and McGregor, who were out shooting deer last week returned Saturday without any, and report that very few are being shot this year.

Messrs. Ashe and Clancy left Friday night for the hunting grounds. They were going to join Thos. Fraser, back of Coe Hill. Mr. Fraser has had hard luck. While crossing a bridge on the road out the bridge broke and the rig and everything went down. It was with difficulty Mr. Fraser and his companions saved themselves. The team and dogs were drowned.

NORTH HARVEY.

(From Our Own Correspondent.)

The mill of Kennedy Davis & Son stopped work last week after a long season's run.

Mr. Davis gave a supper and dance to the employees of his mill and their friends last Friday night, which was very well attended. The company is putting in a small camp up on the Galway boundary, which will keep some of the old hands employed for the winter.

The Rev. Mr. McKnight, of Peterborough preached here Sunday night. He has come to fill Mr. Jameson's place for a short time at least. Whether his appointment will be permanent is not yet known.

The Misses Harris, who are living in Lindsay, made a flying visit here on Sunday last to see their parents.

Ed. St. Thomas, sr., had a plowing bee last week. Quite a number turned out and more were to go this week. It is to be hoped that all will turn out and give him a helping hand, as he lost nearly all he possessed in the bush fires last summer.

Dr. McCamus, of Bobcaygeon, and party are out hunting this week in the northern part of Harvey.

Mr. Thurston, who owns a lot back of Phil Boucher, is opening up the old Gilmour draw road for the purpose of getting a short haul for his timber to the lake.

Miss Dot Quibell, who has been in Bobcaygeon for a considerable time, has returned home.

BENSFORT.

From Our Own Correspondent.

Miss Lizzie Riddell, of Toronto, is visiting friends and relatives in Benafort and vicinity.

Miss Lottie Perrin has again resumed her duties as teacher in the South Ward School, Peterborough, after a rather serious illness.

Mr. Abbie Pue arrived safely from the Northwest on Saturday last. He speaks very favourably of the country and intends returning another year.

Mr. David Chambers, one of our enterprising blacksmiths, has recently erected a platform in front of his shop and will utilize the room over his shop for woodworking and repairing. Mr. Chambers is quite an architect, and should feel proud of his skill in that line as well as in blacksmithing.

Vacant houses in Benafort seem in great demand. Why do not some of our enterprising citizens put up a terrace or a few detached houses? They could surely make good interest on their money invested.

The road by the new bridge is getting badly cut up by heavy loads. The road by the upper bridge is almost deserted now except by a few who live at the upper end of the township.

TORONTO MARKETS.

Flour—The market is firm in sympathy with wheat, but buyers hold off. Straight rollers are held at $4.20 to $4.25, but no sales reported.

Bran—Trade quiet and prices steady; dealers asking $7.50 west. Shorts, $9 to $9.50 west.

Wheat—The market is unchanged. Very little business is reported. Red offers at 85c, with 84c bid at outside points. No. 1 Manitoba hard sold at 95c, and later at 94c, Toronto freights.

Buckwheat—The market is dull, and the price nominal at 30c west.

Barley—Trade quiet, with No. 1 quoted at 35c, No. 2 at 31c to 32c, and No. 3 extra 27c to 28c outside.

Oats—Offerings moderate and prices steady. White sold outside at 21c, and mixed at 19c to 20c.

Peas—Trade quiet and prices are steady, there being sales outside at 44c.

Rye—Trade quiet, with sales outside at 35c east.

Corn—Market dull, with prices firm at 28c to 29c outside.

Oatmeal—The market is unchanged, with car lots quoted at $3.40 to $3.50.

BRITISH MARKETS.

Liverpool, Nov. 11.—Spring wheat, 7s 2d to 7s 3d; No. 1 Cal., 7s 6½d to 7s 8d; corn, 3s 3½d; peas, 4s 10½d; pork, 50s; lard, 23s 0d; bacon, l.c., heavy, 30s 6d; do., light, 28s 6d; do., s.c., heavy, 25s; tallow, 20s 6d; cheese, white and colored, 51s.

London—Opening—Wheat off coast and on passage 6d to 9d higher. English country markets generally is dearer. Maize off coast and on passage firm.

Liverpool—Spot wheat firm; futures quiet at 7s 1d for Nov., Dec., Jan., Feb. and March. Maize quiet at 3s 3¼d for Nov., 3s 3½d for Dec. and 3s 2¼d for Jan., Feb. and March. Flour, 24s 3d.

Paris—Wheat, 22f for Dec.; flour, 46f 15c for Dec.

London—Close—Wheat off coast nothing doing.

Liverpool—Close—Wheat steady at 6s 11⅝d for Nov., Dec., Jan., Feb. and March. Maize dull at 3s 3d for Nov. and Dec. and 3s 2¼d for Jan., Feb. and March.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

One Every Night.

One Laxa-Liver Pill taken each night during 30 days will cure Constipation, after-returning Headaches and irregular action of the bowels. Laxa-Liver Pills leave no unpleasant after-effect.

To destroy worms and expel them from children or adults use Dr. Low's Worm Syrup.

Murder and Suicide.

Philadelphia, Nov. 9.—As a result of a quarrel, presumably because of jealousy on the part of the husband, William G. Goulker, who was also known as Mayo, this morning murdered his wife, Maggie, by cutting her throat, and then ended his own life in the same manner. Goulker was about 35 years old and his wife 22 years old. The couple had been married two years.

Preparing for 1900.

Denver, Nov. 11.—When William J. Bryan reaches Denver on Nov. 24 he will be greeted by such an outpouring of the people as has never been witnessed west of Missouri. The occasion will be made the opening of the silver campaign of 1900. It is safe to state that 100,000 visitors will be in the city from the mountains and surrounding towns. The men who are promoting the reception are: Ex-Senator N. P. Hill, Senator Teller, Congressmen Shafroth, E. T. Jeffrey, C. S. Thomas, T. M. Patterson, E. B. Coe and President Steele of the Chamber of Commerce.

Democrats to Support Republicans.

Indianapolis, Nov. 11.—Chairman Bynum of the National Democratic Committee emphatically expressed the opinion that it is the duty of sound money Democrats to support the McKinley Administration in such reforms as may be necessary to perfect the currency system.

A MARVELLOUS CURE.

Helped by the First Box—Could not Lift Fifty Pounds—Cured by a few Boxes of Dodd's Kidney Pills.

Arthur, Nov. 9. (Special).—Among his more intimate friends it has long been known here that Mr. J. C. Morrison had been gradually failing in health for many years. The acuteness of his sufferings was known only to a few. His complete recovery is a surprise here and is causing much talk. Of his cure he says:—"Yes I got help from the first box of Dodd's Kidney Pills and I have taken fifteen boxes. I kept getting better every day. When I commenced I could not lift fifty pounds; now I am as strong and well as ever in my life."

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Some Interesting Details.

B BB

The B. B. B. Pipes now in use would form a chain long enough to go around the great Ferris Wheel, which was at the World's Fair, 200 times.

Each B. B. B. Pipe in course of manufacture passes through 40 hands.

The total quantity of Tobacco used in B. B. B. Pipes since their introduction amounts to 3000 tons, assuming that each Pipe sold uses 1 oz. Tobacco per week, and that each Pipe has been used one month.

The B. B. B. Pipes now made if placed one on top of another would reach 1000 times to the top of Notre Dame Cathedral, Montreal, and if stood upon their stems would reach the summit of a mountain 44 times as high as Mount Everest.

Call and examine my new assortment of B. B. B. Pipes which arrived per steamer "Queensmore," direct from the manufacturers in London, England, yesterday. The stock cannot be equalled in Canada and the assortment of Smokers' sundries will dazzle the eyes of some of our smaller dealers.

There is only one Tobacconist here who handles Cigars, Tobaccos and Pipes direct from the English and Havana makers, and that is

VENEZUELA MATTER.

Views of London Papers on the Settlement.

KING OSCAR AS AN ARBITRATOR.

St. James' Gazette Fears an Overdose of Arbitration A Suggestion That the United States is Acting as an Agent of Venezuela—General News From the Old World.

London, Nov. 11.—The United Associated Presses has been informed by the Foreign Office that King Oscar II. of Sweden and Norway will be asked to act as the fifth member of the Board of Arbitration to which the Venezuelan boundary dispute will be referred for settlement.

The St. James' Gazette asks whether the agreement will not throw into arbitration "all the sparsely settled region between the Schomburgk line and the settled territory of Guiana, which Lord Kimberley and the Marquis of Salisbury declared they would never submit to arbitration, and whereupon President Cleveland and Secretary Olney declared they should, or the United States would make them."

It adds: "If it does, it will be difficult to disprove the American claim that the agreement is a square backdown on the part of Great Britain. That the agreement includes a general treaty of arbitration is an indisputable benefit, and the decision of the committee not to report relieves President Cleveland's Government of the most serious difficulty of its own creation."

The Pall Mall Gazette thinks that hereafter disputes are less likely to occur, now that the principle of dealing directly with the little republics is set aside in favor of negotiations with their powerful protector.

The Globe welcomes the agreement "because it releases the American Government from a false and dangerous position." Continuing, it says: "Had the commission reported adversely to Great Britain it would force President Cleveland to attempt the coercion of Great Britain or eat the humblest of humble pie. No one in this country wishes to see the development of the United States retarded for half a century, as it would necessarily have been if the Government at Washington had seen fit to enter, on so trivial a pretext, upon so unequal a contest. The decision of the commission to withhold its report is an obvious but effective way out of an awkward situation."

In criticism of the tribunal The Globe refers to the fact that Venezuela is not represented, in spite of Lord Salisbury's early assertion that the question at issue only concerned the United Kingdom and Venezuela, and concludes: "It must be clearly understood that the constitution of the new tribunal of arbitration is not to constitute a precedent for arranging all further disputes between the United States and the United Kingdom in North and South America, and that we are not ready to recognise Monroeism as international law."

JOHN HAYES HAMMOND

Reports on Deep Level Mining and Speaks Well of South Africa.

London, Nov. 11.—At the annual meeting to-day of the Consolidated Gold Fields Company, John Hayes Hammond, the American engineer who was in charge of the works at the time of the disturbances at Johannesburg, and who was condemned to death, but subsequently reprieved and heavily fined as one of the members of the famous Reform Committee, presented an exhaustive report on the deep level mining. It was received with great favor. The meeting was largely attended and very enthusiastic.

At the close of the proceedings Mr. Hammond was interviewed by a representative of the United Associated Presses regarding the prospects of South Africa. He said: "The prospects in South Africa were never brighter. The recent depression in prices caused a scarcity of money and everyone was obliged to sell good securities. But the outlook is good. There has been a large gold output. The report that President Kruger will cancel the claims held by the company is untrue."

Mr. and Mrs Castle.

London, Nov. 11.—Mr. and Mrs. Walter M. Castle of San Francisco paid a visit to the United States Embassy this afternoon, and received from the officials there a copy of the official documents giving the reasons of the Home Secretary, Sir M. W. Ridley, for the release of Mrs. Castle from Wormwood Scrubs Prison. Mr. and Mrs. Castle will leave for America immediately after arranging their private affairs here, probably sailing this week.

The Chronicle, in commenting upon Mrs. Castle's case, does not quarrel with her release, but wishes that the British law were more even-handed, and that the same consideration were extended to poor as to rich kleptomaniacs.

The Daily News says, with reference to the same subject, that it was foreseen, and besides, "anything to oblige Mr. Bayard." The Standard and The Graphic both fully approve of Mrs. Castle's release.

Lothaire Must Pay for the Trousseau.

London, Nov. 11.—A despatch to The Pall Mall Gazette from Brussels says that Major Lothaire, who was sued by Miss Vanhecke for 50,000 francs damages on the ground of breach of promise of marriage, has been condemned to pay the expenses of her trousseau, but she was not awarded any damages.

Major Lothaire is the Belgian official of the Congo Free State who summarily executed Stokes, the English trader, by hanging him after a very brief court-martial, which convicted him of selling arms and ammunition to the natives.

Awful Distress in India.

London, Nov. 11.—A special despatch from Bombay says that in eleven districts of the Deccan and Concan a million and a quarter of people are believed to be on the verge of starvation. The despatch adds that riots have occurred at Shahabad and Kazod.

Senor Castillo Denies It.

Madrid, Nov. 11.—The Premier, Senor Canovas Del Castillo, denies the statement that the Spanish Government has entered into an agree ment with the Government of the United States to terminate the war in Cuba within a stated period.

The Editor Believes It Now.

London, Nov. 11.—The Westminster Gazette, in an editorial on the Venezuelan settlement, says: "The locus standi of the United States in the Venezuelan controversy, which we were at first inclined to deny, is now undisputed."

Studying the "Exportation of Cereals."

St. Petersburg, Nov. 11.—Sir N. R. O'Connor, the British Ambassador to Russia, recently visited Odessa for the purpose of studying the subject of the exportation of cereals from that port to India.

Prince Obolenski has written a letter to The Novoe Vremya, advising the sale of rye at Odessa at 40 kopecks per pood, which course, the Prince thinks, would mitigate the suffering attendant upon the famine in India.

The Queen Was Not Hurt.

Paris, Nov. 11.—A special train having the Queen of Portugal on board ran into another train this morning near this city. Two persons were injured, but the Queen was not hurt.

Russia's Good Intentions.

St. Petersburg, Nov. 11.—The Russian newspapers are making warm appeals to the people of Russia to contribute funds for the relief of the famine sufferers in India.

Children Placed in Safety

Constantinople, Nov. 11.—While counselling the American missionaries to remain at their posts in Anatolia, the intervention of the United States Minister, Alex. W. Terrell, has resulted in the removal of the children of the missionaries to places of safety.

Germany Looking for Trade.

Bremen, Nov. 11.—The Cotton Exchange has passed a resolution to contribute $7500 to send a commission of experts to Eastern Asia, with instructions to report upon the demands there for industrial commercial products.

Kruger Claims £1,000,000.

Praetoria, Nov. 11.—The Transvaal Government have decided to claim £1,000,000 sterling indemnity from the British South Africa Company, to cover the damage sustained by the Jameson raid.

The two most critical times in a woman's life are the times which make the girl a woman, and the woman a mother. At these times Dr. Pierce's Favourite Prescription is of incalculable value. It strengthens and invigorates the organs distinctly feminine, promotes regularity of the functions, allays irritation and inflammation, checks unnatural, exhausting drains, and puts the whole delicate organism into perfect condition. Almost all the ills of womankind are traceable to some form of what is known as "female complaint." There are not three cases in a hundred of woman's peculiar diseases that Dr. Pierce's Favourite Prescription will not cure.

HELD FOR THE GRAND JURY.

Capt. Buckley et he Sonora and His Crew Before the Buffalo Police Court.

Buffalo, N.Y., Nov. 11.—Henry Buckley, Captain, Joseph Ruth, Malcom McLeod and James McKenzie, the sailors of the Sonora, who are charged with having stolen a coil of rope 600 feet long from the steamer Dominion in Georgian Bay, were examined in the Police Court this afternoon. They pleaded not guilty, and were held to answer to the grand jury.

Captain Buckley stated in the Police Court this morning that the towline, which had caused all his trouble, belonged to P. G. McGann of Toronto, owner of the steam barge Dominion, whose captain's name is John Sidley. Both men, he said, were friends of his, and he was awaiting an opportunity of returning the missing tow-line to them. He said he had heard that the two fishermen tried to sell the line for $25, and for that reason he had taken it aboard his boat. It was his intention, he asserted, to place the line in a warehouse and wire Captain Sidley of the Dominion.

Don't daily with rheumatism. Purify your blood and cure it at once by taking a course of Hood's Sarsaparilla.

KILLED ANOTHER MAN.

The Indian Outlaw in the Northwest Shoots Sergeant Wilde of the Mounted Police

Winnipeg, Nov. 11.—(Special.)—Bad Young Man, the Indian who some weeks ago murdered several people on the Blood reserve at Macleod, and who has since been defying all the efforts of the Mounted Police to capture him, yesterday shot and killed Sergt. Wilde, who was attempting his capture. Wilde was a popular member of the Pincher Creek detachment. If the snow holds, the police hope to run the Indian down soon, though there may be further bloodshed before he is captured.

Attorney-General Sifton left for Brandon this evening to meet a committee representing the Liberals of that vacant constituency. He will confide to the committee the terms of the school settlement, and if these terms are considered satisfactory will announce his candidature for Brandon as Minister of the Interior.

Wheat is again booming in Manitoba, and the wily farmers who have been holding their wheat in anticipation are now getting 75 cents a bushel.

"Turn the rascals out"—the familiar partycry — may be applied to microbes as well as to men. The germs of disease that lurk in the blood are "turned out" by Ayer's Sarsaparilla as effectually as the old postmasters are displaced by a new administration.

As Well as Ever.

Dear Sirs,—After suffering for two years from acute indigestion I tried B.B.B. I took only three bottles, which made me as well as ever I was. I highly recommend B. B.B. to all dyspeptics.

Good Square Pianos

FOR A MERE SONG.

Our warerooms are overcrowded with excellent square second hand pianos which we have taken at different times as part payment on new Mason & Risch Uprights. Most of them were exchanged by the original owners, not because they were bad, but simply because they were squares and took up more room than the average modern city parlour allows of.

Most of them are in first rate order, 7 octaves, carved legs, ivory keys, iron frames and rosewood cases. They are made by such well known firms as Fischer, Heintzman, Decker, Chickering, etc. Most of them are worth about $250.00 each, though we don't intend to ask this. Now listen to our proposition.

First write us for a list and description of what may happen to be on hand at the time of writing, giving us some idea as to what you would like, and how you wish to pay; whether cash down or on terms; if on time how much time how much down you can pay and how much per quarter.

On receipt of this information we will make the best possible selection and ship it to you FREIGHT PREPAID ON APPROVAL. If you do not like it, SHIP IT BACK. IT WON'T COST YOU ANYTHING. If you like it we will await cheque (if cash) or send you the usual papers for signature. The price of no Piano is to exceed $150.00 and many will be less.

If you have ever heard of a fairer offer than this, let us know of it.

If you prefer a good second hand Upright of course it will cost more, but write us all the same; it is no trouble to answer questions and give quotations and terms; that's what we are here for.

Herr Kleiser at the Opera House. Interesting Programme from "Our American Cousin." Prices 25c. and 35c.

Committee of the Whole.

A committee of the whole council is called for to-morrow evening. The electric lighting contract matter will come up for discussion regarding the points of difference between it and the by-law, and an effort will also be made to settle the fire protection account with the Ashburnham council.

City Bakery Changed Hands.

I beg leave to inform my customers that I have sold my Bakery Business to Mr. A. E. Sims, a practical baker, who will in future continue the business. I take this opportunity of thanking my patrons for their liberal patonage and can confidently recommend my successor as a first-class baker. E. J. LAING.

Look Out for Crooked Straits Coin.

A considerable number of silver coins from the Straits Settlements are finding their way into circulation here. As they are of the familiar denominations, 10, 25 and 50 cents, and bear the stamp of Her Majesty's head, they are readily accepted at their face value. These coins are not tokens redeemable directly or indirectly in money of greater bullion value. They are worth little more than half their face denomination and should be accepted accordingly

AUBURN LODGE, I.O.G.T.

Hold a Musical and Literary Entertainment Tuesday Evening.

Auburn Lodge, I.O.G.T. Tuesday night held the second of the series of musical and literary entertainments. The house was full and the programme well rendered. The dialogue by five members of the lodge brought down the house. It was well rendered. Miss Ida Melrose kindly presided at the organ.

PROGRAMME.

Opening hymn, "Yield not to Temptation".....
Prayer ..... Rev H Symonds
Chairman's address ..... Rev H Symonds
Quartette ..... Misses Bellegham and Motherall and Messrs Brown and Harvey
Recitation ..... Miss Bessie Powell
Selection ..... Roberts Company
Solo ..... Miss Hattie Courtney
Recitation ..... Miss Eva Rutherford

Intermission.

Dialogue, "From Down East." ..... Messrs. G Pratley and V Labar, and Misses A Carter, B Campbell and I McClelland
Selection ..... Roberts Company
Recitation ..... Miss Holmes
Duet ..... Misses E and L Hill
Recitation ..... Miss Bessie Powell
Instrumental ..... Miss Mabel McIntyre
Reading ..... Mr G W Powell

God Save the Queen.

CAUGHT AT LAST.

Charles Haggart Heavily Fined for not Having a Proper Hunting License.

For the last three or four years the Deputy Game Wardens in the northern part of Peterborough County have been watching an American citizen named Charles Haggart, who has made that region his annual rendezvous during the deer-hunting season, and who, they had reason to believe, was yearly violating the game regulations. In 1893 a strong effort was made to capture him, but he eluded arrest.

A few days ago Deputy Game Warden Smith heard that he was again in this country, and went out in the woods expressly to see him. On asking him for his license he produced a settler's, which costs only $2.00, instead of a non-resident's permit, which costs $25, and he was promptly fined $40 for the offence.

THE CELLS AT THE POLICE STATION.

The Floors Do Not Slope Enough—A Change Necessary.

The Chief of Police called the attention of the Mayor this morning to the fact that the cement floors in the new cells were too level and did not slope to the sewer trap as intended.

Water was emptied on the floor at different points in the cells and in no case did it run to the trap, but, on the contrary, lay and formed a pool to soak into the floor.

The Mayor will make arrangements with the contractor to so lay the cement as to have a fall of several inches between one end of the cell and the other. When he was looking over the work this morning he gave orders to have wooden head-rests placed at the ends of the benches.

IT WILL NOT DIE.

Singular Longevity of a Mud Turtle Under Peculiar Circumstances.

Mr. Lyman S. Terrill, the Hunter street gunsmith, has been anxious for some time to secure a mud turtle, as he wanted the shell of one.

Two weeks ago to-day he ran across a small turtle down by the river and, catching it, got a friend to draw out the head, which he cut off, but he is still, apparently, as far off as ever from getting the coveted shell, as the turtle absolutely refuses to die, and though it has been without a head for the last two weeks is still as lively as ever.

Any suggestion as to how he may put the turtle out of its pain and at the same time preserve the shell will be thankfully received, as the owner does not wish to skin the turtle alive, and yet cannot think of any other way to get the shell.

We "Meat" Everybody

At our store, and tender tender meat to our patrons. Our mutton is sold as mutton—not spring lamb. Same with beef—cuts are sold as such. Yet the people keep coming to JOHN J. HOWDEN'S Meat Store, 416 George street. Telephone 20.

Madame Albani.

The Dominion Line steamer Vancouver sailed from Liverpool on Friday last. Among her list of passengers is the celebrated Madame Albani, who, with her company, will disembark at Rimouski. A special train will be ready on the arrival of the Vancouver to convey the party to the west.

MRS. KLEINGENFIELD

Of Toronto, Teacher of Vocal Music, Piano and Theory, will be at the HUFFMAN HOUSE on Tuesday's. 3d113

New Fancy Goods Store.

Mrs. Appleby wishes to inform the ladies of Peterborough that she will open out on Saturday, November 14th, a stock of fancy goods at 426 Water street, south of Mason's greenhouse. A share of your patronage is respectfully solicited. Look out for new advertisement next week. 4d112

New Sausage Making.

The enterprising firm of Messrs. Kennedy & Nelson have put in a new electric motor in their store for driving the machines required for making their own sausage. The chopping, working and filling machines are placed in the basement of their store, under the motor, where a complete sausage room has been fitted up for the purpose. The firm claim to turn out the most toothsome article of the kind by a formula combining a superior quality of meats with other wholesome and reliable foods.

Appointed Inspector.

Dr. F. L. Robinson, V.S., this afternoon received a telegram apprising him of his appointment as Government Inspector for this district, in order to comply with the United States regulation, which requires all sheep imported from Canada to bear with them a certificate that there is no disease in the district from whence they came. Dr. Robinson has been performing similar work for some time for the Customs department. The inspector for the Belleville district is Wm. Ackerill, V.S., and for the Lindsay district, Dr. Kenney, V.S.

Asking for a Renewal.

A petition is being circulated by residents of Seymour who fish for "bullheads" or "mudcats" in Bradley Bay and down the Trent waters to Chisholm's rapids, asking the Government to continue the issue of licenses to catch these fish by means of nets. It is set forth in the petition that "mudcats" destroy the spawn and small fish of all game and scale fish, and that up to within a few years ago scale fish were nearly exterminated. The petitioners claim that pike and pickerel have become more numerous since the nets have been in use in the removal from the waters of "mudcats;" and they use the plea, also, that those engaged in fishing have expended considerable money in boats, nets and buildings. Many copies of the petition, which is addressed to the Minister of Marine and Fisheries, have been put into circulation, and a large number of signatures will be received.

ARCHIDIACONAL CONFERENCE.

To be Held in St. Peter's Sunday School, Cobourg, on November 17th and 18th.

The third Archidiaconal Conference of the Archdeaconry of Peterborough, will open in St. Peter's Sunday school, Cobourg, on Tuesday and Wednesday, 17th and 18th. The Venerable Archdeacon Allen, of Millbrook, will be the chairman. Between fifty and sixty delegates, from Peterborough, Northumberland, Durham and Haliburton will be in attendance.

The programme will open at 9 a.m., on Tuesday with a Celebration of Holy Communion, followed by devotional meeting conducted by Rev. Canon Macnab, the Archdeacon's address and election of officers and representatives. The programme continues as follows :—

2 p.m. to 5.45 p.m.—The proposed division of the Diocese of Toronto.

(a) The Early Church our pattern in the organization of a diocese—Rural Dean Cooper, M. A., S.T.B., (20 minutes.)

(b) What are to be the limits of the new diocese?—A. L. Colville, Esq., Campbellford. (15 minutes.)

(c) What amount of money is required and how can it be raised?—John Burnham, Q.C., Ashburnham; F. E. Hodgins, Esq., Toronto. (15 minutes each.)

8 p.m.—Evening prayer and sermon by Rev. Herbert Symonds, M.A., Ashburnham.

WEDNESDAY SESSION.

9 a.m.—Morning prayer in St. Peter's church.

10 a.m. to 1 p.m.—The work of the church amongst the young.

(a) Public Catechising—Rev. G. H. Webb, Colborne, (15 minutes.) Rev. J. C. Davidson, M. A., Peterborough. (15 minutes.)

(b) Preparation of candidates for confirmation—Rev. C. B. Kenrick, M. A. (15 minutes). Rev. Canon Harding. (15 minutes.).

(c) Young People's Association—Miss Eyre, Cobourg; R. E. W. McGaffey, Esq., Lindsay. (15 minutes each.)

2.30 p.m. to 5 p.m.—The Parish.

(a) Church Social Gatherings—Rev. Canon Farncomb, M.A., R. M. Dennistoun, Esq., B.A., Peterborough. (15 minutes each.)

(b) Can we simplify the arrangement of the Prayer Book?—Rev. J. Creighton, B. D. (20 minutes.) Rev. G. Warren, M.A. (15 minutes.)

8 p.m.—Missionary Meeting in St. Peter's School House, Foreign Mission Work in Japan—Rev. T. C. Street Macklem, M. A., Toronto. (20 minutes.) China—Rev. C. H. Marsh. (20 minutes.) Africa—Rev. E. Daniel, M. A. (20 minutes.

HERE'S A GOOD IDEA.

Which it is Given for What it is Worth by Ex-Councillor Cobb.

There has been a great deal of talk on the streets lately about the size of the broken stone which has been placed on George street, and a great deal of dissatisfaction is expressed, the complaint being that it is too coarse, not being broken fine enough.

The requirement generally is that the stone be crushed to a size sufficiently small to go through a two-inch ring.

Ex-Councillor Cobb thinks the town should purchase a stone crusher for itself, and points out a way in which it could be gotten for little or nothing. He thinks that the bicyclists would not object to each paying a nominal tax per wheel, if the streets were improved, and they were allowed to ride on the sidewalks when the roads were not in good condition. All danger of collisions, he thinks, could be overcome if the wheelmen were not allowed to go faster than four miles an hour, whilst on the sidewalk.

PERSONAL

Mr. G. M. Robinson was in Lindsay yesterday.

Mr. Fred Lefevre was down from Lakefield to-day.

Rev. Mr. Roger of St. Catharines, is the guest of his brother, Mr. G. M. Roger, and will make Peterborough his home for the present.

Mr. Andrew Macfarlane of Homewood avenue, left this morning for Milwaukee, on business for the Wm. Hamilton Manufacturing Company.

The Port Hope times in commenting on the Myra Collins Company says :—The company has several stars, chief among which is Myra Collins, bright and piquant as ever, and "Dan" Simons, the clever comedian and knock about artist. Dan is an old Peterborough boy and a delegation of Peterboroughites are coming down some night this week to see their favourite in professional roles. Last night Dan brought down the house and had to respond to four encores. He is a whole show in himself.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—All members of City Lodge, No. 404, I. O. G. T., are particularly requested to be present this evening, as the installation of officers takes place. The reports of the retiring officers will also be read.

—If you want to economize burn the People's Coal Co'y's coal. All kinds of coal in stock, including best hard coal for stoves and furnaces, soft coal for grates, and smithing coal. Office—230 Charlotte street. Telephone 366.

—The steamer City of Peterborough arrived in port last evening, after several weeks' dredging at the mouth of the Keene and Otonabee rivers, Rice Lake. She will be placed in her winter quarters at the locks, as soon as the steamers North Star and Beaver are through hauling wood and lumber to town for the Dickson Co., and various coal and wood dealers.

Johnston's Veterinary Offices and Stables.

Mr. Thos. Johnston, V. S., has completely renovated and remodelled his office and infirmary as well as his boarding and livery stables, on Chambers street. The changes in his office have effected improvements and conveniences which will be much appreciated by his patrons, as well as contributing to the doctor's own comfort and advantage. The whole interior has been re-arranged, re-painted and re-furnished, and will be recognized by those who may require the doctor's professional services as a move in the right direction. The livery and boarding stables have also been thoroughly overhauled, the sanitary arrangements for the health and comfort of horses having received careful attention. These long-established premises, being so conveniently and centrally situated, continue to enjoy a large share of patronage, and the genial proprietor is determined to keep them in first class condition.

Giving up Business.

It will be with a feeling of general regret that the public will read the announcement in another column of the EXAMINER, that in consequence of impaired health, Mr. C. B. Routley has decided to give up business for a time. Ever since a severe attack of la grippe last winter, Mr. Routley has suffered from ill health; and and he has been advised to seek a season of rest. This decision involves the selling out of his present large and valuable business on George street, as well as the whole of his real estate and other properties. He therefore announces that on Saturday morning, 14th inst., he will commence an unreserved clearing sale of his splendid stock of fancy goods, wall papers, window shades, china, glassware, lamp goods, trunks, etc., and as the business must be wound up before the 31st of December, the sale must be made a sweeping and decisive one. The sale of his real estate and other properties will be publicly announced in a short time. Mr. Routley has been one of our most industrious and successful merchants for the past fifteen years, maintaining a clean financial record, while diligently engaged in building up a lucrative and well established business. It is to be hoped that in the sacrifice he is making to procure better health he may not be disappointed, and that he may be encouraged at no very distant date to set up business again in Peterborough, where he has lived and prospered long enough to form a strong attachment for our citizens and their environments.

SIXTEEN SHEEP KILLED.

This Time it is Mr. John Armstrong's Flock Which Suffers.

When Mr. John Armstrong of North Monaghan, looked out into his pasture field this morning he saw his fine flock of sheep in a most demoralised condition.

During the night dogs had made a descent on the farm and had wrought terrible damage.

No less than sixteen lay dead or dying, and as the sheep were in fine condition the loss will be a heavy one.

Mr. Armstrong's farm is near that of Mr. Bennett, who lost thirty-three sheep only last week in the same manner.

The way in which the two flocks were mangled indicates that the slaughter is the work of the same dogs, and it is thought that they belong to the town, and having acquired a taste for blood will never cease until a bullet puts them out of the way of doing further harm.

PETERBOROUGH PRESBYTERY

A Special Meeting Held in Hastings on Monday.

The Presbytery of Peterborough met in the Presbyterian church, Hastings, on Monday afternoon, and sustained the call of the Havelock congregation to the Rev. S. O. Nixon, of Hollen.

Provisional arrangements were made in the event of Mr. Nixon accepting the call, for his ordination and induction.

Rev. Mr. Potter of Peterborough is to preach, Rev. Mr. Somerville of Norwood to preside, Rev. Mr. Johnston of Millbrook to address the minister, and Rev. Mr. Laird of Campbellford the people, on Tuesday, Dec. 1st.

PIPES! PIPES!

Why pay 25 to 50 per cent. more for a Pipe, when you can save that much by buying at Clegg's Retiring Sale? Pipes, Pouches, Tin Tobaccos, Cigars by the Box, all at cost price. E. B. CLEGG.

New Licenses.

Engagements can be made by W. J. Green, to call on parties wanting Marriage Licenses, either at their own homes, the homes of their friends, or at hotels, which may be most conveniently and promptly arranged by letter or otherwise.

W. J. GREEN,

Merchant Tailor and Issuer of Marriage Licenses, 145 Hunter Street.

Residence—No. 375 Brock Street.

BELOW THE MARKET

C. B. ROUTLEY, 379 George Street.

Daily Examiner.

THURSDAY, NOVEMBER 12, 1896.

LOCAL NEWS.

Boy's Overcoats, sizes 22 to 28, single and double-breasted styles, with and without capes, regular $3 to $4, Grafton's Special Price..... **$1 98**

Hog Cholera.

Over 700 hogs have been slaughtered in Essex in the effort to stamp out the hog cholera. The Dominion Government has paid about $1,000 as compensation to the owners.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 20 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Duck Shooting.

Messrs. Ab. and Joe Mitchell, accompanied by Bert Roberts, left this morning for the duck shooting regions of Rice Lake. The boys will have excellent sport as the weather is colder. Hartley and Frost are still there, and will remain till the season closes. They are having great luck.

The Second of the Series

Of entertainments under the auspices of the Catholic Literary Association, will be held in their hall, George street, on Tuesday evening, 17th instant. A first class programme will be presented. Admission 10 cents.

Trout Ponds.

Mr. W. E. Sherwin, from Alnwick, was in town Thursday for the purpose of taking home 3,000 to 5,000 brook trout that were shipped to him from Credit Forks hatcheries. These trout were from three to six inches long. Mr. Sherwin has constructed a series of trout ponds on his farm, about two miles east of Harwood, and expects to make a success of it.—Cobourg World.

TO-NIGHT! TO-NIGHT!

Herr Kleiser at the Opera House. Interesting Programme from "Our American Cousin." Prices 25c. and 35c.

Delegates from St. Basil's.

At a meeting of St. Basil's Catholic Union, Toronto, last evening, Messrs. M. J. Kenny and J. Thompson were appointed delegates to maintain the negative in a debate before the Peterborough Catholic Literary Society, on the resolution:—"Resolved, that the Canadian Senate be abolished." Both gentlemen are law students in Toronto and give promise of turning out good speakers. Mr. Thompson is a son of the late Sir John Thompson.—Toronto Mail.

Caught a Tartar.

A Rochester lawyer fomented a libel suit against a newspaper for the sake of getting a job. The newspaper people didn't sit down and quietly wait for a jury to assess the damages. They hunted into the innermost recesses of that lawyer's past history. The result was that they had him struck off the rolls as a barrister and also indicted for and convicted of grand larceny. When he gets out of jail and strikes a new job street car driving or some other lucrative calling, he will probably leave newspaper libel suits severely alone.

Are you Purse-less?

Probably you think you don't need a purse, or can't afford to buy one. We can supply purses for extra slim pockets, and before you lose any more coin let us help you to look after your finances. Buy them here, from half a dime up. Ladies can have a solid leather purse, silver mounted, for a quarter, or a purse and card case combined for half-a-dollar. But 60c. will make you the owner of a stylish calf-skin purse, richly silver mounted. The best dollar purse ever shown at the Peterborough Bookstore. A. H. STRATTON & Co.

Trent Valley Canal.

Mr. C. Gordon, foreman on the Trent Canal above Hastings, informs the Hastings Star that already there has been removed out of the main channel up to Oak's Point, 1,100 boulders, seven of which had to be blasted. There are five more to be blasted, and Humphries' bar is not yet reached. A channel seven feet deep is being cleared and made from Hastings to Rice Lake, and sufficiently wide to meet all future needs. This will make navigation easy and safe for the largest boats now floating on the Trent waters.

A Tip To Men.

THERE ARE MANY EXCELLENT WEAVES OF UNDERWEAR IN THE MARKET, AND WE KEEP THE CREAM OF THEM—BUT NONE THAT WILL GIVE SUCH COMFORT, SUCH A SENSE OF DOWNY WARMTH, AND SUCH SATISFACTORY WEAR AS

Our "Health Brand"

Undershirts and Drawers

YOU NEED TO WEAR THEM TO HAVE A PROPER IDEA OF THEIR LUXURIOUS FEELING.

Mercer's

AMONG THE MINES.

A Former Peterborough Boy Writes of a Visit to the Gold Fields of British Columbia.

Mr. Joseph Armstrong, town has received a letter from a former resident of Peterborough, Mr. Frank G. Walsh, the following extracts from which will doubtless be of interest:

"I remained at Glacier for about two weeks, and joined some friends on a trip to the Kootenay, visiting the now famous Rossland district and other points. I can assure you in regard to the mineral deposits in this country, not half has been said as to their immensity. There is no question in my mind that the coming season will witness a progress in mineral development that Canada has never seen, if indeed any other country. The investments are mostly all legitimate and devoid of that fatality to healthful commerce, namely, boomomania. There are in what is called "The Kootenay," various kinds of mineral deposits, and numerous at that. In East Kootenay, at a point in the Crow's Nest pass through the Rockies, active operations have been in progress for two years, notwithstanding the physical disadvantages as to transportation of the ore to reduction works and smelter, which is effected by various means, and a handsome profit realized by the enterprising operators. There are valuable "finds" in East Kootenay, but the world's attention is especially drawn to Trail Creek or Rossland district. Marvellous enterprise has been displayed by American capitalists who greedily secured the good things, without bantering for a decade. Two years ago there was no means of treating the ores from Red Mountain, on the side of which Rossland is built. A German American learned of the body of ore and visiting the owners or bond-holders of the now famous Le Roi mine, made a proposition to construct a railway ten miles east down a grade 1,400 feet to the Columbia river, and at this point, Trail, build a smelter where the ore would be reduced to a "matte," i. e., solid minerals in conglomerate. From Trail there is navigation and other facilities for transportation from points along its banks. When I visited this district the railway was in operation carrying from 100 to 150 tons per day of the ore to the smelter, treating the same and shipping to the refinery. To-day the Le Roi alone is having treated by this smelter 250 tons per day. You can appreciate what there is in this when I tell you that there is about $13 per ton net for mine owners. Red Mountain is believed to be entirely mineralised, and it is no Ontario mound; it is a mountain. There are many other mines in operation on the same mountain, notably amongst them the "War Eagle," which ranks in the minds of many posted persons as being superior to the Le Roi, for the reason that it possesses the same mineral, and its drifts, shafts and other appointments have been done with clearly greater practical utility and permanence. All along the Columbia River, down which I sailed on a magnificent steamer from Revelstoke, an important station on the main line of the C.P.R., small and flourishing towns have sprung up and short line railroads make connection with the steamers from point to point. These roads have become necessary to carry out the product of the mines. The product from the Slocan district is chiefly what is termed galena ore, while the Rossland or Trail Creek is iron sulphides carrying gold and other minerals of value. This ore is very rebellious and the treatment of the same at the smelters must be proceeded with a full knowledge of the necessary flux, which of course the institution has prepared. Slocan district is up the Columbia, nearer the main line of the C.P.R. than Rossland. East again of the Slocan district is a very extensive district called The Lardeau. It is claimed that this district is by far the richest district in British Columbia. I am in a measure impressed with these claims for the reason that in 1890 I was in correspondence with a prospector who had gone over the Kootenay pretty well and in his then letters he advised me similarly.

THE BELMONT MINES.

A Description of the Progress Made and the Results.

A Toronto World correspondent is taking a trip through the mining region of Peterborough and Hastings counties and speaks as follows of the Belmont mine:

Having taken in the chief mispickel ore-bearing properties in the neighbourhood, my next visit was to a mining section situated about eight miles northwest from Marmora, and therefore more than 12 from Deloro. The gold district, which is about 15 miles long by 5 wide, extends over portions of the townships of Belmont and Marmora, in the counties of Peterborough and Hastings respectively. The formation here found is a diorite with dykes of Huronian syenite, intersected with ore veins carrying gold in iron pyrites. The absence of arsenic is a point in favour of the profitable working of the properties in this belt.

PAVED WITH GOLD ORE.

The discovery of the Belmont mine occurred quite by accident. For upwards of sixty years the township road, which runs through the property, was travelled by wayfarers, who knew not that the thoroughfare was literally "paved with gold." One day, not many years ago, Mr. A. W. Carscallen, M.P., when out prospecting for asbestos, noticed an outcropping of quartz by the wayside and, jumping out of his buggy, found that an extensive vein of rich ore ran beneath the surface of the road for a hundred yards or so and then struck out across a ridge in a neighbouring field. A little careful prospecting showed the existence of several outcroppings of quartz in the neighbourhood, and development operations were soon proceeded with.

The Belmont gold mine, which is held by Mr. Carscallen, includes the east half of lot 20 and the southeast quarter of lot 21 in the 1st concession of Belmont, in the County of Peterborough, and also the west half of lot 20 in the 1st concession of Marmora, in the County of Hastings, about 357 acres in all. The Ontario, Belmont and Northern Railway, which runs across one corner of the property, joins the Central Ontario Railway ten miles away, and via the C. O. R. connects with the C. P. R. and G. T. R. to the south.

THE ORE DEPOSITS.

The ore deposits consist of a system of quartz veins, more or less decomposed at the surface and carrying sulphurets of iron and traces of copper. In a personal survey of the property I examined four distinct veins, all having a more or less similar trend and a southerly to southwesterly dip. The sulphurets are scattered through the quartz gangue of the veins with occasional streaks and bands near the walls of chloritic schist, which are persistent throughout the course of the veins.

The four strongly defined veins I examined are known as the Main, Centre, O'Neill and Chisholm veins, and more or less development work has has been done upon all of them.

Beginning at the main vein near the road, I visited the main shaft, which has been sunk first vertically, and then following the dip of the vein to a depth of 132 feet. The vein shows distinctly all the way down. At the surface it is only 3½ feet wide, but on descending it widens to 12 feet, pinches lower down to 1½ feet and widens at a still greater depth to six feet, which width it maintains to the bottom of the shaft. A spur was noticed 50 feet down coming in from the north. Near the surface the ore was found to be more or less oxidized in character, but below this the vein matter is a hard, white quartz containing sulphurets in variable quantities.

GOLD PANNED.

After crossing a swampy hollow I found the main vein following the true course, cropping out again in the side of a knoll. Here a cut has been driven into the hillside, and a shaft of some depth sunk. At the mouth of the cut the vein measures 10 feet across, and the hanging and foot-walls are seen to be of the orthodox kind. The walls are chlorite and the vein matter is quartz, stained and brown from the decomposed sulphuret of iron. From a panning of the decomposed and crumbled quartz here obtained I secured a nice showing of coarse-grained gold-dust.

The quality of the ore may be judged of from the following assays made by the celebrated authorities, Ricketts & Banks, of New York: A sample of ore from the bottom of the shaft in the main vein assayed $14.88 in gold per ton; a sample from the first cut on the main vein, $13.12; a sample from the pit east of the second cut on the main vein, $45.06; sample from O'Neil vein, $6.12. sample from ore pile in shaft house, $14 47; sample of best selected ore, $68.62; sample of concentrates, $448 54.

The buildings upon the property consist of a shaft house over the main vein, 30x18 feet: a boiler house attached, 24x11 feet; a mill convenient to the shaft house, 30 x 32 feet; ore shed, 33 x 20 feet; assay office, blacksmith shop, pump house, powder magazines, boarding house, stables, etc. The plant includes stone crushers, ore mills, pumps, engines, boilers and general mine fittings.

The property has considerable wood and water upon it, and more is easily obtained in the neighbourhood. These circumstances would go to reduce the cost of operating the mine, which is at present idle owing to the inadaptability of the present plant to the ore, shown by the quantity of gold to be got by panning out of the refuse tailings.

Ricketts & Banks are authority for the assertion that the results obtained indicate the existence of a satisfactory supply of marketable ore, and that if the mine were economically developed it would prove a highly remunerative property. In fact the average assay of samples of ore from the mine is $10 to the ton, while the cost of mining and shipment should not exceed $4—leaving a profit of $6 per ton.

Surely then the Belmont mine is another proof of the wealth of Peterborough county if once it can be got at.

LIST OF AUCTION SALES BY JOHN HAGGART.

Nov. 13th—Farm Stock and Implements of Mr. Thomas Murray, Douro. The sale begins at 1 o'clock.

JOHN HAGGART, Auctioneer.

See posters.

THE HUNTER'S MOON.

The hunter's moon climbs slowly up
The vaulting arch of azure sky;
Its glory falls in forest dells,
And on the lake hard by.

It tips the antlers of the stag
Who proudly stands at bay,
And shows the bullet holes in trees
A dozen yards away.

Can Rheumatism be Cured?

The application of Nerviline—Nerve pain cure—which possesses such marvellous power over all nerve pain, goes greatly to prove that it can. Nerviline acts on the nerves, soothes them, drives pain out, and in this way gives relief. Try it and be convinced.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

LACROSSE.

The Port Hope lacrosse boys are putting on an assembly in that town. It is hardly probable that any invitations will come north, but at a recent meeting of the lacrosse club it was decided that in case a "bid" was received that Mr. Dan Foley would be the local delegate.

THE WHEEL.

A case interesting to bicyclists has just been decided in the English courts. A newspaper gave to its subscribers an insurance policy on the coupon system, and a bicyclist, who was killed while riding, held a coupon for £1,000. Payment of this claim was resisted on the ground that bicycles are not included in the terms "passenger train, passengar steamer, omnibus, tram car, dog cart, coach, carriage, or other passenger vehicles. The case was tried before Lord Kyllachy, who held that a bicycle was not covered by the foregoing description any more than a pair of skates, and gave a verdict for the company.

Lord Kyllachy may be a very astute judge, but he has evidently take a one-sided view of the case. Municipalities have the power to exclude bicycles from the sidewalks, because they are vehicles. The courts have again and again held that on the public highway they were entitled to the ordinary rights of vehicles.

Now, an English judge to base a decision, declares they are not vehicles. His comparison with skates is absurd. He might as well have said shoes. A vehicle, according to Webster, is that which is used as the instrument of conveyance or communication. Now, because the rider furnishes the motive power surely that does not prevent a bicycle being called a vehicle? But according to this decision a bicycle is not a vehicle. According to other decisions it is a vehicle. Now what is a bicycle legally, anyway?

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eyes.

Mr. R. Youall, the new G.T.R. bridge inspector, has removed his office from Stratford to Palmerston.

The engine and coaches of the Owen Sound train were covered with snow yesterday when they reached Toronto, having passed through a fierce storm.

It is understood that both the Grand Trunk and Canadian Pacific lines have decided to close up their city ticket offices wherever possible owing to the expense of maintenance.

It is rumoured that the Grand Trunk trainmasters have decided to engage none but experienced brakemen in the future, believing there are plenty of trained men to meet all demands.

A new style of locomotive which is expected to make 100 miles per hour has just been completed at the Maryland Steel Works for the Balanced Locomotive and Engineering Co., of New York. The engine has four cylinders—two high pressure and two low pressure—and is of gigantic proportions. It will be given an official test in a few days.

Electric Lamps.

China Hall has a full assortment—4, 6, 10, 16 and 32 candle power—at lowest prices

New Furniture.

At A. Clegg's:—A large assortment of floor rocker cobler seats, in oak, natural birch and mahogany finish. These are of superior styles and finish and very cheap. Also a lot of reed and rattan rockers—cheap! cheap! Several cases of pictures, good subjects, complete, at less than you have been accustomed to pay for frames only. A. CLEGG, 427 George street.

Cutting up pranks with baby is great fun for a young mother. But before she can cut pranks with the baby she must have a healthy baby. A puny, sickly, peevish baby has no use for pranks. It lies in every young mother's power to insure the health of the expected newcomer. If she will see that the organs which make motherhood possible are healthy and vigorous, and will keep them so during the period preceding maternity, she may be sure that the baby will be healthy and happy.

A marvelous medicine for young mothers is Dr. Pierce's Favorite Prescription. Taken during the period preceding motherhood it makes strong, healthy and vigorous the organs upon which rest the burdens of maternity. It allays inflammation, soothes pain, and restores steadiness to the nerves. It does away with the discomforts of the expectant period. It insures the health of baby and makes its coming easy and almost painless. It is the discovery of an eminent and successful specialist, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

"I took Dr. Pierce's Favorite Prescription before my confinement, and I was only in labor a short time," writes Mrs. Minnie A. Peterson, Box 5, Reston, Fresno Co., Cal. "The physician said I got along unusually well. I think the medicine saved a great deal of suffering and I get all my friends who need it to try it."

One of the best-known of American medical men said: "If you want to reform a man, begin with his grandfather." That would be wise if it could be done. Since it cannot be done, try something else. Reform the future grandfathers and grandmothers. Do this through education. The greatest thing for a man or woman to know is himself or herself. To know one-half the capabilities and disabilities of the human body is a liberal education. A good start for this education is Dr. Pierce's Common Sense Medical Adviser. Any one can have this finely illustrated 1000-page book for the small price of thirty-one one-cent stamps. This is simply to pay for customs and mailing. If you would like the book in fine cloth binding instead of paper, send fifty stamps to World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

THE KNIGHTS OF LABOR.

Opening of the General Assembly at Rochester—The Meeting Was Secret—What They Will Demand.

Rochester, N.Y., Nov. 10.—The regular session of the General Assembly of the Knights of Labor opened here this morning. There are about 100 delegates present from different parts of the United States and Canada.

General Master Workman Sovereign presided and introduced Charles Wright of this city, who welcomed the delegates and afterwards introduced Mayor Warner, who delivered an address. General Worthy Foreman M. J. Bishop of Boston replied to Mayor Warner, in which he stated the objects of the order.

T. B. McGuire, of Amsterdam, a member of the Executive Board, delivered an address, which was greeted with much applause.

Mrs. Ford of Rochester, the only woman delegate, also made an address, after which the meeting went into executive session.

The meeting throughout was strictly secret nothing being given out except through the members of the Press Committee appointed by the General Master Workman, but a representative of the Associated Press was informed from a very reliable source that one of the most important deliberations would be the subject of tariff. He was informed that the present Congress will be asked to take the tariff off window glass and that they will be backed by some of the leading senators in the United States Senate who formerly favored a tariff on that product.

THE C.P.R. OPERATORS.

A Final Understanding Reached and an Agreement Signed Which Holds Good for One Year.

Montreal, Nov. 10.—(Special.)—For the past few days a conference has been going on between Mr. C. W. Spencer, superintendent of the Eastern Division of the C.P.R., seven of the divisional superintendents and seven delegates representing the train operators in the same divisions. Quite a few matters were discussed and grievances were gone into and this evening a final understanding was reached and an agreement signed regarding the men's duties, pay, etc., which will hold good for one year. All parties state that the differences have been disposed of in a manner satisfactory to the men and the company.

H.M.S. INDEFATIGABLE

Has Been Placed in Commission and Will Sail for Bermuda.

Halifax, N.S., Nov. 10.—The British warship Indefatigable, a sister ship of the Intrepid, has been placed in commission at Portsmouth, and proceeds to Bermuda to take the place of H.M.S. Mohawk on this station. It is estimated that it would take six weeks to two months to repair the disabled steamer Tyrian at Bermuda. The voyage for Halifax from Havana has been abandoned, and arrangements are being made to forward the cargo from Bermuda to its destination. The Tyrian is 1000 tons gross. She is managed in New York.

Deseronto Man Drops Dead.

Deseronto, Nov. 10.—Thomas Moyse dropped dead in his own house yesterday morning. He had been suffering from lung trouble during the past year. Deceased, 44 years of age, came here from Cobourg a number of years ago, and was connected with the machine shops. He was about on Saturday and had made all arrangements for starting to Alberta, N.W.T., today, thinking that the change would benefit his health. The remains will be conveyed to Cobourg to-day for interment. He is survived by his second wife and three children.

Plenty of Money Now.

Madrid, Nov. 10.—It has been decided by the Government that the first subscription to the new Spanish loan of 400,000,000 pesetas, which will be issued next Saturday, shall be limited to 230,000,000 pesetas, the remainder of the loan, amounting to 150,000,000 pesetas, to be postponed, as the Government has no present need of the money.

WE WANT TO KNOW.

Not a Single Reply to our Question—Not a Failure to Cure—A Half-Million Users of Dodd's Kidney Pills Satisfied.

Toronto, Nov. 2 (Special)—Without a single reply, for over two years, we have advertised this question:—"Does anyone, anywhere, know of any case wherein Dodd's Kidney Pills have failed to cure any kidney disease at any stage?"

We estimate that a half million people must have joined in using the two and a half million boxes already sold in Canada, and yet not a single complaint—not one failure to cure.

Now, reader, here's one for you:—Do you know of a death from kidney disease or of heart failure, the victim having used Dodd's Kidney Pills?

Shiloh's Cure

Is sold on a guarantee. It cures Incipient Consumption. It is the best Cough Cure. Only one cent a dose. 25 cts., 50 cts., and $1.00. Sold by John Nugent, 389 George Street.

THE BUSINESS BOOM.

Further Reports Showing How Trade is Reviving and Men Securing Work Across the Line.

Richmond, Va., Nov. 10.—The Tredegar Iron Works has started up its spike mill, which gives a considerable number of men employment.

Orders for Tin Plate.

Harrisburg, Pa., Nov. 10.—John Motter of this city is in receipt of a letter from his brother, Philip Motter, who is one of the members of a firm operating a big tin plate and glass plant at Anderson, Ind. In the letter Mr. Motter states that since the election of McKinley the firm has contracted for some $300,000 worth of tin plate and also expects to start its glass plant at once.

Cambria Steel Works to Open.

Johnstown, Pa., Nov. 10.—It was authoritatively announced that the great Cambria steel mills, which have been closed down for some time, will resume work the latter part of the week, giving employment to a large force of men. The company hopes to put the blooming and billet mill in operation about the same time.

Half a Million in Gold.

Philadelphia, Pa., Nov. 10.—For several days heavy deposits of gold have been made in this city, the total amounts received by banks, trust companies and savings funds being placed at $500,000.

Will Double the Output.

Hollidaysburg, Pa., Nov. 10.—The Hollidaysburg Iron and Nail Co., and the Eleanor Iron Co. of this city, the Portage Iron Co. of Duncansville, and the Alterna Iron Co. of Alleghany, have resumed operations in all departments. The Pittsburg Limestone Co., chiefly controlled by Andrew Carnegie, has leased extensive lands at Canister near here, and will double the output of its quarries in this country.

Wages Increased.

Baltimore, Nov. 10.—The John S. Gibbs Co., one of the largest canning industries in the State, has increased wages 25 per cent., to take effect at once.

THEY'RE OUT OF A JOB.

The Venezuela Commissioners Met at Washington, but They Expect to Have Nothing to Report.

Washington, Nov. 10.—The Venezuelan Commission met to-day, with all the members present. The report of Prof. Burr, who has been at the Hague studying Dutch archives, was received and the Professor was heard on it.

Mr. Malet Prevost, secretary of the commission, made the following statement after to-day's session:

"The statements of Lord Salisbury, as reported in the morning papers, make it probable that the boundary dispute now pending between Great Britain and Venezuela will be settled by arbitration at an early day. Under these circumstances the commission, while continuing its deliberations in the preparation and orderly arrangement of many valuable maps, reports and documents which have been procured and used in the course of its labors, does not propose to formulate any decision for the present on the matters subject to its examination. It will continue its session from time to time, but with the hope and expectation that a friendly and just settlement of all pending differences between the nations interested will make any final decision on its part unnecessary."

THEY HAVE SETTLED.

A Member of the Manitoba Cabinet Says There Is No Hitch in Regard to the School Settlement.

Winnipeg, Nov. 10.—(Special.)—A member of the Greenway Ministry this afternoon authorized the statement that there is no hitch in the school question settlement and that the negotiations had all been closed satisfactorily before Mr. Tarte returned west. He could not say why there was delay in announcing the terms, but said the announcement would be forthcoming shortly. Premier Greenway is expected back to Winnipeg to-morrow. That the school question has been settled—rather that the Greenway and Laurier Governments have agreed on their line of action—may now be accepted as a fact.

BRANDON MAN DEAD.

He Took Strychnine, But Whether by Mistake or Not is Not Known—Left a Family in Paris.

Brandon, Nov. 10.—Mr. A. Thomas, formerly of Paris, Ont., died suddenly from the effects of a dose of strychnine. Thomas had been in ill health for some time and it is not known whether the fatal dose was taken with suicidal intention or in mistake for medicine. He leaves a widow and two children who reside at Paris.

IT IS ALL TALK.

Yes, but it is Norwood Talk—The Kind That Tells in Norwood.

Talk that tells.
Talk that is endorsed.
Every day talk by people that know.
City talk.
Kidney talk.
Do the kidneys talk?
Well, yes, both loud and long.
You are learning the kidney language.
Backache in kidney language means kidney ache.
Lame back means weak kidneys.
Weak back means weak kidneys.
The kidneys are talking trouble.
Here is some Norwood talk:

Mr. George Taylor, well known in Norwood, has this to say about Doan's Kidney Pills:—

"For a great many years I have been a sufferer from kidney disease. Terrible pain in my side and back made my life a burden. The urine was a dark wine colour, and I was greatly troubled with frequent urination. My sleep was destroyed because of this annoying trouble.

"I have taken scores of medicines, but could get no relief, and thought that I would never be cured. Happily I heard about Doan's Kidney Pills, and got a box at J. C. Moffatt's drug store, and have continued their use for one month.

"I am thankful to say as a result that they have fixed me up. I feel like another person. I do not now have to get up at night, and in fact am entirely cured.

"I think they are the grandest medicine ever placed before the public, and I heartily recommend them to all sufferers from kidney disorder of any kind."

For sale by James Lynch, druggist, 168 Hunter street, Peterborough.

Tobacco Heart

Much heart and nerve weakness is caused by undue use of tea, coffee, and tobacco; palpitation, nervousness, irritability, excitability, lack of confidence, etc., are sure symptoms. Milburn's Heart and Nerve Pills bring ready relief, by steadying the nerves and regulating the heart. They are true heart and nerve food.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Calmed 30 Cents a Bushel.

New York, Nov. 10.—"Dollar wheat" appears to be in sight and the prospect is that the flow of gold from Europe will soon be resumed. Cash wheat No. 2 red, the standard grade sold to-day, at 94 cents a bushel. On August 14 last it sold at 64 cents. The gain, therefore, in less than three months has been 30 cents a bushel.

Fire Losses for October.

New York, Nov. 10.—The Journal of Commerce says: "The fire loss of the United States and Canada for the month of October shows a total of $8,993,000. This is a remarkable improvement over October's showing in 1895, when the total loss was $13,411,500.

"The total for the first ten months of 1896 exhibits a gratifying reduction in comparison with the figures for the same period of 1895."

British Barque in Trouble.

Seattle, Wash., Nov. 10.—A special from Gray's Harbor, Washington, says an unknown barque, flying the British flag, is ashore in the breakers off North Cove. The life-saving crew is unable to render any assistance on account of the tremendous sea which is running, and for the same reason tugs cannot approach the vessel which appears to be pounding to pieces.

Many people, when a little constipated, make the mistake of using saline or other drastic purgatives. All that is needed is a mild dose of Ayer's Pills to restore the regular movement of the bowels, and nature will do the rest. They keep the system in perfect order.

Karl's Clover Root.

the great Blood purifier, gives freshness and clearness to the Complexion and cures Constipation, 25 cts., 50 cts., $1.00. Sold by John Nugent, 389 George street.

B B B

Unlocks all the clogged avenues of the Bowels, Kidneys and Liver, carrying off gradually, without weakening the system, all the impurities and foul humors of the secretions; at the same time Correcting Acidity of the Stomach, curing Biliousness, Dyspepsia, Headaches, Dizziness, Heartburn, Constipation, Dryness of the Skin, Dropsy, Dimness of Vision, Jaundice, Salt Rheum, Erysipelas, Scrofula, Fluttering of the Heart, Nervousness and General Debility; all these and many other similar complaints yield to the happy influence of BURDOCK BLOOD BITTERS.

LOSS OF VOICE

After Acute Bronchitis

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

TWO GIRLISH GOWNS.

THE CORRECT THING IN EVENING DRESS FOR GIRLS.

The Colors and Materials to Be the Vogue This Autumn and Winter—An All-White Toilette—A Dainty Bodice—Gown With Watteau Effect.

The materials in vogue for young girls' gowns for evening parties are simple but dainty, says Isabel A. Mallon in October Ladies' Home Journal. Light-weight silks, chiffon over silk, organdy or dotted muslin developed in the same way with decorations of youthful-looking laces and many ribbons make particularly pretty gowns for evening wear. The young girl's bodice is made either quite high and finished with a soft frill about her neck or else it is cut in what is known as the "Dutch square." Long sleeves or elbow puffs are proper with the "Dutch square," and many picturesque effects are obtained by this combination. No matter how rounded an arm may be, nor how pretty the hand, evening gloves should be worn with the party dress, and the average girl soon learns by experience how to care for them so that they do not become

TWO GIRLISH GOWNS.

a great expense. The fan is not an absolute necessity to the evening toilette, but it is always a pretty and a graceful addition.

China silk, lightweight corded silks, chiffon, organdy and muslin are the materials dedicated to the young girl. When any one of these is made up for evening wear the lining should be a light-weight, but not a corded silk, or an inexpensive satin. Pale blue, turquoise-blue, rose and salmon pink, pale silver-gray, and, best of all, white, are the colors in vogue for the young girl. No matter how charming the heliotrope shade may seem, it should not be chosen for a young girl, and no matter how glowing and attractive a bright red fabric is it is inartistic as a party dress, and should on no account be chosen. In this connection it may be said that the prettiest of all party dresses for a young girl is the one made of white material.

Light-weight silks having pale backgrounds and Dresden figures upon them are greatly liked. When a skirt of such silk is chosen the bodice may be of satin or silk the color of the background, or matching one of the pale tints in the flower. For the girl who has to wear one gown to many functions I would advise an all-white dress. This may be of chiffon, or, indeed, of any material fancied, and it can, for a short while, appear as an entirely white toilette. Then it may be freshened with trimming of rose or blue, and later on have black as its contrast. Or the all-white gown the eye never tires. The same rule used to apply to the all black frock, but nowadays it is not considered proper for a young girl to wear black at a festival time. The long sleeves in vogue for evening gowns show the wrinkled effect, with flaring caps, which may be either as plain or as simple as possible, but which must droop rather than flare.

This costume, intended for evening wear, is made of silk that shows a white background, with Dresden patterns in rosebuds printed here and there in the usual fashion upon it. The skirt, which is what is called dancing length—that is, allows the free movement of the foot in front and barely touches the ground in the back—is so cut that it has a full flare below the knees, while its graceful fullness in the back is gathered rather than plaited in. The bodice is drawn in full to the centre at the back and front, and has below the waist-line a flaring ripple of plain white silk lined with rose-colored satin. About the waist, concealing the seam, is folded a two-inch-wide pink ribbon, and in the back it is arranged in long loops with ends that reach almost to the edge of the skirt.

The sleeves are the full mousquetaire ones coming down over each hand in a point, with an edge finish of pearl piping. Over each shoulder is a flaring cap of white silk lined with rose-colored satin. Around the neck is a full Pierrot ruche of chiffon. The closing of the bodice, which is in front, is with hooks and eyes, but the fullness completely hides it, and the looker-on imagines that, as it is so well-fitting, the bodice is sewed

A WATTEAU EFFECT.

on the wearer. The slippers are of pink satin and the stockings of pink silk. The gloves are of white undressed kid, and while they are not very long they should go well over the wrists and entirely hide them.

Chiffon, silk and silk crape are all liked for evening gowns for young girls. Silk crape is particularly difficult to develop. If it is sewed with the lining it is apt to pull out of place, and when it is sewed apart from the lining, as it should be, it is so difficult to make lining and outside fit that I cannot advise the amateur dressmaker to undertake it. Chiffon, which is equally pretty, can be developed much more easily with a certainty of success.

A dainty little frock of white chiffon has a flaring skirt with a white silk lining, the white silk being very inexpensive, and really costing only a little more than would a good lining of the ordinary kind. The skirt is decorated with three ruffles, hemmed by hand, graduating in width, but reaching quite to the knees. The bodice is a draped one with the neck cut out in the "Dutch square" fashion. The sleeves are full puffs that reach to the elbow, puffs that droop rather than stand out, and below each is a frill of chiffon over the lower part of the arm and headed by a twist of pale blue velvet. Over each is a strap of the velvet that extends below the bust-line in front and at the back, and ends in a sharp point. At the back and front across the square is a deep frill of chiffon that reaches almost to the waist, and which has for its heading a narrow beading, through which is drawn white Tom Thumb ribbon.

The lower edge of the bodice is sharply pointed at the back and front, arches over the hips, and is confined by a twist, a narrow one, of the velvet, which is knotted just at the point at the back and is in smaller knots at each side of the point in front. With this little frock may be worn either black or white satin slippers, and the stockings would match the slippers chosen. The gloves are white undressed kid and reach to the elbows. It would be permissible for a young girl to wear a string of pearl beads about her throat with the bodice showing the "Dutch square." The hair is parted and waved, drawn to the back and twisted in a lengthwise figure eight. A knot of velvet ribbon, the blue of that on the bodice, is knotted in high loops and ends, has a white aigrette springing from its centre and is placed at one side of the back hair very near to the top.

Another pretty evening gown is made of dotted muslin. The lining is white silk, and the skirt, which is quite separate from the lining except at the waist, is decorated with one wide and three narrow ruffles of the Swiss edged with very narrow Valenciennes lace. The bodice, which is in effect a draped blouse, is made entirely of Valenciennes insertion alternating with white satin ribbon the same width. The sleeves reach to the elbows, are of Swiss and each has for its finish a deep frill of Valenciennes that falls far down on the arm. Between the elbow and the shoulder of each sleeve satin ribbon is tied around the puff so that a double puff effect is achieved. The neck is not cut out, but outlines a high square rather than the usual round, and this is finished by a very full frill of Valenciennes drawn in to fit. A tiny rosette of the satin ribbon is at the front and one at the back.

More Curative Power

Is contained in a bottle of Hood's Sarsaparilla than in any other similar preparation. It costs the proprietor and manufacturer more. It costs the jobber more and is worth more to the consumer. It has a record of cures unknown to any other preparation. It is the best to buy because it is the One True Blood Purifier.

Hood's Pills are the best family cathartic and liver medicine. Gentle, reliable, sure.

Burdock Pills do not gripe or sicken They cure Constipation and Sick Headache.

Every ingredient in **Manley's** Celery-Nerve Compound is a blood maker and health giver. If you are weak or run down, try it.

Dear Sirs: It is with pleasure I can recommend others to take Manley's Celery-Nerve Compound, as I am thoroughly satisfied it is a sterling preparation, and as a tonic I think it has no equal. Other members of my family, besides myself, have used it, and in all cases it gave the most gratifying and pleasing results. Yours truly,

E. Parrymen
Dry Goods Merchant,
246 Yonge St., Toronto.

Sold in Peterborough by John McKee.

Nursery Furniture.

Tables, chairs, cupboards and all other articles of nursery furniture should be solid and unbreakable. It is cruel to put dainty and flimsy articles in the children's room and raise an outcry if damage is done. Wilful destruction must be put a stop to, of course, but nursery furniture should be constructed to withstand wear and tear. A high guard must always be placed before the fire and another necessary preventive of accidents is a bar of iron across each window, however high they are from the ground, to put a stop to all possibility of danger that way.

Rust on Knives.

To remove rust stains on knives, take a raw potato, cut off the end and dip this in finely powdered bath brick or emery powder. Rub the knife well with the above and polish in the ordinary way. If the knives be smeared with turpentine and oil ten or twelve hours previous to this rubbing, rust will be more easily eradicated, but this is unnecessary for other stains.

MR. LUGATE, Traveller for McCormack & Co., London, says: "Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill druggist.

THE EYES OF THE WORLD

Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognized this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why should anyone suffer distress and sickness while this remedy is practically at their hands?

What Makes Us "BEST?"

There are two ways of supplying Furs at ever decreasing prices. One is to use a large outlet, and complete organization in manufacture and purchase, as levers to gather directly goods from all parts of the world, always maintaining the highest and best qualities of stock.

The other way is to substitute and reduce qualities to correspond with prices.

THE FIRST WAY IS OUR WAY. With ever increasing output, Peterborough, Toronto and Lindsay,—with all our energies focussed on the study of the things to be known and the things to be done, the best qualities, the best markets, the best time to buy, the quantity, the styles, the lowest freights, the labour saving inventions, the whole field from A to Z.

Where else can you be so sure that close prices do not mean reduced qualities. IT'S OUR LIFE BUSINESS. We began in boyhood and we have the pride in it that makes us know it through and through, and places us in a position to sell you to your advantage as well as ours. Call and see our Fur stock. None finer, none larger, none so up-to-date.

THE KNIGHTS OF LABOR.

Grand Master Workman Sovereign's Address to the Convention at Rochester

Rochester, N.Y., Nov. 11.—The following is the address of General Master Workman Sovereign of the Knights of Labor:

"To the officers and members of the 26th General Assembly, Knights of Labor:

"After a struggle of 27 years against the evils of aggregated wealth by our order, we are confronted with more serious problems affecting the rights and liberties of the industrial masses than ever before.

"Not only have the idle, speculating classes demonstrated their ability to dominate productive enterprise and accumulate the wealth of toiling millions, but they have demonstrated their power to coerce wage workers and mortgaged farmers with threats of discharge and foreclosure into submission to their will. The autocratic holders of idle money have subverted the principles of free government by forcing political servitude from the poor as the tenure of employment.

"Laboring men can combat a falsehood, and bid defiance to traitors from their own ranks, but when a depraved monster of corporate rapacity steals into their homes and threatens them with discharge and persecution because of their political convictions, they sacrifice their liberty in consideration of food and shelter for their helpless wives and innocent children. The struggle just passed has demonstrated that pecuniary dependence is political slavery.

"How to prevent the complete overthrow of our civil liberty is the problem of the hour. How weak and impoverished labor can triumph over haughty, domineering, confederated capital is a question too serious to admit of procrastination. It must be considered in all its length and breadth; and the best possible organization perfected to meet the machinations of the money changers.

"In the struggle just passed the Knights of Labor proved itself to be the only labor organization that stood like an iron wall before the fire of the organized money power of two continents. Every general officer and every district and local assembly of our order spurned every offer of bribery, and scorned every threat of the money king. When the test came our order was found to possess the knowledge, the courage and the manhood to defy and combat the emissaries of organized greed. Except the great support given by that matchless champion of labor, Eugene V. Debs, the chief officer of no other national labor organization gave us material aid in our struggle for the cause of common people.

"Notwithstanding the fact that recent rulings of our higher courts have placed all labor organizations in the category of criminal conspiracy, thousands of the members of the federation voted to sustain that pernicious ruling. They plead guilty to the charge by the votes they cast. Not only did they vote to exalt the money changer and make the rich richer and the poor poorer, but they voted to sustain government by injunction, and the recent income tax decision of the Supreme Court."

Mr. Sovereign goes on: "I would so change and abbreviate our present list of membership as to centre our immediate demands upon an equitable income tax, the free and unlimited coinage of silver at the present legal ratio, the payment of all Government bonds according to contract, and the Government issue of all the money of the country.

"I would make positive and unequivocal declarations against government by injunction, increase of the standing army, the payment of the bonded debt in gold alone, the issue of bonds in time of peace, and the issue of circulating notes by banking corporations.

"I would then prepare an entire new secret work with stronger obligations than we now have, establish a degree known as the Minutemen, and, as far as possible, return to our former system of working in absolute secrecy.

"I would then appeal to the free silver and reform forces everywhere for membership, and support and throw this organization into the great broad field of agitation to fight the money power and the corporations to an everlasting finish.

"I would not recede from our demands for land reform, nor from any of the other great principles contained in the preamble of this order, but I would designate them as battle grounds to be fought over after we have throttled the life out of the money power that is undermining the foundation of American liberty.

"The spontaneous influx of gold and resumption of manufacturing since the result of the election was known proves conclusively that the gold barons and the corporations locked up the money and closed the factories of the country to secure the victory over the people by arbitrary force.

"The demands of the people for the necessaries of life were no greater after election than before, and except the millions laid out by the money power to corrupt the voters, the people had no more money with which to buy the necessaries of life after election than they had before it.

"No honest cause can be given for the unlocking of money and the revival of industries after the late election that did not exist before the election occurred. Such revival of trade and industry can only be temporary at best, and proves that the industrial masses of this country are at the mercy of an oligarchy of wealth and a combine of gold gamblers, who can lock up the money of the country, close our industries and starve the people at will.

"The Knights of Labor is the only labor organization commanding the necessary machinery to hold up a great reform movement during the interim between political campaigns."

A MESSAGE TO MEN.

Proving that True Honesty and True Philantrophy Still Exist.

If any man, who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge, the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-being to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind, but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c. silver to cover postage and address, Mr. Geo. G. Strong, North Rockwood, Mich.

A Cruel Speech.

"If you are goingtoadoptbloomers,
"If you are going to adopt bloomers,
"Oh, John, how can you say such horrible things?"

Protect Your Horses, etc.

Nothing is more needed for horses at this inclement season of the year than a waterproof horse cover. I make them to order and keep them in stock as well. Hoods, heads, backs and breasts in black waterproof, impervious to water, soft and pliable. Any kind or style of ordered goods required. Lap rugs, strictly waterproof. Also cheese covers as requested by members of the Cheese Board, and for covering all kinds of goods liable to damage from wet. A. KINGSCOTTE, Tent, Sail and Awning manufacturer, 344 Water street, opposite market.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagyard's Pectoral Balsam.

MR. A. CAMPBELL DROWNED.

A Well-Known and Respected Citizen of Lakeport Fell Off the Pier in a Fit of Dizziness.

Colborne, Ont., Nov. 11.—Our usually quiet village was startled by the sudden announcement of the death of Mr. A. Campbell of Lakeport, one of our best known and most respected citizens, which occurred in a very sad and unexpected manner. It appears that Mr. Campbell had for some time past been subject to attacks of dizziness and insomnia, and was in the habit of getting up in the morning and taking a walk out to the end of his own pier. About 6 o'clock this morning Mr. Conroy inquired for him, and one of his daughters went to his room, and, finding that he was not there, inquiry was at once made. A thorough search was instituted, which resulted in the discovery of the body about 10 o'clock in the water near the shore of his own farm, a mile and a half west of Lakeport. Tracks were found on the wet boards leading to the end of the wharf, and it is supposed that in taking his usual morning walk he was overcome with an attack of dizziness and fell into the water, and that the strong southeast wind carried the body to where it was found. Dr. R. Thorburn was called, and after making an examination, expressed the opinion that the body had been in the water for several hours. Mr. Campbell was widely known throughout the province as an extensive grain and lumber dealer, having had a number of storehouses and elevators in different parts of the country. He was also a dealer in coal and wood to a large extent. The deceased was in the 55th year of his age, and leaves a family of three sons and four daughters, his wife having died about two years ago.

HER PLACE.

She Figured It Out Like One With Experience.

"Well," said Miss Hungerford to Mr. Gildersleeve as they sat on the piazza of a summer hotel and looked about them, noting the other guests with critical eye, "when I am married—if I ever am married—I shall not march straight from the altar and put myself on exhibition at a summer resort."

"That is a commendable resolution," replied Mr. Gildersleeve.

"Just notice them, and, do you know, I've rather envied the bridegrooms."

"Have you? Well, I haven't envied the brides. I don't believe in public love-making, either before or after marriage."

"The honey-mooners here seem to enjoy it, and it furnishes a great deal of amusement to some of the old married people."

"Well, no one will ever obtain amusement at my expense in that way," Miss Hungerford went on. "I consider newly-wedded affection too sacred a thing to be put on exhibition."

"Of course you are right, Miss Hungerford, precisely right."

"Now, when I am married," Miss Hungerford proceeded, "I am going straight to my dear old aunt's place in the Catskills. It's the finest retreat imaginable in the hot summer days. I usually go there to rest up after a month at the shore. Perfect solitude, you know, the nicest cottage, with well-trained servants. You can lie in the hammock all day long and breathe the most delicious air. Then you can row on the dearest little lake, and take the most delightful walks, with no danger of anybody intruding on your privacy. When I was there last summer, aunty dear said: 'Now, Annie, when you get married, I want you to come straight here with your husband and enjoy your honeymoon as it ought to be enjoyed. You and he are welcome to stay a month, or two, if you like; the longer the better.' Now, don't you think it would be much better to spend a honeymoon in a place like that than at a crowded watering place like this, Mr. Gildersleeve?"

"Indeed I do, Miss Hungerford." He moved nearer to her and added: "Annie, love, let's start right away."

"Oh, George, this is so very sudden! I'll need at least two weeks to get ready for the wedding."

She was ready in time, however, and now they are at her aunt's.—Harper's Bazar.

Prevent sickness and save doctors' bills at this season by keeping your blood rich and pure with Hood's Sarsaparilla.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c 50c, and $1.00.

AND FORCING THE SEASON.

We Can't Change the Weather

BUT WE CAN CHANGE OUR PRICES.

At no time of the year are we satisfied to sell at regular prices. At no time of the year can we afford to allow unseasonable weather to clog our business. Our stocks must keep on the move. We're constantly running across lots of goods offered to us at Special Prices. That means ample opportunity to discount the trade in Clothing, Boots and Shoes, Hats and Furnishings without any trouble. Please remember that this business is PERSISTENTLY in advance of every other, and that prices here are always, with seldom an exception, the LOWEST.

We start off this week with a double head of steam to Reduce all our prices on all our stock, and make business boom in defiance of the mild weather.

WHEAT'S UP! CLOTHING'S DOWN! We quote below a few sample prices that tell the tale of how well we are loaded up with Bargains all over our two **BIG STORES**

Men's Clothing.

Men's Clothing at Boys prices. A few minutes reading will show.

Footwear.

Surprising Shoe-selling, another proof of the leadership of this best shoe store. Another proof of the helpfulness of its methods. First-rate Quebec Shoemakers were short of work during the summer, and they were glad to sink profits and move on the order we offered—for it bridged them over a bad gap and enabled them to keep their organization together. The Shoes are here:—

500 pairs Women's fashionable toes $1.50 Button Shoes, at	$ 1 50
300 pair Women's $1.60 Fancy Kd button Boots, with pointed toe caps, at	1 19

Ordered Work.

Tweeds and Worsteds must get a quicker move on like everything else. Boom! Boom! all along the Cloth Department. Well dressed men come here—this store appeals to gentlemen of refined taste, and provides most fully for all. Our Fall Stocks of Cloths and Tweeds for custom work will please all who prefer their garments made up to their own measure from carefully selected fabrics. We deny the right of High Prices to exist while this balmy weather hangs on.

Just imagine the condition of things where everything is held for a regular profit until sold. Gough Bros. the progressive and aggressive leaders of Low Prices, make prices the moving power all along the line. "Always Good (and Cheap) at Goughs," but especially during unseasonable winter weather like this.

Gough Bros.

UTTERLY WORN OUT

Was Mrs. Sternaman in Waiting on Her Husband.

MOTHER-IN-LAW SAID SHE WAS LAZY

Because She Fell Into a Doze After Having Gone Four Weeks Without Taking Her Clothes Off—Letter Left by Sternaman Before He Expired.

Buffalo, Nov. 12.—The examination in the case of Mrs. Olive Sternaman was continued this morning by United States Commissioner Fairchild. Mrs. Sternaman this morning identified two letters which her husband had written. One was written by him in reply to a letter received from his mother before his marriage to the defendant. The mother had urged him not to marry the widow, and had hinted to him that it was suspected by some people that she had poisoned Chipman to get his insurance.

Sternaman's reply to his mother was written Oct. 6. He defended Olive vigorously. Mrs. Sternaman testified that after her husband's mother visited Buffalo, and told of the talk in Canada about the possibility that she (the defendant) might have poisoned her first husband and was poisoning Sternaman, the latter was greatly worried by the talk, and he said that he wished to be certain that no scandal should harm her. He wrote a statement, which he gave to the witness to be produced if it ever was asserted that his death was owing to poison or any act of hers. The statement, which was written June 10th last, was as follows:

To all whom it may concern: I, Geo. H. Sternaman, having had very peculiar attacks at times during the past six months, and of which no one but my wife and a few of her relatives know anything, write this to state that if I should die while in one of them, that no person can say that it was caused by her hands in any way that I died.

The only cause or reason of my having this is when I get downhearted or worrying about anything that does not go to please me. I would have written and told my mother, but I knew that she would only worry and fret about it, and probably not do any good either; that is the reason that I write this, that it may be read and shown at any time providing I die whilst in one of those peculiar spells. I have never had a doctor, because I always came out of them all right. I hope what I have written will convince all that they may not think that my wife had anything to do with such an uncommon death.

Signed by me this 10th day of June, 1896. Geo. H. Sternaman.

Mrs. Sternaman told in an apparently straightforward way the story of her husband's long illness, and of her difficulty in obtaining medicines and in caring for him. She testified that her husband's medicines cost about $3 a week, and that it was with great difficulty that she managed to get money to buy them and run the house. Finally she ran out of money and wrote to her husband's mother, asking that she loan her some money. She received $5. Finally the family got so poor that Sternaman determined to go to his mother's home in Canada. He wrote to his mother and asked if he and his wife and children could go to her home. He received no reply to his letter. Sternaman and his wife went over to Rainham Centre, to his mother's home.

When describing his condition there and the way in which she was treated by his mother, the defendant broke down for the first time during the examination, and wept freely. She testified that her mother-in-law accused her of being too lazy to get breakfast for her husband, whereas she had not taken off her clothes for four weeks, was worn out, and was dozing when the mother-in-law took advantage of the fact and got some tea and toast for Sternaman. The defendant testified that she consented to a post-mortem examination after Sternaman's death, because she had done nothing wrong, and she wished to satisfy those who had been led to believe by Sternaman's mother that she might have poisoned him. She paid for the examination.

To show the motive of Sternaman's mother for starting and pressing the charge of poisoning against the defendant, Mr. Thayer offered in evidence a letter written by the mother to the defendant on Sept. 18 last. In it the mother stated that she had been expecting Mrs. Sternaman to send her money, and was disappointed at not receiving it; she referred to the expense of the household while her son was at her home in Canada; she stated that she thought she ought to have $20 or $25, and that Sternaman's brother ought to have something for the time they had spent in driving around on errands, etc. The mother also informed the defendant that one of her sons had determined to learn the trade of carpenter, and ought to have Sternaman's tools.

This letter was written some time after the mother-in-law began to talk about poisoning. Mrs. Sternaman went to friends, and took their advice; she did not reply to the letter, Mrs. Sternaman's direct examination was finished at 12.15 o'clock. The evidence will be forwarded by the United States Commissioner to the Secretary of State, who will decide whether or not the woman shall be surrendered for extradition.

After recess Mrs. Sternaman again took the stand, and Mr. Thomas began the cross-examination. Although his part of the proceedings occupied nearly all of the afternoon, nothing new was developed. It was a repetition of the story brought out by Mr. Thayer, with the exception that the witness did not reply so readily to Thomas' questions. After asking about her married life and the relations which existed between her first and second husbands, and about he death of both of them, he asked:

"Do you think that Sternaman poisoned your first husband?"

"No, not until it is proved," she replied.

"Do you think that he poisoned himself?" was the next question.

"I'm beginning to think so," she answered.

"When did you begin to think so?" continued Mr. Thomas.

"When I got back from Canada, after the funeral, and saw the doctors' papers about arsenic poisoning."

Mr. Thomas finished his cross-examination at about 4 o'clock. Before Mrs. Sternaman left the stand William F. McKay, assistant United States District Attorney, asked the witness a number of questions with reference to conversations between her and Dr. Frost, the substance of them being that Dr. Frost had told her that he thought Sternaman was suffering from arsenic poisoning, but if he took no more he might get better; that this conversation occurred when Sternaman was quite sick, and that from then until his death he grew steadily worse; that Sternaman during this time was practically unable to help himself or to leave his couch.

Elizabeth Sevenpiper was sworn, and for about half an hour she answered the questions of Mr. Thayer. Nothing new was brought out in her testimony, except that she corroborated the statements of her sister about George Sternaman's numerous fits, and the friendly relations that existed between Chipman and himself.

At 4.40 o'clock Commissioner Fairchild declared the court adjourned until 11 o'clock to-morrow morning.

ST. CATHARINES HOUSE ROBBED.

Several Hundred Dollars in Cash and Jewelry Taken From Mr. J. G. Moore.

St. Catharines, Ont., Nov. 12.—The residence of John G. Moore, Church-street, was broken into on Wednesday evening, and money and valuables to the sum of several hundred dollars taken. WHAT MR. HAYS SAYS.

He Expects Great Things as a Result of McKinley's Election—Grand Trunk Business Improving.

New York, Nov. 12.—Mr. Charles M. Hays, General Manager of the Grand Trunk Railway of Canada and receiver of the Central Vermont, was in the city to-day. To a reporter, Mr. Hays said: "We are looking for great results from the American election. We feel that business is going to boom, and, of course, we expect to come in for a share of the general prosperity. Business in Canada now is comparatively quiet, but so far as the local traffic on the Grand Trunk is concerned, we are doing well. Our through traffic is not so good, although we cannot complain as to our share in the eastbound movement. We believe that better times for the railroads are ahead, and we are doing everything to meet it. Improvements are being gradually made on the Grand Trunk and nothing is left undone to bring that property up to a standard condition.

"As for the Central Vermont, there is a movement now toward reorganizing the property and a plan will undoubtedly be soon formulated."

AMONG THE WHEELMEN.

John Davidson Did Fast Work on a Sticky Track at Hamilton.

Hamilton Nov. 12.—(Special.)—This afternoon, on the Jockey Club track, John Davidson went after the Canadian amateur half-mile record, now held by his brother Harley. Notwithstanding the fact that the track was wet and sticky with a flying start, paced by a triplet and tandem, he reached the quarter in 29¾ secs. and covered the half-mile in 1.03 1-5. Trials will be resumed to-morrow, when Harley Davidson will make an effort to clip something off all the marks from a quarter to 10 miles, paced and unpaced.

It Pays to Advertise in the EXAMINER

VACANT PORTFOLIO

Will be Filled by Mr. Sifton in a Few Days.

THAT'S THE UNOFFICIAL REPORT

Mr. A. I. Mackenzie Resumes the Office of Surveyor of Customs at Hamilton—Hog Cholera Almost Stamped Out in Essex County—General News From Ottawa.

Ottawa, Nov. 12.—Though nothing official has been given out, it is said to be settled that Mr. Clifford Sifton will shortly be sworn in as Minister of the Interior. Report has it to-night that the Premier received notification to-day from his prospective colleague that the Brandon Liberals are satisfied with the terms of the compromise on the school question and that consequently the barrier to his acceptance of a Federal portfolio is removed. An important meeting of Council will be held to-morrow, at which a formal order will be passed accepting the modifications in the school settlement as agreed upon by Mr. Tarte in Winnipeg last Saturday. It is said that the basis of agreement will be handed out to-morrow night. It is expected that Mr. Sifton will leave for Ottawa in a very few days and be sworn in before the Deputy Governor, Sir Hy Strong. The new Minister will then return to Brandon to seek election to the Commons.

The dilatoriness of the late Government in filling vacancies in the public service, which had existed for a long time previous to the general elections, is bearing fruit. Mr. A. I. Mackenzie, who held the position of surveyor of customs at Hamilton for 20 years, was superannuated several months ago and after the 23rd of June Mr. Hugh Murray, was recommended for appointment to the position in Mr. Mackenzie's place. Although the order promoting Mr. Murray was actually signed by the Governor-General, yet it is stated that Mr. Mackenzie will at once resume the duties of the office. He is 70 years of age.

The Minister of Justice to-day received a cable message announcing that the argument in the appeal to the Privy Council in the matter of the Robinson treaty annuities had been concluded. The message states that the learned judges rejected all suggested variation in the order of the Supreme Court except the question of the true construction of the 108th section of the British North America Act, that being the section on which depends the question as to whether the liability for annuities is a liability of Ontario alone or of Ontario and Quebec conjointly.

The foregoing message is not very clear, as the whole point at issue hinges on this clause 108th arbitrators in the first place declaring that Ontario held these Indian lands in trust and was therefore responsible for the annuities, while the Supreme Court took the other view. Until mail advices are received it is not likely that the point will be properly elucidated.

In view of the recent decision of the Judicial Committee, exempting steel rails for electric roads from payment of duties, different companies operating electric roads in Canada, including Toronto, Montreal and Ottawa street railways, are filing their applications for refund at the department.

Mr. Barrett Hamilton, one of the agents of the Foreign Office, and Mr. Macoun of the Geological Survey have returned to Ottawa from their season's work in the Prihyloff Islands. They were engaged with Prof. D'Arcy Thompson, Mr. Andrew Halkett and others in taking observations regarding seal life. Naturally, their report is of a confidential character. Messrs. Hamilton and Macoun stayed later at the islands than the other observers to give them better opportunities for a full enquiry as to whether the mother seals really allow their pups to starve to death, by going out to sea and not returning. The information which Mr. Macoun collected is for the Department of Marine and Fisheries.

The Controller of Customs has received information that the Red Mountain wagon road from Northport to Rossland will be completed in about a fortnight, thereby affording readier means of transport between these two points.

A telegram received from Mr. McGregor, M.P., at the Department of Agriculture, says that hog cholera in Essex is fast disappearing, owing to the stringent means adopted by the department to stamp it out, and he expects that in a few days it will be safe to declare the quarantine off. The slaughter certificates received from Essex since the outbreak indicate the number of hogs slaughtered to have been 770, with an appraised value of $3750. The department is paying one-third of the value of the animals, so that it means a bill of $1250 against the country, with the prospects of these figures being increased before the disease is stamped out. Payment will be made out of the quarantine appropriation set apart by Parliament at the last session.

The Postmaster-General denies the truth of the report that comes from Montreal that a commission has been appointed to investigate the affairs of the postoffice there. Hon. Mr. Mulock says that Mr. Sweetnam, the postoffice inspector, left Toronto yesterday for the East and will be in Montreal shortly.

Mr. Gourdeau, Deputy Minister of Marine, left for Montreal to-night to meet the horse exporters and steamship men to discuss the question of space for horses on shipboard.

Mayor Borthwick received notice from the County of Carleton to-day of a decision to appeal against the award of the arbitrators regarding the amount which the city should pay the county as its share of expenses for maintenance of the Court House and jail.

A deputation representing the Ottawa & Gatineau Valley Railway waited upon the Civic Finance Committee to-day to ask for an extension of time in which to commence the inter-Provincial bridge across the Ottawa in order to earn the Ottawa subsidy of $150,000.

A meeting of the Treasury Board was held to-day.

Mr. Davies promised to attend a meeting of lobster canners in Nova Scotia and New Brunswick during the present winter to discuss existing regulations.

Sir Hy Joly will attend the great demonstration in honor of Mr. Marchand, the Provincial Rouge leader in Quebec, to be held in Montreal on the 16th inst.

According to returns received at the Marine Department, the total shipment of sheep from Montreal to date is 70,113 and cattle 87,479. The latter figure is up to average, but sheep shipments are away below the previous two years.

There was another meeting of promoters of the Atlantic and Superior Railway with the sub-Committee of the Privy Council this afternoon. Their representations were received by the First Minister, Sir Richard Cartwright, Hon. W. S. Fielding and Hon. A. G. Blair.

THE MURDERER CAUGHT.

That Rascally Blood Indian is Now in the Hands of the Mounted Police—He Tried to Suicide.

Ottawa, Nov. 12.—(Special.)—The Comptroller of Mounted Police received word to-night that the Blood Indian murderer Charcoal, was captured to-day near the Blood Reserve by a posse of Mounted Police. Charcoal made a desperate attempt to commit suicide, but was disarmed.

Scrofula

Infests the blood of humanity. It appears in varied forms, but is forced to yield to Hood's Sarsaparilla, which purifies and vitalizes the blood and cures all such diseases. Read this:

"In September, 1894, I made a misstep and injured my ankle. Very soon afterwards,

A Sore

two inches across formed and in walking to favor it I sprained my ankle. The sore became worse; I could not put my boot on and I thought I should have to give up at every step. I could not get any relief and had to stop work. I read of a cure of a similar case by Hood's Sarsaparilla and concluded to try it. Before I had taken all of two bottles the sore had healed and the swelling had gone down. My

Foot

is now well and I have been greatly benefited otherwise. I have increased in weight and am in better health. I cannot say enough in praise of Hood's Sarsaparilla." MRS. H. BLAKE, So. Berwick, Me.

This and other similar cures prove that

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills the best family cathartic and liver stimulant. 25c

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month, $2.00 for six months.

Daily Examiner.

FRIDAY, NOVEMBER 13, 1896.

DOMINION MINISTERS.

The present Dominion Ministers do not compose a holiday Cabinet by any means; they are all hard at work, and so busy that they can hardly find time for Council meetings. Mr. Mulock, the energetic Postmaster-General, according to a despatch, burns the midnight oil attending to his official duties; and there is need for hard work; Sir Adolphe Caron's monocle overlooked a great deal that required attention in this department, and it requires a good deal of work to untwist the tangle. Mr. Mulock is at present working nightly till midnight examining the 8,000 mail contracts that exist in the Dominion. These mail contracts have been (under the former rule) the vehicle for more party favouritism than mail matter, and the country has had to pay. Mr. Mulock thinks that by the time he has got through the list, he will be able to effect a saving of $80,000 a year, a long step in the way of making the post office self-sustaining. All new contracts are let invariably to the lowest tenderer. The ministers comprising the tariff inquiry committee are also busy and they will begin work at Toronto next Tuesday. Mr. Fisher, the farmer minister, is busy as though it were harvest time. Mr. Tarte, the Minister of Public Works, besides gaining extensive departmental knowledge in the Northwest, is discovering that the chief needs of that region are population and good government. The latter they have, and the population will come under the efficient management of a capable government. The land grabbers, monopolists and speculators will have to step aside to give opportunity for the working of the Liberal policy, "the land for the settler." Mr. Tarte is a hard working minister like all his colleagues. At a banquet at Regina, Mr. Ross, of the Northwest Ministry, told of his making an appointment with Mr. Tarte, and the latter named the early hour of 8.30 in the morning, on the plea that he had an official appointment at an earlier hour the same morning. His opponents will have to rise early to get ahead of Mr. Tarte, and similarly all the ministers of Mr. Laurier's Cabinet are hard working men, making a business not a pastime of their official positions. The people may well expect good results from a government that makes its duty to the people the first consideration.

EDITORIAL NOTES.

THE bullion value of a United States silver dollar is 49½ cents. Yet that is the kind of silver-mounted cartwheel that Mr. Bryan wished placed on a par with a gold dollar. Proposing to pay debts with such money is only a form of fraud.

GLADSTONE has taken to riding a wheel. He has an 87 gear, that is, time has put 87 notches in his wheel of life. He is a surprising old man, nearly 90 years of age and ready to fight Turkey single handed or "scorch" with a boy of 40 or 50. For marvellous mental and physical vitality the grand old man is without a peer.

MR. CAMPBELL, the road commissioner of the Ontario Government, is visiting various municipalities on the invitation of municipal councils, for the purpose of reporting on the existing condition of public highways and suggesting means of improvement. It would do no harm, at least, to ask Mr. Campbell to come to this part of the country.

THE Globe expresses a fact that describes the present Government, as well as a great principle, when it said:—"The first essential of good government is that the doors of the council chamber shall be wide open to the humblest citizen who appeals for justice, and doubly barred against those, no matter how influential, who demand special favours at the expense of the people."

IT is estimated that the gold production for this year will be the largest on record. In 1890 it was $118,848,700; in 1895 the figure reached $208,000,000; the estimate for 1896 is $220,000,000. The growth is due to the Transvaal gold fields, which this year are putting out something like a hundred millions. Next year Canada will have something interesting to add from British Columbia and Ontario gold fields.

THOSE extremely kind Conservative journals who tried so hard to show Hon. David Mills that he was an unappreciated and greatly abused man, have now given up the job. Mr. Mills is satisfied the country is satisfied, and even those same Conservative journals say that Mr. Mills' appointment to the Senate was a good one. Being used as material to add to the dignity, respectability and ability of the Senate is not bad treatment; the days of recruiting this body from the ranks of political failures is past.

THE Conservative machine in Toronto grinds exceedingly small. At the last meeting of the Fifth Ward Conservative Association of Toronto, ex-Alderman Bates was pitched out of the Association neck and crop, because he dared to have an opinion—dared to oppose the candidate ground out by the machine. The unfortunate ex-alderman, if he has a desire to return to municipal politics, will not have the high influence of the machine in its campaign of seizure upon all municipal positions. The machine has no use for men that think for themselves. If Sir Charles Tupper finds as easy work in attaching the hirsute thatch of Lord Aberdeen's cranium to his belt as the Conservative Association had in decapitating ex-alderman Bates, he will return to Canada whoopingly hilarious.

A PRESS despatch tells of a girl from Toronto Junction who got married to a Yankee scamp through his advertisement for a wife and was basely deserted after her money had been stolen. This young lady should not be disappointed — she reaped what she had sown. A girl must be madly anxious for a husband who takes such chances; there is enough risk in matrimonial ventures when the character of the person married is presumably well known. A girl that would be silly enough to answer such an advertisement and marry the man, requires a good deal of watching, otherwise she is sure to do something as foolish at any time. Girls should remember that honest old maidism is far preferable to the risk—no certainty—of gaining a bad husband under such questionable conditions.

TORONTO furnishes, says the Brantford Expositor, three good illustrations of the way in which the Conservative members of the civil service may be expected to be treated if they can show that they have been attentive to their duties and have not been guilty of aggressive partizanship. Eighteen years ago, Mr. Joseph Leslie was squeezed out of the Toronto postmastership by Sir Hector Langevin, who was then Postmaster-General, in order to make room for Mr. T. C. Pattison, who had been the editor of The Mail. Mr. Leslie still walks the streets of Toronto, hale and hearty, but as Mr. Pattison has been an efficient officer, and has devoted himself to farming and horse-racing, and has not made himself obnoxious to the Liberal party, no one talks of depriving him of his position. By a cowardly trick, the inspector of weights and measures, Mr. Wingfield, was squeezed out at the same time to make room for the well known Harry Piper. For some time Harry persisted in making himself offensive, but as he has long since become a respectable nonentity in politics, he too, will be left unmolested. A Mr. Davidson was a comparatively short time ago appointed appraiser at the port of Toronto, and a movement was started (doubtless by interested persons) a few days since to have a Liberal appointed in his place. As the present incumbent is known to be both competent and inoffensive, the movement was nipped in the bud by the Toronto Liberal merchants and Mr. Lount.

WILL THEY PROSECUTE?

Report That the British Government Will Act in That Chinese Kidnapping Case.

London, Nov. 13.—The Daily News says that the Government has decided to prosecute Sir Halliday Macartney, Councillor of the Chinese Legation in London, for his share in the arrest and detention in that legation of Sun Yat Sen, the Chinese doctor. The paper adds that the Government has resolved under certain circumstances to prosecute the Chinese official implicated in the affair, unless the Chinese authorities save the Government the trouble by themselves prosecuting this official, as requested by the Marquis of Salisbury. Sir Halliday Macartney, when questioned on the subject today, said he knew nothing about the Government's decision in the case.

Constipation Cured.

Gents,—I was in very poor health for over four years; the doctor said it was constipation. Not wanting to spend too much cash I got three bottles of B.B.B. and took it regularly. I can certify that I am now in the very best of health and feel very grateful to B.B.B.

ALFRED TESSOUX, Montreal, Que.

Burdock Pills do not gripe or sicken They cure Constipation and Sick Headache.

THAT CANADIAN CASE.

Arguments Concluded Before the Privy Council and Judgment Reserved.

London, Nov. 12.—The arguments of counsel before the Judicial Committee of the Privy Council in the case of the appeals of the Dominion of Canada against the Province of Ontario, fixing the liability for the payment of certain annuities to Indians for lands ceded by them prior to the formation of the Dominion, were concluded this afternoon. Messrs. Angers and Hall of the Canadian bar spoke at length. The decision of the committee was reserved.

The Report is Doubted.

London, Nov. 12.—Nothing has been heard here either by the Foreign Office or the British South Africa Company of the decision of the Transvaal Government to claim £1,000,000 indemnity from the Chartered Company for the Jameson raid, beyond the reports to that effect received from Praetoria yesterday. The authorities at the Foreign Office regard the report as highly improbable.

Some Interesting Details.

B B B

The B. B. B. Pipes now in use would form a chain long enough to go around the great Ferris Wheel, which was at the World's Fair, 200 times.

Each B. B. B. Pipe in course of manufacture passes through 40 hands.

The total quantity of Tobacco used in B. B. B. Pipes since their introduction amounts to 3000 tons, assuming that each Pipe sold uses 1 oz. Tobacco per week, and that each Pipe has been used one month.

The B. B. B. Pipes now made if placed one on top of another would reach 1000 times to the top of Notre Dame Cathedral, Montreal, and if stood upon their stems would reach the summit of a mountain 44 times as high as Mount Everest.

Call and examine my new assortment of B. B. B. Pipes which arrived per steamer "Queensmore," direct from the manufacturers in London, England, yesterday. The stock cannot be equalled in Canada and the assortment of Smokers' sundries will dazzle the eyes of some of our smaller dealers.

There is only one Tobacconist here who handles Cigars, Tobaccos and Pipes direct from the English and Havana makers, and that is

Good Square Pianos

FOR A MERE SONG.

Our warerooms are overcrowded with excellent square second hand pianos which we have taken at different times as part payment on new Mason & Risch Uprights, Most of them were exchanged by the original owners, not because they were bad, but simply because they were squares and took up more room than the average modern city parlour allows of.

Most of them are in first rate order, 7 octaves, carved legs, ivory keys, iron frames and rosewood cases. They are made by such well known firms as Fischer, Heintzman, Decker, Chickering, etc. Most of them are worth about $250.00 each, though we don't intend to ask this. Now listen to our proposition.

First write us for a list and description of what may happen to be on hand at the time of writing, giving us some idea as to what you would like, and how you wish to pay; whether cash down or on terms; if on time how much time how much down you can pay and how much per quarter.

On receipt of this information we will make the best possible selection and ship it to you **FREIGHT PREPAID ON APPROVAL.** If you do not like it, **SHIP IT BACK. IT WON'T COST YOU ANYTHING** If you like it we will await checque (if cash) or send you the usual papers for signature. The price of no Piano is to exceed $150.00 and many will be less.

If you have ever heard of a fairer offer than this, let us know of it.

If you prefer a good second hand Upright of course it will cost more, but write us all the same; it is no trouble to answer questions and give quotations and terms; that's what we are here for.

Munyon's Vitaliser restores lost vigor. Price, $1.

A separate cure for each disease. At all druggists, mostly 25c a vial.

Personal letters to Prof. Munyon, 11-13 Albert street, Toronto, answered with free medical advice for any disease.

BY ATLANTIC CABLE.

Sultan of Turkey Enforcing the Reforms.

TWO SWELL WEDDINGS IN LONDON

The Dowager Duchess of Sutherland and the Fiancee of the Late Carter Harrison of Chicago the Brides—The Cable Conference—Venezuela Settlement General News.

Paris, Nov. 12.—At a Cabinet meeting this morning M. Hanotaux, Minister for Foreign Affairs, announced that the execution of the reforms had been commenced at Constantinople. He said that all the persons taken into custody who were believed to be innocent have already been released, and he confirmed the advices from Constantinople to the effect that the official summary of the reforms to be put into execution by the Turkish Government has been published and that the provincial authorities have received instructions to execute them immediately. M. Hanotaux stated that active negotiations were continuing to obtain further administrative and financial reforms.

CHRISTIAN SOLDIERS.

"My House is a Christian House," Says the German Emperor to His Troops.

Berlin, Nov. 12.—The Emperor performed the ceremony of swearing in the troops in the Lustgarten this afternoon in the presence of the Empress the Grand Duke Vladimir of Russia, who wore the uniform of the Hussar regiment, the Siamese Field Marshal and the Imperial princes, who occupied the balcony of the palace facing the field altar, before which the ceremony took place.

The weather was fine, and the scene brilliant. After the administration of the oath, the Emperor, who was on horseback, addressed the recruits, saying: "You have now sworn an allegiance implying obedience and fidelity until death. This oath applies to me, your chief and your war lord, and is sacred, as it is sworn to God upon the crucifix.

"My house is a Christian house, and is nothing without Christ our Lord. Thus a soldier is nothing without faith. With a firm belief in Christ you have a special advantage as long as you wear the King's coat. Remember that he who insults the King insults your uniform, as well as your chief; therefore I trust that you will energetically defend the King and Crown, especially in these times, when disobedience and discontent are rampant and disloyalty is rife.

"I rely upon you to always remember your oath. It is easy for you to do your duty while the eye of your superior is upon you, but it may be different when you are alone unobserved and exposed to the temptation of seducers, yet remembering your vows, if you do your duty faithfully, you will have the strongest claim upon your country's gratitude.

"I hope next year you will be present to celebrate the hundredth anniversary of the birth of the great Kaiser William I. His eyes are upon you. What he gained, we will protect with our last drop of blood."

THE VENEZUELA MATTER

Many Details of the Agreement Still to be Arranged.

London, Nov. 12.—The Foreign Office has communicated official information to the United Associated Presses that there are still many details of the Venezuelan agreement to be arranged. Before these are completed and the basis of the agreement becomes an official record signed by Sir Julian Pauncefote and Hon. Richard Olney, the Foreign Office insists that no communications on the subject from here are possible. Sir Julian Pauncefote is the only medium, taking his instructions from Lord Salisbury, who now considers the matter concluded excepting the verbal form of convention, which must be based upon an exchange of documents.

Besides Sir Richard Webster, Attorney-General, Lord Davey, Lord of Appeal-in-Ordinary, is mentioned in legal circles as likely to be assigned to the conduct of the British case before the Arbitration Commission.

Mr. G. F. Wheeler, the eminent barrister and chief clerk of the Privy Council, in an interview on the subject of the probable composition of the Venezuelan arbitration tribunal, as far as Great Britain is concerned, informed a representative of the United Associated Presses to-day that it was an unusual thing for judges to sit on arbitration tribunals. It was more than likely, he thought, that eminent international jurists, such as Sir W. H. Anson, warden of All Souls' College, Oxford, and Lord Davey, Lord of Appeal in Ordinary, would be appointed, though the latter would possibly refuse to serve.

A HISTORICAL MOMENT.

London, Nov. 12.—The St. James' Gazette this afternoon publishes a leading article, headed: "A Historical Moment," during the course of which it says Lord Salisbury's great administration of the principle that the United States have the right to intervene in frontier disputes of the American powers and to compel the disputants to arbitrate altogether transcends in importance the question of the Guiana boundary. It is a formal recognition of the hegemony of the United States on the American continent, and gives the President the position in the New World which the mediaeval Popes and Emperors tried vainly to claim in Europe.

TWO WEDDINGS IN LONDON.

Sir Albert Kaye-Rollit and the Dowager Duchess of Sutherland United.

London, Nov. 12.—The marriage of the Dowager Duchess of Sutherland to Sir Albert Kaye Rollit, M.P. took place to-day in St. George's Church, Hanover Square. The service was full choral and the church was magnificently decorated for the occasion. The services were conducted by the Rev. Arthur Mitchell, a brother of the bride, assisted by the Rev. A. B. Carpenter, a brother of the Bishop of Ripon, and the Rev. Dr. Anderson. The Duchess was driven to the church, accompanied by her daughter, and was met at the entrance to the edifice by her brother, the Rev. Arthur Mitchell, who conducted her to the altar and gave her away. Arthur Rollit, brother of the bridegrooom, acted as best man. The bridal robe worn by the Duchess was of petunia velvet trimmed with chinchilla fur, studded with jewels. The bride's ornaments were a chain of diamonds and emerald and diamond pendants. She also carried a bouquet composed of flowers of costly variety. There were no bridesmaids.

Carter Harrison's Fiancee Married.

London, Nov. 12.—Miss Howard, daughter of the late Charles T. Howard of New Orleans, was married in St. James' Parish Church, Paddington, yesterday, to Mr. Walter Parrott of London. The ceremony was performed by the Rev. Walter Abbott, rector of St. James' Parish. Miss Howard was engaged to be married to Hon. Carter Harrison, Mayor of Chicago, who was murdered only a short time before his marriage with Miss Howard was to have taken place.

Miss Howard was the donor of the splendid Howard memorial library to the city of New Orleans, and was reputed to be the richest woman in that city. She owned an elegant mansion there and another on the Hudson River. For a long time after Mayor Harrison's death she lived in comparative retirement. A year ago she came to Europe and met Mr. Parrott while traveling in Egypt. Mr. Parrott is a member of the firm of Parrott Bros., prominent members of the London Exchange.

BISMARCK SPEAKS AGAIN.

The Ex-Chancellor's Organ Refers to Some Things of Interest to Germany.

Berlin, Nov. 12.—The Hamburger Nachrichten to-day publishes another inspired article from Friedrichsruhe, during the course of which it discourages the proposed debate in the Reichstag on the Russo-German treaty of 1884-90, but says: "It would be of special interest to learn why Caprivi in 1890 felt compelled to cut the wires which still unite Germany to Russia." Continuing, The Hamburger Nachrichten remarks: "The question now arises whether a powerful neighbor like Russia is in closer touch with us or with our opponents in Europe."

This question is of paramount importance to all Germany, as is also the question whether British policy is striving to exercise an influence over our policy, the result of which would not be altogether to the advantage of Germany, and we think that explanations would exercise a tranquillizing influence upon the public and strengthen the attachment of Germans to their institutions."

Paris, Nov. 12.—The Figaro publishes a letter from the Berlin court to the effect that Prince Bismarck's disgrace was due to the ex-Empress Frederick, who, acting upon revelations communicated to her by the Princess of Wales, convinced the Emperor of Prince Bismarck's fatal policy in relation to Bulgaria and of the part he played towards the Nihilists, culminating in the Russian-German rupture. The letter adds that Prince Bismarck vowed vengeance, hence the disclosures.

PACIFIC CABLE COMMISSION.

Mr. Sandford Fleming Made Explanations in Regard to Construction.

London, Nov. 12.—The Pacific Cable Commission resumed its sessions at the Colonial Office to-day, with a full attendance of members. Lord Selborne, Parliamentary Secretary for the Colonies, presided. The delegates present were Sir Donald A. Smith and Mr. Jones, representing Canada; Sir Saul Samuel and Hon. Duncan Gillies for Australia, and Mr. George H. Murray and Secretary Mercer of England. The commission at once began to take the testimony of experts. The sitting was private.

Mr. Sandford Fleming, C. M. G., the technical adviser of the commission, gave evidence touching the various questions connected with the construction of the proposed cable. The commission adjourned until Monday afternoon, after which day frequent meetings will be held and the testimony of several experts will be taken at length.

"Turn the rascals out"—the familiar partyory — may be applied to microbes as well as to men. The germs of disease that lurk in the blood are "turned out" by Ayer's Sarsaparilla as effectually as the old postmasters are displaced by a new administration.

Dr. Fowler's Extract of Wild Strawberry cures Diarrhœa, Dysentry, Cramps, Colic, Cholera Morbus, Cholera Infantum, and all looseness of the bowels. Never travel without it. Price 35c.

To destroy worms and expel them from children or adults use Dr. Low's Worm Syrup.

CONFLAGRATION AT BERLIN.

Total Destruction of the Big Factory Owned by Mr. D. Hibner—Heavy Loss to the Town.

Berlin, Ont., Nov. 11.—(Special.)—A terrible fire is raging here which threatens to wipe out several of the largest factories. It is the most destructive fire that has occurred here for years, the large manufactory of Mr. D. Hibner being burned to the ground. The loss will be between $35,000 and $100,000. The fire started about 8 o'clock in the first flat. A boy was washing his hands in benzine near a gas jet, when it ignited and caught some other benzine, causing an explosion. An alarm was immediately sent in but it was ten minutes or more before the firemen arrived. The building was three storeys, and the hose could only reach to the second flat.

At 11.30 o'clock the fire was under control. Mr. Hibner's factory is completely destroyed, but the firemen prevented the spread of the flames to other buildings. The amount of insurance is not ascertainable at present.

A MARVELLOUS CURE.

Helped by the First Box—Could not Lift Fifty Pounds—Cured by a few Boxes of Dodd's Kidney Pills.

Arthur, Nov. 9. (Special).—Among his more intimate friends it has long been known here that Mr. J. C. Morrison had been gradually failing in health for many years. The acuteness of his sufferings was known only to a few. His complete recovery is a surprise here and is causing much talk. Of his cure he says:—"Yes I got help from the first box of Dodd's Kidney Pills and I have taken fifteen boxes. I kept getting better every day. When I commenced I could not lift fifty pounds; now I am as strong and well as ever in my life."

Soliciting Alms.

Gilbert Peck was allowed to go this morning by the mayor, who presided at the police court. The old man was up on a charge of soliciting alms, but promised never to offend again if allowed to go free this time.

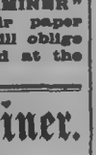
Those Noisy Engines.

The residents of the south end, in the vicinity of Bethune street, are again complaining about the noise made by Grand Trunk engines, especially the early morning way freight. It is nearly time the council took some steps to have the nuisance abated.

City Bakery Changed Hands.

I beg leave to inform my customers that I have sold my Bakery Business to Mr. A. E. Sims, a practical baker, who will in future continue the business. I take this opportunity of thanking my patrons for their liberal patonage and can confidently recommend my successor as a first-class baker. E. J. LAING.

To-Morrow Morning



The clearing sale starts at Routley's. A crowd is expected from early morning until closing time, so that early shoppers will do their buying with greatest comfort. The public are on the qui vive to test the truth of the reductions advertised. Test, by all means. Routley never disappoints. Everything goes at this sale, and prices will not stand in the way of a regular stampede of the goods.

Who is This Woman ?

An elderly woman, of somewhat peculiar appearance, applied for a room at one of our hotels last evening, and retired early, saying she was feeling unwell. This morning she left the hotel at an early hour, and while walking down William street, her actions led passers-by to doubt her sanity or sobriety. Some time later she gained access to the parlor of another hotel, where she again created consternation and alarm by her terrible screams. She said her name was Mrs. John Wallis, and that she lived in Eenismore. Beyond doubt the woman is mentally unbalanced. She was taken to the gaol in a hack to await medical examination as to her sanity.—Lindsay Post.

V. Rev. Father Teefy's Lecture.

On Sunday evening the annual lecture, in the interests of the funds of the St. Vincent de Paul Society, will be delivered in St. Peter's cathedral by V. Rev. J. R. Teefy, LL.D., principal of St. Michael's College, Toronto. The subject of the reverend lecturer will be "The Incarnation—the Great Love of God for Souls." All who have heard Rev. Father Teefy say that the vivid impressions of his scholarly eloquence make them desirous of hearing him again. A collection will be taken in aid of the funds of the society.

Madill's Compound Healing Salve for burns, scalds, frost bites, or sores of any kind.

A JEW IN TROUBLE,

He stole a Dog and is Neatly Trapped by the Police.

Abraham Levi, a Jew, was arrested last night charged with stealing a dog from John Reynolds, with whom he boarded.

When arrested Levi denied all knowledge of the dog, but the toils of the law had been so skillfully drawn about him as render his escape impossible.

Reynolds complained to the police on Wednesday about the loss of his fox terrier, and as Levi had left the boarding house the day before, suspicion rested upon him. Inquiry at the Grand Trunk Railway station revealed the fact that the Jew had tried to check the dog through to Toronto from there, and that failing in this he had taken it under his arm and boarded the Port Hope train. A telephone message to Port Hope resulted in it being ascertained that the man and dog had been seen there and had gone on to Bowmanville.

When the chief of police at Bowmanville was communicated with, he stated that he had been on the train when it passed through Peterborough and had seen the man board the car with the terrier under his arm. The man, he stated had left Bowmanville for the east again.

It took until Thursday afternoon to gather this information, and while the police were busy working up the case Levi landed back in town again on the five o'clock afternoon train. He was promptly arrested but, as stated, denied all knowledge of the dog. The chief told him of some of the circumstances which were known of the case, and the Jew caved in and made a clean breast of it, stating that he had sent the dog on to his wife in Toronto.

This morning he offered to pay all expenses for bringing the animal home again and begged hard to be let off lightly, but the mayor fined him $5 and costs, amounting to $10.61, or as an alternative, one month in gaol.

The Jew offered $8.75 in settlement and when that wouldn't go, wanted to give his watch also, but the mayor was obdurate and unless Abraham can raise the dust he will have to go to gaol for a month.

MR. GRENVILLE KLEISER.

The Great Canadian Entertainer at the Opera House—A Large Audience and Splendid Entertainment.

The entertainment in the opera house under the auspices of the George street Methodist Sunday was in every way a success. There was a large attendance, the entertainment presented by Mr. Kleiser was of the highest order, and gave the greatest satisfaction. The piece de resistance was that evergreen comedy drama, "Our American Cousin." It is an ambitious undertaking to represent in monologue the complex and numerous dramatis personæ of this play, but Mr. Kleiser's versatility was quite equal to the task. The several and diverse characters were presented in a most faithful manner, and the result was quite worthy of Mr. Kleiser's continental reputation as an entertainer. He has given the same play here before, but those who had heard it previously heard it with as much delight as those to whom the brilliant presentation of it was new. The clever facial and vocal metamorphoses required to distinguish and individualize the several characters were wonderful, and testified to the extreme versatility and cleverness of the artist. The ridiculous character of Lord Dundreary was drawn with especial fineness, and taken with the rest of the performance gave the greatest satisfaction. Mr. Kleiser is a host in himself. He also recited three or four other selections in his inimitable manner. He was greeted with warm but appreciative applause during the evening. Altogether he gave an entertainment of a highly interesting character, and strengthened the high estamation in which he is held by the people of Peterborough.

During the evening Mr. Geo. Schneider, organist of the church, gave excellent pianoforte solos as interludes. The committee are to be congratulated upon furnishing so fine an entertainment, and on the decided public appreciation of it.

CHILDREN'S AID LECTURE.

A Few Facts Concerning the Society's Work.

In connection with the lecture to be given by Rev. Dr. Mulligan, in aid of the rescue work of the Children's Aid Society, the following figures are appended for the information of the public: Since the formation of the society five years ago the number of children taken over by the local branch of the society and placed in adoption is 23; the number not taken over but taken care of and looked after is 62; the number of cases of cruelty punished is 24; Total number of complaints attended to about 200.

"This society has shown itself to be a most necessary and useful one," says the Chief of Police.

The work should be extended but is in need of financial assistance.

Madill's Cough Syrup

For coughs, colds or sore throats. Cure guaranteed.

We "Meat" Everybody

At our store, and tender tender meat to our patrons. Our mutton is sold as mutton—not spring lamb. Same with beef—cuts are sold as such. Yet the people keep coming to JOHN J. HOWDEN'S Meat Store, 416 George street. Telephone 39.

New Fancy Goods Store.

Mrs. Appleby wishes to inform the ladies of Peterborough that she will open out on Saturday, November 14th, a stock of fancy goods at 426 Water street, south of Mason's greenhouse. A share of your patronage is respectfully solicited. Look out for new advertisement next week. 4d113

Enlarged Until Wednesday.

On Tuesday last four or five young men were arraigned before County Police Magistrate Edmison, and John Finlay, Esq., J.P., at Norwood, on the charge of obstructing the streets, disfiguring windows and otherwise acting in a disorderly manner in the public streets of Norwood on the night of Oct. 31st. The defendants pleaded not guilty to the charge, and after hearing the testimony of one witness their worships enlarged the case until Wednesday next to give the prosecution an opportunity to secure counsel and prepare their case.—Register.

That Decapitated Turtle.

A correspondent, I. P., writes the EXAMINER in reference to a paragraph in yesterday's issue, in regard to the refusal of a decapitated turtle to die. He suggests that if Mr. Terrill will put the beheaded testudian in warm water it will die in a very short time, otherwise "it will not die." Another correspondent suggests taking the animal to the power house and treating it to a decided dose of electricity that will be effectual. Since chopping a turtle's head off does not end fatally, Sir Charles Tupper might have some doubts as to whether taking off Lord Aberdeen's head will have the desired effect upon the Liberal party, whose scalp the knightly ex-Premier is after through the Governor-General. The people cut off Sir Charles' head last June, yet he made a brave struggle, and refused to succumb politically for a long time. He is making a hard fight for the breath of life to a Conservative—office—and if he succeeds in bowling out Lord Aberdeen, and working his scheme to get Conservatives appointed poundkeepers—there is some hope for him. A great thing is statesmanship.

BANQUET TO HON. GEO. A. COX.

A Complimentary and Congratulatory Banquet to be Tendered the New Senator.

The appointment of Mr. Geo. A. Cox to the Senate of Canada, is regarded throughout the country and on all hands to have been an eminently wise act. From journals and public men, irrespective of party sympathies, come hearty endorsation of the appointment. From the fact of Mr. Cox having been a former resident of the town, and still having large business interests here, a number of citizens, without political distinction, make the proposal that it would be a graceful and wise course to entertain Hon. Senator Cox on the occasion of his first visit to the town after his appointment to the Senate. This it is felt, is no more than is due to a former citizen who has always been held in the highest respect, and whose efforts in building up and promoting the prosperity of the town, are worthy of specific recognition on an occasion when his eminent abilities and services have been acknowledged by the Government of the country.

With a view of considering the details of the proposition of a banquet, a meeting of those in sympathy with the project will be held in the office of the Town Clerk tomorrow night at 8 o'clock. All who may desire to attend will be welcomed.

A RIVER DRIVER FATALLY INJURED.

The Wheel of a Heavily Laden Wagon Passes Over His Spine.

A serious accident, which, it is feared, will be attended with fatal results, occurred on Tuesday last and the victim, Mr. George Papua, of Warkworth, is lying in a very precarious condition in St. Joseph's Hospital.

A wagon load of shanty men were on their way back north and had just crossed the Chemong bridge, when Papua fell from his seat, as the wagon jolted over a stone, and was thrown beneath the wheels, one of which passed over his back, seriously injuring his spinal column.

Dr. McGrath was summoned and had the man removed to St. Joseph's Hospital. Paralysis has set in already and all power has completely left the lower limbs.

OBITUARY.

The death of Mr. Robert Johnston, of Millbrook, occurred at the residence of his son, Mr. John Johnston, No. 46 Bonaccord street, at ten o'clock this morning. The deceased was born in County Fermanagh, Ireland, in 1817, and came to Canada when a youth. He has lived in this section for many years and was for a long time employed by the G.T.R. as a switchman at Millbrook. He leaves a widow who resides in that village. The funeral will take place from his son's residence, No. 46, Bonaccord street, at ten o'clock on Sunday next, interment being in the Millbrook Presbyterian cemetery.

MRS. KLEINGENFIELD

Of Toronto, Teacher of Vocal Music, Piano and Theory, will be at the HUFFMAN HOUSE on Tuesday of each week hereafter.

PERSONAL

Miss Annie Dawson is visiting friends in Norwood.

Mr. E. D. Gough, of Belleville, is in town visiting his brothers, Messrs. A. G. and R. J. Gough.

Mrs. P. O'Connor, of Deseronto, is in town visting her daughter, Mrs. (Dr.) Moher, Hunter street.

Mr. H. Cowle, Peterborough, returned home yesterday, after spending a few days in town.—Port Hope Times.

The marriage of Rev. C. B. Kenrick, rector of St. Mark's church, Port Hope, and Miss Hugel is announced for Dec. 29th.

Rev. Father C. J. Underwood, and Rev. Father J. B. Moriarty, of Halifax, are in town on a visit, the guests of Ven. Archdeacon Casey.

Mr. Aaron Cox has returned from the Northwest, where he has been on a business tour in the interest of the Central Canada Loan and Savings Company.

The Port Hope Times says :—Mrs. Josephine Moyse, wife of the late William Moyse, Peterborough, is the guest of Mrs. W. A. Russell, 162 John street. Mrs. Moyse is a daughter of the well-known Prof. Chalaupka.

Mr. and Mrs. Samuel Warrington left Peterborough this morning on an extended visit with friends in England, en route by steamer "Canada." On their way they called on their brother, Mr. James Bradley, Kingston.

NEWS NUGGETS.

—The big pile of packing boxes in front of Wesley & Day's novelty store denotes that preparations are being made for a big Christmas business.

—If you want to economize burn the People's Coal Co's coal. All kinds of coal in stock, including best hard coal for stoves and furnaces, soft coal for grates, and smithing coal. Office—230 Charlotte Telephone 366.

New Fruits.

The arrivals of new fruits are reported by the leading grocers in town, but the choicest raisins, currants, peels and figs we have had the pleasure of looking at are shown by Messrs. E. F. Mason & Co., who have used good judgment in the selection of fruits, as there is much inferior goods on the market this year. 2d114

New Furniture.

At A. Clegg's :—A large assortment of floor rocker cobler seats, in oak, natural birch and mahogany finish. These are of superior styles and finish and very cheap. Also a lot of reed and rattan rockers—cheap! cheap! Several cases of pictures, good subjects, complete, at less than you have been accustomed to pay for frames only. A. CLEGG, 427 George street.

MR. R. J. KIDD CANED.

Honored by the Teachers and Officers of the Sunday School.

The officers and teachers of the Charlotte street Sunday School took advantage last evening on the occasion of their monthly business meeting to present their efficient Superintendent, Mr. R. J. Kidd, with a handsome gold headed walking stick.

The presentation was made by Dr. Morrison in the presence of about fifty of the officers and teachers. Mr. Kidd accepted the gift in a few words, expressing his gratitude.

The Superintendent has been in charge of the Charlotte street Sunday School for about three years and a half. During that time he has been instrumental in making a great improvement. Each quarter shows an improvement on the last one in attendance as well as from a financial standpoint. At present the school is one of the most orderly and best conducted in the province. The officers and teachers feel that to Mr. Kidd the credit is largely due for the name for prosperity which the Sunday School now enjoys.

For stomach and liver trouble use Madill's Stomach and Liver Pill; few doses will relieve.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eyes.

Mr. Thomas Flynn, for many years general claims agent of the Grand Trunk Railway west of the St. Clair River, has sent in his resignation to General Manager Hays. In a letter to Mr. Hays, Mr. Flynn states that his reason for resigning is that he has secured employment in Canada near his old home. Mr. Flynn's letter of resignation was sent to Genera' Manager Hays through General Superintendent McGuigan, and the latter writes to Mr. Flynn stating that Mr. Hays joins with him in regret at losing the services of Mr. Flynn, and wishing the latter every success in his new field.

The Lindsay Post says :—"Mr. Archibald Blue, director of the bureau of mines for Ontario, was in town yesterday, and went north on the afternoon train to inspect the iron deposits along the line of the I. B. & O.R.R., which are now attracting renewed attention owing to the projected construction of smelting furnaces by Mr. Pusey, the capital for which is now expected to be forthcoming owing to the renewed confidence imparted by the result of the presidential election. After leaving the mines Mr. Blue will proceed to Bancroft, from which point he will walk via Bird's road to Cos Hill station, on the Kingston & Marmora R. R., and will carefully examine any mineral deposits along his route or within any reasonable distance.

PHOSPHATE

is rock, just stone with chemical properties, but nevertheless it is stone and always will be stone, no matter how finely powdered. This is one of the substances used in the manufacture of cheap Baking Powders. When combined with other acids it causes gas, which raises the cake, but the stony particles stay in the cake, go into the stomach, cutting its delicate lining and ruining digestion.

Cream of Tartar and Soda make the only Baking Powder that is fit to use. Only the best of Pure Cream of Tartar and Soda are used in

PURE GOLD

PURE AS PURE GOLD. BAKING POWDER

A VERY LITTLE MONEY

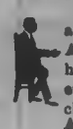
LOCAL NEWS.

A Cosy Bath.

The latest caper in Haskill's Gold Dollar Beer Shop is a private bath-room cosily fixed up with hot and cold water. It will be a luxury for many who have been wishing for something of the kind to start up. Buy a few little pasteboards and enjoy a quick dip. 6d111

The Second of the Series



Of entertainments under the auspices of the Catholic Literary Association, will be held in their hall, George street, on Tuesday evening, 17th instant. A first class programme will be presented. Admission 10 cents.

Bear Hunting.

A company of sportsmen, composed of Messrs. W. E. Hopkins, S. H. Hardy, C. J. Jwell, Stephen and Wm. Copperthwaite, of Belmont, Rev. W. Peer and F. R. Radcliffe, of Norwood, who have been hunting in Belmont township, north of the Copperthwaite settlement, shot two fine black bears on Friday last—a cub and its mother. The lucky marksmen was Mr. Stephen Copperthwaite who came upon the pair under two cedar logs. The cub was brought to Norwood on Friday evening and was on exhibition. It has a beautiful fur coat, which Mr. Peer intends having put through the necessary process for making of a rug.

Are you Purse-less?

Probably you think you don't need a purse, or can't afford to buy one. We can supply purses for extra slim pockets, and before you lose any more coin let us help you to look after your finances. Buy them here, from half a dime up. Ladies can have a solid leather purse, silver mounted, for a quarter, or a purse and card case combined for half-a-dollar. But 60c. will make you the owner of a stylish calf-skin purse, richly silver mounted. The best dollar purse ever shown at the Peterborough Bookstore. A. H. STRATTON & Co.

Married Under Age.

The Midland Free Press tells the following little story as another illustration of the fact that true love never runs smoothly: "Wilford Miller is a young farmer living near Waubaushene. Theresa Joseph was a neighbour's daughter. The young people became sweethearts, and on September 21st last they came to Midland, secured a license from Reeve Ruby, and went to the parsonage and were married by Rev. Mr. Caldwell. This didn't suit Theresa's parents and they had Wilford and Theresa arrested on Tuesday and brought to Midland on a charge of perjury, alleging that Theresa is not of age (18 years old) and that she and Wilford swore falsely in securing the license. The case was tried before Mayor Horrell. Frank Joseph and his wife swore that her daughter would not be 18 years old until next August. Wilford swore that he had honestly believed that Theresa was over 18 years of age. The Mayor decided that the case was too serious to be dismissed, inasmuch as the law was being made even more strict against the marriage of minors, and that anything in the nature of a subterfuge in procuring a license should not be condoned. He ordered that Miller stand his trial at Barrie, and readily assented to accepting the bail that was at once offered and given."

A Tip To Men.

THERE ARE MANY EXCELLENT WEAVES OF UNDERWEAR IN THE MARKET, AND WE KEEP THE CREAM OF THEM—BUT NONE THAT WILL GIVE SUCH COMFORT, SUCH A SENSE OF DOWNY WARMTH, AND SUCH SATISFACTORY WEAR AS

Our "Health Brand"

Undershirts and Drawers

YOU NEED TO WEAR THEM TO HAVE A PROPER IDEA OF THEIR LUXURIOUS FEELING.

Mercer's

WESTWOOD.

(From Our Own Correspondent.)

The annual thank-offering public meeting of the W. F. M. Society in the Presbyterian church, here, on Tuesday afternoon, Nov. 3rd, was a decided success. The members of the society extended a cordial invitation to the ladies of other churches. This was as it should be. The very best feeling should exist between all churches, for are they not all going toward the same goal, and why not strew the way with roses rather than thorns?

The following is the programme:—

Address of Welcome.....Mrs. John Hope, jr., [President
Singing
Bible reading
Prayer
Reading.....“A Little Child Shall Lead Them” Mrs. Wright.
Solo.....“The Master's Call” Miss Maggie Bryce.
Reading.....“China's Condition and Needs” Mrs. (Dr.) Macnaughton.
Duet.....“Far, Far Away” Misses A. Elmhirst and E. Nelson.
Address.....Miss M. A. Forsythe, St. Andrew's [Church, Peterborough
Duet.....“Where is Heaven?” Misses Lottie Blezard and Nell Miller.
Lunch and Pleasant, Sociable Chat.
Closing Prayer.....Miss M. A. Forsythe

Miss Forsythe, of St. Andrew's church, Peterborough, gave an excellent address, full of information and bright ideas, which was listened to with marked attention and profit. She chose for her subject three common excuses for not taking part in mission work and the three reasons why we should. Here three common excuses were: 1—Want of time; 2—Lack of interest; 3—Not money enough. Her three reasons why we should take part in mission work were: 1—Our Saviour's command; 2—Time is short, work is great; 3.—The blessings we gain.

Want of Time—To whom does our time belong? why, to the Lord, then why not use it in his service. If we use but our time that is spent carelessly, in mission work, we would accomplish a great deal.

Lack of Interest—We must study and understand the work before we can take a proper interest in it. The officers in the different societies must read and be thoroughly posted in the good work, as well as being sincere—let it be heart work.

Not money Enough—Our money is the same as our time, all belongs to the Lord. It is not the amount of money, but the amount of spirit you give. Give because God has given to you; give cheerfully; our Saviour's command, “Go ye into all the world, and preach the Gospel to every creature.” We have all our work to do; we cannot all go to China, Japan, the South Sea Islands or other heathen lands, but we can encourage and assist in many ways those who make this great sacrifice. A word spoken, a kindness done to any disciple of the Lord, no matter where or how situated, is obeying the Divine command.

Time is short, work is great—We must be up and doing for the night cometh when no man works. We should all do whatever we can for the Master. The blessings we gain—the smallest thing we do, is approved of God. We are blessed in the doing of it.

This is merely a very short synopsis of Miss Fosyth's address—indeed to fully appreciate her you have to hear her, then you have the full benefit of her wonderful enthusiasm, magnetism, thought and information she infuses into her excellent addresses. The collection was large, the entertainment part excellent, the lunch sumptuous, indeed from a feminine standpoint the meeting was an unqualified success, but the men are grumbling ever since because they were excluded. However it is currently reported that a few men will be admitted at the next meeting.

Mr. Ed. Lynch is now building a new carpenter shop.

Squire Brackenridge is building a new verandah to his post office, which will much improve its appearance.

The cheese factory is closed for the season.

Mr. and Mrs. James Steele and family have returned to their home in Montana, after visiting relatives in and around Westwood for some time.

Mr. John Stuart accompanied Mr. Steele to Montana.

DO YOU WANT A BENEFIT?

Everybody in search of warmer Underwear will have another chance to save money at Gough Bros. on Saturday. Snaps in Two Special Lines will be offered as follows:—

Karl's Clover Root, the great Blood purifier, gives freshness and clearness to the Complexion and cures Constipation. 25 cts., 50 cts., $1.00. Sold by John Nugent, 259 George street.

PROSPECTS FOR THE HOCKEY SEASON.

PETERBOROUGH WILL HAVE A STRONG TEAM.

Only Three Places on the Team to be Filled, and Dozens of Good Men Eligible for the Positions—A Goal Tender and two Forwards to be Selected.

In view of the fact that the hockey season is rapidly approaching and that a meeting for the purpose of re-organising the club may be called almost any day it may not be considered malapropos to glance ahead and consider the chances that Peterborough will stand of winning the championship of the intermediate series for the third time and becoming the permanent possessors of the coveted trophy.

In Toronto Peterborough is considered to be out of the running, as last year's team was thought to be thoroughly broken up by the loss of Parsons, King and Phelan from the rush line, but on looking over the list of

ELIGIBLE PLAYERS

the western enthusiasts would be surprised to find that Peterborough has a splendid reserve fund to draw upon.

The team of last year is not disorganized to as great an extent as is imagined, either. The defence is unimpaired in its efficiency and will be even stronger than last year. In the first place there are two of the best goal men in Ontario to pick from to guard the posts, as both Ernie Wasson, of last year's team, and George Dixon, of the champion team of the year previous, will be on the ice, and it is said that an effort will be made to persuade “Dinny” Dobbin, the far-famed goal minder of the Peterborough Lacrosse Club, to try his hand at stopping a puck. His eye is marvellously quick, and if he could be developed into a hockey man, his peer would be hard to find between the posts.

Montgomery, who has captained the team to victory so many times, and who plays the best game at point of

ANY CANADIAN HOCKEYIST

to-day, will be found in his old position. Although he would like to retire this season, “Monty” cannot be spared yet.

Just ahead of him will be found that cool customer, Sam Adams, who played such a superb game at cover-point last year.

The forward line will, as of yore, be graced by “Scuddy” Phelan, whose equal it would be hard to find. He is back from Chicago, and the team looks upon him as being the backbone of the rush line. He will be ably backed up by stalwart Roger Davidson, who ought to play a dashing game this winter, having filled out and added just sufficient weight to make his rush a hard one to stop.

So far so good, but two positions on the forward line remain open, yet the difficulty lies, not in being unable to find the men, but how to select two from the host of fast men, who are deserving of a place on

THE FIRST TEAM.

Hollingshead has probably the strongest claim to recognition. He comes to Peterborough from Newmarket, bringing with him the name of having been very fast on the defence. So fast indeed as to have been called to Toronto several times last winter to play with the Ontario Bank in the Bank series. Then, if Norwood does not put a team on the ice Ashe expresses his willingness to join the Peterboroughs. He certainly would make a great addition to the strength of the wings, having for several years captained the unbeaten Winnipeg seven. Then there is Fred. Lefevre, the spare man of last year. He is living in Lakefield now, but would help Peterborough out rather than see the boys stuck. He will be in good shape, as he is already making arrangements to form a team in the village.

The Volts are not organizing this year, and a large number of their last year's team are available. There is Wilgar, Rutledge, Hicks and Hall, of the forwards, and Thorne of the defence. All of them good men and

LIABLE TO DEVELOP

into star players, as none of them have been on the hockey ice long enough to be fully developed. This may also be said of the members of the II Peterboroughs. There is Macgachan, Ad. Ferguson, Bert. Bellegham, Crossley and Poussette. They have all practised with the town team and shown their worth. Ferguson and MacGachan are heavy men and play a strong, steady game, whilst the other three are as agile as kittens and won fame for themselves on the crack students' team of 1894-5, which won the collegiate championship of Canada.

Then there are the boys who composed the collegiate team of last year. Of them, King, Watt and Graham are still in town, and as they were quite new at hockey last year and yet made quite a name for themselves, there is no telling how they may bloom out this year.

Besides all these, there are still more to pick from. Amongst the spectators who watched the printers' team on the ice last winter there are those that hold that others besides Dobbin are

DESERVING OF A TRIAL

on the first team. Both Glover and McWilliams played very fast and rapidly acquired the art of handling their sticks and before the winter was over developed amazingly.

Again there are the “veterans” to fall back upon. Gus Sawers and Jack Gemmel, though both young, have for some reason dropped out of hockey. They were very fast when on the ice, and an effort will be made to get them out again.

It will thus be seen that the Peterboroughs will take the ice this year almost as strong as ever, and by the time the championship series begins, it can be reasonably hoped that the combination will be worked up to such a pitch, as to be quite as effective as in the days when the championship trophy was one of the possessions of the team.

Placed in the hands of the right management, the laurels of victory will doubtless crown the brows of the boys before the end of the season, but the greatest care must be exercised in electing the committee which is to have the selecting of the team. Any partiality shown will have the tendency to create sufficient petty jealousy to wreck the chances of the team.

WIDE TIRES.

Ottawa is the First City to Enforce Their Use.

The city of Ottawa has set an example to other municipalities by passing a by-law regulating the width of tires to be used on vehicles. The corporation is now endeavouring to enforce the by-law. Narrow tires on heavily laden wagons cut into the surface of the road like knives and necessitate the virtual remaking of the road each year.

The trouble with regulating the width of tires is that municipalities may differ. Peterborough might require an eight inch tire and Ashburnham, Lakefield or Keene a six. When any of these other vehicles get into Peterborough the owner will be contravening a by-law. The suggestion that the county pass such a by-law is a better idea. Another objection to regulating the width of tires is that it would be a hardship on a great many people to be suddenly compelled to put new wheels on their vehicles.

But all will agree that wide tires are necessary to good roads and streets, and the sensible way to go about their adoption is to pass a by-law fixing some date in the future when its provisions shall go into effect. Then the change from narrow to wide tires would be gradual and would inflict no hardship on anybody.

ALDERMANIC POWERS.

They will Cease on Dec. 31st next—Some Excellent Changes.

An amendment to the Municipal Act passed at the last session of the Legislature makes one or two important changes to which the attention of municipal men should be directed. The new council elected on the first Monday in January will meet on the following Monday, instead of the two weeks interim formerly allowed; and existing councils will cease to have power to vote money for any purpose, pass any bylaw or enter into any contract or bargain involving the payment of money, or dismiss or appoint any official after the 31st of December. The old council practically ceases to have any power between the first day of the month and the and the sitting of the new body on the second Monday, which may be as early as the eighth, or as late as the fourteenth. Another amendment requires city or town deputy-returning officers to proceed directly from the polling place to the clerk's office with the ballot boxes, on no consideration taking the box to their home.

Can Rheumatism be Cured?

The application of Nerviline—Nerve pain cure—which possesses such marvellous power over all nerve pain, goes greatly to prove that it can. Nerviline acts on the nerves, soothes them, drives pain out, and in this way gives relief. Try it and be convinced.

A man cannot run away from Death. If he would conquer it he must stand and fight with the weapons of common sense and science. Thousands of men and women try to escape Death's most active agent, consumption, by running away. They flee from one climate to another, and from one end of the world to the other, forgetting their demon is within them and not to be escaped from by a change of locality. Consumption has been pronounced incurable. It is not. It is curable and without change of climate if the proper remedy is resorted to, in reasonable time.

98 per cent. of all cases of consumption are cured by Dr. Pierce's Golden Medical Discovery. It goes to the seat of the trouble. It cures all disorders of the digestion. It makes the appetite keen and the assimilation of the food perfect. It fills the blood with life-giving elements. It is the great blood-purifier, flesh-builder, and nerve-invigorator. It acts directly on the lungs. It not only cures consumption, but all other wasting diseases due to improper nourishment. All good druggist sell it.

"I have used one bottle of your 'Golden Medical Discovery' and am now on the second one," writes Amanda E. Blankenship, of Templeton, Dyer Co., Tenn. "I am pleased to say that I have received more benefit from it than from all the medicine I have taken from our home doctors in the last twelve months."

Whoever would like a complete medical library in compact form should send for Dr. Pierce's Common Sense Medical Adviser. This is a book of 1,008 pages, illustrated with more than 300 drawings and colored plates. Dr. Pierce is one of the best known medical men in the United States. The best of what he knows is "boiled down" in this book. He talks to you in plain English of all the sickness you ever heard of. Several chapters relate to the physiology of woman's reproductive organs. This book, until recently, sold for $1.50. At this price 680,000 copies were sold. Now an enormous edition in paper covers is to be distributed absolutely FREE. Send 21 one-cent stamps to the World's Dispensary Medical Association, Buffalo, N. Y., to pay the cost of customs and mailing *only*. If a copy in fine French cloth with embossed covers is desired, send 50 stamps.

THEIR OWN PHYSICIANS.

Self-Doctoring Promoted by the General Use of Medicine in Tablets.

Not only has the general introduction of medicine in the form of compressed tablets simplified the work of the doctor, but it has also vastly improved self-doctoring. The number of remedies put up in this form for popular use constantly increases. Many druggists make a specialty of these things. You see them displayed near the soda water fountain, put up in small bottles and sold at prices that must yield a handsome profit. Half a dozen remedies for indigestion are thus sold, some containing pepsin as the active principle, others containing soda mint, some bismuth, some charcoal, or more powerful disinfectants. Some are designed to remove acidity of the stomach; others to attack a catarrhal condition. Others are to provoke appetite, and still others are to promote one or another natural function. A dozen headache cures are sold in this fashion, and the different emollients for the throat are almost innumerable. There are grip tablets, liver tablets, heart, lung and brain tablets.

Persons who have eschewed patent medicines all their lives, buy these tablets of one sort or another, because most of them are supposed to be well recognized remedies. Most of the tablets are advertised only in medical journals in accordance with the requirements of the medical code, and many of them, no doubt, have obtained their popularity through their use by reputable physicians.

Quinine, which is now extremely cheap, is sold largely in the form of two-grain pills or in larger pills containing iron. Although believed by many physicians to be a dangerous remedy, it has long been self-prescribed by all sorts of persons, especially in malarial regions, and it is one of the most frequently bought without prescription. It is self-prescribed for malaria in its many forms, to check a cold in its early stages, and as a tonic. Stimulants of one sort or another are sold in this form, but more especially, perhaps, at the soda fountain, which has become a sort of medical dispensary. Many headache remedies are dispensed at the soda fountain. Some are recommended or suggested by the attendant, but many persons have their favorites among the various sedatives and febrifuges and some are called for as regularly as the fruit syrups. New remedies are introduced through the soda fountains, and old ones have long been included in the annually lengthening list of the soda water dispensers.—New York Sun.

Hats and Bonnets.

The turban of the Russian peasant, with its rather high, rolling brim, is just now the most popular model for a promenade hat.

The fur hat is again fashionable. It apepars in imperial Russian sable and in fine "baby lamb," or caracul.

The revival of felt for general wear seems assured, but the hat is no more worn to harmonize in color with the costume, unless it is made of the same material.

There are wide ties of moire ribbon on some of the large hats, but narrow ties of velvet ribbon will be used on bonnets, and will be tied under the chin. Wide hat-strings are sometimes tied eccentrically under the ear.

Violets have taken a fresh lease of favor. They are used on Russian hats of fur with lace and velvet, and are frequently combined with grapes for trimming purple hats. Green and violet or royal purple is a fashionable combination of color.

WE WANT TO KNOW.

Not a Single Reply to our Question—Not a Failure to Cure—A Half-Million Users of Dodd's Kidney Pills Satisfied.

Toronto, Nov. 2 (Special)—Without a single reply, for over two years, we have advertised this question:—"Does anyone, anywhere, know of any case wherein Dodd's Kidney Pills have failed to cure any kidney disease at any stage?"

We estimate that a half million people must have joined in using the two and a half million boxes already sold in Canada, and yet not a single complaint—not one failure to cure.

Now, reader, here's one for you:—Do you know of a death from kidney disease or of heart failure, the victim having used Dodd's Kidney Pills?

Shiloh's Cure

Is sold on a guarantee, it cures Incipient Consumption. It is the best Cough Cure Only one cent a dose. 25 cts., 50 cts., and $1.00. Sold by John Nugent, 399 George street.

BARRY WANTS TO ROW GAUDAUR.

The Thames to be the Course, With £50 Pound Stakes—Will Jake Pick up the Gauntlet?

Toronto, Nov. 12.

Mr. H. J. P. Good of The World received the following cablegram last night: "Will Gaudaur row Barry, £250 a side, on Thames?

"(Signed) Sportsman."

At present Gaudaur is up north with a shooting party. He has been telegraphed in regard to the matter, but, as he is in a very inaccessible part of the country, a reply is not expected for some days.

BASEBALL MATTERS.

Baltimore Was Awarded the National League Pennant—Proposal to Abolish Coaching.

Chicago, Nov. 11.—Baseball was the theme of the crowd of men in the Auditorium Hotel rotunda to-day. They were interested in the annual meeting of the National League of American Baseball Clubs, which began this afternoon. It was preceded in the morning by a meeting of the Board of Directors.

The directors audited the accounts of the league and awarded the championship pennant to Baltimore. The Cincinnati Club asked the board to straighten out the old Baseball Park trouble in that city. Chris Von Der Ahe of St. Louis claims an $8000 interest in the field, and has attached the gate receipts from time to time. The board decided that it did not care to re-open the case, and, as the dispute is in court, the Cincinnati Club was advised to fight out its battles there.

The league meeting began at 2 o'clock, and adjourned after three hours' deliberation, to meet to-morrow morning at 11 o'clock. It was decided to change the opening and closing time of season, so that games will commence April 15 and end Oct. 15. Formerly the season closed about Oct. 1.

The president of the league and the acting chairman were authorized to appoint a Committee on Playing Rules, not to exceed three in number, which committee is to be instructed to make a report on its notwork and any suggestion or alteration it deems proper in the playing rules to the secretary of the league at least 30 days prior to the spring meeting.

The constitution was read section by section, in order that any change deemed advisable by members might be offered. Section 4 was stricken out. It provided for the fining of an umpire $25 for the first offence and $50 for the second offence, for not reporting trouble with a player. Among the matters talked of to come before the league is a proposition to abolish coaching, and an effort to abolish the Temple Cup games, which have followed the regular championship series.

There is plenty of gossip about deals for transfer of individual players. One deal in that line was accomplished to-day in the sale of Outfielder Tom Bannon of the New Yorks to Kansas City. There is talk that Philadelphia will be strengthened by the acquisition of Third-baseman McGraw of Baltimore and Pitcher Rusie of New York. F. H. Abells of Brooklyn has a scheme which he thinks would add to the patronage of the game. "My idea," said he, "is to release all the players Jan. 1, and not allow any of them to be signed until March 1. Then let there be a scramble and a competition, with a fixed salary limit, however. This would produce such frequent and exciting changes in the clubs that the patrons in every city would be continually on the jump, uncertain what to expect or whom they would see in their uniforms or how the games would go."

Many people, when a little constipated, make the mistake of using saline or other drastic purgatives. All that is needed is a mild dose of Ayer's Pills to restore the regular movement of the bowels, and nature will do the rest. They keep the system in perfect order.

Hints on Photography.

The first thing to be considered is the arranging of the camera so that it will be exactly perpendicular with the picture. A copying stand is a great convenience, not an actual necessity. A vertical support, with the drawing or picture placed in such a manner that its center shall come on an exact line with the center of the lens, is all that is required. A board the width of the bed of the camera, and perhaps five feet in length, will answer every purpose of a copying-stand. At one end of this board fasten a small piece of board in such a way that it shall be at exactly right angles with the long board. This small board is the support for the picture. The camera either rests on the board, or is raised a little above it by a small block, the adjustment depending on the size of the picture to be copied. To find whether the center of the lens corresponds with that of the picture place the camera quite near the picture, thread a piece of silk through the center of the lens cap, place the cap on the lens, and carry the string to the center of the picture. In this way one can readily see whether the two centers correspond with each other. In copying a black and white picture we want no half-tones or shadows, so that if the paper has a grain it must be placed in a strong front light. An all-round illumination, which can be had by using the apparatus out of doors, is the best lighting, as there is no possibility of shadows. The most suitable plate for copying a black and white picture is the brand called "photo-mechanical." If these plates are not easily obtained, use a very slow plate.—Harper's Round Table.

Roentgen Rays Will Burn.

That Rotengen rays burn the skin like sunlight is the latest information from Berlin about the phenomenon. Professors Grumbach and Du Bois Raymond have succeeded in rendering visible some of the softer parts of the body, like the larynx and the diaphragm, by means of improved tubes.

A Puny and Fretful Baby.

This is now quite unnecessary! Like many others, you may have your baby fat laughing and happy, if you give it Scott's Emulsion. Babies take it like cream.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Tobacco Heart

Much heart and nerve weakness is caused by undue use of tea, coffee, and tobacco; palpitation, nervousness, irritability, excitability, lack of confidence, etc., are sure symptoms. Milburn's Heart and Nerve Pills bring ready relief, by steadying the nerves and regulating the heart. They are true heart and nerve food.

MR. LEGATE, Traveller for McCormack & Co., London, says: "Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill druggist.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c 50c. and $1.00.

Treatment of the Shoulders.

Though great width across the shoulders is not now a part of the style, yet blouse trimmings continue to show a certain preoccupation with the shoulders. The eye is carried out over the sleeve with either a yoke collar or equalets sewed into the armholes, or a longer equalet that huns from the neck over the shoulder seam to fall upon the sleeve. This last is sometimes tucked, and may be bordered with lace or a ruffle so as to almost as large as a yoke. As a variation the popularity of the wide corselet belt has suggested the application of trimming to the lower half of the blouse, that is worn with a narrow belt. Thus a green etamine blouse has flax-colored guipure applied to the lower part in strips running up and down, with the upper ends pointed and a narrow edge of lace running around and joining the points into one outline. The close part of the sleeve is covered with the lace and the upper part is left plain. The effect is really the same as that of a yoke and equalets, only the position of the trimming reversed. An infinity of changes are played on the bolero, which taken altogether is perhaps the most successful idea of the summer.

Blood is Life.

It is the medium which carries to every nerve, muscle, organ and fibre its nourishment and strength. If the blood is pure, rich and healthy you will be well; if impure, disease will soon overtake you. Hood's Sarsaparilla has power to keep you in health by making your blood rich and pure.

HOOD'S PILLS are easy to take, easy to operate. Cure indigestion, biliousness. 25c.

One Every Night.

One Laxa-Liver Pill taken each night during 30 days will cure Constipation, oft-returning Headaches and irregular action of the bowels. Laxa-Liver Pills leave no unpleasant after-effect.

Captain Sweeney, U. S. A., San Diego Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 399 George Street.

LOSS OF VOICE

After Acute Bronchitis

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

CROSSING THE LEGS.

WHY WOMEN SHOULD NOT INDULGE IN THIS PRACTICE.

Sciatica, Neuralgia and Sometimes Nervous Prostration Is Caused by the Habit—Results of a Medical Investigation in New York.

A woman who sits with crossed legs issues an invitation to disease. It is not in the mere fact of placing the limbs in the position indicated for a moment, but keeping them that way. The continued pressure of one limb upon the other, the steady bearing down upon the nerves and cords of that portion of the human body, speedily brings about a condition of affairs that produces sciatica, neuralgia and sometimes nervous prostration.

The troubles resulting to women and young girls from sitting in this position principally afflict those females who, by the nature of their employment, sit with legs crossed. That is why the doctors who practise in those sections of New York peopled by the working girls find much disease that can be accounted for in no other way.

The doctors at several of the New York hospitals say they have but few patients of this sort, and that they come only occasionally. In almost every instance the patient has been a woman busy during the day at work of such nature that it was easier for her to sit with legs crossed. Sometimes women who sew a great deal by hand in their own households have this trouble, and wonder why it is that they should have a constant neuralgic affection when they have not even caught cold.

The muscles and nerves of a woman's legs are very much more delicate than those of a man. If it were only customary for a woman to sit as a man does, with one ankle resting on the knee, all the trouble that comes from the feminine method of crossing the legs would be avoided. But fashion won't have it that way.

So it is that woman must either suffer or keep both feet on the floor. It is possible for a woman to receive injuries from sitting in the proscribed manner that will derange her entire physical structure and render her an invalid for life.

Dr. A. Jacobi said of this affliction of woman: "I do not think that a woman in household life need have any fear of injury to herself from sitting with crossed legs. You see, she changes her position frequently. No enforced labor binds her to one spot. She sits in one position only so long as it is agreeable. Then she changes or walks about, as inclination dictates. Therefore she is in no danger, for it is the constant sitting with crossed legs that brings about evil results to womankind.

"The danger that threatens from sitting in one position steadily must be faced only by women whose employment renders it necessary. I have no doubt there are many instances among the women who earn their own living of disease resulting from sitting constantly in the position mentioned. It is the constant pressure upon the sciatic nerve that causes pain, sciatic trouble, neuralgia and like ills. I see no reason to apprehend widespread feminine troubles on this account, because the remedy is so simple. It is merely change; that is all. Keep from being steadily in one position. Shift the limbs. Change about, so that there will be no continued pressure upon any one portion of the body. These simple rules observed, women may cross their legs with impunity."

Other physicians seen by a Journal reporter, stated that sitting cross-legged by women unquestionably produced evil results. They declared that it made no small difference what the woman was doing, if she kept her limbs in that position for any time at all. In the first place, it checks the circulation of the blood. That in itself is an evil that may result in almost any trouble, for partial stagnation of the blood is the source of half the ills that human flesh is heir to. Then the delicate little nerves that underlie the bone of the leg just above the knee, are so sensitive that the least pressure, for even five minutes, is disastrous.

Sciatic rheumatism is one of the worst forms of disease that afflict from this cause. It proves stubborn and steadfast, because just as soon as the sufferer partially recovers she assumes the position every day that has really been the cause of all her difficulties.

It is believed that the investigation among the working women of New York will show that sitting with crossed legs is more productive of evil results than labor early and late on the sewing machine. The latter makes a woman hollow-chested. The former is likely to render her a physical wreck.

New Calendar Proposed.

Following the precedent established at the Columbian Exposition in Chicago, there will be held at Paris during the exhibition a great variety of congresses for the discussion of all manner of questions of universal interest. One of these bodies will consider the advisability of making a complete change in the calendar.

It is proposed to abandon altogether the present astronomical calendar and to adopt one which will be framed from a strictly practical and commercial point of view. By the proposed new institution, the year will have twelve months of exactly twenty-eight days each, and one of twenty-nine days, the latter to have thirty days in leap year. With this system the days will come in each year always on the same date. January 1 being on a Monday, as also will be the 8ths, 15th, 22d, and so on.

It has been already objected that if this is to be the same for each year, the week in which the 29th day of the thirteenth month falls will be obliged to have an extra day with a new name.

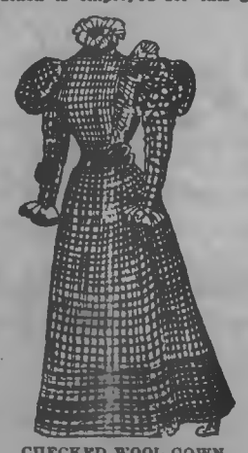
The Original Homer's "Iliad."

Among the fragments of Egyptian papyri at Dublin eighty lines or parts of lines of Homer's "Iliad" have been identified from books 4, 8, 21, 22 and 25 out of a manuscript of the third century before Christ, before Homer had been put into shape by the critics of Alexandria. In the eighty lines, thirty do not exist in the "Iliad" as we have it. Professor Mahaffy asserts that the Alexandrians took great liberties with the text, and that if an early edition of the "Iliad" turns up in Egypt, there will be an addition of 15 per cent. to what we have.—New York Sun.

The two most critical times in a woman's life are the times which make the girl a woman, and the woman a mother. At these times Dr. Pierce's Favourite Prescription is of incalculable value. It strengthens and invigorates the organs distinctly feminine, promotes regularity of the functions, allays irritation and inflammation, checks unnatural, exhausting drains, and puts the whole delicate organism into perfect condition. Almost all the ills of womankind are traceable to some form of what is known as "female complaint." There are not three cases in a hundred of woman's peculiar diseases that Dr. Pierce's Favourite Prescription will not cure.

An Handsome Checked Wool Gown.

A small checked wool in blue, green and black is employed for this gown,



CHECKED WOOL GOWN.

with black velvet trimming. Five rows of narrow velvet ribbon border the skirt. The belted waist is pleated throughout in close, fine pleats, and has a pleated frill down the left side from shoulder to belt. The sleeves are wrinkled along the arm and have short draped puffs. Collar and belt of black velvet, neck and sleeve frills of white point d'esprit net.—Harper's Bazar.

A MESSAGE TO MEN.

Proving that True Honesty and True Philantrophy Still Exist.

If any man, who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge, the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathise with such sufferers, I am glad to be able to assist any fellow-being to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind, but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c. silver to cover postage and address, Mr. Geo. G. Strong, North Rockwood, Mich.

As Well as Ever.

Dear Sirs,—After suffering for two years from acute indigestion I tried B B B. I took only three bottles, which made me as well as ever I was. I highly recommend B. B. B. to all dyspeptics.

Mrs. John White, Austin, Man

WHEN RUN DOWN GET BUILT UP.

That's our advice to every weakly, sickly, ailing woman and girl, and there's nothing equal to INDIAN WOMAN'S BALM for purifying the blood, toning up the nerves and building up the health.

Sold in Peterborough by John McKee.

Foreshadowing Next Winter.

That next winter is to see our arms tightly encased in sheathlike sleeves there seems very little doubt. There is a marked shrinking in size already, and the exaggeratedly large sleeve already looks passe. The new styles, though, are too extreme to become popular at once, and they are certainly most unbecoming. Two silk waists just finished to wear with duck skirts are very odd. One of flame-colored taffeta; changeable from the deep flame to pale yellow, has the fronts of the waist in full folds crossed over the bust; the sleeves fit tight to the arm, except just at the elbow where there is a clear, full puff that looks like a pin-cushion. The other model is of shaded mauve silk, and the sleeves are shirred from shoulder to wrist; apparently the silk used is very narrow, for the edges stick out "like quills upon the fretful porcupine," and look like ridges up and down the arm. No softening effect of lace or embroidery is on these waists, which have just been turned out by one of the smartest modistes.—Harper's Bazar.

BUILT UP THE SYSTEM IN A WONDERFUL MANNER.

James A. Bell, of Beaverton, Ont., brother of the Rev. John Wesley Bell, B.D., prostrated by nervous headaches

A victim of the trouble for several years.

South American Nervine effected a complete cure.

In their own particular field few men are beter known than the Rev. John Wesley Bell, B.D., and his brother Mr. James A. Bell. The former will be recognized by his thousands of friends all over the country as the popular and able missionary superintendent of the Royal Templars of Temperance. Among the 20,000 members of this order in Ontario his counsel is sought on all sorts of occasions. On the public platform he is one of the strong men of the day, battling against the evils of intemperance. Equally well known is Mr. Bell in other provinces of the Dominion, having been for years a member of the Manitoba Methodist Conference and part of this time was stationed in Winnipeg. His brother Mr. James A. Bell, is a highly respected resident of Beaverton, where his influence, though perhaps more circumscribed than that of his eminent brother, is none the less effective and productive of good. Of recent years, however, the working ability of Mr. James A. Bell has been sadly marred by severe attacks of nervous headache, accompanied by indigestion. Who can do fit work when this trouble takes hold of them and especially when it becomes chronic, as was, seemingly, the case with Mr. Bell? The trouble reached such intensity that last June he was completely prostrated. In this condition a friend recommended South American Nervine. Ready to try anything and everything, though he thought he had covered the list of proprietary medicines, he secured a bottle of this great discovery. A second bottle of the medicine was taken and the work was done. Employing his own language: "Two bottles of South American Nervine immediately relieved my headaches and have built up my system in a wonderful manner." Let us not deprecate the good our clergymen and social reformers are doing in the world, but how ill-fitted they would be for their work were it not the relief that South American Nervine brings to them when physical ills overtake them, and when the system, as a result of hard, earnest and continuous work, breaks down. Nervine treats the system as the wise reformer treats the evils he is battling against. It strikes at the root of the trouble. All disease comes from disorganization of the nerve centers. This is a scientific fact. Nervine at once works on these nerve centers; gives to them health and vigor; and then there courses through the system strong, healthy, life-maintaining blood, and nervous troubles of every variety are things of the past.

What Makes Us "BEST?"

There are two ways of supplying Furs at ever decreasing prices. One is to use a large outlet, and complete organization in manufacture and purchase, as levers to gather directly goods from all parts of the world, always maintaining the highest and best qualities of stock.

The other way is to substitute and reduce qualities to correspond with prices.

THE FIRST WAY IS OUR WAY. With ever increasing output, Peterborough, Toronto and Lindsay,—with all our energies focussed on the study of the things to be done, the best qualities, the best markets, the best time to buy, the quantity, the styles, the lowest freights, the labour saving inventions, the whole field from A to Z.

Where else can you be so sure that close prices do not mean reduced qualities. IT'S OUR LIFE BUSINESS. We began in boyhood and we have the pride in it that makes us know it through and through, and places us in a position to sell you to your advantage as well as ours. Call and see our Fur stock. None finer, none larger, none so up-to-date.

FAIRWEATHER & CO.,

George Street Peterborough | 101 Yonge Street Toronto | Kent Street Lindsay

THE NEW BISHOP OF ALGOMA.

Rev. George Thorneloe of Sherbrooke Chosen on the Fifth Ballot—Has Not Yet Accepted.

Montreal, Nov. 12.—(Special.)—The following was the message received from the House of Bishops before the balloting began: That the Lower House be informed that the following names are presented to it for election for the Bishop of Algoma, in the order in which they were chosen by the House of Bishops. The Venerable F. H. J Brigstock, D. D., Archdeacon of St. John's, diocese of Fredericton, and rector of Trinity Church, St. Johns, N. B.; the Rev. George Thorneloe, D. C. L., Canon of Quebec Diocese, and rector of Sherbrooke; the Venerable W. L. Mills, D. D., Archdeacon of St. Andrew's Diocese, of Montreal.

Rev. Dr. Thorneloe of St. Peter's Church, Sherbrooke, was elected on the fifth ballot, receiving 48 clerical and 27 lay votes. In order to secure an election it was necessary to have 38 clerical and 23 lay votes. The Bishop-elect was ahead during the several ballots, but it was not till the fifth that His Lordship received a sufficient number to ensure him the position of Bishop-elect of Algoma. Rev. Dr. Thorneloe asked until to-morrow to consider so grave a matter.

The Bishop-elect is 42 years of age, was born in this province, and has been ten years rector of St. Peter's.

REV. J. C. MADILL CASE.

The President, Rev. Mr. Silcox, Has No Fear of an Action at Law, and His Colleagues Will Back Him Up.

Hamilton, Nov. 12.—(Special.)—The expulsion of Rev. J. C. Madill from the Western Association of Congregational Churches is furnishing much comment for the delegates at present attending the convention in this city. Some of the clerical delegates characterize the newspaper report of an interview with Rev. Mr. Madill as balderdash, and they appeared to be unanimously of the opinion that his threat of a writ against President Silcox was merely a bluff. The president says he is not at all uneasy about Mr. Madill's threat, and he intimated that the expelled brother would not likely find it prudent to press his threatened action. As to Mr. Madill's remarks regarding the association's action, Mr. Silcox says they are not according to facts. The delegates to the convention have signified their willingness to stand by the president if Mr. Madill goes on with his action for libel.

At this morning's session of the association a prolonged discussion took place on the union letter, and in this connection it was decided to pledge the association to pay to the Executive Committee of the Home Mission Society a quarter, or about $300, of the salary of a special evangelist. It was decided that the various societies of the church should be amalgamated.

The resignation of Rev. John Morton from the pastorate of the First Congregational Church was referred to, and a resolution, which included kindly references to him as a brother minister, was passed, sympathizing with him in his bereavement. A resolution of sympathy in connection with the death of Rev. W. H. Allworth was also passed.

This afternoon the election of officers was the principal business attended to. It resulted as follows: Rev. W. H. A. Claris, London South, president; Rev. W. H. Watson, this city, secretary; H. J. Healey, this city, treasurer.

COBOURG P. O. INQUIRY.

Evidence of Mr. Guillet, M. P., Taken as to That $1000 Loan—Adjournment Till Monday.

Cobourg, Nov. 12.—The postoffice investigation was resumed here today before Barrister C. Seager, Royal Commissioner of the Dominion Government. George Guillet, M. P., and a brother of the postmaster, was present, and his evidence was taken. Mr. Guillet denied having had any dealing with Mrs. Schwabe or Mr. Sykes, the former postmaster and his daughter regarding Mr. Sykes' resignation ,or the payment of any money to them. He admitted, however, that Mrs. Schwabe had applied for a loan of $1000 after the resignation had been sent in. The loan was made without interest, security or even a receipt being given. Mrs. Schwabe's bank account at the time the loan was made showed a balance of $3800.

At the conclusion of Mr. Guillet's evidence the case was postponed, at the request of both sides, until Nov. 27, in order to have the evidence written out in longhand.

Russia Has Wheat to Sell.

London, Nov. 12.—The Times' St. Petersburg despatch says that Prince Obolenski, who is advocating the export of Russian cereals to India, to relieve the famine, says Russia is over supplied with cereals, and that it is estimated she could sell wheat at Bombay for 6d per pood under the price that California wheat is realizing there.

Banana Pie.

Beat the yolks of two eggs very light with one cup of crumbled cake, a half cup of sugar, butter the size of a walnut and a little rich cream. Flavor with lemon or vanilla, then stir in two large bananas, cut in thin slices, pour the mixture into a pie pan lined with good paste and bake in a quick oven. While it is baking beat the whites of two eggs very light with a little rosewater and three tablespoonfuls of powdered sugar. Take out the pie, drop the meringue in clots over the top of it and set back in the oven until it is a pale brown.

Philosophy.

Mr. Grigsby—My dear, do you think it's quite right for Lucy to go so much with that wild young Mr. Stivers?

Mrs. Grigsby—There's no cause for any worry. Lucy is more than 4 years old. Let me tell you, though, you should say something to Tom about that Dingleberry girl.

Mr. Grigsby—But, my dear, Tom is more than 4 years old.

Mrs. Grigsby—Tush! No man is more than 4 years old where a designing girl is concerned.—Cleveland Plain Dealer.

Good Time.

"Why, Boxey, it's been an age since I saw you. Good time while you were away?"

"Made twelve months good time. That cut my sentence to five years."—Detroit Free Press.

LEND YOUR EARS

To Your Back and Listen to its Talk—A Peterborough Man Tries It.

Did you know the back could talk;
Tell you why it aches and pains;
Tell you why it's lame and weak;
Warn you of the kidney's ills;
Tell you of Doan's Kidney Pills?
Listen to them when they speak.
Relieve the kidneys, cure the ache.
Bad back, acute pains and kidney ills,
Are quickly cured by Doan's Kidney Pills.

Here is proof of it at home. The testimony of Mr. George N. Graham, the genial host of the Oriental Hotel, Peterborough, is as follows:—

He says:—"I have been a great sufferer for some time with pain across the back, extending up between the shoulders, swelling of the limbs, dizziness, loss of appetite, and in fact felt completely broken up.

"I had lost 17 pounds in three months, and thought that I would never get better. I have taken many kinds of patent medicines, and have also been treated by medical men, but did not seem to get any better at all, in fact was constantly growing worse.

"I saw Doan's Kidney Pills advertisement and got a box of them at Lynch's drugstore, and by the time I had taken one box noticed a marked change for the better.

"I have taken seven boxes altogether, and am now free from pain; the swelling in the limbs has disappeared, and my appetite is good. In fact, I feel that I am completely cured.

"I can heartily recommend Doan's Kidney Pills to those suffering from any form of kidney trouble. They are the best kidney medicine I have ever used.

Signed, GEO. N. GRAHAM.

For sale by James Lynch, druggist, 168 Hunter Street, Peterborough.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagyard's Pectoral Balsam.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

AN ATTORNEY'S RUSE.

How He Escaped Prison and Substituted the Sheriff.

The old lawyer was in a reminiscent mood. "Talking of contempt of court," he said to a New Orleans Times-Democrat reporter, "here is one that's a good one, and true. A good many years ago a well-known member of the bar got into a dispute with a brother lawyer with whom he was trying a case, and some hard words passed—in fact, so many that the judge sent the lawyer who had used the hardest words down for contempt. So off the lawyer was marched with the deputy to the parish prison. Now the lawyer, after the manner of his kind, was a very shrewd man. That was how he got his living, and that was how he got out of going to jail. As they proceeded to the prison this shrewd lawyer proposed that they get a little dinner on the way. The restaurant was at hand, of inviting appearance, and the deputy, after the manner of deputy sheriffs, a thirsty man. They went into the restaurant and dined and also wined, withal, until the deputy, having at length his thirst slaked, and being full of generous wine, did not know himself from the lawyer. The lawyer pretended not to know, either, but he did. He kept up the pretension, however, got the deputy into a cab, picked his pocket of the commitment, drove the deputy to the parish prison, and handed him over to the sheriff as '—— ——, Esq.,' member of the bar, committed for contempt, videlicet himself in his own place and stead. Some colleagues, friends of the lawyer, went to his house that evening to explain his absence to his wife. They were met by the lawyer, who came to the door in his slippers.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Protect Your Horses, etc.

Defying the Probs

AND FORCING THE SEASON.

We Can't Change the Weather

BUT WE CAN CHANGE OUR PRICES.

At no time of the year are we satisfied to sell at regular prices. At no time of the year can we afford to allow unseasonable weather to clog our business. Our stocks must keep on the move. We're constantly running across lots of goods offered to us at Special Prices. That means ample opportunity to discount the trade in Clothing, Boots and Shoes, Hats and Furnishings without any trouble. Please remember that this business is PERSISTENTLY in advance of every other, and that prices here are always, with seldom an exception, the LOWEST.

We start off this week with a double head of steam to Reduce all our prices on all our stock, and make business boom in defiance of the mild weather.

WHEAT'S UP! CLOTHING'S DOWN! We quote below a few sample prices that tell the tale of how well we are loaded up with Bargains all over our two **BIG STORES**

Ordered Work.

Tweeds and Worsteds must get a quicker move on like everything else. Boom! Boom! all along the Cloth Department. Well dressed men come here—this store appeals to gentlemen of refined taste, and provides most fully for all. Our Fall Stocks of Cloths and Tweeds for custom work will please all who prefer their garments made up to their own measure from carefully selected fabrics. We deny the right of High Prices to exist while this balmy weather hangs on.

Just imagine the condition of things where everything is held for a regular profit until sold. Gough Bros. the progressive and aggressive leaders of Low Prices, make prices the moving power all along the line. "Always Good (and Cheap) at Goughs," but especially during unseasonable winter weather like this.

Gough Bros.

THE WAY NOW CLEAR

For Mr. Sifton's Entry into the Federal Cabinet.

SCHOOLS SETTLEMENT ACCEPTED

The New Minister Will be Sworn in Next Week—Lengthy Session of the Cabinet—Sir Oliver Mowat Will be With the Tariff Commission—Ottawa News.

Ottawa, Ont., Nov. 13.—Telegrams received from Winnipeg to-day confirm the announcement made by your correspondent last evening that the way is now clear for Mr. Sifton to enter the Dominion Cabinet, and although a local paper attempts to discredit the statement to-night, there is no gainsaying the fact that Mr. Sifton's Brandon friends are satisfied that the school settlement does not infringe upon provincial autonomy, and that, therefore, it will not be inconsistent with his stand on the school question for him to accept the Interior portfolio. Mr. Sifton has consented to contest Brandon. The writ for the election will not be issued until Mr. Sifton has been sworn in as Minister, which takes place here next week.

A long session of the Cabinet was held this afternoon, the only absentees being Messrs. Tarte, Mulock, Borden and Dobell. It is stated that the terms of the Manitoba school settlement, as revised by the Provincial Government in conjunction with Mr. Tarte, were under consideration, and were accepted by the Dominion Government as the best bargain that could be made with Manitoba.

Another matter which it is said was under consideration to-day is the proposed work of the tariff commission. The Ministers are to leave here, as already stated, on Monday. Sir Oliver Mowat accompanies Sir Richard Cartwright, Mr. Fielding and Mr. Paterson, and will visit with them London, Hamilton, Brantford, and Kingston, the Ontario points at which it is proposed to meet the mercantile community.

Speaking of the school settlement, a Quebec friend of the Premier's said to-night that there had been no material change in the basis of agreement as previously reported. Replying to a question as to how Quebec would take the compromise, he replied: "That will be all right. Permission to use the French language in teaching in school districts where the children are not able to speak English is a sop to Quebec, which will go a long way towards making amends for the loss of Separate schools."

The Solicitor-General to-day threw some light upon yesterday's despatch regarding the Robinson treaty appeal before the Judicial Committee. It appears the judges decided that they would not hear argument on the question of the liability of the old province of Canada to pay these annuities, as they took it for granted that that province of Canada was liable. The question for determination now is as to whether Ontario is solely liable for these annuities, or whether Quebec also should bear a share of the burden. This was the only point on which argument was heard.

The Department of Militia has been notified of the arrival in Canada of a further consignment of Lee-Enfield rifles, a portion of the 40,000 stand ordered last winter. The 12-pounder guns for the field batteries may be expected any day. Your correspondent learns that a number of modern big guns, about 22 tons each, have been ordered for the Quebec fortifications. When they are mounted in position they will make the citadel one of the best fortified points on the continent.

The Fisheries Department was notified to-day that most of the fishery cruisers have gone out of commission, the American mackerel fleet having left for home. The Acadia and Osprey were tied up to-day.

The Government has at last received official confirmation of the election of Major Kitson to be commandant of the Royal Military College. As soon as Dr. Borden returns the order in council will be passed, confirming the appointment. The new commandant will probably be raised to the rank of lieut.-colonel. Col. Lake was well acquainted with Major Kitson during the time he served in the Imperial service.

Dr. Selwyn, late director of the Geological Survey, is greatly annoyed at certain reflections made upon him by a Toronto Telegram correspondent at Sudbury. In a letter in to-night's Journal Dr. Selwyn says: "The remarkable item in your issue of last evening from The Toronto Telegram is a tissue of falsehoods, especially that about the 'Doctors of the Geological Survey.' The true history of the discovery of the vein in the cut on the C.P.R., where is now the Murray mine, is well known to me. I examined it, and made it known to several persons on the 12th of July, 1884, and in notes under that date I find 'vein on track 40 yards wide—strike 335 degrees; mostly diorite and felsite.' I then spoke of it as the best and most promising mineral vein I had seen in the country."

On Monday William Bradley, postmaster and merchant of Huntley, drove into town and put up at the Butler House. He left his rig there and went out on business and has failed to return. Since then Mrs. Bradley has heard nothing of her husband, and yesterday notices were inserted in the papers asking for information respecting the missing man.

Mr. Schreiber, Chief Engineer of Railways and Canals, returned from British Columbia to-night. During his two weeks' absence he traversed the main line of the C.P.R. between Savona's Ferry and Yale, for the purpose of inspecting the improvements made under the award of the arbitrators four years ago. Mr. Schreiber also inspected the branch line of the C.P.R. from Revelstoke to the Arrow Lakes.

Officers of the Department of Trade and Commerce are looking into the question of trade with Italy to see if it will be worth while to put that country on the same footing as others that received favored treatment on articles mentioned in the French Treaty. Italy is about the only country in Europe that has not received favored nation treatment.

Among the visitors in town to-day were Mr. Schreiber, M.P., Mr. Frost, M.P., Mr. Lowell, ex-M.P., Mr. German, ex-M.P., and Mr. George E. Tuckett of Hamilton.

Sir Richard Cartwright left for Kingston to-night.

Mr. Fisher, Minister of Agriculture, has returned to the city.

Solicitor-General Fitzpatrick left for Quebec this afternoon.

The Ottawa Garrison dinner takes place on Dec. 10. It promises to be a very successful affair. Many officers have promised to attend.

The Secretary of State received to-day a petition from the promoters of the Ottawa and Georgian Bay Canal stating that the company [illegible] proceed with the work, and asking that the Government guarantee their bonds for $20,000,000 at 3 per cent.

Solomon Benedict, the Carleton bigamist, was this afternoon sentenced by Magistrate Smith to two years' imprisonment in Kingston Penitentiary.

Yesterday's conference with the promoters of the Atlantic and Superior Railway resulted in a final submission of the scheme of the committee of the Privy Council. The object was to establish the bona fides of the plan and the financial standing of the men who are behind it.

Hon. C. A. Geoffrion was here to-day for the purpose of attending the Cabinet meeting.

HASTINGS MAN DROPPED DEAD.

Mr. W. J. Fowlds Was Well in the Morning and Paralysis Took Him Off in the Evening.

Hastings, Ont., Nov. 13.—Hastings lost one of its most prominent citizens this evening in the person of W. J. Fowlds, who dropped dead about 6 o'clock from a stroke of paralysis. He had been troubled some time with the disease, but for the last few weeks he had been unusually well and had been up to Peterboro to-day. He was born in Vermont and was 65 years of age. He came to Hastings in 1851, where he has since resided. He, with his son, H. W. Fowlds, engaged largely in lumber and ran a saw mill in Hastings. He also owned a large farm at the edge of the village, and had interests in real estate. He has one brother, H. M. Fowlds, of Hastings, and a sister, Mrs. J. Sharpe, 424 Markham-street, Toronto, living. He leaves a widow, two sons and three daughters, one daughter being married to Dr. Berry of this place. His funeral will take place on Monday afternoon at 3 o'clock.

MATE BRAM ON TRIAL.

The Alleged Murderer of Capt. Nash and His Wife, of the Barque Fuller, in Court.

Boston, Nov. 13.—Thomas Bram, the first mate of the barquentine Herbert Fuller, was brought before the United States Circuit Court to-day, charged with the murder on the high seas of Capt. Nash of the Fuller, his wife Laura and the second mate of the vessel, Augustus Bamberg.

First in the order of the proceedings came arguments for and against the dismissal of the pleas that have been filed to the indictments, District Attorney Hoar having at the opening of the court asked for their dismissal. There were three pleas—the defendant's plea to the indictment, a plea in abatement and a motion to quash. The District Attorney claimed that the pleas were defective. Mr. Asa P. French, counsel for Bram, opened the argument on the plea to quash the indictment. He claimed that the grand jury had not been properly empanelled, because one of the jurors had "affirmed," instead of taking the usual oath, and that the indictment was illegal because the charge of murder of two separate persons should be made out in two separate indictments and not as in the present case—including the killing of Captain Nash and his wife—in one indictment. James Ecotter of Bram's counsel, took up the argument on the motion to quash and occupied the attention of the court until 2 p.m., when Judge Gill continued the case until to-morrow, when it is expected a decision will be rendered on this point.

RAILWAY ACCIDENT ON THE GRAND TRUNK.

A MAN AND WOMAN STRUCK BY THE BELLEVILLE TRAIN.

The Accident not as Serious as it Might Have Been—Strange to Say, Both Victims Escaped with no Broken Bones—It Happened in Redmond's Cut.

A railway accident occurred this morning at Redmond's crossing, about a mile on the other side of the Lakefield Junction, whereby Mr. and Mrs. John Taylor received serious injuries, those inflicted on the latter being the more serious.

Mr. and Mrs. Taylor, who live in Otonabee, about a mile and a half from Mather's corners, were driving up to market and were just crossing the Grand Trunk Railway at Redmond's cut, when the morning express from Belleville dashed into the cut at the rate of over 30 miles an hour, and before the buggy was clear of the track it was caught and tossed high in the air. The train was stopped as quickly as possible and backed down to the scene of the accident.

THE TWO OCCUPANTS

of the buggy lay about fifty feet from the crossing and when picked up they were in a semi-unconscious condition from the effects of the awful shock. Mr. Taylor had been thrown against the barbed wire fence, and his face and head were badly scratched and cut. His wife was in a still more pitiable condition, having fallen in such a manner as to injure herself to such an extent as to cause her the most acute agony.

The rig it appears was caught by the fender or "cow catcher" just in front of the forward wheels. The horses were not injured in the least, but the buggy is damaged beyond repair. Not a spoke remains attached to the hubs, and the box is reduced to kindling wood. Eggs, butter and quarters of veal strewed the ground for yards around. The basket containing the eggs had caught on the wire fence, and its contents spread out over the ground as though shot from the mouth of a cannon.

The scene of the accident lies at the crossing in Redmond's cut. As a train

APPROACHES THIS CROSSING

it is completely hid from the highway, being in the cut, and the highway itself approaches the crossing through a cut. At all times dangerous, the crossing is more than usually so at this time of the year, as the rumble of waggon wheels over the frozen roads is liable to deaden the sound of an approaching train, especially when the train is in rear of the team approaching the crossing, although at the usual distance post from the crossing the whistle is supposed to be blown.

Mr. Taylor stated to an EXAMINER reporter this morning that he had no intimation of the train's approach until he was within a few feet of the crossing, when it was too late to draw back. He then lashed his horses in an endeavour to get across first. He is positive that the whistle was not blown until the engine was just on top of him. Mrs. Taylor is too severely injured to make any statement as yet.

Driver Lou Simpson, of Belleville, states emphatically that he gave the usual whistle as his engine passed the "W" post where it is customary to

GIVE THIS NOTICE

of the train's approach. The train, he thinks, was running at a little over thirty miles an hour as it entered the cut. He was looking out of the opposite side of the cab at the time, but his fireman shouted from the other side that there was a rig on the track. The engine driver states that he gave a toot of the whistle and then reversed his engine and put on the air brake. As the track was slippery and a down grade exists at this point, the train ran on for several hundred yards before it could be brought to a standstill and backed to the scene of the accident.

Fireman Smith, of Belleville, corroborates his mate's story, that when he got his first view of the crossing the team of horses was on the run and their driver doing his best to urge them on. He also is positive of the alarm being given at the whistling post.

Conductor Stanton, of Belleville, is in charge of the train, but naturally saw nothing of the accident. Of course the injured persons received immediate attention and were placed on board the train by the train officials and passengers.

AMONGST THE PASSENGERS

was Dr. Shaw, of Keene, who made the injured couple as comfortable as possible on the train, and attended to their wants until Dr. King, the official G.T.R. physician, relieved him at Peterborough. Dr. Shaw states that, although he thinks the injuries of Mr. Taylor are superficial, being merely bad flesh wounds, that Mrs. Taylor's case may prove more serious, as her symptoms in his cursory examination, were indicative of internal injuries.

The train was taken up on the Blythe Mills siding to Argyle street, just at the foot of the Nicholls Hospital property, Dr. King met it here, and the hospital attendants were present with a stretcher on which Mrs. Taylor was placed and carried to the hospital, Mr. Taylor being able to walk.

LATER.

Dr. King, after examining the patients, reports that although very badly shaken Mrs. Taylor has had no bones broken and he is hopeful that she is not injured internally either. She complains greatly of the pain in her left shoulder. Mr. Taylor's injuries are flesh wounds, caused by his coming into contact with the barbs on the fencing. He is anxious to get away from the Hospital this evening, but Mrs. Taylor will not be able to be moved for a few days, even if no internal injuries develop.

Sour

Stomach, sometimes called waterbrash, and burning pain, distress, nausea, dyspepsia, are cured by Hood's Sarsaparilla. This it accomplishes because with its wonderful power as a blood purifier, Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and raises the health tone. In cases of dyspepsia and indigestion it seems to have "a magic touch."

"For over 12 years I suffered from sour

Stomach

with severe pains across my shoulders, and great distress. I had violent nausea which would leave me very weak and faint, difficult to get my breath. These spells came oftener and more severe. I did not receive any lasting benefit from physicians, but found such happy effects from a trial of Hood's Sarsaparilla, that I took several bottles and mean to always keep it in the house. I am now able to do all my own work, which for six years I have been unable to do. My husband and son have also been greatly benefited by Hood's Sarsaparilla—for pains in the back, and after the grip. I gladly recommend this grand blood medicine." MRS. PETER BURBY, Leominster, Mass.

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1.

Hood's Pills cure all Liver Ills and Sick Headache. 25 cents.

The Daily Examiner is delivered to all parts of the Town for 10c. a week 65c. a month, $2.00 for six months.

Daily Examiner.

SATURDAY, NOVEMBER 14, 1896.

THE SCHOOL QUESTION.

The announcement of the terms of settlement of the Manitoba School question may be expected any day. Though these terms are yet unknown, yet we may expect that they will not satisfy extremists of either side, but we have enough confidence in Hon. Mr. Laurier's statesmanship and sense of fair play to believe that they should be satisfactory to all persons who are unbiased by political and other prejudices. Though the settlement may not be all that is desired in some quarters, yet on the grounds of patriotism, for the sake of national unity and peace, and for the sake of harmony between the several sections of the Dominion, we should be prepared to loyally accept it. The settlement may give more than some are willing to grant, and withhold more than some are willing to agree to, but if the great mass of the people are satisfied, it is to be hoped that no one of influence, for the sake of making political capital out of a question that has already been made too much the football of politicians, will wantonly interpose factious objections to a settlement that makes for the peace and unity of the Dominion.

DANGERS OF DEER HUNTING.

A few days ago the EXAMINER pointed out the danger, to which hunters were subject, of being shot in mistake for deer. A case in point is the unfortunate shooting, in Muskoka, of a Mr. Bathgate, one of the most prominent retired farmers of York township. Persons that are so inexperienced as to fire at random at any moving object they see in the woods are in danger of shooting their dearest friends instead of the game they are hunting, and experienced hunters who are so nervous and anxious that they fire before deciding upon the nature of target are liable to commit the same blunder which comes within the category of political blunders, and is worse than a crime—for there is no legal punishment, only life long consciousness of being an inexcusable idiot for a few seconds. It has been pointed out that since the shooting of deer has by law been confined to the woods, the danger of hunters shooting each other for deer is greatly increased, and there is proportionate need on the part of hunters to preserve coolness and exercise common sense precaution. All the deer in Ontario, ten times, told would not compensate the man who accidentally or by criminal carelessness, shoots to death his relative or hunting companion; both are unfortunate, but the most unfortunate perhaps, is the survivor, who has to carry through life the remorse that will eat silently into his heart till death stills its feverish pulse forever. Hunters are besought to be careful. Better miss a thousand deer than murder, in the mere sense of killing, perhaps one's best friend.

RESPONSIBILITY OF CIVIL SERVANTS.

Bystander, otherwise Mr. Goldwin Smith, in the Canada Farmer's Sun, thus discourses of the relations of civil servants to Cabinet Ministers:—"Our people have happily set their faces against anything like the introduction of the spoils system, which our neighbours, after full experience of it, are doing their best to abolish by the application of the Civil Service Reform Act. They, therefore, watch with just anxiety what is going on at Ottawa in the way of removal or replacement of civil servants. The new Government is no doubt beset as every Government under the party system has been and must be beset, by men who have served the party often at some sacrifice to their own interests in the struggle for power, and not unnaturally nor, to tell the truth, altogether unreasonably, to claim their reward. The good rule is that no civil servant shall be dismissed except for cause. The cause may be either failure in duty, incapacity, such as arises in old age, or breach of political neutrality. The Minister at the head of each department is entitled to subordinates in whom he can thoroughly confide, and he cannot be expected thoroughly to confide in men who have taken active part in politics against him. A civil servant ought to feel no more difficulty in observing neutrality than a judge."

EDITORIAL NOTES.

Is the Crow's Nest likely to hatch a railway?

CANADA is a great country—gold at both ends and in frequent spots all the way for three thousand miles.

A MILITARY sham fight is a good way of celebrating Thanksgiving day. Better than a real fight, to signalise gratitude for the blessings of peace and plenty.

"THE Grit conspiracy against hard times seems to be succeeding admirably," says the Globe. About as well as the conspiracy of the electors last summer against the Conservative Government.

BRITISH COLUMBIA, the Globe thinks, is a favourite of fortune. A Cornishman has found a deposit of tin there. Salmon in the rivers and tin for cans on the river banks! The Cornishman should keep on digging. He may find tinsmiths further down.

BANK clearings are a good barometer of business. The bank clearings at Toronto for the week ending Nov. 11 were $8,449,205, compared with $6,573,726 for the corresponding week of last year and $6,322,050 for the same week of 1894. An increase of a third is not a bad showing. The Liberal Government may not be directly responsible for this improvement, but a Liberal Government begets confidence, and confidence is the core of commercial activity.

OCTOBER HONOUR ROLLS.

S. S. No. 2, Ennismore.

Sr. 4th—Ida Galvin, Lillian Cavanagh, Mary O'Donohue. Jr. 4th—Lottie Scollard, Willie Holland, May Collins. Sr. 3rd—Mary Davis, Vivian Galvin, Agnes Scollard. THE SARATOGA CONTEST.

Saratoga, N.Y., Nov. 12.—The contestants in the six-day bicycle race continue to pile up the miles at the same clip at which they started on Monday. With Alberts out, Hofstetter has a decided advantage over the others, as he seems to be able to run away from them at will. The score, 14th hour: Hofstetter, 291 miles 7 laps; Smith, 290 miles 11 laps; Schoch, 289 miles 2 laps; Golden, 284 miles 5 laps.

MICHAEL'S GREAT FEAT.

New Orleans, Nov. 12.—James Michael is the hero in bicycle circles to-night. Late this afternoon he made a successful try at the 10-mile record. He was paced by one sextuplet, two quads and two triplets. He lowered every mile record from the second to the 10th, inclusive. The record for 10 miles was made by Tom Linton of England, and stood at 18.41 1-5. Michael clipped eight seconds off this, and made it 18.33 1-5.

WE WANT TO KNOW.

Not a Single Reply to our Question—Not a Failure to Cure—A Half-Million Users of Dodd's Kidney Pills Satisfied.

Toronto, Nov. 2 (Special)—Without a single reply, for over two years, we have advertised this question:—"Does anyone, anywhere, know of any case wherein Dodd's Kidney Pills have failed to cure any kidney disease at any stage?"

We estimate that a half million people must have joined in using the two and a half million boxes already sold in Canada, and yet not a single complaint—not one failure to cure.

Now, reader, here's one for you:—Do you know of a death from kidney disease or of heart failure, the victim having used Dodd's Kidney Pills?

"D. & L." MENTHOL PLASTER

I have prescribed Menthol Plaster in a number of cases of sore backs and rheumatic pains, and am very much pleased with the effects and [illegible] of the Plaster.—W. H. CARTER-TON, M.D., Rachel Collard, Boston.

I have used Menthol Plasters in several cases of muscular rheumatism, and find in every case that it gave almost instant and permanent relief.—J. B. BROWN M.D., Washington, D.C.

It Cures Sciatica, Lumbago, Neuralgia, Pains in Back or Side, or any Muscular Pains.

KING'S DAUGHTERS

As a Society They Vouch for Ryckman's Kootenay Cure for Rheumatism.

A MARVELLOUS BLESSING APPRECIATED.

HAMILTON, ONT., April 2, 1895.
S. S. Ryckman, Esq., M.P.,
Hamilton, Ont.

DEAR SIR,—We, as a society, have adopted this means to express our sincere thanks for your valuable medicine, "Kootenay Cure," which you so generously donated to the Cheerful Workers' Circle of King's Daughters, Hamilton. It has proved a blessing in several cases of rheumatic suffering by effecting a cure, and in one case especially, that of Geo. Ball, residing on Sanford avenue, near Huron street, we desire to thank you. When we first visited Mr. Ball in September last he was a hopeless and helpless invalid, his condition being brought about by Sciatica Rheumatism of long standing. We gave him a bottle of your Kootenay Cure, which he took with such beneficial results that in three weeks' time he was able to walk, and to-day, after taking three bottles, is completely cured and working at hard labour. His case was an unusually bad one and his cure is little short of marvellous, and we have no hesitation in saying "Kootenay Cure" cured him. Should you think suffering humanity would be benefitted by the publication of this letter, you are at liberty to use all or any part of it.

Wishing you continued success with the medicine and thanking you once more, we remain,

Gratefully yours,
(Signed) MAY PRATT, President.
(Signed) MRS. D. B. PRATT,
25 East Ave. N.

"77" Nips COLDS in the bud.

Influenza or *Grippy Colds* are quite epidemic and need to be "nipped in the bud." Treating a Cold in time saves a lot of trouble, as three-quarters of all our sickness comes from taking cold—don't take cold, take Seventy-seven, a few doses will prevent and its continued use will "break up" a cold that "hangs on." That means escape from Catarrh, Bronchitis, Pneumonia, all Lung, Chest and Head troubles. A good deal you say for a quarter, but it is true of "77"; the best goods are done up in small parcels, a vial of "77"; just fits your vest pocket; handy to carry, always ready for use. Every one has a kind word for Seventy-seven, Dr. Humphreys' precious cure for Colds, Grippe, Influenza, Catarrh, Coughs, Sore Throat.

Dr. Humphrey's Homeopathic Manual of Diseases at your Druggists or Mailed Free.

Sold by druggists, or sent on receipt of 25 cents or five for $1. Humphreys' Med. Co., Cor. William & John Sts., New York.

Are You Ready For the Winter?

You'll be sure of an all-weather warmth and comfort which defies stormy winds and raw air and yet adds no weight, if you see that your coats and wraps are interlined with

B BB

The B. B. B. Pipes now in use would form a chain long enough to go around the great Ferris Wheel, which was at the World's Fair, 200 times.

Each B. B. B. Pipe in course of manufacture passes through 40 hands.

The total quantity of Tobacco used in B. B. B. Pipes since their introduction amounts to 3000 tons, assuming that each Pipe sold uses 1 oz. Tobacco per week, and that each Pipe has been used one month.

The B. B. B Pipes now made if placed one on top of another would reach 1000 times to the top of Notre Dame Cathedral, Montreal, and if stood upon their stems would reach the summit of a mountain 44 times as high as Mount Everest.

Call and examine my new assortment of B. B. B. Pipes which arrived per steamer "Queensmore," direct from the manufacturers in London, England, yesterday. The stock cannot be equalled in Canada and the assortment of Smokers' sundries will dazzle the eyes of some of our smaller dealers.

There is only one Tobacconist here who handles Cigars, Tobaccos and Pipes direct from the English and Havana makers, and that is

A GOVERNMENT SPY

Was Put on the Stand in London Against Ivory

AND THE PRISONER WAS AGITATED

The Spy is a Little Man With a Red Face and He Was Right in It With the Irishmen's Society in America —Ivory Committed for Trial.

London, Nov. 13.—Edward J. Ivory, alias Edward Bell, the alleged Irish-American dynamiter, was again arraigned in the Bow-street police station this morning, and in accordance with the prisoner's previous request for the protection of an American citizen, Mr. Carter, representing the United States Embassy, was present to watch the proceedings. A witness was called to the stand whose name was withheld from the public, but was written on a piece of paper and handed to the clerk. Before the examination of this witness was begun, newspaper and other artists were warned that if they were detected in the act of making sketches of the witness the court room would be cleared. The witness proved to be a Government spy who was sent to the United States in 1891 to watch dynamiters. He joined the United Irishmen in New York and was initiated into the Shamrock Club in the presence of Tynan, Kearney and other prominent Irish agitators. Subsequently a new Irish camp was formed, of which the witness was elected treasurer.

Ivory was committed for trial.

The witness, whose name was given as William Jones, is a small-sized man with a very red face. In the course of his testimony he said that he was originally sent to the United States in 1891 by the British Government. After arriving in New York he obtained employment with a firm of grocers in that city as a "blind," and it was not until 1895, when he blossomed out as a shop owner himself, that he got fully into the confidence of the Irish Nationalists.

After entering the Shamrock Club, becoming attached to Camp No. 113, he helped to start a new camp called the "Nally Club."

"Early in 1892," the witness said, "I became acquainted with a man named Boland, who introduced me to William Lyman, the owner of a paper called The Irish Republic. Lyman also controlled The United Irishmen (he is President of the Irish National Alliance). When the Nally Club was formed Boland became its president and W. J. Balfe, vice-president, succeeded him upon the death of Boland in 1895. I attended all of the meetings of the club, and, as secretary and treasurer, had access to all of the papers of this organization, and also the organization with which the Nally Club was connected.

"When a person was nominated for election to membership in the club it was necessary that the proposer and seconder of the candidate should have known the candidate intimately for a year or more. Then the president would appoint a committee of three, upon whose favorable report the election was proceeded with. The managers of the different camps throughout America had therefore an opportunity of knowing the individuals proposed in any particular camp. The papers, including the district orders in regard to persons elected, were understood to be burned in every case. Members were never mentioned at camp meeting except by their numbers, and the signs and passwords were changed every three months.

"I retain a complete set of documents covering several years, containing the names of members and changes in the organization, including the details of the convention, names of the delegates from the different camps, etc. One convention was held in 1892 and the next was held in Chicago in September, 1895. Kearney's camp was No. 152. It has since been disbanded. Kearney is now vice-president of Camp No. 81. Tynan's camp is No. 98, and Lyman's No. 81."

Jones said that part of the money contributed to the Nally Club was devoted to a revolutionary fund and money was also called for to pay for celebrations of the death of the "Manchester Martyrs," and to assist the convicted dynamiters. While going to Chicago in 1895, he said, Tynan, who was with the party, told him that Ivory was a member of his (Tynan's) camp, and that he had known him in Dublin prior to 1882.

"In going to the Chicago convention in 1895, the members had a special car from New York to a place called 'Ferry.' I met Kearney, who introduced me to the prisoner, saying he was a brother."

Jones then produced the documents he had mentioned, including the ritual of the Clan-na-Gael, which Prosecutor Gill read, showing that the object of the United Republican Brotherhood was to achieve the complete independence of Ireland by revolution.

The witness was extremely nervous. He shuffled about constantly and cast furtive glances in all directions, fearing that he would be sketched. He admitted that he had acted throughout as a British agent, and had copied and preserved the documents submitted at the instance of the British Government.

Jones appears to be about 40 years old. He was well but plainly dressed. He has nut brown hair and wears a short-cropped beard and mustache. He has sharp features, a clear skin and clear blue eyes, which are rather sunken. He gave his address as 609 Amsterdam-avenue, New York city.

Ivory, or Bell, exhibited the greatest consternation upon seeing Jones, but afterwards regained his composure.

AS TO VENEZUELA.

The London Chronicle Claims to Give a Complete Summary of the Agreement.

London, Nov. 13.—The Chronicle will to-morrow publish what it claims to be a complete summary of the agreement regarding the Venezuelan question. The article is entitled: "Heads of a proposed agreement between Venezuela and Great Britain for the settlement of the Venezuelan boundary question, as agreed upon between Great Britain and the United States of America."

There are four heads. Under the first the appointment of an arbitration tribunal to determine the boundary is provided for. Under the second head provision is made for the appointment of a tribunal of five members, two to be nominated by the Supreme Court of the United States, two by the Supreme court of Great Britain, while the fifth member is to be a jurist selected by the other members.

In the event of there four members failing to agree upon the selection of the fifth member, King Oscar of Sweden and Norway will select him. The fifth member will be president of the tribunal, and he may be a judge of either the Supreme Court of the United States or the similar court of Great Britain.

Under the third head the tribunal is directed to examine all the facts necessary to decide the controversy regarding the territory known to belong to the United Netherlands and the Kingdom of Spain, when Great Britain acquired Guina. Under the fourth head it is provided that the arbitrators shall ascertain all the facts necessary to arrive at a proper decision. They must be governed in their findings by three short rules, the most important of which provides a prescription of 50 years. The arbitrators may give effect to the right of settlers. In establishing the facts the ordinary rules of law shall prevail.

The agreement is dated Nov. 12, 1896, and is signed by Secretary of State Olney and Sir Julian Pauncefote, the British Ambassador to the United States.

The Chronicle adds that the foregoing will be basis of the Anglo-Venezuela treaty.

THEY BOTH CLIMBED DOWN.

Treating of the settlement of the Venezuelan question, The Daily News in its issue to-morrow will comment upon certain Tory complaints that Lord Salisbury climbed down from the position first assumed by him, which was that there was "nothing to arbitrate," and also upon the complaints of some French and German critics that Lord Salisbury has improperly exalted the United States. The paper contends that there is no doubt that Lord Salisbury did climb down somewhat, but that Secretary of State Olney did likewise. It adds that Lord Salisbury has in no wise admitted the new version of the Monroe doctrine, either theoretically or formally, but that Mr. Olney has succeeded to some extent in establishing it. It will be interesting, The News concludes, to see how far Mr. Olney or his successor is willing to follow up the step.

"Turn the rascals out"—the familiar partyory — may be applied to microbes as well as to men. The germs of disease that lurk in the blood are "turned out" by Ayer's Sarsaparilla as effectually as the old postmasters are displaced by a new administration.

Weyler Was Whipped

Chicago, Nov. 12.—A Key West, Fla., special says Captain-General Weyler has met the Cubans on the field, and has suffered a repulse. The news was brought by the steamer Olivette, from Havana, last night. Weyler, it is said, was attacked while encamped in the Gobernadore Hills, in Pinar del Rio Province, by the Cubans, under Perico Delgado and Perico Diaz. The Cubans surprised the Spanish outposts, and for a time great confusion prevailed in Weyler's camp. Weyler is said to have fallen back about eight miles. During the retreat the Cubans killed 34 Spanish and wounded 60 others.

The Boom at Cleveland.

Cleveland, O., Nov. 12.—Fifteen important manufacturing concerns here yesterday gave evidence of the prosperity resulting from the election by either starting up or giving notice of intention to immediately put more men to work.

A MARVELLOUS CURE.

Helped by the First Box—Could not Lift Fifty Pounds—Cured by a few Boxes of Dodd's Kidney Pills.

Arthur, Nov. 9. (Special).—Among his more intimate friends it has long been known here that Mr. J. C. Morrison had been gradually failing in health for many years. The acuteness of his sufferings was known only to a few. His complete recovery is a surprise here and is causing much talk. Of his cure he says:—"Yes I got help from the first box of Dodd's Kidney Pills and I have taken fifteen boxes. I kept getting better every day. When I commenced I could not lift fifty pounds; now I am as strong and well as ever in my life."

Dr. Fowler's Extract of Wild Strawberry cures Diarrhœa, Dysentry, Cramps, Colic, Cholera Morbus, Cholera Infantum, and all looseness of the bowels. Never travel without it. Price 35c.

Tobacco Heart'

Much heart and nerve weakness is caused by undue use of tea, coffee, and tobacco; palpitation, nervousness, irritability, excitability, lack of confidence, etc., are sure symptoms. Milburn's Heart and Nerve Pills bring ready relief, by steadying the nerves and regulating the heart. They are true heart and nerve food.

IN NOVA SCOTIA ANOTHER TRIUMPH

The Case of John S. Morgan, of Bridgewater.

PROMINENT BUSINESS MAN.

His Testimony Right to the Point—Cured by Dodd's Kidney Pills.

Bridgewater, N.S., Nov. 12.—(Special)—No business man is better or more favourably known in this part of Nova Scotia than Mr. John S. Morgan, tinsmith of this town. For eighteen years he suffered from one stage to another in the progress of kidney disease, but without help until he got hold of Dodd's Kidney Pills. He tells the story in his own words, and says:

"It commenced with backache about eighteen years ago with lameness and pain in my limbs."

"I was under the doctors' care several times, and took several remedies aside from doctors' medicine, but gradually came to be badly crippled up."

"In the autumn of ninety-four I began to run down in flesh and strength rapidly until I was about forty pounds under my usual weight."

"I was then in constant misery from rheumatic pain and the dread of passing urine, which was of a very dark colour and caused me the most intense agony."

"I realized my danger, but from something I read about Dodd's Kidney Pills I made up my mind to use them, and commenced at once."

"I have used twenty boxes, have regained my weight, and am now as strong and well as ever before in my life."

"When I commenced using Dodd's Kidney Pills I was entirely unfit for the duties or enjoyments of life and they have saved and prolonged it. I trust my testimony may be the means of doing good to others."

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher. is on every wrapper.

To Stain Wood.

It is a fact not universally known that almost any dry pigment, mixed with spirits of turpentine, will stain wood. It should be applied until the desired shade is obtained. Strong ammonia applied to wood will give it an aged appearance. The best finish for carved work is beeswax or linseed oil.

baby growth

The baby's mission is growth. To that little bundle of love, half trick, half dream, every added ounce of flesh means added happiness and comfort! Fat is the signal of perfect health, comfort, good nature, baby beauty.

Scott's Emulsion, with hypophosphites, is the easiest fat-food baby can have, in the easiest form. It supplies just what he cannot get in his ordinary food, and helps him over the weak places to perfect growth.

Men's Hard Felt Hats, from 25c up.	

It's the young men's trade we cater to, any if any old men want to look young they should buy their Hats at Gough's.

Footwear.

Surprising Shoe-selling, another proof of the leadership of this best shoe store. Another proof of the helpfulness of its methods. First-rate Quebec Shoemakers were short of work during the summer, and they were glad to sink profits and move on the order we offered—for it bridged them over a bad gap and enabled them to keep their organization together. The Shoes are here:—

500 pairs Women's fashionable toes $1.50 Button Shoes, at	$ 1 50
300 pair Women's $1.60 Fancy Kd button Boots, with pointed toe caps, at	1 19

Ordered Work.

Tweeds and Worsteds must get a quicker move on like everything else. Boom! Boom! all along the Cloth Department. Well dressed men come here—this store appeals to gentlemen of refined taste, and provides most fully for all. Our Fall Stocks of Cloths and Tweeds for custom work will please all who prefer their garments made up to their own measure from carefully selected fabrics. We deny the right of High Prices to exist while this balmy weather hangs on.

Just imagine the condition of things where everything is held for a regular profit until sold. Gough Bros. the progressive and aggressive leaders of Low Prices, make prices the moving power all along the line. "Always Good (and Cheap) at Goughs," but especially during unseasonable winter weather like this.

Members are urgently requested to attend, and all gentlemen who wish to identify themselves with the Society are invited to be present.

R. W. BELL, President. WM. MENZIES, Secretary.

3eod

THE ASHBURNHAM FIRE PROTECTION DEBT IS COMPROMISED.

The Village Council now Pledged to Pay $800 in Settlement up to the End of 1896.

The committee of the whole council last evening, met Councillors Craig, Rutherford and Johnston, of Ashburnham, with the object of settling the vexed question concerning the amount of money owed by the village to the town for fire protection for the last five years.

The town has always claimed that $250 a year was the same agreed upon but the villagers thought otherwise.

Last year a settlement was reached whereby the village was to pay $700 in settlement up to the end of 1895, but although the amount was agreed upon it was never paid. Last night, however, the debt was compromised at $800, which will settle all accounts up to the end of 1896. Both parties have agreed to this and the three councillors from Ashburnham have signed an agreement to this effect. As soon as the money is paid over arrangements will be made for future fire protection with a provision that the settlements be made yearly, in order to avoid all future disputes.

The question of the electric lighting contract was then taken up and the clause struck out regarding the amount which was to be charged other companies erecting poles and wires on the street.

This clause is to be covered by a by-law which will be passed at the next meeting of the council, in which the town is divided into districts and a distinct charge made for running wires through any or all of them.

It is proposed to divide the town into districts, as follows : -

District No. 1—South of Brock, north of Charlotte, east of Water street—charge $200 yearly.

District No. 2—All that part of the town north of Brock street—charge $200.

District No. 3—Portions of the town not above mentioned—charge $100.

It is thought that by this division the levying of the rental will not be a hardship on any company which is merely desirous of transmitting power from one portion of the town to another.

Arrangements were also made for the placing of five new arc lights in different portions of the town.

MUNICIPAL MATTERS.

Lack of Interest in Council Representation—Mayor Yelland Again a Candidate for Mayor.

The time is rapidly approaching when the people will have to select representatives to the town council to attend to the civic business during the coming year. In view of the importance of the duty that lies before the electors, there does not seem to be that interest taken in the matter, which its importance demands. There are likely to be some changes caused by the retirement of some members, but there is yet no decided interest developed in the subject. Of course the question of mayor for 1896 is an important one. It has been the practice in Peterborough to give a mayor two or more consecutive terms. In compliance with this unwritten agreement it is understood that Mayor Yelland, in view of his past services to the town both as mayor and otherwise, feels that he should not be made an exception, and he again will be a candidate. The rumour that Mr. R. M. Dennistoun is also to be a candidate is contradicted by that gentleman himself.

CHANGE OF TIME CARD.

Local Changes on the Midland Division of the G. T. R.

A new time card comes into effect on Monday on the Midland division of the Grand Trunk Railway System. There are two or three important changes, which travellers would do well to note.

The Lakefield train due to leave here at present at 1.15 p.m., will hereafter leave at 2 o'clock p.m. The train from Peterborough to Port Hope that now leaves at 12.10 p.m. will in future leave at 12.05 p.m. The evening train for Lindsay and the west that now leaves at 5.12 p.m. will hereafter leave at 5.25 p.m.

The public should very carefully note the changes made, especially that of the mid-day train. In this case the time has been made earlier—for a few minutes only—but five minutes delay is long enough to miss a train. In the other changes the time has been made later, and there is not so much danger of being late.

THE SATURDAY MARKET.

Plenty of Produce Was Brought in To-day.

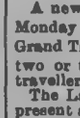
There was a great quantity of farm produce marketed this morning and the prices remained at a fair figure. The poulty which was brought in was remarkably fine, being plump and dressed in a most tasty manner calculated to show it off to the best advantage.

Butter sold at 18 and 20c. per pound, and eggs brought 15 and 16 cents a dozen. Chicks were worth from 30 to 40c. a pair, and were excellent in quality. Fine plump geese sold at from 50 to 65c., and young turkeys brought from 50c. to a dollar, according to size. Ducks sold at 60 and 70c. a pair. Potatoes remain at 50c. a bag, and the best apples bring 70c., although cheaper grades can procured at 50c.

New Fancy Goods Store.

Mrs. Appleby wishes to inform the ladies of Peterborough that she will open out on Saturday, November 14th, a stock of fancy goods at 426 Water street, south of Mason's greenhouse. A share of your patronage is respectfully solicited. Look out for new advertisement next week. 4d112

The Second of the Series



Of entertainments under the auspices of the Catholic Literary Association, will be held in their hall, George street, on Tuesday evening, 17th instant. A first class programme will be presented. Admission 10 cents.

Looking After the Hunters.

Mr. H. K. Smith, acting Chief Game Warden, made a visit to the Bobcaygeon vicinity on Monday. It is understood that the visit was not entirely appreciated by a camp of hunters in Harvey. It does not appear to be generally understood that muskrats cannot be taken, hunted or killed between the 1st of May and the first of January. Muskrat houses cannot be cut, speared, broken or destroyed at any time.

Permanent Pavements.

The Monetary Times says : "Ingersoll has six miles of granolithic walk laid at an expense of 12½ cents per square foot ; Ingersoll has a stone crusher and street roller. Galt has the same. Even Brantford has some machinery for improving its roads. But we, says the Paris Review, potter along wasting money on streets that get worse every year." Paris is not the only town where pottering is done and streets are becoming worse year after year. It would be well if the Good Roads Association would procure copies of the bulletin (No. 2) of Mr. A. W. Campbell, C.E., provincial instructor in road making, and send one to each of our town councillors. Of course it deals chiefly with the principles of making country highways, but as the majority of rural roads in this vicinity are better than our streets, compliance with the instructions contained in the bulletin would be a gain, anyway, if they did not lead to making our streets what town streets should be.

POOR LUCK IN THE WOODS

Hunters Complaining of the Scarcity of Deer.

The hunters who pitched their camps in the region of Stony Lake this year are bemoaning their luck, as the deer seem to be very scarce in that locality.

The LeBrun-Hatton party returned to town last night from Stony Lake where they have been occupying Mr. Harry LeBrun's summer cottage, "Bell Chasse" since last Wednesday.

Not a deer was seen. Mr. E. B. Stone brought down a partridge and Mr. Ed. Crown secured a porcupine. This was the extent of the bag for the entire party. The weather, however, was so exceedingly boisterous that the majority of the hunters perferred staying indoors, where a roaring fire made everything very comfortable.

Stories differ as to whether Mr. Stone or Mr. W. D. Parker shot the partridge, and as the game secured during a hunt is always divided the party are in a quandary as to what to do with the bird, so it has been decided to make it the prize in a pedro tournament to be held next week.

The hunters are unable to give an opinion on the new amendments to the Game Laws, as they did not see a deer at all. Mr. Harry Allen is of the opinion that this being the case, the Government should refund the price of the license which each member of the party had to procure before going out. It has been decided, however, to frame the "permits" and try and arrange matters so that they can be used until some of the party secure a deer at a future date.

Although no game was secured the party enjoyed a royal good time, as the guests of that soul of hospitality, Mr. Harry LeBrun.

A Norwood party who returned home at the same time from a point considerably north of Stony Lake also reports not having gotten a single deer. Mr. Tobias Fitzgerald, who is back fishing, sends in word that he has not as yet got any worth mentioning.

P. C. I. LITERARY SOCIETY.

An Excellent Address on "Armenia" by Mr. McCaig—The Programme.

The fourth regular meeting of the Peterborough Collegiate Institute Literary Society was held Nov. 13th, when the following resolutions were passed : (1) Moved by Mr. W. Beer and seconded by Mr. Alex. Elliott, that at the close of the present term a meeting be held, to which the lower forms be invited. (2) Moved by Miss Yenney and seconded by Mr. W. Beer, that the Journal be given to the principal of the Business College to copy, he having kindly offered to do so.

The following programme was then rendered :

Reading	Mr. H. Carleton
Violin Solo	Miss Sullivan
Address on Armenia	Mr. McCaig
Selection	Glee Club
Journal	Editor
Selection	Glee Club

It was then moved by Mr. Denney and seconded by Mr. Alex. Elliott, that a vote of thanks be tendered Mr. McCaig for his able address, which motion was duly passed.

The meeting then closed with the National Anthem.

PERSONAL.

Rev. J. J. Rae will be in Bobcaygeon tomorrow, conducting anniversary services.

Mrs. Andrew McFarlane, who has been visiting relatives in Winnipeg for the last six weeks, returned home last night.

Misses Bennett, Lucile McClelland and Vina Belleghem have been spending the last week visiting friends in the Stewart Settlement, Otonabee.

Mr. J. Hanratty, who has been in town some time as inspector, for this district, of the Standard Life Assurance Company, is removing to Toronto to take charge of the "Northern District," and he is succeeded in Peterborough by Mr. Doran, of Toronto.

Y. M. C. A. NOTES.

Gospel and song service to-night at 7.30. Come.

Chorus Club practice to-night from 8.30 to 9.30.

The meeting at 4.15 to-morrow afternoon will be conducted by Mr. H. D. Kennedy. Subject—"How Samson got his wife, the difficulties he encountered and how he met them." Good singing will be conducted by Mr. G. W. Mulligan. Come with us, young men.

Sad Complaints.

Ladies Must Protect Themselves.

Several ladies have recently written to the manufacturers of Diamond Dyes complaining of having received very worthless dyes from certain dealers (whose names are known) instead of the Diamond Dyes that were asked for.

The manufacturers of Diamond Dyes, while they deplore this unwise and dishonest practice of SUBSTITUTING, cannot give any greater protection to the public than they are now affording in the way of warnings through the columns of the press.

All buyers of dyes who ask for the Diamond Dyes should look for the name on the outer envelope. If the name "Diamond" is not seen, rest assured you are being offered some miserable imitation.

Diamond Dyes are the only perfect dyes in the world for home dyeing. The best druggists and dealers sell them.

Madill's Cough Syrup

For coughs, colds or sore throats. Cure guaranteed.

We "Meat" Everybody

At our store, and tender tender meat to our patrons. Our mutton is sold as mutton—not spring lamb. Same with beef—cuts are sold as such. Yet the people keep coming to JOHN J. HOWDEN'S Meat Store, 416 George street. Telephone 39.

A Cosy Bath.

The latest caper in Haskill's Gold Dollar Barber Shop is a private bath-room cosily fitted up with hot and cold water. It will be a luxury for many who have been wishing for something of the kind to start up. Buy your little pasteboards and enjoy a quiet dip. 6d111

New Fruits.

The arrivals of new fruits are reported by the leading grocers in town, but the choicest raisins, currants, peels and figs we have had the pleasure of looking at are shown by Messrs. R. F. Mason & Co., who have used good judgment in the selection of fruits, as there is much inferior goods on the market this year. 2d114

PIPES! PIPES!

Why pay 25 to 50 per cent. more for a Pipe, when you can save that much by buying at Clegg's Retiring Sale? Pipes, Pouches, Tin Tobaccos, Cigars by the Box, all at cost price. E. B. CLEGG.

STROUD BROS.

Direct Importers,

370 George St., Peterborough,

Also at Montreal, Kingston, Toronto and Ottawa.

Daily Examiner.

SATURDAY, NOVEMBER 14, 1896.

LOCAL NEWS.

If your eyes trouble you in any way, have them tested by W. Madill, optician. No charge for examination.

MRS. KLEINGENFIELD

Of Toronto, Teacher of Vocal Music, Piano and Theory, will be at the HUFFMAN HOUSE on Tuesday of each week hereafter.

A Legal Question.

One of the disputed points in the liquor license act, and the one over which there has been a great deal of discussion, is whether or not a hotel-keeper may supply liquor to his lodgers in their rooms during prohibited hours. A high court judge has recently decided that it is against the law to do so. Judge Sinclair in his "Annotations," has also taken this ground.

Committed Suicide.

On Monday morning last while the section men on the G. T. R. were going to work on the "pumper," near Lakefield, they witnessed a very singular and remarkable occurrence. When they reached Sawers Creek they noticed a partridge on the track, and on the approach of the car, appeared to get confused and instead of trying to get off the track, it deliberately laid its head on the rail, the car passing over it and cutting it off. Anyone who doubts the veracity of this occurrence is referred to Mr. Gus. Sawers.

If you have the "Blues."

It's your own fault if you have the "blues" on Sunday. You needn't be a bit lonesome if you get a supply of Sunday reading to-night at the Peterborough Bookstore. We have all the beautiful illustrated magazines for November, brainy and stirring newspapers and periodicals, elevating and exciting books of science, morals and romance, calculated to vitalize and arouse the spirits, stimulate your better self, and keep you out of mischief and moping. Drop in to-night and see if we can't prescribe for you.

A. H. STRATTON & Co.

Improvements at Waller & Co's.

During the past week Waller & Co., grocers, Charlotte street, have been engaged in improving the general appearance of their store. A very satisfactory clearance sale for the purpose of reducing the stock of this firm was held for the three weeks previous, in order to save the removal of goods while the improvements were going on. This afforded an opportunity for repairing and overhauling the premises, repainting the interior and front, and adding to the neat and attractive appearance of this compact grocery. Waller & Co. have done a very satisfactory trade this year, and when other important changes are completed, are confident of still further progressing their business during 1897.

—All adjutants and field officers will be obliged to qualify in riding before July 1st, 1898.

—The shantymen are beginning to go north. The Gilmour Company's teams are already at work.

—The cold weather is driving the tramp to shelter. Farmers should keep their barns locked.

—At St. John's to-morrow Rev. J. C. Davidson will preach in the morning and Rev. E. V. Stevenson in the evening.

—The steamer City of Peterborough is engaged in hauling the machinery, etc., of the Dickson estate saw mill at Harwood to Peterborough.

—A departmental circular has been issued from Ottawa prohibiting vendors from purchasing postal stamps from merchants who receive them through the mail from customers.

—The Rev. S. E. Grigg, who occupied the pulpit of the Murray street Baptist church, will again preach there to-morrow and will continue to do so each Sabbath until the coming of the new pastor.

—At the meeting of the quarterly official board of South Dummer, held on Monday afternoon, Nov. 2nd, the pastor, Rev. J. C. Anderson, was unanimously invited to return for another year to his present charge.

—If you want to economize burn the People's Coal Co's coal. All kinds of coal in stock, including best hard coal for stoves and furnaces, soft coal for grates, and smithing coal. Office—230 Charlotte street. Telephone 366.

—Frederick T. Roberts, M.D., Professor of Clinical Medicine at University College Hospital, London, England, says: "Bright's disease has no symptoms of its own and may long exist without the knowledge of the patient or practioner and no pain will be felt in the kidneys or their vicinity." Ordinary common kidney diseases, many times unrecognized as such, will become chronic and terminate in Bright's (organic) disease of the kidneys, unless taken in hand. Warner's SAFE CURE, with a record of twenty years of success back of it, is the only recognized specific for this disease.

ASHBURNHAM BRIEFS.

An Open Meeting of the Women's Auxiliary.

On Wednesday evening, Dec. 2, the Mark street Auxiliary of the Women's Foreign Missionary Society intend having an open meeting in the church. There will be a choice programme of readings, recitations, etc. Mrs. Sherin, of Lakefield, will give an address. A beautiful autograph quilt, which has been presented to the Auxiliary by one of its members, Miss Sara Hamilton, will be offered for sale at this meeting to help to raise funds to secure articles for a missionary Christmas box, which is being filled. A collection will be taken to further assist in this good work.

Everybody is invited to this open meeting, and all ladies, whether members or not, will be welcome at any of the regular meetings, which are held on the first Wednesday in each month.

At a meeting of the teachers and officers of Mark street Sunday school on Monday evening, it was decided to hold the annual Christmas entertainment on Christmas evening, Dec. 25.

There will be the usual "tree" and a good programme anticipated.

Madill's Compound Healing Salve for burns, scalds, frost bites, or sores of any kind.

Man's and Boy's Special Sale of Silk Ties. Knot, Bow and Four-in-hand shapes, regular prices 25c to 35c, Grafton's Sale Price for Friday and Saturday..... **10c**

Protect Your Horses, etc.

Nothing is more needed for horses at this inclement season of the year than a waterproof horse cover. I make them to order and keep them in stock as well. Hoods, heads, backs and breasts in black waterproof, impervious to water, soft and pliable. Any kind or style of ordered goods required. Lap rugs, strictly waterproof. Also cheese covers as requested by members of the Cheese Board, and for covering all kinds of goods liable to damage from wet. A. KINESCOTTE, Tent, Sail and Awning manufacturer, 344 Water street, opposite market.

DO YOU WANT A BENEFIT?

Everybody in search of warmer Underwear will have another chance to save money at Gough Bros. on Saturday night. Snaps in Two Special Lines will be offered as follows:—

Heavy Ribbed All-wool Shirts and Drawers, regular 50c. and 65c, for..... **25c**

Heavy Double-Ribbed All Wool Shirts and Drawers, finer make regular 65c and 75c, for..... **35c**

Another benefit which Gough Bros. will offer to-night will be a great line of All Wool Frieze Trousers, regular price $1.25, $1.50, and $1.75, your choice on Saturday, only 98c.

GOUGH BROS.,

The Wonderful Cheap Men.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

LACROSSE.

A meeting of the lacrosse club is called for 8 o'clock to-night in the Oriental Hotel to make arrangements for the formation of a hockey club.

HOCKEY.

The Peterborough Hockey Club meets for reorganization Monday evening next at the Oriental Hotel.

THE WHEEL.

In the recent road race there were a number of side-slips—in fact almost every rider took a side-slip.

People usually make remarks on side-slips; they form an inspiring subject, under whose spell the stammering tongue is made to gush with eloquence, and by whose power language flows as a river from the hills—a subject under whose constraining influence many a man has blushed to find himself an orator of the most prolific—if on the most seductive—order.

Side-slips might be termed the cyclist's tribute to the goddess, "Floorer." And never was tribute more righteously exacted, more reluctantly rendered. Greater than that of the greatest despot is the tyranny of this cruel maid. She counts her victims by the thousand; they lie before her, a ghastly army, stricken to the dust—or rather, what is much worse—to the mud; under her will, the cycle, frail and slender vehicle though it be, becomes mightier than the Car of Juggernaut, and deals out ruin with greater wantonness.

Side-slips are the cyclist's prerogative; they pertain to him, and him alone. That he rejoices in the monopoly I will not venture to assert. But be that as it may the Fates have ordained that none other shall share with the cyclist this one particular privilege. Nearest to it in character is the experience undergone by the pedestrian who treads on a piece of orange peel, and hits the pavement with the back of his head; or, by a novice in aquatics, who gets afloat for the first time on a sliding seat, and finds himself suddenly on the buffer portion of his anatomy, in the bottom of the boat; but these lack that finished ease and rapidity of action, that fulsome completeness of execution, which mark the side-slip.

Side-slips are like bailiffs; they catch one unawares. Their suddenness is their great feature. Beyond the knowledge—born of bitter experience—that in the grease dangers lurk, thick and menacing as Jason's dragons' teeth, there is no warning of the coming collapse. Were it but possible to detect the approach of the catastrophe, and to dismount before it takes place, the observation of the vagaries of one's faithless "bicycle" in a patch of mud might prove amusing; but no, the fate of the steed is the fate of the man; and both go down to a common ruin. United they stand; united they fall; and Heaven help the undermost.

To minutely describe a side slip is impossible. When you have one, there isn't time, as a rule, to take notes; nor, as far as I know, has the shap-shot artist been able, up to now, to capture one—besides, you can't—even with the Rontgen Rays—photograph the emotions, which, in a side-slip, play no unimportant part. A brief summary of the matter might be put thus: A sudden sensation as of unstable foundations; a vague notion in your mind that things are wrong somewhere; a wandering effort to ascertain your precise locality; and then you get up with the skin off your hands and your sleeve full of mud, and you say—well, perhaps, we had better not trouble too much about what you say.

There have been numerous contrivances for the prevention of side slip, most—if not all—of which I can heartily commend as not fulfilling their purpose. We have had bands—indeed, a band which I remember using some time ago, sounded on a dry road like a full orchestra—we have had bands, I say, and bars, and tire excrescences of every shape and device; but side-slips are with us still, and will be until some power arises to properly control the general cussedness of things, and to convince driving wheels of the sinfulness of "backsliding."

Can Rheumatism be Cured?

The application of Nerviline—Nerve pain cure—which possesses such marvellous power over all nerve pain, goes greatly to prove that it can Nerviline acts on the nerves, soothes them, drives pain out, and in this way gives relief. Try it and be convinced.

New Furniture.

At A. Clegg's:—A large assortment of floor rocker cobler seats, in oak, natural birch and mahogany finish. These are of superior styles and finish and very cheap. Also a lot of reed and rattan rockers—cheap! cheap! Several cases of pictures, good subjects, complete, at less than you have been accustomed to pay for frames only. A. CLEGG, 427 George street.

"DANNY."

Dan Simons will soon be in town,
Actor, acrobat and clown;
Good people all prepare to laugh
At Danny and his strange giraffe;
For Dan is quite a funny moke,
Can cut a caper, crack a joke;
Can dance a jig or Irish reel,
And surely proud we ought to feel
That one so comical and witty
Should visit this his native city.

Catarrh Means Danger.

Because if unchecked it may lead directly to consumption. Catarrh is caused by impure blood. This fact is fully established. Therefore, it is useless to try to cure catarrh by outward applications or inhalants. The true way to cure catarrh is to purify the blood. Hood's Sarsaparilla, the great blood purifier, cures catarrh by its power to drive out all impurities from the blood. Thousands of people testify that they have been perfectly and permanently cured of catarrh by Hood's Sarsaparilla.

City Bakery Changed Hands.

I beg leave to inform my customers that I have sold my Bakery Business to Mr. A. E. Sims, a practical baker, who will in future continue the business. I take this opportunity of thanking my patrons for their liberal patonage and can confidently recommend my successor as a first-class baker. E. J. LAING.

NIGHT SCHOOL

How many of the Young Men and Women of our town are anxious to improve their Education. We give every opportunity to anyone wishing to spend their evenings in studying Arithmetic, Writing, Spelling, Book-keeping, or Shorthand, and Typewriting. Any or all of these subjects may be taken by the student.

Many have fitted themselves for better positions by attending our Night School. You can do the same.

Monday, Wednesday and Friday Evenings. 7 to 9 p.m.

PRINGLE & McCREA,

Opposite Post Office. *Business College.*

There is a Difference

Between Stocks and Between Stores.

A 75c. article sold by one dealer is often twice as good as a 75c. article sold by some other dealer. The price standing alone doesn't mean anything. *It isn't fair* to measure our prices with somebody else's prices without comparing the qualities. We aim to carry a dependable stock of Men's Women's and Children's Goods. We know what we sell. We recommend them fully and freely, and give money back to anyone who is dissatisfied.

If you are interested in this Store, send for samples, send for a Catalogue; better still, come and see us. If you don't think you are used well, tell us of it. We want to do well by you.

RUPTURED AND DEFORMED

C. H. DORENWEND,

Canada's Leading Authority on the Mechanical Treatment of Rupture and Deformity, will be in

PETERBOROUGH

—AT—

GRAND CENTRAL HOTEL

—ON—

THURSDAY, Nov. 19th

where he can be consulted with, free of charge. He brings with him the largest stock of Trusses, &c., ever shown in Canada. He makes a specialty of a Truss that HOLDS RUPTURE EXACTLY LIKE THE FINGERS. It is far superior to anything yet invented; the old principles of tight strapping and cumbersome appliances are avoided. It is light and strong, holds with ease, never allowing the Hernia to escape. In this advantage lies the secret of a cure without a risky operation. If Ruptured don't be deluded into an idea of security because you have a Truss on. IT MUST FIT PERFECTLY, and who can do better for you than one who attends hundreds monthly. Rupture is not exactly a disease, nevertheless it is positively dangerous if neglected.

If **DEFORMED** by Club Feet, Bow Legs, Knock Knees, Spinal Curvature or Hip Disease, you can have it corrected and obtain relief by mechanical means. CHILDREN ruptured or deformed should be attended to early to avoid future misery.

If suffering from **RHEUMATISM, NERVOUS DEBILITY, KIDNEY TROUBLE, DYSPEPSIA, &c**, why don't you try Electricity? It is a great remedy and by a DORENWEND ELECTRIC BELT you can apply it simply and effectually; thousands used with best of results. Limited space prevents further details. For practical demonstration call as stated above—you are welcome.

All appliances first-class and prices reasonable. NOTE THE DATE.

DORENWEND E. B. & T. CO.

383 Queen St. W., Toronto. U. S. Agency 306 N. Broadway, St. Louis

We have also the Clothe Trusses and are selling them cheap. Will also be in **GUELPH, at Bradburn House, Friday, Nov. 20th.**

THIS IS THE PLACE

WHERE YOU CAN BUY

Everything in the MEAT LINE

Don't forget we have Fearman's Hams, Bacon and Long Clear.

Did you know we have Leaf Lard and Lard rendered on the premises?

We have Chopped Suet.

OUR OWN SAUSAGES are without doubt the best in town. They are now made on our own premises, under our own supervision, with our own prime meat, fresh every day.

The Hamburg Steak is worth trying.

In fact everything we sell is of the best quality.

Bear in mind that Mr. J. Hutchison has the store on Water Street in his full charge.

NOTICE TO CREDITORS

NOTICE IS HEREBY GIVEN THAT pursuant to the Revised Statutes of Ontario, 1897, Chap. 118, Sec. 38, the creditors of Harry Robinson, late of the Town of Peterborough, in the County of Peterborough, Barber, who died on or about the 25th day of Oct. A. D., 1896, are on or before the 12th day of Dec. 1896, to send by post, prepaid, to J. R. Stratton, one of the Executors of the last will and testament of the said deceased, Harry Robinson, their Christian and surnames, addresses and descriptions, the full particulars of their claims, statements of their account and the nature of the security (if any) held by them; and that on and after the said 12th day of December the assets of the said deceased will be distributed amongst the parties entitled thereto, having regard only to the claims of which notice shall have been given, and the said executors will not be liable for the assets so distributed, or any part thereof to any person whose claims shall not have been received by them at the time of the distribution of the said assets or any part thereof as the case may be.

J. R. STRATTON,
MARY ROBINSON,
Executors for Harry Robinson Estate
Peterborough, Nov. 8th, 1896. 5da

The light in the window after midnight but too frequently tells the old, old story of the awful torture of approaching motherhood for some illy-prepared women. All too often death lurks on the doorstep. This is a story that would seldom be told if women would but properly prepare themselves for the duties of motherhood. If a woman will take the right care of the organs that make motherhood possible, approaching maternity will have no fears for her. Nature intended that all women should bear children, and did not mean that this duty should be a cruel torture. Woman's own ignorance and neglect have made it so.

All weakness and disease of woman's reproductive organism are cured by Doctor Pierce's Favorite Prescription. It acts directly upon these organs. It makes them strong and healthy. It prepares them for approaching maternity. It allays the discomforts of the expectant period. It makes baby's coming easy and comparatively painless, and insures the health of the child. All good druggists sell it.

"I have had three miscarriages," writes Mrs. T. L. Shaffer, of Ney, Sully Co., S. Dakota. "Last Spring I received one of your Memorandum Books in which I found your 'Favorite Prescription' recommended to prevent it. I took eleven bottles of it and have a bright boy five months old, which I owe to God and your medicine."

What woman does not wish to make her family cares as light as possible, consistent with her family's well-being? The greatest care of all is the fear of sickness. It is a common saying amongst conscientious mothers: "As long as the children are well, I don't mind anything else." For these mothers Dr. Pierce's Common Sense Medical Adviser would prove "The shadow of a great rock in a weary land." This book of 1,008 pages, profusely illustrated, gives plain talks and kindly sensible medical advice. It is peculiarly valuable for mothers of young daughters. More than a half a million copies of this book have been sold for $1.50 each. Now there is an enormous edition to be given away. Send 31 one-cent stamps, to cover cost of customs and mailing *only*, for a copy in paper cover. For cloth binding, send 50 stamps. World's Dispensary Medical Association, Buffalo, N. Y.

LITTLE FOLKS' ATTIRE.

How They Should Dress at Home, Abroad and at School.

Miniature copies of their mammas are the little maids who started to school the other day. The same rough goods, the same checks, plaids and stripes that their elders wear clothe the small damsels. The big hats that are a feature of "grown-up" millinery are equally conspicuous in the infantile ranks—a state of affairs which, while not particularly conductive to variety, is an admirable arrangement economically considered, for the gowns of the elders may be cut down as the season advances to fit smaller figures.

The materials which are most in vogue for school girls' dresses are Scotch plaid serges, checked cheviots and boucle basket cloths. Some of the plaids are fairly riotous in their coloring, though prudence dictates the purchase of the dark green and blue ones with yellow lines. Those will survive the wear and tear of a few

LITTLE FOLKS' ATTIRE.

months at school better than the gaudier sorts. The cheviots in gray checked with red lines are popular, and so are the heather blue and gorse yellow combinations.

The older girls wear Norfolk jackets with a single broad plait down the black or modified blouse and "baby" waist. Big, round collars which come down over the shoulders are made of plain, bright colors braided closely in black. Deep yokes of solid color, also braided in contrasting hues, are parts of the blouse and baby waist.

Very small damsels wear frocks hanging loosely from the shoulders. These sometimes have narrow yokes and sometimes are suspended from the neck, loosely plaited in the back and front. The collars worn with these are either of satin in some contrasting color or of heavy ecru embroidery.

Big ads. are needed to bad medicines. **Manley's** Celery-Nerve Compound has merit alone to commend it.

Dear Sirs: I cannot praise Manley's Celery-Nerve Compound too highly, and I think its tonic and restorative qualities cannot be surpassed. I was feeling poorly for some time through overwork and before I had taken one bottle of your medicine, I felt completely better. Yours truly,

247 Yonge St., Toronto. E. McKaib.

Sold in Peterborough by J. B. Tully.

Already the winter coats are appearing in the shops. Little girls whose

LITTLE FOLKS' ATTIRE.

wraps hang from their necks to their heels have them made of the same heavy mixed goods of which their gowns are fashioned. Big buttons fasten them; their collars are deep ones of velvet edged with fur. Shorter coats for the older girls have double plaits hanging from each shoulder loosely down the back and front. Still taller misses indulge in plaid-lined capes similar to those affected by the young woman of golfing proclivities.

Party frocks for young party-goers will be, as always, simple. The soft silks are unrivalled as material, and the plainer the style the more correct it is considered. Yokes covered with tiny frills of valenciennes and finished with deep ruffles edged with the same are the principal features of the waists while the skirts are to be ruffled as a ballet dancer's.

School girls under the age of seventeen wear big hats. They are picturesque affairs, with sugar-loaf crowns and brims of the sort denominated "floppy" by the inelegantly exact. A twist of ribbon and a bunch of ostrich feathers trim these hats. Less conspicuous sailors trimmed with ruchings of gros grain ribbon.

White mull and white cambric aprons have had their day. This season ecru linens and batists make all the pinafores. They are pretty little affairs, cut long enough to cover the skirt, and with shallow, round necks. Ruffles of ecru embroidery trim them.

A Jade Revival.

Jade has had a sudden spurt in popular favor since the dazzling Chinese gentlemen arrived with their feathers fastened by brooches of the green stone and thumb rings set with it. It is more liked for buckle centres, umbrella, tops, hat pins and the like here than for ring settings.

Many people, when a little constipated, make the mistake of using saline or other drastic purgatives. All that is needed is a mild dose of Ayer's Pills to restore the regular movement of the bowels, and nature will do the rest. They keep the system in perfect order.

TORONTO MARKETS.

Flour—The market is steady, but relatively lower than wheat. Sales of straight rollers at $4.40 Montreal, or $4.07 to $4.10 here.

Bran—Trade quiet and prices steady; dealers asking $7.50 west. Shorts, $9 to $9.50 west.

Wheat—The market is unchanged. The tone is strong with limited offerings. Red and white quoted at 85c to 86c outside, No. 1 Manitoba hard sold at 91c and 95c Toronto freight, and No. 1 Northern at 93c to 93½c.

Buckwheat—The market is dull, and the price nominal at 30c west.

Barley—Trade quiet, with No. 1 quoted at 38c, No. 2 at 31c and No. 3 extra 27c outside.

Oats—The market is quiet and prices steady. White sold outside at 21c to 21½c and mixed at 19c to 20c.

Peas—Trade quiet and prices are steady, there being sales outside at 44c.

Rye—Trade quiet, with sales outside at 35c east.

Corn—Market dull, with prices firm at 28c to 29c outside.

Oatmeal—The market is unchanged, with car lots quoted at $3.40 to $3.50.

BRITISH MARKETS.

Liverpool, Nov. 12.—Spring wheat, 7s 2d to 7s 3d; No. 1 Cal., 7s 6½d to 7s 8d; corn, 3s 3½d; peas, 4s 10½d; pork, 50s; lard, 23s 0d; bacon, l.c., heavy, 30s 6d; do., light, 29s 6d; do., s.c., heavy, 24s 6d; tallow, 20s 6d; cheese, white and colored, 51s.

London—Opening—Wheat off coast, 3d to 6d lower. English country markets 1s dearer. Maize off coast, nothing doing.

Liverpool—Spot wheat steady; futures steady at 6s 11¼d for Nov., Dec., Jan., Feb. and March. Maize steady at 3s 3d for Nov. and Dec., and 3s 2½d for Jan., Feb. and March. Flour 24s 3d.

Paris—Wheat 22f 35c for Dec.; flour 47f 10c for Dec.

Liverpool—Close—Wheat steady at 7s ¼d for Nov., Dec., Jan., Feb. and March. Maize quiet, at 3s 3d for Dec. and 3s 2½d for Jan., Feb. and March. Flour 24s 3d.

London—Close—Wheat off coast, nothing doing. Maize, on passage, rather easier.

Paris—Close—Wheat weak at 22f 10c for Dec.; flour weak at 46f 75c for Dec.

THE WOMEN TOO.

Back Talk Not Man's Monopoly.

Mrs. Jemima Cole, Havelock, told the following wonderful story:—"For a great many years I have suffered from disease of the kidneys. The pains in my back and side were sometimes excruciating.

"My limbs were so swollen that I could scarcely lift my feet from the floor, and I was in great agony nearly all the time. I thought that I would surely die from the pain.

"I have taken dozens of advertised remedies, but got no better during their use. I was also treated by several doctors, but am sorry to say they did me little or no good. In fact they stated that they could do me no good, which made me despair of ever getting better.

"When I saw Doan's Kidney Pills advertised I sent to W. H. Jeff & Co's. drugstore and got a box thinking I would try them as a last resort.

"The change from the start was very great and now after one month I am free from all pain. The swelling has gone down and I feel quite strong and healthy.

"I was also troubled with rheumatism and neuralgia which have completely disappeared, thanks to the use of Doan's Kidney Pills. In fact I do not think there is a medicine in the world that in such a short time could have taken me from the almost dying condition in which I was to the healthy and vigorous state that I am in now.

"I recommend Doan's Kidney Pills for their wonderful virtues in curing kidney troubles."

For sale by J. J. Lynch, druggist, 168 Hunter street, Peterborough.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagyard's Pectoral Balsam.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

CARRIED OFF A CHILD.

A Woman Who Gave Up Her Little Girl Believed to Have Stolen Her Back From a London Woman.

London, Ont., Nov. 12.—An adopted child of Mrs. George Currell, was abducted this morning from Mrs. Currell's restaurant, on Richmond-street, just next to the G. T. R. station. Mrs. Currell was out at the time of the occurrence. A woman entered and, ordering a cup of coffee, engaged in conversation with the little girl, who is four years old. When the waitress returned with the order the woman and the child were both missing. From description she believes the woman to be the little girl's mother, Mrs. Robert Stevenson of Glencoe. Mrs. Currell adopted the little girl, whose name is Rena Coral, from the mother last February. Mrs. Stevenson came all the way from Utah to let Mrs. Currell have the child, and she signed legal papers relinquishing her natural claim to it.

You Can be Well

When your blood is pure, rich and nourishing for nerves and muscles. The blood is the vital fluid, and when it is poor, thin and impure you must either suffer from some distressing disease or you will easily fall a victim to sudden changes, exposures, or overwork. Keep your blood pure with Hood's Sarsaparilla and be well.

Hood's Pills are the best after-dinner pills; assist digestion, cure headache. 25c.

One Every Night.

One Laxa-Liver Pill taken each night during 30 days will cure Constipation, oft-returning Headaches and irregular action of the bowels. Laxa-Liver Pills leave no unpleasant after-effect.

B B B

Unlocks all the clogged avenues of the Bowels, Kidneys and Liver, carrying off gradually, without weakening the system, all the impurities and foul humors of the secretions; at the same time Correcting Acidity of the Stomach, curing Biliousness, Dyspepsia, Headaches, Dizziness, Heartburn, Constipation, Dryness of the Skin, Dropsy, Dimness of Vision, Jaundice, Salt Rheum, Erysipelas, Scrofula, Fluttering of the Heart, Nervousness and General Debility, all these and many other similar complaints yield to the happy influence of BURDOCK BLOOD BITTERS.

Good Square Pianos

FOR A MERE SONG.

Our warerooms are overcrowded with excellent square second hand pianos which we have taken at different times as part payment on new Mason & Risch Uprights. Most of them were exchanged by the original owners, not because they were bad, but simply because they were squares and took up more room than the average modern city parlour allows of.

Most of them are in first rate order, 7 octaves, carved legs, ivory keys, iron frames and rosewood cases. They are made by such well known firms as Fischer, Heintzman, Decker, Chickering, etc. Most of them are worth about $250.00 each, though we don't intend to ask this. Now listen to our proposition.

First write us for a list and description of what may happen to be on hand at the time of writing, giving us some idea as to what you would like, and how you wish to pay; whether cash down or on terms; if on time how much time how much down you can pay and how much per quarter.

On receipt of this information we will make the best possible selection and ship it to you **FREIGHT PREPAID ON APPROVAL.** If you do not like it, **SHIP IT BACK. IT WON'T COST YOU ANYTHING** If you like it we will await checque (if cash) or send you the usual papers for signature. The price of no Piano is to exceed $150.00 and many will be less.

If you have ever heard of a fairer offer than this, let us know of it.

If you prefer a good second hand Upright of course it will cost more, but write us all the same; it is no trouble to answer questions and give quotations and terms; that's what we are here for.

LOSS OF VOICE

After Acute Bronchitis

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

NOT SO VERY RADICAL

THE SWISS INITIATIVE AND REFERENDUM.

The Provisions of the Law in the Small Liberty-Loving Republic—How They May Be Made Serviceable in the New World Countries.

The initiative and referendum has found its highest development in Switzerland, especially in the cantons. The Swiss constitution provides that "federal laws shall be submitted for acceptance or rejection by the people if the demand is made by 30,000 voters, or by eight cantons." This is the referendum, by which laws that have been passed by the legislative body must be submitted to the people for approval. The essential point about the initiative is that a certain portion of the voters may petition that a law upon a certain question shall be drafted and presented to the voters for approval or rejection. The Swiss federal constitution does not provide for the initiative in ordinary legislation, but the system is in use for that purpose in some of the cantons, which may be said to correspond to the States of our Union. The initiative may be used, however, for effecting constitutional changes in the federal government. Following is the provision for amending the federal constitution:

"When either council of the Federal Assembly passes a resolution for amendment of the federal constitution and the other council does not agree, or when 50,000 Swiss voters demand amendment, the question whether the federal constitution ought to be amended is, in either case, submitted to a vote of the Swiss people, voting yes or no. If in either case the majority of the Swiss citizens who vote pronounce in the affirmative, there shall be a new election of both councils for the purpose of preparing amendments."

The working of this system in Switzerland and in the cantons composing it has been commended. The results have not been so encouraging to the radical element as many had anticipated. In fact, the Swiss people have shown a decided conservatism and caution whenever laws have been submitted to them under the referendum. The system is particularly suited to the conditions in Switzerland, because that is a small country. Yet, even there, we find it used less in federal than in cantonal affairs. The larger the territory and population the greater the difficulty in putting the system into use. The referendum is best suited to use in local affairs. It may be used to great advantage in state affairs, but it is questionable in this country if it would be wise to adopt the referendum in national affairs, except for submitting constitutional amendments. There is less scope for the use of the initiative than for the referendum and not so urgent reasons for its adoption.

The referendum has been growing in use in this country. Only last year two important measures—the Torrens law and the civil service law—were submitted to the voters of Chicago for approval. There is a growing tendency, and it is a healthy one, to submit such questions to the people. It would be well if provisions were made for submitting important franchise questions to the voters.

There is also a growing fondness for the referendum in state matters. One hundred years ago constitutions generally were adopted and put in force by constitutional conventions without submission to the people. Now there are very few states, indeed, in which constitutional changes can be effected without the sanction of the voters. Such laws, for example, as those for the regulation of the liquor traffic, are frequently submitted to popular vote. In this country, however, such submission is always at the will of the legislative body. The voters can not demand submission of a question to them, as in Switzerland.

Too frequently legislatures in American States cannot be trusted. As a consequence it has been customary to limit their powers by constitution, with the result that in forbidding the legislature to do certain things the people oftentimes have tied their own hands and placed it out of their power to secure by legislation reforms which are badly needed. Here is one field where the increased use of the referendum would be extremely helpful. Instead of enumerating by constitution an ever-increasing number of things which legislatures may not do, it would be better to stipulate that laws might be passed upon these subjects provided they were submitted to the voters and approved.—Chicago Record.

A Home-Made Barometer.

There is no reason why every boy should not possess a barometer of his own, which he will find not only endlessly useful in planning his little holiday trips, but which will afford him infinite interest as well.

All he has to do is to take a gramme each of camphor, saltpeter and ammonia salts and dissolve them in about thirteen drams of alcohol. When the dissolution is complete, shake the mixture well and pour it into a glass bottle, one rather long for its width is preferred. Cork tightly and seal with wax so as to prevent the air from penetrating into the bottle.

Expose this improvised barometer on the outside of the window, on the north side of the house, if possible, and the crystallizations which are produced announce a change in the weather.

Absolute clearness of the liquid denotes fair weather.

If the liquid becomes disturbed or roily as we say, it is a sign of rain.

If downy masses form in the bottom of the bottle it will freeze, or at least, the thermometer will descend; the more the masses rise toward the top, the more rigorous will the cold become.

Little stars in the liquid foretell a hard storm.

The two most critical times in a woman's life are the times which make the girl a woman, and the woman a mother. At these times Dr. Pierce's Favourite Prescription is of incalculable value. It strengthens and invigorates the organs distinctly feminine, promotes regularity of the functions, allays irritation and inflammation, checks unnatural, exhausting drains, and puts the whole delicate organism into perfect condition. Almost all the ills of womankind are traceable to some form of what is known as "female complaint." There are not three cases in a hundred of woman's peculiar diseases that Dr. Pierce's Favourite Prescription will not cure.

Etiquette in a Colorado Hotel.

A gentleman of Carrollton who has lately returned from the west has brought with him a copy of some of the rules he found posted in a hotel dining room, says the Baltimore Sun.

The hotel was the "Rustlers' Rest," at Little Cayuse Creek, Col. The "Rules for the Guidance of Guests" follow:

"All gents with shooting irons or other weapons must check them before entering the dining room. Waiters are too scarce to be killed.

"Gents are requested not to attract the waiters' attention by throwing things at them. This is no deaf mute asylum.

"Seven kinds of pie are given with every dinner.

"Tablecloths are changed every Sunday.

"Our food is all of the best quality. Our milk is pure, eggs new-laid and the butter speaks for itself.

"Guests tipping waiters must pay funeral expenses in case one should die from heart disease.

"No more than six eggs will be given each at a sitting. Any guest found trying to work off his shells on a neighbor will be fired from the table.

"Biscuits found riveted together can be opened with a chisel supplied by a waiter. The use of dynamite is strictly forbidden.

"Disputes over articles of food must be settled outside.

"Don't lasso the waiters, because the guest who can't throw the rope will be at a disadvantage.

"Gents can take off their coats if they want, but they must keep on their vests."

A MESSAGE TO MEN.

Proving that True Honesty and True Philantrophy Still Exist.

If any man, who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge, the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathise with such sufferers, I am glad to be able to assist any fellow-being to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind, but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c. silver to cover postage and address, Mr. Geo. G. Strong, North Rockwood, Mich.

As Well as Ever.

Dear Sirs,—After suffering for two years from acute indigestion I tried B.B.B. I took only three bottles, which made me as well as ever I was. I highly recommend B. B.B. to all dyspeptics.

DAVIS & LAWRENCE CO., LTD. Sole Proprietors MONTREAL

LUCY GREW FRENZIED

And Talked So Wildly That the Police Led Her From the Platform.

Chicago, Nov. 12.—Lucy Parsons was led off the stage at the West Twelfth-street Turner Hall by Police Captain John Wheeler last night, at the annual demonstration in memory of anarchists who were executed as a result of the Haymarket murder. Mrs. Parsons made a frenzied speech, and Captain Wheeler took her from the stage twice. There was a great uproar in the audience, but no outbreak.

Herr Most also made a speech. He declared anarchy had not been killed by the hanging of the four men. "No, no," he continued, "anarchy is not dead, but it is getting stronger each year, and will live on forever."

Do not allow your system to get weak and debilitated. It is easy to keep well and strong by taking Hood's Sarsaparilla.

FORTNIGHTLY CLUB COLUMN.

No. LXXVIII.

Mr. John Morley on Popular Culture.

There are but few writers of the present day who import into their writings such a constant stream of moral enthusiasm as Mr. John Morley. Mr. Morley is always in earnest, and his earnestness is saved from becoming, as earnestness very often does become, tedious by the richness and beauty of the style in which he presents it. It is like a stern and massive piece of architecture relieved by a bright colouring.

In the year 1876 Mr. Morley was president of the Midland Institute of England, and in this capacity he delivered at Birmingham an address on Popular Culture. This is and must continue to be a subject of importance in a democratic age, and the ideas of Mr. Morley are sure to be worthy of our consideration.

* * *

Mr. Morley does not define Culture. It is indeed a many sided thing, and he deals only with Mental Culture or Education. He has a good word to say for French. France, he says, has a long list of authors who have produced a literature whose chief mark is its agreeableness.

He has more to say on the study of History, and notes with regret that it is in the Institute an unpopular subject, and ascribes

THIS UNPOPULARITY

to the way in which it is taught. "You know," says he, "what the great Duke of Marlborough said—that he had learnt all the history he ever knew out of Shakspere's historical plays. I have long thought that if we persuaded those classes who have to fight their owe little battles of Blenheim for bread every day, to make such a beginning of history as is furnished by Shakspere's plays and Scott's novels, we should have done more to imbue them with a real interest in the past of mankind than if we had taken them through a course of Hume and Smollet or Hallam on the British Constitution, or even the dagging Maucauley." Mr. Morley would begin the study of English history with a bird's-eye view of its whole course, wherein should stand out distinctly its main turning points,"—the Tuetonic beginnings, the Conquest, the Great Charter, the Hundred Years War, the Reformation, the Civil Wars and the Revolution." These great events should be filled with a living interest by connection with the careers of the heroes, the Alfreds, the Langtons, the great sailors of the Elisabethan Age, the Pyms, the Hampdens and the Chathams —"to whose sagacity, bravery and unquenchable ardour for justice and order and equal laws all our English-speaking peoples owe a debt that can never be paid."

* * *

WHAT IS THE GOOD OF HISTORY!

Perhaps the reason why so many even intelligent pupils take so little interest in it, is because they cannot answer the questions. Moral earnestness is generally combined with a practical mind. We are not than surprised that Mr. Morley goes to the root of the matter. "It is the present that really interest us; it is the present that we really seek to understand and to explain. I do not in the least want to know what happened in the past, except as it enables me to see my way more clearly through what is happening to-day. I want to know what men thought and did in the thirteenth century, not out of any dilletante or idle antiquarian's curiosity, but because the thirteenth century is at the root of what men think and do in the nineteenth."

The two things best worth attending to in history are, he adds, "not party intrigues nor battles nor dynastic affairs, nor even many acts of parliament, but the great movements of the economic forces of society on the one hand, and on the other the forms of religious opinion and ecclesiastical organization. All the rest are important, but their importance is subsidiary."

When Mr. Morley was on a visit to the United States, he noted that the history classes in the common schools all began their work with the year 1776, when the American Colonies formed themselves into an independent confederacy. "The teaching assumed that the creation of the universe occurred about that date.

"What could be more absurd, more narrow and more misleading as to the whole purport and significance of history? As if the laws, the representative institutions, the religious uses, the scientific methods,

THE MORAL IDEAS,

which give to an American citizen his character and mental habits and social surroundings, had not all their roots in the deeds and thoughts of wise and brave men, who lived in centuries which are, of course, just as much the inheritance of the vast Continent of the West as they are of the little island from whence its first colonizers sailed forth."

The greatest lesson of history is the fact of its oneness. "We are learning," says Mr. Freeman, in his Unity of History," that European history from its first glimmerings to our own day, is one unbroken drama, no part of which can be rightly understood without reference to the other parts which come before and after it."

* * *

We will conclude this part of Mr. Morley's Address with the following passage of splendid prose: "The shortest course of universal history will let the student see how he owes to the Greek civilization, on the shores of the Mediterranean two thousand years back, a debt extending from the architectural forms of this very Town Hall to some of the most systematic operations of his own mind; will let him see the Forum of Rome, its roads and its gates—

What conflux issuing forth or entering in,
Prætors, pr. consuls to their provinces
Hasting or on return, in robes of state,

all busy welding an empire together in a marvellous framework of citizenship, manners and laws, that laid assured foundations for a still higher civilization that was to come after. He will learn how when the Roman Empire declined; then at Damascus and Bagdad and Seville, the Mahometan took up the torch of science and learning and handed it on to Western Europe when the new generations were ready. He will learn how in the meantime, during ages which we both

WRONGFULLY AND UNGRATEFULLY

call dark, from Rome again, that other great organization, the mediæval church, had arisen, which amid many imperfections and some crimes did a work that no glory of physical science can equal, and no instrument of physical science can compass, in purifying men's appetites, in setting discipline and direction on their lives, and in offering to humanity new types of moral obligation and fairer ideals of saintly perfection, whose light still shines like a star to guide our own poor voyages. It is only by this contemplation of the life of our race as a whole that men see the beginnings and the ends of things; learn not to be near sighted in history, but to look before and after; see their own part and lot in the rising up and going down of empires and faiths since recorded time began; and what I am contending for is that even if you can take young men and women no further than the vestibule of this ancient and ever venerable temple of marvels, you will have opened to them the way to a kind of knowledge that not only enlightens the understanding, but enriches the character, and makes it constantly alive with the spirit of beneficence."

(To be continued.)

HAPPINESS.

After Years of Torture.

A Wonder in Shiloh.

Paine's Celery Compound, Life-saving, Life-giving and Victorious.

Does Paine's Celery Compound cure rheumatism? Ten thousand voices in Canada, in clear and trumpet-like tones, answer, "Yes, it cures every time!"

Mr. J. Beechinor, of Shiloh, Ont., after years of suffering and many a failure with doctors and patent medicines, has just been cured by Paine's Celery Compound. His story is brief and to the point; he says:

"For five years I suffered from sciatica and rheumatism, at times being so bad that I could not walk or put my hand to my mouth. If I attempted to do any work I would be crippled for weeks. I took medical treatment, patent medicines, Turkish and mineral baths, but all failed to meet my case. Sometime ago I tried Paine's Celery Compound, and after using six bottles I feel like a new man, and can do a hard day's work and feel none the worse for it. I have also gained in weight, and can say I am permanently cured."

Are you, suffering reader, willing to make use of Paine's Celery Compound, after this strong statement of Mr. Beechinor? If this marvellous cure is not sufficent to implant faith in your soul, we fear you will never be cured.

If in addition to Mr. Beechinor's strong letter, we tell you that Paine's Celery Compound is a guaranteed cure, will you then have the necessary faith to enable you to give the medicine an honest trial? It has cured hundreds of cases worse than yours; it will truly and surely meet your case.

DECREASE IN LITIGATION.

Whatever the Cause it Seems to be General over the Province.

Judge M[illegible] Toronto, says he never found litigation so dull. He does not ascribe this happy state of affairs, however, to any general desire to cultivate the acquaintance of the white-winged angel of peace, but says it is due to the poverty of the people who are not in a position to indulge extensively in costly luxuries. Whatever the cause, the people are showing their good sense. Those who go to law, as a rule, financially lose and mentally worry a few years off the end of their lives. The falling off in the law court business is general all over the province, and it will soon become a problem what to do with our surplus lawyers. In the large cities there are already hundreds of them not making office rent.

LITTLE BRAVES!

Old time a quarter-a-box "Purgers" are quitting the field in whole battalions.

Dr. Agnew's Liver Pills at 10c. a vial are driving them out at all points.

Because they act gently, more effectively, never pain, and are easy to take.

Sick Headache succumbs to one dose. Chronic Constipation dispelled with one vial and Stomach Disorders of years' standing absolutely cured. 40 doses, 10c, at all druggists. Sold by H. S. McDonald.

Constipation Cured.

Gents,—I was in very poor health for over four years; the doctor said it was constipation. Not wanting to spend too much cash I got three bottles of B.B.B. and took it regularly, I can certify that I am now in the very best of health and feel very grateful to B.B.B.

ALFRED TREMBLAY, Montreal, Que.

PRENTISS ESCAPES.

He Will Not Have to Die on the Gallows.

BUT PENAL SERVITUDE FOR LIFE

Will be the Punishment Inflicted for the Killing of Farmer Lingard - Dairying in the Maritime Provinces—Oarsmen Want Fish Protected in the St. Lawrence

Ottawa, Nov. 15.—The Governor-in-council has had under consideration the case of the man Arthur Prentiss, who was sentenced to death at Cobourg for the murder of Thomas Lingard. It has been decided to commute the sentence on Prentiss to penal servitude for life. The grounds taken for commuting the sentence are that Prentiss is only a young man, 18 years of age, that there was no premeditation to murder, and that the act was that of a headstrong and obdurate youth. The prisoner and Lingard had a quarrel over rabbits shot by Prentiss on Lingard's ground. Prentiss would not give up the rabbits to Lingard, who was a very much stronger man than himself, and rather than yield to the latter he fired at Lingard with his gun and killed him. The whole trouble did not last more than half an hour or so, and, therefore, there was no premeditation. Mr. Osler, Q. C., had several interviews with the Minister of Justice in regard to Prentiss, the jury having presented a recommendation of mercy to the trial judge, who forwarded the same with his report on the case to Ottawa. Mr. Osler pressed for a new trial or commutation. The latter has now been granted. The order-in-council was signed by the Deputy Governor yesterday and the sheriff of the county advised of the commutation.

Mr. C. E. Britton of Gananoque, a gentleman who took great interest in bringing about the international reservation of the waters of the St. Lawrence between Prescott and St. Vincent, was in the city yesterday and had an interview with Hon. Mr. Davies on the subject of the prohibition of netting in that portion of the St. Lawrence between Prescott and Kingston. He presented a petition from a number of Canadian oarsmen asking that the use of nets be wholly prohibited. The petition pointed out that there was danger of losing the summer visitors' business consequent upon the depletion of fish, if netting were allowed to continue. Mr. Britton, speaking to your correspondent, stated that the understanding reached with the American Anglers' Association of the St. Lawrence for uniform regulations in this portion of the great waterway had worked splendidly. The Americans had adopted every means possible to keep their part of the bargain. For a great portion of the season of open water they had had a steam launch traveling about continuously with a drag attached, so that nets could be destroyed wherever found. Under the United States law also it was competent for any person to destroy a net found in the water. On the Canadian side of the river, however, nets were still being used, with the prospective result, in Mr. Britton's opinion, of great injury being done to the summer tourist business unless measures were taken to preserve the fisheries. The oarsmen and residents, except a few fishermen, who evidently cannot see that they are standing in their own light, were very anxious that an energetic inspector should be appointed, who would take care that the nanery laws were obeyed.

The efforts put forward by the Dominion Government, under the direction of Prof. Robertson, for the promotion of winter dairying are beginning to bear fruit and the farmers of this section, not willing to be behind the times, are commencing to take an interest in this branch of the dairy industry. Prof. Robertson has been invited to address a meeting of farmers and dairymen at Alexandria on Wednesday, when the question of the establishment of a winter creamery at Alexandria station will be discussed. Mr. D. M. Macpherson, M. L. A., who is generally known as the "Cheese King," is energetically seconding Prof. Robertson, and through his instrumentality twelve creameries will be opened this winter, chiefly in the Counties of Glengarry and Huntingdon. In every case a cold storage apartment will be connected with the factories. The output, it is expected, will equal a carload per week. One of the creameries, at Maxville, on the C. A. Railway, will begin operations at once.

A number of complaints have been received at the Fishery Department that the owners of gill net licenses on Lake Erie are now using tugs, with which they can follow the schools of fish. The pound net fishermen say that in this way their nets are being destroyed.

The Behring Sea Claims Commission commences its sittings at Victoria tomorrow. The department was advised that Mr. Justice King of the Supreme Court of Canada, the British commissioner, and Judge Putnam of Maine, the United States commissioner, have arrived at Victoria, together with Hon. F. Peters, Q. C., Premier of Prince Edward Island, and Mr. F. L. Beique, Q. C., of Montreal, the Canadian counsel, and Mr. R. N. Venning of the Marine and Fisheries Department. Mr. E. V. Bodwell of Victoria has been appointed agent and junior counsel for Canada, and Sir Charles H. Tupper and Mr. A. L. Belyea have been retained as counsel for the sealers. Gen. Don M. Dickinson of Michigan, once Postmaster-General under President Cleveland, and Mr. Robert Lansing of New York will be the counsel for the United States.

According to a report received from Customs Collector Milne at Victoria, the sealing captains are agreed that seal hunting on the Asiatic side during the past few seasons has been a miserable failure, the catch in no wise meeting the additional cost entailed in fitting out the vessels and equipping them for work on the other side of the Pacific. The extra expenditure includes the cost of provisions for two months at least for large crews during what is generally a long and stormy voyage across the Pacific. The number which will fit out for the Japan coast, therefore, during the next few weeks will be considerably smaller than in past years. An American schooner in the late winter or early spring of this year commenced operations off the coast of Southern California, and it is not unlikely that many of the British Columbia sealers will try these waters during the coming season.

The Railways and Canals Department has received a report from Superintendent Boyd of the amount of business done by the Soo Canal up to the end of October. Four thousand three hundred and seventy-one vessels have passed through since the opening of navigation, with a tonnage of 4,137,117 tons, and carrying 4,277,457 tons of freight. Navigation will go ahead, as far as the Canadian Soo is concerned, up to 24 hours of the forming of ice.

Notice appears in The Canada Gazette of an application for the incorporation of the Crow's Nest Pass Railway Company, for the purpose of constructing a road from Lethbridge, in Alberta, through the pass in the Rocky Mountains to Rossland.

A new railway enterprise is the Minden and Northwestern Railway Company, which will ask from Parliament power to build a road from Irondale Junction in Haliburton to Minden, thence northerly and westerly through Anson and Linford Townships and southerly part of Muskoka.

The Anchor Wire Fence Company of Canada is seeking incorporation to manufacture fences and gates, etc. The promoters are Stratford people. Brantford will be the headquarters and the authorized capital $90,000.

The appeal of the Church of England Extension Association for exemption from taxation of the school on McLaren-street, conducted by the Kilburn Sisters, has been granted by the Court of Revision. It was shown that the school was an incorporated seminary of learning.

The Dominion Paving and Contracting Company has been incorporated by letters patent. D. L. VanVlack, R. Sykes, C. A. Master, J. Kilgour and F. Roper of Toronto are the incorporators.

The business and interest of the well-known Ottawa lumber firm of Buell, Hurdman & Co. have been taken over by the Hull Lumber Company, a new concern.

Constable Fagan, employed by the Canada Atlantic Railway at their new central station, was caught last night in the act of robbing the till in the ticket office, and to-night he is behind bars in the police station.

The Government cruiser Petrel has blown up the wrecked schooner Little Mississauckon, which lay in Lake Erie in about 13 fathoms of water, 25 miles east of Point Pelee light, and was a danger to navigation.

Bourish postoffice, North Middlesex, has been re-opened.

A postoffice has been opened at Fern Bank, North Perth.

The revenue for October totalled $3,305,52[illegible] as against $3,177,401 for the same month last year. The expenditure amounted to $2,500,224, as against $2,469 115.

Dr. Borden and family have arrived from Nova Scotia. The Minister has taken a furnished house for the winter.

Lost $10,000.

New York, Nov. 14.—Isaac Howland, cashier of the National Exchange Bank, while on his way to the Chemical National Bank, lost two $10,000 United States currency certificates which he intended to deposit in the latter institution. However, the notes are not negotiable excepting by a member of the Clearing House. Up to to-night they have not been recovered.

Apple Evaporator Burned.

Napanee, Ont., Nov. 15.—About 4 o'clock this morning the apple evaporator of T. A. Harrison was discovered to be on fire, and before the flames could be checked the plant and stock were completely destroyed. About one thousand dollars' worth of apples were destroyed, which was fully insured. The machinery was valued at about $1500, and was partially insured. Insurance on building, not known; loss on building, about $800.

For stomach and liver trouble use Madill's Stomach and Liver Pill; few doses will relieve.

NATIONAL SCHOOLS

The Terms of the Agreement With Manitoba

AS REPORTED FROM THE CAPITAL

Uniformity Must be Observed in the Text Books - Provincial Government Will Have Control and Teachers Must be Properly Qualified—Mr. Sifton to be Sworn In.

Ottawa, Nov. 15.—(Special.)—Mr. Sifton will be here to-morrow, but his stay in Ottawa will be brief. He will be immediately sworn in as Minister of the Interior and at once return to Manitoba to seek election. Nomination in Brandon is fixed for Friday, Nov. 27, and polling for Dec. 4.

One of the Ministers informed me yesterday that documents showing the exact nature of the compromise will not be published until Wednesday or Thursday of this week, but public interest in them has been largely discounted. To-night I am in a position to give a fuller synopsis of them than heretofore made public.

All the schools in the province are to be under the control of the Education Department, existing regulations to apply to schools in Catholic equally as in Protestant districts, and provincial inspectors to have complete jurisdiction. Uniform text books must be used, and teachers must be properly qualified, being compelled to take the prescribed normal school course and pass the usual examinations. All school work is to be of a purely secular character, and to occupy the whole of the school day with the exception of the last half hour, when a minister of any religious denomination may visit the school to instruct the children of parents belonging to his religious denomination, provided the parents are willing. In cases where a parent objects to such religious instruction, regular school work is to continue until the close of the school day. In districts having an average attendance of 25 Roman Catholic children the teacher is to be a Roman Catholic, but fully qualified according to the requirements of the Education Department, while in districts where children speak French wholly they are to have a teacher speaking both French and English, so that they may learn English as rapidly as possible. The readers to be used in such schools must be bilingual, that is, the selections are to be printed in both languages, as now is the case with the readers used in the French districts of Eastern Ontario, so that children will grow up from the first accustomed to the English language. The principles involved in the settlement will be incorporated into the Provincial Education Act, but no Dominion legislation will be necessary.

ITALY LOSES THE GAME.

A Treaty of Peace Signed by Which the Dusky King of Abyssinia is Clearly on Top.

Rome, Nov. 15.—It is officially stated that King Humbert has received a telegram from Menelek, Emperor of Abyssinia, stating that a treaty of peace between Abyssinia and Italy was signed on Oct. 26. The new convention abrogates the Uccialli treaty, by the terms of which Italy claimed a protectorate over Abyssinia, and recognises the complete independence of Ethiopia. Menelk declares free all Italians taken prisoners by the Abyssinians during the recent campaign, but Italy will have to indemnify him for their support while in captivity. Maj. Nerazzi, the special envoy sent to Menelek by Gen. Baldissera, Governor of Erythrea and commander-in-chief of the Italian forces in that colony, signed the treaty on behalf of Italy.

IMPOSTOR AND PERJURER.

That is What Tynan Calls Jones, the Spy—What Lyman Knows.

New York, Nov. 14.—Tynan to-day unhesitatingly denounced Spy Jones as an impostor and perjurer. "He is an agent of the British Government," he continued, "and the object of his testimony is to incriminate Ivory. Secretary McLaughlin of the Alliance, who is editor of The Irish Republic, referred to in the informer's testimony, says that Jones frequently sent him articles that were so violent that he dared not publish them. He denied that Jones was a delegate to the convention held in Chicago, at which the Irish National Alliance was organized.

Mr. Lyman, President of the Irish National Alliance, declared that England is employing spies and was acting now as she always has done. "I have got positive evidence," he continued, "that within the last three months England has sent spies to sketch every fort in this country, and that she has been laying short cables along the lakes connecting this country with Canada. They are laid in such a position that they can be picked up and utilized at a moment's notice. I can tell exactly where the cables have been laid," he concluded, "and have got a map of the locality, which I can produce at any time."

ATTACKED IN A PIG STY.

Aged Farmer Lacerated by the Teeth of a Savage Sow.

Lyons, N.Y., Nov. 15.—Adam Degraf, an aged farmer, residing three miles west of Ontario Corners, this morning entered a pig sty in which there was a sow with a litter of 11 pigs, for the purpose of feeding them. A few minutes later the hired man, who was in the barn near by, was startled by agonized cries proceeding from the sty. He found Degraf in a corner, while the sow was savagely tearing the flesh from his left hand and forearm.

The hired man seized a large stick and drove the animal away. He then carried the old man, who was unconscious, into the house. Dr. William Carr found that the flesh had been torn from the left leg in several places, and that the left hand and forearm had been deeply lacerated by the sharp teeth of the animal. It is supposed that the old man fell on the slippery floor. His recovery is extremely doubtful.

A Starving Crew Relieved.

New York, Nov. 14.—The steamer Deutschland arrived from Hamburg to-night, and Capt. Schierhorst reports that on Thursday, Nov. 5, at 11 a.m., he fell in with the French fishing barque Massagne, from Fecamp, displaying signals of distress. The sailors on board the barque said that they had been without food for seven days. The boat was supplied with food and the steamer proceeded on her voyage.

Mothers

Anxiously watch declining health of their daughters. So many are cut off by consumption in early years that there is real cause for anxiety. In the early stages, when not beyond the reach of medicine, Hood's Sarsaparilla will restore the quality and quantity of the blood and thus give good health. Read the following letter:

"It is but just to write about my daughter Cora, aged 19. She was completely run down, declining, had that tired feeling, and friends said she would not live over three months. She had a bad

Cough

and nothing seemed to do her any good. I happened to read about Hood's Sarsaparilla and had her give it a trial. From the very first dose she began to get better. After taking a few bottles she was completely cured and her health has been the best ever since." MRS. ADDIE PECK, 12 Railroad Place, Amsterdam, N. Y.

"I will say that my mother has not stated my case in as strong words as I would have done. Hood's Sarsaparilla has truly cured me and I am now well." CORA PECK, Amsterdam, N. Y.

Be sure to get Hood's, because

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are purely vegetable, reliable and beneficial. 25c.

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month, $2.00 for six months.

Daily Examiner.

MONDAY, NOVEMBER 16, 1896.

EDITORIAL NOTES.

It should not be considered—when punishment comes to be inflicted—a graver offence to steal a loaf of bread than a city bond.

MR. GEORGE HAGUE, of the Merchants' Bank, expresses the opinion that the alliance between the two great parties in the United States at the recent elections will prove the death knell of the high tariff in that country.

RECENT events, the Hamilton Spectator remarks, ought to convince small boys of the folly and wickedness of petty theft. Steal not small things, boys, for you will go to gaol for years. Grow up, become a municipal treasurer, steal thousands, and you will be respected and admired by the entire community.

IT appears that, in view of a real Duke visiting Toronto next year to inaugurate that gigantic civic elephant, the City Hall, a campaign to elect a "society" mayor is to be waged. It is characteristic of the porcine city's enterprise that an effort should be made to select a mayor who would not incur the risk of enlarging his mouth with a knife while dining the ducal guest.

THE voting machines used in certain parts of the United States at the recent Presidential election seem to have worked very satisfactorily. The principle of the machine is the knob, or push button, which is inscribed with the name of the candidate. It is obvious that a great deal of saving of time must be effected by this "machine voting," though in one case a voter got locked in the machine and it took half an hour to get him out. But this was the fault of the carpenter.

JUSTICE is administered in Guelph in a very peculiar manner. The Herald points out that while Edmund Harvey, the city treasurer, who stole $11,000, received three months' imprisonment, other lesser offenders were by no means treated as leniently. It mentions the following cases:

William Macdonald, theft of a fur cape, November, 1896, 1 year and 9 months, Central Prison.

Edmund Ellis, stealing raisins from a G.T.R. car, one year in Central Prison, 1893.

William Chambers, 12 months in Central Prison, assault, October, 1894.

William Gray, stealing mouth organ, 5 years, April, 1894.

YOUNG'S POINT.

(From Our Own Correspondent.)

The English church held a tea and social in Mr. Hurd's hall on Wednesday evening, the 11th inst. The Rev. Mr. Hartley was chairman of the evening, and conducted everything in a very satisfactory manner, The following is the programme which was well rendered by those who took part:

Song, "Just tell them that you saw me"...Miss Lillie McFarlane
Duet, violin and organ, Scottish airs.....Miss Jennie Kearney and Mrs W Brock.
Recitation, "Death Doomed".....Miss Nellie Young
Song.....Miss Eva Hockaday
Duet, "Larboard Watch".....Miss Maggie Kearney and Mr W Walters
Recitation, "The Widow".....Mr Andrews
Song, "Afterwards".....Mr W Walters
Chorus.....Band of Hope
Reading, "Pat's Letter".....Mr Armstrong
Dialogue.....Miss Laura Gordon and Miss Lizzie Hatton
Song, "My Beautiful Irish Maid".....Miss Bee Phelan
Reading, "Over the Hills to the Poor House"...Mr Armstrong
Song, "Where is Kathleen".....Miss Lillie McFarlane
Song and dance.....Mr Harry Kearney
Song, "she May Have Seen Better Days"...Miss Bee Phelan
Dialogue, "A Slight Misunderstanding"...Miss Nellie Young and Mr. H Andrews

The entertainment wound up by the Rev. Mr. Hartley, thanking those who kindly took part, and by singing "God Save the Queen."

There is a tea and entertainment to be held at Haultain on Thanksgiving eve, the 26th inst.

A number of our hunters have returned and report good luck.

Our neighborhood was visited by a snow storm on Friday.

Mr. C. Young is suffering from a severe cold. We hope he will soon recover.

ANXIETY AT HAVANA.

No News From Weyler's Expedition Which Started Out to Surround Maceo's Forces.

Havana, Nov. 14.—As the days pass and bring no news from the Spanish forces in the Province of Pinar del Rio the anxiety here grows deeper, and many rumors are circulated. The situation of General Weyler is unknown, and no receipt concerning his movements leads many persons to believe he is waiting for a decisive engagement with the rebels before he will allow any information to leak out.

Col. Lara reports having had an encounter with a party of rebels near Calabazar, Province of Santa Clara. He says the insurgents were rounted with a loss of 21 killed. The losses of the troops were three killed and eight wounded.

Serafin Sanches, the rebel leader, attacked the town of Condaro, 12 miles from Trinidad. Insurgents fired eight cannon shots but did not damage. Finding it impossible to capture the town, the rebels set fire to a number of houses on the outskirts and cut the telegraph wires, after which they retired.

James Brown, a British subject, was expelled from the island for talking against Spain in the streets of Havana.

LONDON ABDUCTION CASE

Mrs. Lena Stevenson Was Anxious to Secure Her Sister's Child.

London, Ont., Nov. 13.—The charge of abduction preferred by Mrs. Martha Currell, the wife of a Richmond-street restaurateur, against Mrs. Lena Stevenson, the wife of Robert Stevenson, a Glencoe harnessmaker, came up before the Police Magistrate to-day and was postponed till Wednesday next. The abduction yesterday was the outcome of repeated efforts on the part of Mrs. Stevenson to obtain possession of Rena Coral, the little 4-year-old daughter of her sister, a widow, now living in Utica, N.Y. The child was legally adopted by Mrs. Carroll in February last. The mother of the child is now a resident of Utica, N.Y., where she keeps a laundry, and for years lived with Mrs. Carroll.

COMMERCIAL TRAVELERS.

Quarterly Meeting of the Dominion Association in Montreal on Saturday.

Montreal, Nov. 15.—(Special.)—The quarterly meeting of the Dominion Commercial Travelers' Association took place last evening, Colonel Massey presiding, when nominations were made. Max Murdoch retired, and ex-Ald. Rolland, the second French-Canadian in twenty years, was elected unanimously to the presidency. James Armstrong, Wm. Kissock and Newton Tucker were nominated for vice-president, while the following eleven, five of whom are to be chosen, were nominated for directors: A. H. Brown, McClary Mfg. Co.; J. Edgar Buchanan, S. Greenshields, Sons & Co.; J. Croil, Thibaudeau Bros. & Co.; H. Dean, John. T. Dwyer, Carrier, Laine & Co.; J. S. N. Dougall, Cassils, Dougall & Co.; R. H. Holland, Baward & Holland; W. D. McLaren, jr., The Cooks Friend; W. B. Matthews, Scott Bros. Co.; E. Wright, Doull & Gibson; and John Taylor. F. Birks was re-elected treasurer. The annual meeting will be held on Dec. 19, and the annual dinner takes place on Dec. 22. The D.C.T.A. has 2200 English and 220 French-speaking members.

DEATH OF JUDGE BURNHAM.

The Last of the Original Appointees to Ontario County Passes Away.

Whitby, Ont., Nov. 15.—Judge Burnham died here at 6 o'clock to-night, aged 79. He was the last one of the original appointees to the County offices in Ontario County.

Japan Reaching Out for Trade.

London, Nov. 13.—The Times will to-morrow publish a despatch from Odessa, saying that Japan has long been sending agents to different parts of European Russia to establish trade relations with Japan. Arrangements are now being made for the establishment of a direct line of steamers between Japan and the Black Sea.

TORONTO MARKETS.

Flour—The market is firm, with sales at equal to $4.40, Montreal, for straight rollers, and Manitoba patents at $4.75 to $5.

Bran—Trade quiet and prices steady; dealers asking $7.50 west. Shorts, $9 to $9.50 west.

Wheat—The market is quiet, with Ontario grades very firm on limited offerings. Red sold outside at 86c, and white is quoted at 87c. No. 1 Manitoba hard sold at 94c, and No. 1 Northern at 93c, Toronto freights.

Buckwheat—The market is dull, and the price nominal at 30c west.

Barley—Trade quiet, with No. 1 quoted at 36c to 38c, No. 2 at 31c and No. 3 extra 27c outside.

Oats—The market is quiet and prices unchanged. White sold outside at 21c to 21½c, and mixed at 19c to 20c.

Peas—Trade quiet and prices are steady, there being sales outside at 44c.

Rye—Trade quiet, with sales outside at 35c east.

Corn—Market dull, with prices firm at 28c to 29c outside.

Oatmeal—The market is unchanged, with car lots quoted at $3.40 to $3.50.

TORONTO LIVE STOCK MARKET.

The offerings to-day were only moderate, the total being 40 carloads. Prices of cattle are unchanged, with a limited demand for export animals. The high freights act as a check on this business. Sales at 3¼c to 3¾c per lb., according to quality. Choice bulls 3c to 3¼c. There were few choice butchers' cattle, and they would bring 3c to 3½c per lb.; medium butchers' at 2½c to 2¾c, and inferior at 2c to 2½c. Milch cows unchanged at $25 to $40 each, and calves firm at $3 to $5.50 per head.

Sheep and lambs in moderate supply and firm. Export sheep sold at 3c per lb., and bucks at 2¼c to 2½c. Lambs are steady, there being sales at 3c to 3½c per lb.

Hogs in moderate demand and steady. The best sold at 3¾c per lb., weighed off cars, thick fats at 3¾c to 3½c, light weights at 3¾c, sows at 2¾c to 3c and stags at 2c per lb.

BRITISH MARKETS.

Liverpool, Nov. 13.—Spring wheat, 7s 3d to 7s 4d; No. 1 Cal., 7s 7d to 7s 9d; corn, 3s 2¾d; peas, 4s 10½d; pork, 56s; lard, 28s 0d; bacon, l.c., heavy, 30s 6d; do., light, 29s 6d; do., s.c., heavy, 24s 6d; tallow, 20s 0d; cheese, white and colored, 51s.

London—Opening—Wheat off coast and on passage 3d to 6d higher. English country markets 6d dearer. Maize on passage firm.

Liverpool—Spot wheat firm; futures quiet at 7s 1½d for Nov., Dec., Jan., Feb. and March. Maize dull at 3s 3d for Dec. and 3s 2½d for Jan., Feb. and March. Flour, 24s 3d.

Paris—Wheat, 22f 30c for Dec.; flour, 47f 50c for Dec.

Liverpool—Close—Wheat 3d higher at 7s 3d for Nov., Dec., Jan. and Feb. and 7s 2½d for March. Maize ¾d firmer at 3s 3½d for Dec. and 3s 2½d for Jan., Feb. and March. Flour, 25s 3d.

London—Close—Wheat on passage good, buying at the advance. Maize on passage firm.

Paris—Close—Wheat, 22f 30c for Dec.; flour strong at 48f 25c for Dec.

MR. LEGATE, Traveller for McCormack & Co., London, says: "Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill druggist.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

A PERFIDIOUS WOMAN.

Because of Her Infidelity Her Husband Tried to Burn Himself and Child to Death.

Trafton, Wash., Nov. 13.—John Fock, a wealthy farmer, whose mind was wrecked by the discovery of his wife's infidelity, chopped up all his furniture yesterday, locked himself and his youngest child in the house and set fire to the pile. Neighbors discovered the fire and rescued Fock after a desperate struggle, but the child perished. The erring wife fled with her lover, taking the two remaining children.

SENSATION AMONG IRISHMEN.

The Spy Who Testified in London is Well Known in New York.

New York, Nov. 13.—The story of the Irish spy, as told in to-day's London despatches of the United Associated Presses, created a sensation in Hibernian circles here. At the headquarters of many of the societies Irishmen gathered this evening to discuss the new informer, which they did in no calm language. He was roundly denounced, some of the most excitable intimating that the career of the latest English tool would be a short one. From cabled description of the spy he was easily recognized here by former associates. He was known as T. Merrick Jones. That may or may not be his real name, but Irishmen here declare they never had any reason to suspect that the fellow was masquerading.

IN THE DARK VALLEY.

"Dodd's Kidney Pills have Saved My Life"—This is said by Thousands—Prevention the Safest.

"In the valley and shadow of death"—"Given up to die." There are many thousands of such living in Canada to-day who say, "Dodd's Kidney Pills have saved my life."

No matter to what stage the disease may have come, do not despair. The triumphs of Dodd's Kidney Pills have been won in exactly such fights for life.

People make mistakes and jump to wrong conclusions; doctors themselves don't always know. It is much safer to take Dodd's Kidney Pills than to take chances. Of course these grave cases have simple beginnings, and that is the time that a single box prevents—which is better than curing.

MR. G.R. BLOUNT, Methodist minister, Dresden, Ont., says: "After a prolonged attack of La Grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill, druggist.

Those Wrinkled . . . . . Sleeves

with the butterfly tops, are wonderfully stylish and pretty, and they need

Fibre Chamois

to give them the proper graceful finish, just as much as the old leg o'mutton sleeves did. It is so pliable and soft that it suits the daintiest fabrics, and the graceful stiffness it gives lasts through everything. Use it for all puffs, bows or other trimmings—it can't be excelled.

Some Interesting Details.

B BB

The B. B. B. Pipes now in use would form a chain long enough to go around the great Ferris Wheel, which was at the World's Fair, 200 times.

Each B. B. B. Pipe in course of manufacture passes through 40 hands.

The total quantity of Tobacco used in B. B. B. Pipes since their introduction amounts to 3000 tons, assuming that each Pipe sold uses 1 oz. Tobacco per week, and that each Pipe has been used one month.

The B. B. B. Pipes now made if placed one on top of another would reach 1000 times to the top of Notre Dame Cathedral, Montreal, and if stood upon their stems would reach the summit of a mountain 44 times as high as Mount Everest.

Call and examine my new assortment of B. B. B. Pipes which arrived per steamer "Queensmore," direct from the manufacturers in London, England, yesterday. The stock cannot be equalled in Canada and the assortment of Smokers' sundries will dazzle the eyes of some of our smaller dealers.

There is only one Tobacconist here who handles Cigars, Tobaccos and Pipes direct from the English and Havana makers, and that is

A Separate Cure for Each Disease AT ALL DRUGGISTS—25c. A BOTTLE.

SPAIN IS AROUSED.

An Outburst of Enthusiasm Which Will Be of Great Benefit to the Government.

London, Nov. 15.—The Daily News will to-morrow print a despatch from Paris detailing a patriotic outburst in Spain which is manifesting itself in an eager desire to subscribe to the new internal loan issued by the Government. Ladies are selling their jewelry in order to raise money to help the Government, while the bishops are promising to devote the gold and silver plate belonging to the churches to the same object. Bankers in Madrid have undertaken to dispose of scrip to the amount of 4,000,000 pounds sterling. So great is the popular desire to take part of the loan that the Bank of Spain and the Bank of Barcelona were opened to-day in order to receive subscriptions.

Enthusiasm at Madrid.

Madrid, Nov. 15.—The newspapers unanimously express the opinion that the loan will result in an imposing demonstration of national enthusiasm, and that all classes will co-operate to cover the amount of the loan, which is nominally 250,000,000 pesetas. The bonds will be guaranteed by the customs revenue. The loan will be offered to-morrow. The Bank of Spain received to-day from bankers and companies in Madrid subscriptions amounting to 150,000,000 pesetas; in Barcelona 50,000,000 pesetas; in Bilbon 20,000,000 pesetas, and in other places 30,000,000 pesetas, a total of 250,000,000 pesetas.

SIGNS OF A WRECK.

Parts of a Lumber Barge Washed Ashore at Port Colborne—No Signs of the Crew.

Port Colborne, Ont., Nov. 15.—At 8 o'clock this morning Capt. DeWitt Carter of the Wrecking and Salvage firm of Carter Bros. reported a large quantity of wreckage coming ashore above Sugar Loaf, two miles west of here. Part of the bow and stern of what appears to have been a lumber barge, bearing the name of H. S. Wallbridge, has come ashore, and with the present wind other remnants will likely come in before morning. Capt. Carter followed the beach for over a mile, but saw no signs of any bodies, and the fate of the barge's crew can only be guessed at. She is believed to have been a tow-barge, and probably got away during last week's storm.

NEW THING IN ENGINE BUILDING.

A Minnesota Man Proposes to Do Away With the Crank Motion.

Chicago, Nov. 15.—A special from St. Paul, Minn., says: A small rotary engine of novel design has been invented by Grant Brambel of Sleepy Eye, Minn., for the patent of which H. F. Allen of London, President of an engineering syndicate, has offered him $1,000,000. The engine does away entirely with the crank motion of the steam engine, a most desirable, but to all intents and purposes, an impossible thing to do. The engine uses its own plunger for a cut off. The engine is steam tight and requires no ring packing. It can be made marine type, and, of course, can be either simple or compound.

BURNED HERSELF FATALLY.

Mrs. Lunn Drank Coal Oil, Poured It on Her Clothes and Ignited It.

Cobourg, Ont., Nov. 14.—This morning Mrs. R. Lunn, after drinking a cup of coal oil, saturated her clothing with the same fluid and then set fire to herself. Before assistance could reach her she was terribly burned about the head and chest. At 10 o'clock tonight death relieved her of her sufferings. Mrs. Lunn was the wife of Mr. R. Lunn, a respectable citizen who conducts a laundry business here. Much sympathy is expressed for Mr. Lunn, who has been particularly unfortunate during the last few months, having lost one of his feet through accident.

Nova Scotia Schooner Lost.

New York, Nov. 15.—Among the passengers arriving this morning per Ward Line steamer Santiago from Nassau were Captain Michelson and six of the crew of the schooner Bessie E. Crane of Parrsboro, N.S., which was wrecked on Ragged Islands, Bahamas, on Nov. 2. The schooner was bound from Mayagues, Porto Rico, for Ragged Island in ballast. She left Mayagues on Oct. 28 and went ashore on Ragged Island at 1.40 on the morning of Nov. 12. All hands stood by the vessel until low water, when it was found possible to wade ashore. The schooner was a total wreck. She was built in Parrsboro, N.S., 11 years ago, was of 184 tons net register, and was owned by Smith & Gregory of New York. Captain Michelson could not say whether she was insured or not.

TORONTO MARKETS.

Flour—The market is firm, but the volume of business is restricted. Straight rollers are quoted at $4.10 to $4.25.

Bran—Trade quiet and prices steady; dealers asking $7.50 west. Shorts, $9 to $9.50 west.

Wheat—The market is quiet, with Ontario grades very firm on limited offerings. Red sold outside at 87c, and white is quoted at 88c. No. 1 Manitoba hard sold at 94c, and No. 1 Northern at 93c, Toronto freights.

Buckwheat—The market is steady, with sales of 10,000 bushels at 30c west.

Barley—Trade dull, with No. 1 quoted at 35c to 37c, No. 2 at 30c and No. 3 extra 24c outside.

Oats—The market is quiet and prices unchanged. White sold outside at 21c to 21½c, and mixed at 19c to 20c.

Peas—Trade quiet and prices are easier, there being sales outside at 43c to 44c.

Rye—Trade quiet, with sales outside at 35c east.

Corn—Market dull, with prices firm at 28c to 29c outside.

Oatmeal—The market is unchanged, with car lots quoted at $3.40 to $3.50.

BRITISH MARKETS.

Liverpool, Nov. 14.—Spring wheat, 7s 2d to 7s 3d; No. 1 Cal., 7s 7d to 7s 9d; corn, 3s 2⅝d; peas, 4s 10d; pork, 50s; lard, 22s 6d; bacon, l.c., heavy, 30s 6d; do., light, 28s 6d; do., s.c., heavy, 24s 6d; tallow, 20s 6d; cheese, white and colored, 51s.

Liverpool—Close—Spot wheat quiet; futures 1d lower at 7s 1½d for Nov., Dec., Jan. and Feb. and 7s 1⅝d for March. Maize quiet at 3s 2¼d for Nov., 3s 2¾d for Dec. and 3s 2¼d for Jan., Feb. and March. Flour 25s 3d.

Paris—Close—Wheat quiet at 23f for Nov. and Dec.; flour quiet at 40f 25c for Dec.

London—Close—Wheat on passage firm. Maize on passage dull.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c 50c. and $1.00.

HON. GEO. W. ROSS

Pays a Visit to Dr. Adler's School in New York.

THE METHODS OF INSTRUCTION

Investigated by the Ontario Minister—The Head of the Institution Explains the System of Manual Training—How the Capabilities of the Children are Tested.

New York, Nov. 15.—(Special.)—Hon. Geo. W. Ross, Minister of Education for the Province of Ontario, who is on a visit to the United States in search of light upon educational methods, visited the Workingmen's School of the Society for Ethical Culture Thursday, and inspected the system of manual training pursued there. Canada has its problems like the United States. One of them, according to Mr. Ross, is the ever-growing neglect of the farm and the shops by the young. They rush to the office, to the desk and to professional life. They make the cities grow when the farms are deserted. The symptom is not unfamiliar on this side of the lakes. It is with the hope of developing a new interest in the slighted, but vital pursuits, that the plan of introducing manual instruction in the Canadian schools is under consideration, and it was this that brought the Minister to the States. He had visited Boston, and came straight from that city to see Dr. Felix Adler's work. He told the doctor that they hoped in Canada to begin with the youngster at 10 years old.

Dr. Adler shook his head. "It is too late," he said; "better late than never, to be sure, but why not begin earlier? Why not let the faculty develop with the rest, grow like a tree? Don't saw it off. You have kindergartens, and you start the plan there. All kindergartens do. Then let it go right along with the school instruction after the child enters the primary class. It will take no time from the other instruction, only make it easier to digest. It is merely developing the whole boy instead of only one side of him. If you drop the manual training to resume it after four or five years, it is as if you had sawed off the young shoot. It will grow again, but not as straight and symmetrical as if you had not sawed it off."

Mr. Ross nodded thoughtfully. The idea was new to him, evidently, but it had taken root.

With Dr. Adler, Mr. Ross went over the school from top to bottom. The building at 109 West Fifty-Fourth-street was crowded with pupils intent upon their various tasks. The society educates 400 children in round numbers, about three-fourths of them children of workingmen. The other fourth are pay-scholars, who have been admitted within the last few years. Mr. Ross saw, with growing interest, the plan developed by Dr. Adler. In its extreme simplicity it is just what the common school should be, and is not. The kindergarten begins it, and its methods prevail to the very end. The pupils are not stuffed with knowledge they have not learned to digest, leaving their minds as barren as the day they begin, and the real work of *education, that of* teaching the child to think for himself, undone. They will work out their own problems.

They "learn by doing." The things they do train hand and eye, as well as mind. Their geometry lessons, learned on paper, are worked out subsequently in tin, wood, and eventually at the forge in iron. The while the lad acquires a liking, mayhap, for the trade his brother in the next block rejects. At all events, he will not despise it. Their instructors at the bench are practical men, who know how to impart a charm to the lesson which the dry page can never have. Is the question about physics, about natural history? the laboratory is there for the boys to try their hands at it.

Once a week the class put on heavy boots and with their instructor, Mr. Kelly, tramp over hill and dale in search of specimens and of that kinship with nature that puts back into the lad something of what the city, with its tenements and stone pavements, had robbed him to his hurt. The memories of these tramps crowd the portfolios in the drawing rooms, sometimes with a pathetic interest, as in the effort of the child from across the sea, where Indian corn does not grow, to evolve a Jersey cornstalk out of the tangled recollections of his first autumn trip and of the grain sheaves of his childhood.

Moral instruction is imparted on a wholly unsectarian basis. The whole establishment is unsectarian entirely, and on that basis might, with justice, claim state support, but it has never done so. It is supported entirely by voluntary contributions, chiefly from within the society that has grouped itself about the strong personality of its leader, Dr. Adler.

The noon recess had been reached when the Canadian Minister put on his coat and rubbers and went out, thanking Dr. Adler for an hour and a half of most valuable suggestions. He smiled as he saw the children range themselves by couples in the large hall for a dancing lesson, stepping with all the dignity of knights and ladies to the plunk, plunk of a piano. It is their way of keeping recess in the workingman's school, and tremendously popular it is.

"Little men and women," said the Minister, and nodded, laughing, when he saw how little they heeded his presence.

"It is what we hope to make them," said Dr. Adler. "Men and women of character. If we succeed in that we have done what we set out to do and we are content."

Mr. Ross returns to Canada within a few days to put into practice some of the suggestions he has received. This school has received attention from the British Govrnment and from educators in many different lands.

You may eat cheap food and not be seriously hurt by it; but you cannot take cheap medicines without positive injury. If you use any substitute for Ayer's Sarsaparilla, you do so at the peril of your health, perhaps of your life. Insist on having Ayer's, and no other.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Dr. Fowler's Extract of Wild Strawberry cures Diarrhœa, Dysentry, Cramps, Colic, Cholera Morbus, Cholera Infantum, and all looseness of the bowels. Never travel without it. Price 35c.

To destroy worms and expel them from children or adults use Dr. Low's Worm Syrup.

THE DAVIDSON FLYERS.

John Failed to Cut the Amateur Record Made by Harley, and the Latter Established an Unpaced Record.

Hamilton, Nov. 13.—(Special.)—John Davidson, the Canadian amateur wheelman, to-day made three attempts to lower the Canadian amateur record for the half mile, flying start, paced, held by his brother Harley, who last covered the distance on the local track in 52 4-5 seconds. The track was heavy and unfit for fast work. Two trials resulted in 58 seconds, being scored up by the official timekeeper, and in the third trial the young Torontonian got over the distance in 56¼ seconds. The fastest quarter was made in 25 seconds, and had there not been a miss pick-up by the triplet, Davidson would unquestionably have smashed the Canadian record in that trial. Davidson will continue his efforts against the watch to-morrow. As a sort of curtain-raiser to-day Harley Davidson rode a quarter unpaced in 26 seconds, with his ordinary street clothes on. This establishes a Canadian professional record for the distance.

Records were also established by Parkins, Humphrey and Anderson on a triplet for the quarter in 25 seconds and the half mile in 58 seconds. It is expected that Harley Davidson will go for all the professional records to-morrow should the track be in good condition.

RECORD TRIALS AT THE WOODBINE.

If the weather is fine Roy Gordon will go for short-distance records at the Woodbine at 3 pm. to-day. There will also be other record trials.

HOFFSTETTER'S GREAT RIDING.

Saratoga, Nov. 13.—The contestants in the six-day bicycle race continue to pile up the miles with seemingly unabated vigor. The contest is totally devoid of interest, it being apparent that Hoffstetter, the Florida champion, will be the winner. The score: 18th hour—Hoffstetter 368 miles 8 laps, Smith 368 miles, Schock 367 miles, Golden 363 miles 3 laps. Hoffstetter's riding time since Monday night has been 2.53 1-3 per mile.

A SLASHING OF RECORDS.

London, Nov. 13.—At Catford to-day the Chase brothers, riding a tandem bicycle, broke all records for from 35 to 50 miles. They covered the latter distance in 1 hour 38 minutes 14 2-5 seconds.

A MESSAGE TO MEN.

Proving that True Honesty and True Philantrophy Still Exist.

If any man, who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge, the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-being to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind, but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c. silver to cover postage and address, Mr. Geo. G. Strong, North Rockwood, Mich.

Tobacco Heart

Much heart and nerve weakness is caused by undue use of tea, coffee, and tobacco; palpitation, nervousness, irritability, excitability, lack of confidence, etc., are sure symptoms. Milburn's Heart and Nerve Pills bring ready relief, by steadying the nerves and regulating the heart. They are true heart and nerve food.

One Every Night.

One Laxa-Liver Pill taken each night during 30 days will cure Constipation, oft-returning Headaches and irregular action of the bowels. Laxa-Liver Pills leave no unpleasant after-effect.

Has no superior as a remedy for chapped hands or face, or any roughness of the skin.

Recovering from the Shock.

Mr. and Mrs. John Taylor, who were struck by the train in Otonabee on Saturday morning, are both rapidly recovering at the Nicholls' Hospital.

Annual Christmas Opening.

Miss Melville will hold her annual opening display of ladies' fancy goods and beautiful novelties for the Xmas trade on Thursday evening, November 19th. Store open from 7 until 10 o'clock in the evening.

Ended Fatally.

The Frenchman Papua, who fell from a wagon on Tuesday last and had his spine injured by the wheel passing over him, died at St. Joseph's Hospital yesterday morning. His relatives in Warkworth have been communicated with.

A Cathedral Wedding.

At the Cathedral this afternoon a pretty wedding took place, when Ven. Archdeacon Casey performed the marriage ceremony between Mr. Alfred Lefevre, of Wescott street, and Miss Sarah J. Law, daughter of Mr. John Law, 175 Park street. The bridesmaid was Miss Minnie LeGros, and the groom was supported by Mr. Robert Gilman, of Ashburnham.

Tuesday, Thursday and Saturday.

These three days of the week will be red letter days at the Peterborough Bookstore. Santa Claus is coming, bringing with him about ten tons of holiday goods for the Christmas trade at A. H. Stratton & Co.'s and room must be made for them at once. To unload the present stock a series of every-other-day bargain sales has been started, the particulars of which will be interesting reading to the public. See advertisement in this issue.

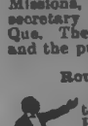
Children's Aid Society.

The canvasser for the sale of tickets for Rev. Dr. Milligan's lecture is now making his rounds. Those who wish to help the Children's Aid work have now an opportunity of doing so. The reverend gentleman gives his services free, and it is hoped that the people of the town will realize how necessary their assistance is to the success of the care of neglected children. Since organization over 100 children have been rescued from suffering and vice and put in the happy way of life.

Baptist Missionary Conference.

On Wednesday evening next, at the Murray street Baptist church, three prominent ministers of the Baptist church, associated officially with the work of missions will be present to hold a mission conference delivering address in connection with the work. They are: Rev. A. P. McDiarmid, M.A., secretary of Foreign Missions; Rev. John P. McEwen, superintendent of Home Missions, and Rev. E. Bosworth, field secretary of the Grand Ligne Mission, Que. The meeting will be an open one, and the public is cordially invited.

Routley's Closing Out Sale.



Crowds are being attracted by the great closing-out sale of C. E. Routley's stock of fancy goods, stationery, crockery, china, lamp goods, trunks, valises, wall paper, etc. This sale is a bona fide one, as the business must be closed up before the 31st December. Mr. Routley also offers for sale his commodious brick residence, No. 416 Stewart street, modern design and equipment in every respect. Furnace, hot and cold water, electric light, bath, etc.; brick driving shed and stable. Also dwelling, No. 274 Hunter street, well situated. Also, buggy, phaeton, cutter, harness, etc.

BLEW OUT THE GAS.

Thomas Barlow Nearly Asphyxiated at the Grand Central.

Thomas Barlow, of Burke's Falls, came down there on Friday to relieve Bert Wallace, local Grand Trunk operator, as the latter was going off on a holiday for a week or so.

Thomas, however, was green—very green, and, on retiring for the night at the Grand Central Hotel, blew out the gas. Consequently it is Thomas Barlow, and not Bert Wallace, who is taking a holiday.

Fortunately Dr. Burnham, of Toronto, came in on the night train, and it was when he was being shown to his room that the strong odor of the gas was noticed. It was quickly traced to its source, and on the door being broken in Barlow was discovered to be in a semi-unconscious condition. He was quickly brought around by the doctor, but he says now that the next time he is given a room with gas in it he will go to bed in the dark, rather than monkey with it.

Barlow acknowledges having blown out the flame and was so giddy from the consequence the next day that he is off on sick leave.

BURGLARS AT WORK.

Mervin's Butcher Shop Entered Saturday Night.

On Sunday morning, between the hour of twelve and daylight, Mr. John Mervin's butcher shop was entered and the till rifled of its contents. The first intimation which was received of the fact was when Mr. James Paterson found half a dozen coppers lying on the steps of the shop. The door was open and he entered and telephoned to the police, who notified the proprietor of the state of affairs.

It happened that there was very little money left in the till and only about two dollars was taken, consisting of a dollar bill torn in two, and some small silver and coppers.

As the front door was found open the supposition is that the burglars possessed a duplicate key, or else picked the lock. Nothing else was disturbed on the premises, but the intruders probably departed in haste, as indicated by the fact of the coppers lying scattered on the floor.

MORE SLAUGHTER OF SHEEP.

Dogs Again Get into Several Flocks in North Monaghan and Otonabee.

The slaughter amongst the sheep in the country still continues and unless immediate steps are taken to institute a regular organized close watch and arrangements made to trap the dogs which have the thirst for blood now so fully developed, the flocks of North Monaghan and Otonabee will be decimated by the spring.

Mr. Bennett and Mr. Armstrong, of Monaghan, have, as stated before, lost their big flocks and still the slaughter continues.

Mr. Bennett had three sheep, which were not killed outright and which he was doctoring up, in his garden, and on Thursday night the dogs actually attacked the sheep again, and though Mr. Bennett heard the noise and ran out with a gun, the dogs were able to kill the sheep in the darkness and get away unscathed. As they escaped, however, from the garden they passed the open doorway of the house, and when crossing the light issuing therefrom, were distinctly seen. There were two of them, a large one of the Newfoundland breed, and a smaller one, which looked somewhat like a spaniel.

On Friday evening the farm of Mr. John Matchett, in Otonabee, was visited. He has a flock of forty sheep, and hearing of the ravages of the dogs across the river, he resolved to shut his sheep up at night. He, however, was only able to count thirty-six of them, as four others were too frisky to be driven in. In the morning these four lay dead in the barnyard.

The farmers are now thoroughly alarmed and are taking active measures to rid themselves of the pest. Large traps are being constructed about thirty feet square at the bottom, and with sides sloping at such an angle as to leave a hole about four feet square at the top, and leave the trap twelve feet in height. Several sheep will be placed in the enclosure, and the dogs are expected to climb the sloping sides and jump in upon their prey. Once inside they will be unable to leap out, having no assistance from the sides. There will be a big bill of damages against the owner if the dogs thus caught can be recognized.

It is proposed in North Monaghan to raise the dog license hereafter to five dollars, and to have an official, whose business will be to prosecute all owners of tagless dogs.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

HOCKEY.

The Peterborough Hockey Club will meet for re-organization this evening in the Oriental Hotel. A full attendance of members is requested.

PERSONAL

Mr. J. J. Callahan, of Belleville, spent Sunday in town with friends.

Miss Emily Dixon has returned home after a pleasant visit with friends in Kingston and other eastern cities.

The Minden Echo says:—"Mr. C. Leary and Miss May Leary left Minden on Monday last for Peterborough where they intend residing for a time."

Word was received in town yesterday of the death of Judge Burnham, of Whitby. The deceased was an uncle of Mr. J. Hampden Burnham and Mrs. J. S. Boswell, of town.

Mr. Andy Scott, of town, who is attending the Dental College in Toronto, played on Saturday in the football match between the students of the college and the Osgoode Hall team.

Mr. John Lynch's relatives in town have received word of his marriage on the 10th inst. to Miss Maggie Hart of Rochester. Mr. Lynch is a son of the late James Lynch and is an old Peterborough boy. He has been living in Rochester for a number of years but is now a resident of New York City. The EXAMINER desires to extend hearty congratulations.

Madill's Cough Syrup

For coughs, colds or sore throats. Cure guaranteed.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 23 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

We "Meat" Everybody

At our store, and tender tender meat to our patrons. Our mutton is sold as mutton—not spring lamb. Same with beef—cuts are sold as such. Yet the people keep coming to JOHN J. HOWDEN'S Meat Store, 416 George street. Telephone 39.

A Cosy Bath.

The latest caper in Haskill's Gold Dollar Barber Shop is a private bath-room cosily fitted up with hot and cold water. It will be a luxury for many who have been wishing for something of the kind to start up. Buy your little pasteboards and enjoy a quiet dip. 6d111

PIPES! PIPES!

Why pay 25 to 50 per cent. more for a Pipe, when you can save that much by buying at Clegg's Retiring Sale? Pipes, Pouches, Tin Tobaccos, Cigars by the box, all at cost price. E. E. CLEGG.

THE BANQUET TO HON. GEO. A. COX.

A Unanimity of Feeling Amongst the Citizens in Regard to the Proposal.

A large meeting of the most influential and prominent citizens assembled on Saturday evening in the town clerk's office for the purpose of making the necessary arrangements for tendering to Hon. Geo. A. Cox, on the occasion of his first visit to Peterborough after being appointed to the Senate, a complimentary banquet.

Among those present were noticed Mayor Yelland, W. H. Moore, T. G. Hazlitt, W. H. Law, Rich. Hall, T. F. Matthews, J. R. Stratton, M. P. P., Dr. Halliday, D. W. Dumble, T. E. Bradburn, B. Shortly, Peter Campbell, J. H. Roper, W. Manson, Thos. Cahill, Jas. Bogue, E. B. Stone, E. B. Edwards, H. LeBrun, W. H. Meldrum, R. D. Hamilton, R. Mullholland, Max Dennistoun, Thos. Brooks, E. H. D. Hall, H. Phelan, R. H. Kells, Allan Huffman, J. M. Irwin, J. Stevenson, J. W. Garvin, John Gilchrist, G. M. Roger, Sheriff Hall, W. Rudkins, W. J. Devlin, George N. Graham, Macfarlane Wilson, S. R. Armstrong, F. Brownscombe, Dr. Bell, Dr. Carmichael, J. B. McWilliams, J. S. Knapman, R. S. Davidson, F. H. Dobbin, Geo. Edmison, A. J. Gough, W. A. Stratton, R. E. Wood, W. H. Hill, H. S. Macdonald, John McKee, B. Morrow, R. B. Rogers, J. M. White, Harry Allen, R. R. Hall, A. E. Lesh, C. LeBrun, J. J. Hartley, W. Langford, C. McGill, J. G. Graham, W. Davidson.

Mr. J. R. Stratton, M.P.P., was appointed chairman, and Mr. Robert Fair, secretary.

Mr. Stratton explained the object of the meeting, and Messrs. D. W. Dumble, Dr. Halliday, James Stevenson, Richard Hall, T. G. Hazlitt, Mayor Yelland, R. M. Dennistoun, E. B. Stone, Thos. Cahill, R. Mullholland, J. M. Irwin and W. H. Moore, all spoke in favour of the proposition which it was understood was to be purely a citizens' banquet and wholly unpartisan in its character, given to a former citizen whom all were pleased to see honoured by appointment to the Senate.

It was decided that the number of tickets to be issued would be controlled by the seating capacity of the dining hall, which, it is understood, will accommodate about 150 guests. The price of the tickets has been placed at two dollars each.

The following gentlemen were appointed as a citizens' committee to carry out the details connected with the banquet: Messrs. W. H. Moore, Richard Hall, T. G. Hazlitt, R. Mulholland, Sheriff Hall, T. Cahill, R. M. Dennistoun, H. LeBrun, J. R. Stratton, R. Fair, E. H. D. Hall, T. E. Bradburn, James Kendry, H. Phelan, B. Shortly, W. H. Meldrum and Mayor Yelland.

After the public meeting had adjourned the committee met and decided on the details of the banquet, appointing the following committee to complete the necessary arrangements—Messrs. J. R. Stratton, R. Fair, W. H. Moore and W. H. Meldrum. This sub committee will make arrangements for the issuing of 150 tickets which will be placed in the hands of Mr. R. Fair, who will supply them to those desirous of attending the banquet and he will report to the committee on Saturday evening next. The committee has decided not to place itself under any obligation to supply tickets after this date and as the number is limited to the accommodation of the dining hall, there will be no more issued and there will be none reserved, all being placed in Mr. Fair's hands for those applying therefor.

The list of guests to be invited has been left in the hands of the committee and it is understood that a number of the leading men of the province will be present on the occasion of the banquet.

Mr. Cox leaves to day for a two weeks' visit to the South with Mrs. Cox who is in rather infirm health. The banquet, therefore, will not take place until his return. Due notice will be given of the date.

The committee adjourned to meet on Saturday evening next, when the secretary will report as to whom tickets have been supplied.

Judging from the number of influential citizens present on Saturday evening it is expected that the banquet will be a grand success, to which the unpartisan feature which characterized the meeting, will largely contribute.

CHURCH CHIMES.

St. Paul's church choir intends giving a grand sacred concert about the first week in December.

Rev. Father Phelan sang Vespers and officiated at the Benediction in St. Peter's Cathedral last night.

Miss Heubeck took the solo last evening in St. Andrew's in the anthem "Now the Day is Over," in exceptionally good voice.

Miss Vair's sweet soprano voice was heard to advantage in the anthem, "Sun of my Soul," in St. Paul's church yesterday morning.

Rev. Mr. Potter, the Sailors' Missionary, and father of Rev. J. G. Potter, preached two excellent sermons in St. Andrew's yesterday.

The morning anthem in St. Paul's, yesterday morning was entitled "Break Forth into Joy." It was given in perfect harmony by a full chorus.

When they put a man in jail, he cannot follow his natural inclinations. He cannot eat what he wants to—he is limited to a very frugal diet. Is it not equally true of a dyspeptic? For all of the real enjoyment he gets out of life, he might as well be in jail. He cannot eat what he likes, nor enough. He suffers much, gets little sympathy. At first, perhaps a little heaviness in the stomach, a little sourness, windy belchings and heartburn; headaches and biliousness and a foul taste in the month in the morning. Chronic constipation is almost inevitable, and means that the body is holding poisonous, impure matter that should be gotten rid of. The poison is being reabsorbed into the blood and the whole body. Impurity in the blood may lead to almost any disease. Constipation is the start of it all. Dr. Pierce's Pleasant Pellets cure constipation, cure it so it stays cured. No other remedy in the world will do that.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N.Y., and receive Dr. Pierce's 1008 page COMMON SENSE MEDICAL ADVISER, illustrated.

There is hardly anything more refreshing than a cup of good Tea. But then really good Tea is scarce and that is why so few understand the invigorating qualities of the herb. One of the most experienced "Tea-tasters" selects our best brands of household Teas. If you will try them in preference to what you usually use you will soon detect the difference and understand how refreshing a cup of good Tea really is. Prices according to quality.
M. L. HENRY & Co.

Protect Your Horses, etc.

Nothing is more needed for horses at this inclement season of the year than a waterproof horse cover. I make them to order and keep them in stock as well. Hoods, heads, backs and breasts in black waterproof, impervious to water, soft and pliable. Any kind or style of ordered goods required. Lap rugs, strictly waterproof. Also cheese covers as requested by members of the Cheese Board, and for covering all kinds of goods liable to damage from wet. A. KINGSCOTTE, Tent, Sail and Awning manufacturer, 344 Water street, opposite market.

A PECULIAR AFFAIR.

Several Members of a Durham County Family Suddenly Become Insane—Details of a Sad Case.

Tyrone, Durham County, Nov. 14.—(Special.)—One of the saddest and most peculiar family afflictions that has ever befallen a family in this part of Canada has this week cast a shadow on the home of Mr. Elijah Rice, some six or seven members of the family having suddenly become demented.

The chief participators in this terribly melancholy event are Mr. Elijah Rice, the father, and the eldest son, Lewis.

For many years the family has been engaged quietly in farming operations, to which of late years has been added a profitable nursery business. By steady industry the parents have thus far been able to support in comfort their unusually large family of fifte n children, and often not a little interest would be awakened at the sight of the well-dressed and apparently intelligent little company on their appearance at church or on festival occasions. The eldest son, Lewis, aged 21 years, is a young man of modest demeanor and rather more than ordinary intelligence, and has until recently been the

CHIEF PROP OF THE FAMILY,

his father trusting to him implicitly to transact most of the business, in which he showed remarkable aptitude.

A few weeks ago, however, a change was visible in Lewis. Much of his time was devoted to incessant reading of the Bible or in brooding over some imaginary trouble or in silent contemplation. This of itself did not occasion much remark until the spell culminated some two weeks ago in his boldly announcing himself as "The Prophet of the Sand Hills," the title doubtless being suggested by the peculiarity of the soil in that region. This state continued for a few days, when he began to show symptoms of violence. Unfortunately still stranger and sadder phases in this unfortunate family's history began to exhibit themselves. The entire older portion of the family, some six or seven in number, were suddenly seized with a species of epidemical insanity, in which it occurred to them that the wrath of God could not be better averted than in celebrating the Feast of the Passover, only instead of the ordinary lamb much better would it be

TO SLAUGHTER THE FIRST BORN,

the demented Lewis, already referred to. Accordingly, in a moment of violence, the boy slightly injured his mother, whereupon the father seized a chair and began battering him most unmercifully, at the same time declaring he would knock the evil spirit out of Lewis. After desperate chokings, followed by prayers on the father's part that the boy might be restored, it was concluded that eternal justice was now appeased, and comparative quiet reigned. Beaten almost beyond recognition, with the blood streaming from four deep gashes in the head, poor Lewis presented a truly ghastly appearance. Quite complacently the other members of the family viewed the situation, one of the boys starting away to the nearest minister. Rev. H. T. Curtis, informing him that as he knew he had been praying for Lewis in the past he would now be glad to hear that the

EVIL SPIRIT WAS DRIVEN OUT

of him. Suspicions were immediately aroused in the members of Mr. W. R. Clemens' family, where the minister was, and medical aid was summoned and the lad's wounds dressed after much difficulty, the gaping gashes in the head requiring considerable stitching in which the physician's efforts were retarded by the interference of several members of the family, and the general uneasiness of the patient. The people of the neighborhood, thinking it high time to protect the afflicted ones and themselves as well, now set a guard of several stalwart men to watch their movements until legal steps could be taken for their committal to a place of safety. Apparently no further harm was meditated, the time being passed by the inmates of the home in a sort of general jubilee, now singing joyfully, now laughing hysterically—always in unison, and anon expressing their amazement at the few who bore them company for not participating.

The father and the son Lewis have been placed in Rockwood Infirmary, Kingston.

Madill's Compound Healing Salve for burns, scalds, frost bites, or sores of any kind.

New Licenses.

Engagements can be made by W. J. Green, to call on parties wanting Marriage Licenses, either at their own homes, the homes of their friends, or at hotels, which may be most conveniently and promptly arranged by letter or otherwise.

LOCAL NEWS.

If your eyes trouble you in any way, have them tested by W. Madill, optician. No charge for examination.

"How to Care for the Body" will be the subject of the Health Talk in the Y.W.C.A. rooms to-morrow (Tuesday) evening at 8 o'clock.

Some Church Improvements.

The Park street Baptist church has had a driving shed erected on the north-east of the building, for the convenience of those having horses.

Safe, Sure, Painless.

Just what you need if you are troubled with aching corns. Putnam's Painless Corn Extractor acts in this way. It makes no sore spots, acts speedily, removing the worst corn in twenty-four hours. Putnam's Corn Extractor, the only sure corn cure.

Rally at Ingersoll.

The Baptist Young People's Union of Ontario and Quebec will hold a grand rally at Ingersoll on Thanksgiving Day. The purpose of the rally is "Enlightment in the Truth—Increased efficiency in Christian Service." Billets will be provided for the visitors. A thanksgiving sermon will be preached by Rev. J. W. Stewart, D. D., of Rochester, N. Y.

Selecting Fruits.

Ladies cannot be too particular in the selection of their Raisins and Currants this year, as there is any quantity of medium and poor quality, with the better grades scarce. You can appreciate a good article in fruits, then see our stock. MASON & Co., 429 to 431 George street. 2d

See Grafton & Co's fine line of Double Breasted Beaver Overcoats, in blue and black $5.50, $7.50 and $10.

Accident to Mr. Robert Walton.

Mr. Robert Walton met with a painful accident yesterday. He accidentally tripped and fell the full length of the stairs at his residence. He had a heavy lamp in his hand at the time, and his left hand and arm were badly cut by coming in contact with the broken glass. He was also severely bruised and shaken up. Mr. Walton's injuries while painful are not serious.

Saturday Night's Attraction.

The big spectacular production, "Spider and Fly," coming to Bradburn's Opera House Nov. 21st, is one of the largest and best companies that travel. They are 42 strong, including the three Goldsmith Sisters, the great acrobatic, song and dance artists. Theatre-goers will remember with pleasure the performance given here three years ago by Mr. Leavitt's Rentz-Stanley Company. The company is under the same management and promises to be even better. The scenery and mechanical effects are unsurpassed.

Mercer's

DEATH OF MRS. ANDERSON, OF BELMONT.

Her Husband and Fourteen Children Survive to Mourn her Death.

Jane Smith, wife of Mr. William Anderson died on Nov. 7th, at the family residence on the 6th concession of Belmont. The deceased lady was a native of Ottawa, and along with her husband settled in Belmont township over thirty years ago, and was 53 years of age. Surviving her are a husband and large family. Mrs. Anderson was a zealous member of St. John's Church, Havelock, and was a lady widely known throughout the district. A fond, loving wife and mother and a kind friend, she made a number of acquaintances who will deeply regret her demise. She has been ailing for some time from dyspepsia, and at last succumbed from the effects of the disease.

The funeral took place on Tuesday and was attended by an immense number of friends. Rev. A. O. Tarrant, Incumbent of St. John's church, conducted the services at the house and spoke from St. John xi', 25 26, and was assisted at the grave by Rev. R. H. McGinnis, of Hastings. The fourteen surviving sons and daughters of the deceased were present at the grave. The church bell tolled as a mark of respect as the cortege passed through the village. Amongst those from a distance were:—Her aged mother, Mrs. Driver, of Deseronto; a sister, Mrs. Wilson, from Tamworth; her daughters, Mrs. P. G. Garrison, of Prince Edward, and Mrs. Arthur Garrison, of Richmond, Ont. The pall bearers were—Messrs. Charles McCann, James Stewart, John Seabrook, James Keene, A. Waller, W. Seabrook.

SMITH.

A Successful Auction Sale at Mr. James McKibbin's Farm—Large Attendance.

One of the most successful auction sales in the township was held at the splendid farm of Mr. James McKibbin, on the 12th inst. There was a large attendance of interested buyers attracted by the expectation of exceptionally good stock and implements being offered, and they were not disappointed. The stock and implements were of a high grade, in keeping with the farm itself. The successful sale was conducted by Mr. John Haggart, who wielded the auctioneer's hammer. The success of the sale was greatly facilitated by the excellent and orderly arrangements made by Mr. McKibbin. There were proper enclosures for the stock, and every arrangement was perfect for the occasion, such a conveniences for hitching teams, etc. A splendid luncheon was provided for the visitors, and was heartily appreciated. The farm was not sold, but it was not because it lacked anything in securing the appreciation of visitors, who were loud in their praise of the splendid condition and lay-out of the buildings, as well as the broad fields of the farm. Every inch of it can be worked by machinery. It is free from weeds, and is, all over, in the highest state of cultivation.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—John C. Douglass was fined $2 this morning for allowing a horse to run at large.

—Albert York, of Ashburnham, complains to the police of a number of young men throwing stones at his door as they were driving past. Some arrests will probably take place.

—If you want to economize burn the People's Coal Coy's coal. All kinds of coal in stock, including best hard coal for stoves and furnaces, soft coal for grates, and smithing coal. Office—230 Charlotte street. Telephone 36d.

—Two boys were before the magistrate this morning for fighting in the post office. The aggressor stated that the other lad had been calling him names and, therefore, when he caught him in the post office he had proceeded to "take it out of him." The pair were dismissed with a warning.

TWEED TOPICS.

Mrs. James Davenport Makes a Statement for the Benefit of Others.

Mrs. Davenport is well-known in Tweed, and this is how she spoke to our representative concerning Doan's Kidney Pills. Said Mrs. Davenport:—

"I have suffered for some years from dizziness, puffing under the eyes, pains in the side and back, sleeplessness, poor appetite, and, in fact, was in a bad state generally.

"I took two boxes of Doan's Kidney Pills which I got at P. K. Newton's drugstore, and experienced immediate relief from their use.

"I am now very much better indeed; appetite improved, pain almost disappeared and I feel stronger and healthier in every particular.

"I can heartily recommend them to all sufferers from kidney trouble."

For sale by James Lynch, druggist, 168 Hunter street, Peterborough.

Good Roads in Canada.

The system of road-making promulgated by the Ontario instructor, Mr. A. W. Campbell, C. E., is meeting with the approval of the Governments of the other provinces, and the work of improvement as carried on in Ontario will, in all probability, be a model for action along that line throughout Canada. In order to farther this Mr. Campbell is having his latest road bulletin mailed to all the provincial, as well as the federal members of Parliament. A copy will be sent to any person wishing one, by sending their address to the Good Roads Department.

A Puny and Fretful Baby.

This is now quite unnecessary! Like many others, you may have your baby fat laughing and happy, if you give it Scott's Emulsion. Babies take it like cream.

Mrs. T. S. Hawkins, Chattanooga, Tenn says: "Shiloh's Vitaliser 'Saved my Life. I consider it the best remedy for a debilitated system I ever used." For dyspepsia, liver or kidney trouble it excels Price 75c. Sold by John Nugent, 260 George Street.

REV. FATHER TEEFY SPEAKS IN ST. PETER'S

IN AID OF THE ST. VINCENT DE PAUL SOCIETY.

A Very Large Congregation Listens with Pleasure to his Eloquence—A Large Collection for the Poor.

V. Rev. Father Teefy, the learned President of St. Michael's College, Toronto, addressed a most eloquent appeal on behalf of the St. Vincent de Paul Society to the congregation of St. Peter's Cathedral last night, it being the occasion upon which the annual collection is taken up to aid the Society in the good work which it has assumed in caring for the poor of the church.

As the text for his sermon, the speaker took the text, "I thrist," being the words of the Saviour uttered from the cross.

The greatest of the works of the Almighty, Father Teefy went on to say, was the Incarnation of His Holy Son. Greatest because of the mystery which surrounds that Incarnation. Greatest because of the attributes of God he threw into the relief of the world. It is the greatest because of the gifts, which

THROUGH JESUS CHRIST

are poured out upon mankind. All in misery can come to the Saviour and find consolation, and in weakness they can stretch out the palsied arm to touch the hem of his garment and he healed. The dead in the graves have but to hear His voice to be quickened, and those dead in sin hear Him and receive the word of pardon.

"If you ask why did he become man I have no better reason to give than his great love for souls," continued the speaker. His last commandment was "Love ye one another." Hitherto the law had been to love thy neighbour and hate thine enemy. An eye for an eye, a tooth for a tooth—but henceforth it will be "love your enemy and do good to those that caluminate you."

You ask: "What is there in the human soul to attract the Son of God?"

What is the soul?

Judge it by its acts. What is there in us which can direct the destiny of the world? That thing of beauty that will last forever—that soul that will have eternal being.

If there is one quality of man which distinguishes him from the lower animals it is that he can think. Because he can do this he is master of the world and rules it. Man can think. Away down in his soul a thought is formed. It rises up

LIKE A BUBBLE.

It bursts, and, like a circle in the waters, spreads until it breaks on the shores of eternity.

Because he can think, man is immortal. He is undying—more, he is the image of his Lord. He can know his Maker.

No wonder that when the Saviour saw this being he loved it—the brightest image in all the creations of His eternal Father.

When Almighty God created man He bestowed four precious gifts upon him—consecrated gifts, which crowned the soul and raised it up to higher spheres and hence its destiny is no longer natural—it is supernatural. They were gifts from the boundless grace of God. Nature herself could never merit them. They were gifts because they added to nature and gifts because they could be alienated.

He raised man to that higher state, He gave him special inspiration, the gift to merit greater things, and He gave him the right to eternal life.

These then are the four.

Such was man when He came from the hand of the Eternal, but man fell from the higher state and fell to a greater depth than if he had never been raised so high. He was down, down in the shadow of death. What a loss for that poor soul! Was there no redemption for it? Were all God's plans to be frustrated?

When all was darkest and all seemed lost, then saith the Saviour

"I WILL RISE UP,"

and He rose up and came down from Heaven to restore again the lost gifts to His poor fallen brothers. He came as the humblest of the humble—was born in a cave with animals, but angels watching over Him. They called Him Jesus, and so He was. He was the King—the Saviour, but most of all He was the zealous lover of souls. He loved them most when He stood under Gethsemane's shady trees in His agony and shed His blood on calvary. "O, I thirst," were His dying words—I thirst for the souls of men.

But brethren above all did He love the poor.

Jesus Christ understands the poor. What was humanity before He came, but poor. Are we not all poor now, like Lazarus crying at the door of the rich man, but He feeds us with His body and and blood.

He was born poor. He begged in the streets of Nazareth. He worked as a carpenter—He who was the architect of the world. He was poor in His public life depending on alms of poor women. He was poor in death, as he was laid in the tomb of a stranger. In life and in death He knew not where to lay His head. He pleads to-night, my brethren. He pleads before you for those poor of His that the St. Vincent de Paul Society has charge of. On the great day of judgment we know that He will bring forward in our behalf all we ever did for the poor. Are there any of us who do not need clemency, and does He not say "As often as ye did it unto the least of these ye did it unto Me."

Charity covereth a multitude of sins—be then charitable my brethren, for of such will be the kingdom of heaven.

It is not alone of the rich that aid is asked, but all those above the water mark of receiving alms are in a position to give.

During the service Miss M. Dunn sang Millard's "Ave Verum" exceptionally well, and Mrs. George Ball's clear soprano voice was heard to advantage in Rosewigs "O Salutaris." The full choir gave a magnificent rendering of Schubert's "Tantum Ergo."

New Furniture.

At A. Clegg's:—A large assortment of floor rocker cobler seats, in oak, natural birch and mahogany finish. These are of superior styles and finish and very cheap. Also a lot of reed and rattan rockers—cheap! cheap! Several cases of pictures, good subjects, complete, at less than you have been accustomed to pay for frames only. A. CLEGG, 427 George street.

COLONIAL DELICACIES.

Thanksgiving Dishes That Tickled the Palates of Our Forefathers.

In later days, when the colonies had just finished the war of the Revolution, the Thanksgiving dinner was not confined to a consumption of turkey. There were other dainties considered to be finer than turkey. The royal roast goose was a great favorite with the colonial dames who prided themselves upon their cookery.

Epicures of the modern school all know that the delicate flavor of the prize canvasback duck is due to the fact that it feeds largely upon juniper berries, and the colonial ladies displayed rare knowledge when they flavored the dressing of the goose with these berries.

Another Thanksgiving dish highly prized by colonial epicures was ham baked in cider, and if the same delicacy were prepared today it might make the fortune of some ambitious chef. This is the way it was done a hundred years ago:

Wipe a whole ham clean and put in a baking pan, skin side down and over the flesh side sprinkle one-half a teaspoonful each of pepper, cloves and allspice and one-quarter of a teaspoonful of mace and cover all with a little onion juice. Into the bottom of the pan put a sprig of celery, two bay leaves and a slice of onion. Put a cup of flour in a bowl and add sufficient water to make a paste, cover the ham with the paste as far down as the skin and then turn into the pan two quarts of cider. Put in a hot oven and cook for 3½ hours, basting every 15 minutes. When cooked, take off the crust, turn over and take off the skin and put in another pan with the fat side up. Brush over with a beaten egg, sprinkle with chopped parsley and bread crumbs and bake in a hot oven for one hour, when it will be ready to serve.—San Francisco Examiner.

Boiled Turkey.

Many old fashioned cooks and some of the new fashioned consider that the proper way to cook a turkey is to boil it. To do this singe, draw and wash the turkey thoroughly, wipe with a soft cloth and rub the inside with salt. Make a stuffing of one quart of bread crumbs, a tablespoonful of butter, salt, pepper and chopped parsley and mix the ingredients together with an egg. Fill the breast of the fowl with some of this stuffing and put the remainder into the body. Tie the legs and wings close to the body and place it in salted boiling water with the breast downward. Boil rapidly the first half hour, then draw it to the back of the stove and cook slowly until tender. Serve with celery or chestnut sauce. If oysters chopped are used in the stuffing, serve with an oyster sauce. An old fashioned custom was to serve ham or smoked tongue with a boiled turkey.—Exchange.

Dr. Depew Favors Southern Cooking.

Chauncey Depew actually licked his chops when asked about his Thanksgiving dinner. "Give me," he said, "a bird from my Hudson river farm cooked by an old mammy from Virginia. No one but a southern darky can cook a turkey. A colored woman knows how to spice up the animal until it tastes like a drop of sweet nectar, and she understands getting it rich and done. Give me ole mammy's cooking every time. We used to have an old mammy so lazy she wouldn't move, but when it came to Thanksgiving time she'd rouse herself and cook a turkey to the taste of the queen, or to my own taste—quite as critical a one."—Selected.

Their names are in the paper every day. In the obituary column. The names of men killed by neglect of their health combined with overwork. They should serve as a warning to others who are fast following in their footsteps. No man can stand the strain of modern business competition who wilfully neglects his health. It is not good policy to overwork, but the man who looks after his health can stand a great deal of it. The man who neglects his health is soon unfitted for work. When a man's digestion is disordered and his bowels are irregular, his blood becomes impure and the body is badly nourished. The victim of these conditions suffers from brain fag, nervous prostration, and debility, and eventually falls a victim to consumption.

Dr. Pierce's Golden Medical Discovery corrects the digestion, invigorates the liver, improves the appetite and regulates the bowels. It is the best blood-purifier, blood-maker, flesh-builder, and nerve tonic. It makes a man well, strong, clear-headed and fit for business. It enables him to stand a reasonable amount of overwork. All good druggists sell it. There's nothing "just as good."

Chas. Faulhaber, of Brownlee, Cherry Co., Neb., writes: "I have used Dr. Pierce's medicines, especially the 'Golden Medical Discovery' with much benefit. Some time ago I was troubled with great distress in my arms and hands. It got so bad I could not sleep at night. I thought it was the muscles of my arms that caused the trouble. I began taking the 'Golden Medical Discovery.' Soon I felt a decided improvement, and before I had taken the second bottle the aching was all gone, and it has not returned. I have a copy of your 'Common Sense Medical Adviser' and would not do without it for any money."

Knowing how to take care of health is half the battle against illness. Dr. Pierce's great book, "Common Sense Medical Adviser" is the educator of the age. This book reached a sale of 680,000 copies at $1.50 each. Within its 1,008 pages is compressed the best that Dr. Pierce has gathered by study and practice in thirty years. It is illustrated with over 300 drawings, some of them colored. Its 90 pages addressed exclusively to women are worth the original price of the book. A new edition in paper covers is now ready for free distribution. By sending 21 cents, in one-cent stamps, to pay for customs and mailing, you will receive this great book. For cloth binding, send 50 stamps. Address, World's Dispensary Medical Association, Buffalo, N. Y.

THE RESULT OF A SCRAP.

A Student of McGill University Who Died After Engaging in Some College Frivolities.

Montreal, Nov. 13.—(Special.)—A painful feeling has been aroused among the thousand students of McGill University by the death of one of their number, apparently from the effects of a college "scrap," which took place a week ago. The name of the deceased was J. T. Stewart. He came from Athelstan, Que., and was entered to study for the ministry at the Presbyterian College. This included a full arts course at McGill, and it was while in the arts building last Friday that Mr. Stewart engaged in the "push" which resulted this morning in his death at the Royal Victoria Hospital. The immediate cause of death was an internal hemmorhage, principally in the lungs. Mr. Stewart had been previously troubled with this bleeding, and, in fact, had spat blood in the morning before leaving the Presbyterian College. It is, therefore, to be deducted that his exertions in the "scrap," while they brought on an increase of his trouble, were not altogether responsible for his death.

The "scrap" is an institution known to most colleges, and is generally harmless. It is of more common occurrence in the arts faculty than in most others at McGill, as the science faculty has put its foot upon the practice by fining heavily all the participants in any "scrap" which takes place in the engineering building. It consists mainly of a great push between two different years when they meet in a passage at the close of a lecture. Generally very little damage is done outside of that sustained by the gowns and clothing of the "scrappers," and the practice furnishes an almost indispensable relaxation between the lectures. The deceased was a member of a class "Arts '99," and the push in which he was injured took place last Friday morning. He was sturdy and strong in appearance.

The Dominion Commercial Travellers' Association, having 2200 English-speaking and 5000 French-speaking members, will have their meeting to make nominations to-morrow evening. To-day all the past presidents waited on ex-Alderman J. D. Rolland and asked him to accept nomination for the presidency, as there has only been one French president in 22 years. Alderman Rolland accepted, and if Mr. Max Murdoch does not run he will be elected by acclamation. There will also be a fight for the vice-presidency, Messrs. James Armstrong, William Kissock and Newton Tucker being the candidates for that position. Mr. Fred Birks will be unanimously re-elected treasurer.

ACADIA HEARD FROM.

The Hamilton Propeller is in Bad Shape—Went Ashore Up North—The Crew Taken Off Safely.

Hamilton, Nov. 13.—(Special.)—R. O. MacKay, owner of the propeller Acadia, received a telegram to-night from Capt. Clifford of that vessel, to the effect that the Acadia went ashore last Thursday night, near Michipicoten River, and that the crew was all safe at Gargantau. The Acadia is full of water and may prove a total wreck, as her position is a precarious one. Capt. Clifford is at the Soo and Mr. MacKay has wired him for further particulars of the misfortune.

Later.—Capt. Clifford of the ill-fated propellor Acadia wired R. O. & A. B. MacKay late to-night that a wrecking tug, if sent soon, would be of valuable assistance in saving the vessel. The captain also requests that the insurance companies be notified at once, so that the crew, now at Gargantu, can be cared for and supplied with provisions. The men are said to be in a precarious condition, and with only provisions enough for one or two days more at the utmost.

The demand for Ayer's Hair Vigor in such widely-seperated regions as South America, Spain, Australia, and India has kept pace with the home consumption, which goes to show that these people know a good thing when they try it.

Constipation Cured.

Gents,—I was in very poor health for over four years; the doctor said it was constipation. Not wanting to spend too much cash I got three bottles of B.B.B. and took it regularly. I can certify that I am now in the very best of health and feel very grateful to B.B.B.

ALFRED TESOUX, Montreal, Que.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagyard's Pectoral Balsam.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

THEY LIVED HAPPILY

More Evidence Taken in the Sternaman Case.

AN ADJOURNMENT UNTIL MONDAY

A Physician Tells of the Careful Way in Which the Wife Waited on the Sick Husband — Embarrassing Questions Put to Mrs. Chipman — Women Wept.

Buffalo, Nov. 13.—The Sternaman case was called at 11 o'clock this morning. Dr. Ward B. Saltsman, who attended Sternaman during his illness, swore that he attended the deceased from June 17 to Aug. 11, this year. He diagnosed the disease as a form of shrinkage of the liver. He did not treat the patient for arsenic poison, and he found no traces of the drug.

"Do you think any poison was administered during the time you attended the patient?" asked Mr. Thayer.

"I do not," was the reply. "I certainly would have discovered it if any had been given the patient. His condition would have shown it."

The witness then described the condition of Sternaman at the time he left him. He said he was much improved. He stated that the defendant was unusually loving and attentive to the patient. He related instances showing how carefully Mrs. Sternaman used him. He said the deceased was also very loving to his wife. On cross-examination the doctor admitted that arsenic could have produced the disease from which Sternaman died, and that paralysis often follows such poisoning.

Attorney Thomas then read a long question describing the condition of Sternaman's corpse after it was exhumed, referring to the remarkable state of preservation of the body and the enlargement of the organs, and finished by asking the witness if a body were found to be in such condition to what would he ascribe death.

"Arsenic," was the answer.

Mr. Thayer then asked him, assuming this corpse was Sternaman's body, if the poison could have been administered before the deceased was taken ill, or during the time he attended him.

"It could not have been administered before or during the time I attended him. If arsenic was used it was administered shortly before death."

Elizabeth Sevenpiper, sister of the defendant, was recalled to testify to some minor details. Her evidence was principally to show the loving relations between the defendant and the deceased. Neither one seemed to control the other. The love, she said, was perfectly mutual.

Mrs. Ellen Sevenpiper, mother of the defendant, was sworn. She said she had always been on friendly relations with her daughter. Regarding Sternaman's relations with the defendant during the life of her first husband and afterwards the witness said she never noticed the slightest indelicacy or discourtesy. She described the vomiting spells he was subject to.

Lawyer Thomas, in his cross-examination of Dr. Saltsman, said: "Having stated as your belief that poison was not administered during your treatment of the patient, and we have proof that when this man's body, which was not embalmed, was exhumed six weeks after burial arsenic was found in the stomach, what would be your opinion regarding the discovery of that arsenic?"

In answer to this question Dr. Saltsman said: "Had the body not been embalmed, I would certainly say that the poison had been taken but a short time previous to the patient's death."

The afternoon session was a short one. A slight delay occurred while waiting for Mrs. Eliza Chipman, the mother of the defendant's first husband, to appear in court. Mrs. Chipman has been ill for several days, and it was thought that it would be necessary to go to her house to take her testimony. She told a straightforward story about Mrs. Sternaman from the time she married her son up to the time of her arrest on the present charge. Her statements in every way corroborated the testimony of the defendant. The most important part of her evidence was that she saw Mrs. Sternaman give to her counsel the statement beginning "To whom it may concern," written by Sternaman.

When asked by Mr. Thomas where her husband was, the kindly looking old lady bowed her head, trembled and for a few minutes wept. It afterwards developed that she and her husband have been separated for some time, and the disclosure of the fact caused every woman in the court room except the defendant to weep.

Mrs. Chipman had scarcely left the court room before her husband, Jonathan S. Chipman of No. 514 Front-avenue, was called. He is an elderly man of medium height, with long white hair and whiskers. His testimony was but a repetition of that given by the defendant.

While he was telling of the affection shown by the defendant toward his son, Ezra Ekokon Chipman, her husband, during his last illness, Mrs. Sternaman for the second time lost control of herself.

Mrs. Sternaman's brother-in-law, George B. Drake, was called. He corroborated Mrs. Sternaman's description of the peculiar paroxysms Sternaman often had before their marriage.

Mr. Thayer asked the court to adjourn the hearing for a day or two in order that he might go to Canada to verify certain statements made by Undertaker Snyder, who, in his affidavit, claims that he did not embalm Sternaman's body.

Mr. Thomas objected to any further time being given, but the court ruled that Mrs. Sternaman, being accused of murder, could have time to collect evidence which might be of benefit to her, and adjourned court until next Monday at 10 a.m. At the request of both sides, this time was changed to Tuesday afternoon at 2 o'clock. As a result of Dr. Saltsman's evidence, a great deal depends upon whether or not the body was embalmed. If Mr. Thayer returns from Canada with depositions contradictory to the affidavit of John Snyder, the undertaker, it will be a great point for the defence.

A MARVELLOUS CURE.

Helped by the First Box—Could not Lift Fifty Pounds—Cured by a few Boxes of Dodd's Kidney Pills.

Arthur, Nov. 9. (Special).—Among his more intimate friends it has long been known here that Mr. J. C. Morrison had been gradually failing in health for many years. The acuteness of his sufferings was known only to a few. His complete recovery is a surprise here and is causing much talk. Of his cure he says:—"Yes I got help from the first box of Dodd's Kidney Pills and I have taken fifteen boxes. I kept getting better every day. When I commenced I could not lift fifty pounds; now I am as strong and well as ever in my life."

Burdock Pills do not gripe or sicken. They cure Constipation and Sick Headache.

BURGLARIZED AGAIN.

Thieves Go Through the Postoffice at Newcastle for the Second Time Within a Year.

Newcastle, Ont., Nov. 13.—For the second time this year the postoffice situated in the rear of Mr. Botsford's general store was burglarized last night. An entrance was forced through the front door with a chisel, taken from the carpenter shop of Mr. John Pool. They got little for their trouble, only a few stamps and some small change. Several registered letters in the "old safe" were overlooked. Mr. Botsford suffered, however, for they helped themselves to underwear, vests, mits, etc. He had just come to town, having bought the stock of McClung & Son, who have gone to reside in Los Angeles, Cal. Mr. William Rickard, Reeve, succeeds Mr. McClung as postmaster. The belief around the town is that it was "local talent."

BISHOP THORNELOE.

The Canon of Sherbrooke Accepts Election to the Diocese of Algoma and Joins the House of Bishops.

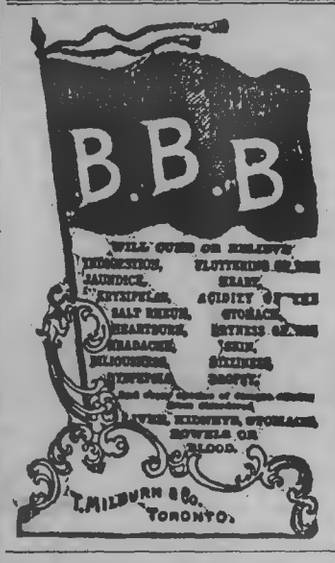
Montreal, Nov. 13.—(Special.)—When the Synod met this morning the Bishop-elect of Algoma delivered an address, accepting the charge, and Canon Thorneloe was invited to take his seat in the House of Bishops, where he was warmly welcomed by Archbishop Lewis of Ontario.

The Whole Story

Of the great sales attained and great cures accomplished by Hood's Sarsaparilla is quickly told. It purifies and enriches the blood, tones the stomach and gives strength and vigor. Disease cannot enter the system fortified by the rich, red blood which comes by taking Hood's Sarsaparilla.

Hood's Pills cure nausea, sick headache, indigestion, biliousness. All druggist. 25c

Captain Sweeney, U. S. A., San Diego Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 392 George Street.



DODD'S KIDNEY PILLS ALWAYS CURE

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 23RD JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

JOHN RILEY.

LOSS OF VOICE

After Acute Bronchitis

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

OFFERING THANKS.

PURITANS DID NOT ORIGINATE THE THANKSGIVING IDEA.

Our National Festival Sprang From an Old Hebrew Custom—Feasts of Demeter and the Harvest Homes of the Saxons and Celts Were Similar.

The story of the first Thanksgiving in New England loses none of its interest as time rolls on. With each anniversary a new charm beckons in persuasive power to old colony days in Plymouth. It is a land of lingering visions; of scant stock of pilgrim fathers, survivors of the hundred souls and more washed by the Mayflower on the bleak New England coast when winter prevailed against them so that their clothes froze, many times like coats of iron. But hark to a clank of cutlass and corselet of steel! What, ho! Miles Standish, "clad in doublet and hose and boots of Cordovan leather," striding again with martial air, and yet once more doth the hurrying pen of the stripling, John Alden, "with the dew of his youth and the beauty thereof," indite epistles filled with the name and the fame of Priscilla, the "loveliest maid in Plymouth."

Two hundred and seventy-five years have passed since the faint line of the Atlantic coast shimmered before the straining eyes of the Puritan forefathers, but it is not hard to picture their first Thanksgiving in the golden autumn of 1621. The cruel, hungry winter (there was a row of graves, and their number was almost half of the entire company) was passed. Summer smiled on their cornfields, and autumn brought abundant harvest. It is a joyous description that Edward Winslow, the historian of the Plymouth colony, writes of the pioneer Puritanical Thanksgiving that followed:

"Our harvest being gotten in, our Governor (William Bradford) sent four men on fowling, so that we might after a special manner rejoice together after we had gathered the fruit of our labors. They four in one day killed as much foule as, with a little help beside, served the company almost a week. At which time, amongst other recreation, we exercised our arms, many of the Indians coming amongst us, and among the rest their greatest king, Massasoyt, with some 90 men, whom for three days we entertained and feasted, and they went out and killed five deer, which they brought to the plantation and bestowed on our Governor and upon the captain (Myles Standish) and others."

Governor Bradford completes the picture by enumerating the blessings which induce the Thanksgiving ceremony:

"They began now to gather in ye small harvest they had and to fitte up their homes and dwellings against winter, being all well recovered in health and strength, and had all things in good plenty, for as some were thus employed in affairs abroad others were exercised in fishing about codd and bass and other fish of which yey took good store, of which every family had their portion. All ye Somer ther was no waste, and now began to come in store of foule, as winter approached, of which this place did abound when they came first (but afterwards decreased by degrees), and beside water foule ther was great store of wild Turkies, of which they took many, beside venison, &c. Beside they had about a peck of meal a weeke to a person or now since harvest, Indian corn to ye proportion."

Not one of the American holidays is so suggestive of the love of home which is dominant in the national mind as Thanksgiving, but in history the festival does not find its exclusive home here. The Thanksgiving idea is an old one. The New England Puritans, in commemorating a day of thanks, were only following in the footsteps of the Hebrews, who annually observed a feast of tabernacles or of ingathering. Thanksgiving lives in the classic authors in allusions to the feasts of Demeter. Harvest homes were held by the Saxons and the Celts, and what more beautiful picture of an aboriginal autumn festival could there be than the story of Hiawatha's feast of Mondamin:

Homeward then went Hiawatha
To the lodge of old Nokomis,
And the seven days of his fasting
Were accomplished and completed.
But the place was not forgotten
Where he wrestled with Mondamin,
Nor forgotten nor neglected
Was the grave where lay Mondamin,
Sleeping in the rain and sunshine,
Where his scattered plumes and garments
Faded in the rain and sunshine.
Day by day did Hiawatha
Go to wait and watch beside it;
Kept the dark mold soft above it;
Kept it clean from weeds and insects;
Drove away, with scoffs and shoutings,
Kahgahgee, the king of ravens.
Till at length the small green feather
From the earth shot slowly upward,
Then another and another,
And before the summer ended
Stood the maize in all its beauty,
With its shining robe about it,
And its long, soft, yellow tresses,
And in rapture Hiawatha
Cried aloud: "It is Mondamin!
Yes, the friend of man, Mondamin!"
Then he called to old Nokomis
And Iagoo, the great boaster;
Showed them where the maize was growing;
Told them of his wondrous vision,
Of his wrestling and his triumph,
Of this new gift to the nations,
Which should be their food forever.
And still later, when the autumn
Changed the long, green leaves to yellow,
And the soft and juicy kernels
Grew like wampum hard and yellow,
Then the ripened ears he gathered,
Stripped the withered husks from off them,
As he once had stripped the wrestler,
Gave the first feast of Mondamin
And made known unto the people
This new gift of the Great Spirit.

—Philadelphia Times.

Connecticut's First Thanksgiving.

The public records of Connecticut show that the first Thanksgiving of the Hartford settlers was held on Aug. 26, 1639. In 1663 the Hartford and New Haven colonies were united, and from that time on the governors of the colony and state of Connecticut have regularly issued their Thanksgiving proclamations.—New York Sun.

Thanksgiving Bounty.

One of the benign results of the observance of Thanksgiving day is the encouragement it gives to public benevolence. While it is a day set apart for the acknowledgment of national, family and personal blessings, every American is taught from childhood that on this day he must share the loaf, feed the hungry and give ear to the cry of distress. The significance of the day is lost to those who appropriate it solely for personal gratification and selfish enjoyment.—Exchange.

A Thanksgiving Thought.

There is something lacking in the sincerity of the man who goes into the temple on Thanksgiving day to acknowledge the good gifts of Providence to him if he has done nothing through the year or on this day to uplift his fellows, to bring sunshine into sunless hearts and to distribute in some measure the benefactions which we all hold in trust for the benefit of the helpless sons and daughters of men.—Selected.

Chestnut Sauce For Boiled Turkey.

Shell and blanch three dozen French chestnuts. Boil in water enough to cover them for 30 minutes. Drain off the water and pound the nuts to a paste. Add a tablespoonful of salt and a dash of cayenne pepper. Stir gradually into the paste a pint of milk. Rub the mixture through a coarse puree sieve and place over the fire in a double boiler to cook for half an hour.—Selected.

New England Pumpkin Pie.

Take a firm pumpkin, pare, cut up and stew until dry. To a quart of stewed pumpkin add a cup of molasses, a cup of sugar, the beaten yolks of 6 eggs, half a cup of butter, a pint of milk, half a teaspoonful each of ground ginger and cinnamon, with a pinch of salt. Mix well and pour into deep pie pans lined with puff paste. Bake in a well heated oven.—Eliza R. Roper.

FOR THE PUBLIC GOOD.

Mrs. Liscumbe Makes a Statement for the Benefit of Others.

Mrs. Liscumbe is well known in Havelock and this is how she spoke to our representative:—

"I have been troubled for some time with severe pains in the side and back. I took many medicines of various kinds, but got no relief.

"The box of Doan's Kidney Pills which I got at W. H. Jeff & Co's. druggists gave me wonderful relief from the start. The improvement in my general health is not the least of the benefits which I have derived from the use of this remarkable kidney remedy.

"I can recommend them very highly to anyone troubled with any form of kidney disease."

For sale by James Lynch, druggist, 168 Hunter Street, Peterborough.

HE ADMITS REVERSES.

The Spanish Premier Acknowledges That Cubans Have Whipped Spaniards.

Madrid, Nov. 13.—In an interview this morning Premier Canovas del Castillo said there had been serious reverses in Cuba, but that these ought not to discourage the national spirit. Within the present month the Government were sending such reinforcements to Cuba and the Philippine Islands as should be able to put an end to the wars in both countries in a short time. Until the country objected to the sacrifices, he declared, the Government would never desist in their prosecution of the wars in Cuba and the Philippine Islands.

Britain's Arbitrators.

London, Nov. 13.—The St. James' Gazette says Right Hon. H. H. Asquith, M.P., formerly Home Secretary, and Sir George Baden Powell, M.P., will probably be appointed to represent Great Britain on the Venezuelan arbitration tribunal.

Demanded No Indemnity.

London, Nov. 13.—The Daily Telegraph's Praetoria correspondent says he is authorized to deny the statement that the Transvaal Government has yet demanded an indemnity of the Chartered South Africa Company for the Jameson raid.

Ringing noises in the ears, snapping, buzzing, roaring, caused by catarrh, all disappear with the use of Hood's Sarsaparilla.

TEN YEARS TROUBLED

With Liver Complaint and Dyspepsia—Suffered Greatly and Found No Relief in the Secres of Medicines Prescribed.

South American Nervine Was Recommended and Before Half a Bottle Was Taken Relief Came.

Have Since Improved Rapidly, and Am Now Completely Cured—So Says Mr. David Reid, of Chesley, Ont.

What ills come to humanity from a disordered liver! Henry Ward Beecher has said that it was impossible for a man to hold correct spiritual views if his liver was out of order. The liver is so important a part of the mechanism of man that when it ceases to work with ease the whole man is unable to do his work aright. Can we not appeal to thousands, nay, tens of thousands, for a verification of this fact? Certainly it is, that Mr. David Reid, of Chesley, Ont., felt that the enjoyment of life had been taken from him, through the unhealthy condition of his liver. For ten years he says he was troubled with liver complaint and dyspepsia. Employing his own language: "At times my liver was so tender I could not bear it pressed or touched from the outside. Had tried a great many remedies without any benefit. Was compelled to drop my work, and being worse than usual, I decided as a final resort to try South American Nervine, which had been recommended to me by friends who had been cured by it. I got a bottle from A. S. Goodeve, local druggist, and commenced taking according to directions. Before I had taken half a bottle I was able to go to work again, and I have improved steadily since. I can conscientiously recommend South American Nervine to any suffering from dyspepsia or liver complaint." This is Mr. Reid's story as he tells it in his own words. Were it thought necessary it could be corroborated by a host of witnesses. Mr. Reid has lived a long time in Chesley, and his case was known to be a very bad one. But that makes no difference to Nervine. This great discovery rises equal to the most trying occasions. Let it be indigestion, the most chronic liver trouble, as with Mr. Reid, nervous prostration, that makes life miserable with so many, sick headaches, that sap all the effort out of man or woman, Nervine measures to the necessities of the case. It is a great medicine and thousands to-day in Canada are happier and healthier men and women, because of its discovery. There is no great secret about it, and yet there is an important secret. It operates on the nerve centers of the system from which emanate all life and healthfulness, or if disordered, sickness, even death. Nervine strikes promptly at the nerve centers, hence, as with Mr. Reid, where ten years' use of other medicines had done no good, less than a bottle of Nervine brought about encouraging results, and a few bottles cured.

DEATH OF REV. DR. SMELLIE.

The Summons Came Suddenly at St. Andrew's Manse on Saturday.

Toronto, Nov. 16.

Rev. Dr. Smellie, one of the oldest Presbyterian ministers in Canada, died in this city on Saturday. Deceased came to Canada from the Orkney Islands, Scotland, in 1842. He went to Hamilton, where he preached for about four years. From Hamilton he went to Fergus, where he has labored during the last fifty years with singular success. He has seen no less than five flourishing congregations formed from his own. He was greatly beloved by his people for his forcible preaching and firm, gentlemanly character. His wife was a Miss Margaret Logie, by whom he had ten children, two of whom died in infancy, and two later. He leaves a widow, four sons and two daughters. His sons are Robert Scarth Smellie of Smellie & Shaw, barristers, of this city; Dr. Thomas F. Smellie of Port Arthur, George S. Smellie, Vancouver, B.C.; A. E. Smellie, Pinscarth, Manitoba. Miss Smellie, the youngest daughter, lived with her father. The deceased's widow holds the honor of being the first to form a Woman's Missionary Society in Canada. The late Rev. D. J. Macdonnell was a son-in-law of Dr. Smellie.

LIVED 120 YEARS.

Henry Blankinship of Hopkinsville Said That Was His Age—He's Dead Now.

Hopkinsville, Ky., Nov. 15.—Henry Blankinship, who asserted that he was 120 years old, died at his home near Fairview, 10 miles east of this city, last night, of a complication of diseases. He was born in Virginia, and moved to Kentucky and married a year before the war of 1812, he asserted.

He was the father of 15 children, 11 of whom are still living, the oldest past 80 years of age.

POWER FROM THE FALLS.

Electrical Energy of 10,000 Horse Power Transmitted 26 Miles to Buffalo.

Buffalo, N.Y., Nov. 15.—The first of the mercantile product of electrical energy from Niagara Falls to be put to practical use here reached this city as the clocks finished striking the hour of midnight and the Sabbath had passed away. The quantity contracted for is 1000 horsepower at the "step down" point, which is at the Buffalo city line, twenty-six miles from the source of the power, where the potential is reduced and the current is again put on the wire and carried in o Buffalo to the railway company, which employs it for the propulsion of the cars on the street railway.

ARRESTED IN MONTREAL.

Dr. Ostaldistein and Louise Weissen in Jail Awaiting Extradition.

Montreal, Nov. 15.—(Special.)—Dr. Edward Ostaldistein and a woman named Louise Weissen, who are alleged to have stolen a large quantity of furs in Malone, N.Y., are under arrest here awaiting extradition. Other grave charges are made against the Doctor, who is a taking sort of a man and had already been engaged to deliver several medical lectures in Montreal.

Ganges, London	...	214	..
Total	1701	3036	70

We recommend you to Grafton & Co's. the well-known clothing manufacturers.

TORONTO ACCIDENTS.

Little Boy Run Over and Killed—Child Burned to Death—Young Lady Cyclist's Close Call.

Toronto, Nov. 16.

A fatal accident occurred on Queen-street east, near Morse-street, at 5 o'clock Saturday afternoon, and the victim was little seven-year-old Jimmy Gorman, whose home was with his parents at the corner of Duchess and Parliament-streets.

The boy had been down in the East End and was returning home, and as boys often do, tried to climb on to the back of a wagon to get a ride. He was unsuccessful in his effort to board the rig, and when running clear of it had to turn aside to avoid a couple of bicyclists who were riding along the dev.l strip. In his efforts to steer clear of the bicycles the unfortunate boy did not notice the wagon of Richardson, Queen-street east grocer, and ran right into the horse. He fell, and the animal's hoofs struck him hard on the back of the neck. Willie Graham, a 15-year-old lad, who was driving the wagon, did his utmost to pull up the horse, but the child had come upon the scene so quickly that his efforts were fruitless.

Dr. Rowan was passing at the time, and after the youngster had been extricated from beneath the horse's hoofs, pronounced life extinct. The doctor saw the occurrence and says that no blame can be attached to the boy Graham, as he did his utmost to prevent the accident. Mr. W. J Chick of 107 Morse-street, another witness of the fatality, endorses the doctor's statement as to the efforts of Graham.

Coroner Aikins viewed the remains and issued a warrant for an inquest at the Poplar House on Monday afternoon, but after investigating the circumstances he hardly thinks any inquiry will be necessary, and that the lad's death was purely accidental.

The body was taken into Walton's drug store and afterward removed to the home of the stricken parents.

Wagon and Trolley Collide.

Broadview car 328 was going west on Queen-street at 3.15 yesterday afternoon, and when near the corner of Sackville-street an express wagon belonging to W. Conen, 1017 Queen-street west, was coming east and crashed right into the front of the car. The smash was a terrific one, and in it the wagon was demolished and the car will be laid up for repairs until a new vestibule is furnished it. F. Norton, the driver of the wagon, was cut and bruised, and Motorman M. Rooney was somewhat seriously injured and had to be taken to his home.

A Little Girl Burnt to Death.

About 10 o'clock Saturday morning Georgina, the 5-year-old daughter of Mrs. Frank Scott, of 15 Hagerman-st., was burned to death. Mrs. Scott, when she went to work left her two children in the care of Mrs. Dancey, who lives next door. Mrs. Dancey went to market, leaving the two children alone. Just how the fire, which caused the death of the little girl occurred, is not known. The other child, 3 years of age, was uninjured, although her clothes were nearly burned off her. There was a quantity of dressmakers' paper patterns around which the children had been playing with. Coroner Aikins issued a warrant for an inquest, but subsequently withdrew it.

Lady Bicyclist Injured.

Miss Noden of 80 Seaton-st., was riding on her bicycle Saturday after noon accompanied by her brother, Mr. F. Noden, who was also wheeling. They were crossing Yonge at Richmond-st. when Miss Noden was struck by a College and Yonge car. The fender picked her up and a portion of the big Saturday Yonge-st. crowd rushed forward to rescue her from her perilous position. Before the car could be stopped she fell off the fender and was only saved by Conductor Graham just as the wheels were about to pass over her.

The injured lady was picked up and carried into N. C. Love & Co.,s drug store and Dr. Hamill, who was near by, attended her. She was cut and bruised, and complained of an injury to her back. The police ambulance removed her to her home.

A FARMER'S DISASTER.

Lost His Barn, Grain, Cattle, Horses, Pigs and Implements by Fire on Saturday Morning.

Petrolea, Ont., Nov. 14.—This morning about 2 o'clock the barns belonging to Mr. William Ball, two miles west of here, were discovered to be on fire. The buildings contained about 3000 bushels of grain, seven head of cattle, three horses, five pigs, also a lot of implements, three buggies, hay, straw, etc.; everything was destroyed. Loss about $4000; partly covered by insurance in the Lambton Mutual. Cause of fire unknown.

ASSEMBLE AT SEBASTOPOL

Is the Order Said to Have Been Issued to Russian Naval Officers.

London, Nov. 13.—The Daily News will to-morrow publish a despatch from Odessa saying that an order has been received from the Russian Admiralty at every Euxine port for all naval reserve officers to hold themselves in readiness to assemble at Sebastopol if they are summoned at any time in December. The cruiser Pamyat Merkootia, belonging to the Black Sea fleet, is hastily fitting out to transport troops.

A Knock-Out for Radicals.

Paris, Nov. 13.—The Republican newspapers to-day are unanimous in expressing the opinion that the proceedings in the Chamber of Deputies last evening resulted in the utter collapse of the Radical leaders and in a decisive victory for the Meline Cabinet, whose majority, 324 yeas to 225 nays, on the demand for the vote of confidence, is clearly Republican in character.

Actress' Husband Drowns Himself.

London, Nov. 13.—John Lancaster, proprietor of the Shaftesbury Theatre, and husband of the well-known English actress, Miss Wallis, committed suicide at Blackpool to-day by drowning.

The Queen in Good Health.

London, Nov. 13.—The Queen left Ballater, Scotland, this afternoon en route from Balmoral for Windsor. Her Majesty is in excellent health.

The Wabash Railway Trains running every day in the year between Detroit, Chicago, St. Louis and Kansas City are the finest known to the railway service; they are complete and solid vestibuled from end to end, the entire train being a moving palace of connected apartments, all furnished with the most luxurious elegance and perfection of accommodation known to our builder's art. STEAM CANAL BOATS.

Arthur Sewall, Ex-Vice-Presidential Candidate, and Others Have a Big Project on Hand.

Buffalo, Nov. 15.—Articles of incorporation, which will be filed with Secretary of State Palmer within a few days, will launch a big company, which proposes to restore to the canals of the state the wheat and provision transportation of the West, which has been almost monopolized by railroads within recent years. The scheme is to construct a fleet of steam canal boats and consorts with storage warehouses at convenient points between New York and Buffalo. Electricity, it is said, will be largely employed as the motive power. Negotiations with the Cataract General Electric Company are now pending, and, owing to the fact thta some of the men interested in the latter company figure as incorporators of the former, it is thought that the power generated by Niagara Falls will be used. The promoters of the company are: Arthur Sewall of Bath, Me., the candidate on the Democratic ticket for Vice-President at the last election; Alexander B. Smith, secretary of the Merchants' Marine Association; Erastus Wiman, Edward M. Clarkson of New York, George H. Raymond and Frank Beadle of Buffalo, and the Cramps of ship-building fame. An order for a fleet of 40 vessels will be placed shortly, it is said.

Madill's Emulsion of Cod Liver Oil for bronchitis or long standing cough; pleasant to take; carefully prepared.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket ize contains twenty-five doses only 25c Children love it. Sold by John Nugent, 329 George Street.

"Mikado" Still in the Market.

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blends of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER Millers.

Defying the Probs

AND FORCING THE SEASON.

We Can't Change the Weather

BUT WE CAN CHANGE OUR PRICES.

At no time of the year are we satisfied to sell at regular prices. At no time of the year can we afford to allow unseasonable weather to clog our business. Our stocks must keep on the move. We're constantly running across lots of goods offered to us at Special Prices. That means ample opportunity to discount the trade in Clothing, Boots and Shoes, Hats and Furnishings without any trouble. Please remember that this business is PERSISTENTLY in advance of every other, and that prices here are always, with seldom an exception, the LOWEST.

We start off this week with a double head of steam to Reduce all our prices on all our stock, and make business boom in defiance of the mild weather.

WHEAT'S UP! CLOTHING'S DOWN! We quote below a few sample prices that tell the tale of how well we are loaded up with Bargains all over our two BIG STORES

Men's Clothing.

Men's Clothing at Boys prices. Afew minutes reading will show.

It's the young men's trade we cater to, any if any old men want to look young they should buy their Hats at Gough's.

Footwear.

Surprising Shoe-selling, another proof of the leadership of this best shoe store. Another proof of the helpfulness of its methods. First-rate Quebec Shoemakers were short of work during the summer, and they were glad to sink profits and move on the order we offered—for it bridged them over a bad gap and enabled them to keep their organization together. The Shoes are here:—

500 pairs Women's fashionable toes $1.50 Button Shoes, at	$ 1 50
300 pair Women's $1.60 Fancy Kd button Boots, with pointed toe caps, at	1 19

Ordered Work.

Tweeds and Worsteds must get a quicker move on like everything else. Boom! Boom! all along the Cloth Department. Well dressed men come here—this store appeals to gentlemen of refined taste, and provides most fully for all. Our Fall Stocks of Cloths and Tweeds for custom work will please all who prefer their garments made up to their own measure from carefully selected fabrics. We deny the right of High Prices to exist while this balmy weather hangs on.

Just imagine the condition of things where everything is held for a regular profit until sold. Gough Bros. the progressive and aggressive leaders of Low Prices, make prices the moving power all along the line. "Always Good (and Cheap) at Goughs," but especially during unseasonable winter weather like this.

Gough Bros.

The Wonderful Cheap Men, - 375-379 George Street, Peterborough

AND NOW IT IS

DIFFERENT VIEWS

As to the Matter of Tariff Legislation.

EXPRESSIONS OF LEADING MEN.

Senator Brice Believes Republicans Will be Supported by Some Free Silver Men—Mr. Sherman Has Nothing to Say for Publication—Dingley is Non-Committal.

Washington, Nov. 16.—With a view of ascertaining the views of the leading men in Congress as to the probability of tariff legislation in the next session of Congress, and as to the likelihood of an extra session, the Washington bureau of the United Associated Presses has sought the written opinions of a number of prominent Senators and representatives. The replies received show quite a diversity of views and are exceedingly interesting. A few of them are as follows:

Senator Calvin C. Bryce of Ohio says: "While some of the free silver senators, who have heretofore prevented the passage of the Dingley bill with such amendments as may make certain a sufficient revenue, will, in view of the result of the election, probably vote with their Republican brethren, it is immaterial whether they do or not, as in my opinion a sufficient number of sound money Democratic Senators will assist the Republicans to pass the necessary tariff legislation in the 54th Congress to supply the existing deficit in the revenue. I at least shall vote and I understand that Senator Gorman and a number of others occupy the same position."

Senator Brice's colleague, Senator Sherman, says: "In the present condition of affairs I do not care to express my opinion as to the proper tariff and financial legislation of this or the next Congress."

Senator W. B. Allison of Iowa says: "I hope the Dingley bill will pass with such modifications as may be necessary to secure sufficient revenue to carry on the government. If this can not be done during the 5th it seems to me an extra session of the 55th Congress is inevitable."

Senator Hawley of Connecticut says: "The possibility of adopting a satisfactory revision of the tariff such as might be expected to remain undisturbed at the last session of the 54th Congress seems to me very doubtful."

Senator Walthall of Mississippi says: "I see no reason to justify the expectation that there will be any important tariff or financial legislation at the approaching session of Congress."

Mr. Dingley of Maine, chairman of the House Committee on Ways and Means and leader of the House, refers to his recently published interview, in which he expresses the opinion that there was not the slightest hope of the passage of the so-called Dingley bill by the Senate at the next session of Congress, and that the House would not propose anything further in this direction at the approaching short session. Governor Dingley adds: "This covers all I have to say at present."

General Grosvenor of Ohio says: "I do not believe it possible that any material legislation for the benefit of the country can be passed in the 54th Congress. I do believe that the Republican party will be in a position in the 55th Congress to save the country from bankruptcy and the industries of the country from destruction."

Representative Charles H. Russell of Connecticut, a member of the Committee of Ways and Means, says: "The patriotic and businesslike duty of the coming session of the 54th Congress is to provide revenue for the needs of the government. That should be done by a proper and reasonable increase of customs duties. It could be effected by the adoption of a revenue measure which the House passed at the last session, or some measure on the same lines."

Despite the fact that there is no probability of either this Congress or the next passing a free ship bill the Commissioner of Navigation in his annual report refers prominently to the subject, and urges the necessity for the passage of such a measure.

Although the official figures of the recent election have not in all cases reached Republican Congressional headquarters, the result of the contests in the various congressional districts is known with sufficient exactness to warrant the announcement of a summary of the political divisions in the House of Representatives in the 55th Congress. This shows 207 Republicans, 127 Democrats and 12 Populists.

Upon the question of silver the division is said to be, for free silver, 153; against free silver, 294.

HOT FIGHTING IN CUBA.

Weyler and Maceo Said to be Blazing Away at Each Other. Maceo is Not Afraid.

New York, Nov. 16.—A despatch from Jacksonville, Fla., says: Cipher despatches just received report a fierce battle in progress in Pinar del Rio. It is believed that Maceo and Weyler have met.

Tomas Estrada Palma, the Cuban delegate, has received a letter from General Maceo, dated 12 days ago, which brings reassuring news to the friends of "Cuba libre."

General Maceo says he has not the least fear of the results of Weyler's advance, and that the friends of Cuba abroad should be confident of good fortune, notwithstanding the tremendous efforts the Spanish are making.

"While Weyler was preparing his trocha," says Maceo, "I was making mine also." He describes what he means by his trocha. It is a narrow passage through the mountains and the only way in fact to reach the strong position where the Cubans have their supplies of ammunition, and two factories for making powder and cartridges. The Spanish troops, Maceo says confidently, cannot get to the Cuban stronghold. The passage admits only one man at a time in front, and besides that in the space of half a Spanish league the Cubans have built 400 trenches, and sown them with dynamite bombs. If Weyler could force the pass, Maceo says, he would only meet destruction half way.

"I repeat," said Maceo, "that you ought not to have any uneasiness about me. Even in the case that Weyler could direct against us such an enormous army that I could not meet it in the field in open battle, as I have with success until now, I will resort to guerilla warfare, and dividing my troops into small bodies of fifty men each, I will give hard work to even 200,000 soldiers."

This letter has created much joy among the Cuban patriots here.

THE PECULIAR WEATHER.

Away Up to 70 Degrees in Chicago and Away Down to 22 Below Zero in Montana.

Chicago, Nov. 16.—This was the warmest November day for Chicago in the history of the weather bureau. In the Auditorium tower where lake breezes blew briskly all day the thermometer registered 70 degrees at 2 p. m., but on the streets the mercury reflected the feelings of the uncomfortable people by pointing to 73 and 74 degrees. The weather in this region has been getting gradually warmer since Saturday, yesterday being like a spring day. In Montana it is 22 degrees below zero to-day, and blowing a blizzard. The cold in the west is coming towards Chicago steadily and freezing weather is due Wednesday.

A SCANDAL IN ROME.

Princess Elvira of Spain Captivates a Married Artist and the Pair Skip Out Together.

Rome, Nov. 16.—Newspapers here publish reports of a sensational elopement, which has caused a great scandal in the highest society. Princess Elvira, daughter of Don Carlos, the pretender to the Spanish throne, recently came to Rome to visit her sister, Princess Massimo, she met Count Folchi, an artist, who is a married man with a family, and fell in love with him, with the result that they ran away together. Princess Elvira took with her her jewels, which are valued at $60,000. The whereabouts of the couple is unknown.

FRUITGROWERS SATISFIED

With the Present Tariff So Far as Niagara Township is Concerned.

Queenston, Nov. 16.—At a meeting of the Fruitgrowers of Niagara township, held at Queenston, the question of the tariff as regards fruit was discussed. Among those present were Messrs. William Armstrong, James Sheppard, C. L. Bradley, H. C. Bradley, R. Goring, C. Fisher, James Humphries, W. Andrews, S. Sheppard, F. A. J. Sheppard, R. Currie, H. J. Sheppard, Queenston; R. Thompson, C. Secord, Grantham; Joseph Healey, Niagara. The chair was occupied by Mr. C. Fisher, with Mr. W. A. J. Sheppard as secretary.

Mr. Sheppard expressed his satisfaction with the present tariff and the chairman expressed his concurrence.

Mr. C. L. Bradley thought if any revision was to be made a duty should be placed on bananas and that such a duty would prove beneficial to the fruitgrower.

Mr. Fisher thought so, too. He believed they interfered greatly with the sale of early peaches.

Mr. Armstrong spoke in favor of a higher tariff, and claimed that one of their principal opponents was the Province of Quebec.

It was moved by Mr. James Sheppard, seconded by Mr. W. Armstrong, that the fruitgrowers of this section are satisfied with the present tariff and do not wish any changes made.

Mr. Charles Lowrey was not satisfied with the tariff. He thought the duty on peaches, grapes and berries was satisfactory, but wanted the duty raised considerably on pears and plums, say 1 cent per lb.

Mr. Sheppard's motion was carried, and then Messrs. C. Fisher, W. Armstrong, C. Lowery, H. C. Bradley and James Sheppard were appointed the delegates.

Two B. C. Miners Blown to Atoms.

Illecillewaet, B.C., Nov. 16.—By the accidental explosion of 150 pounds of dynamite at Round Hill mine, six miles east of this place to-day, Charles Berger and Chris. Miller were blown to atoms, and the mine was badly damaged.

To Tax Transient Traders.

Belleville, Nov. 14.—The Executive Committee met yesterday and passed the accounts from the other committees. They will recommend that billiard and pool licenses be increased, and that transient traders be assessed to the full extent allowed by law, that is $50.

NOT YET SWORN IN.

Mr. Sifton Was Ready for the Ceremony

BUT SIR HENRY STRONG WAS ILL.

A Canadian Dairyman From New Zealand on His Way to England. Good Opening for Trade With Porto Rico—The Canadian Emigrants to Brazil Faring Badly.

Ottawa, Nov. 16.—Sir Henry Strong, Deputy Governor was indisposed today, and for that reason Mr. Sifton was not sworn in as Minister of the Interior although he was ready, having arrived from Winnipeg this afternoon. The hon gentleman registered at the Russell House. The Cabinet had been called for 4.30 and shortly before that hour the Premier called at the hotel and warmly greeted his future colleague. They then repaired to the Privy Council office, where several of the other Ministers, including Messrs. Scott, Blair, Fielding, Mulock and Davies, were awaiting them. Sir Oliver Mowat was not present, because he was en route to Toronto, and Sir Richard Cartwright is in Kingston. The Ministers were expecting a summons to the Governor-General's office, but presently word came that Sir Hy. Strong, Deputy Governor, was indisposed. Hence the ceremony of swearing in the new Minister had to be postponed until to-morrow morning. Mr. Laurier informed me that the papers on the school question will be given out probably on Wednesday.

Mr. J. B. McEwan, Dairy Commissioner for New Zealand, is here en route to England, whither he has been authorized by his Government to proceed for the purpose of reporting fully on the outlook there as regards New Zealand dairy products. Mr. McEwan is a Canadian, and was for some years a member of Prof. Robertson's staff. It was largely on the recommendation of Prof. Robertson that Mr. McEwan secured his present position over the heads of a large number of candidates. It is just two years since he assumed the position of Dairy Commissioner in New Zealand, and during that time he has organized dairy work in that colony largely along the lines laid down by the Canadian Agricultural and Dairy Commissioner. Up to the present time the New Zealand Government has not given any direct help to farmers and dairymen in the way of bonusing dairy products, but it is a stipulation in the Dairy Products Act of New Zealand that all butter for export must go through the cold store houses provided by the Government, the freezing charges, amounting to about half a cent a pound, being assumed by the New Zealand Government. Last year the colony exported, chiefly to Great Britain, about 3500 tons of cheese and 3000 tons of butter, valued at about $2,000,000. The method of distribution in Great Britain, however, is very unsatisfactory, and it is with a view to remedying this that Mr. McEwan purposes spending some months in the Mother Country. He will also study the requirements of the British market and ascertain what other countries are doing.

Captain Spain, of the fisheries protection fleet, returned from the Maritime Provinces to-day. Most of the cruisers have been laid up for the season. Captain Spain states that the catch of fish this year will be considerably below the average, owing to bad weather. The fishermen had fairly good luck in the spring, and also during the past two or three weeks, but during the summer they had a pretty hard time of it. There is quite a change taking place in the American fishermen, the destructive seiners are being withdrawn and giving place to hook and liners. There were about 100 of the latter off the coast this year, as compared with about 20 seiners. Two or three years ago the numbers were reversed. The change is due to the heavy expense entailed in fitting out a seiner, as compared with a hook and liner. Last year a clause was inserted in the modus vivendi licenses, stating that any licensed American vessel found selling stores to a vessel not having a license would be debarred henceforth from procuring supplies in Canadian ports. This has had a most salutary effect, compelling vessels which hitherto "divvied up" with one or more vessels, to take out licenses themselves. Only 45 licenses were issued in 1895, as against nearly 90 this year. Only one seizure was made this year, the Frederick Geering. Captain Spain is delighted with the way in which the new schooner, the Osprey, turned out. The vessel is 124 feet long, beam 25 1-2 feet, hold 13 1-2 and a main boom of 72 feet, and carries 2227 square yards of canvas. She can make over 14 knots an hour in favorable winds and simply walk around any of the Yankee fishing schooners.

Mr. C. H. Hamilton of the Northwest Trading and Transportation Co., which owns nearly all the steamers on the Yukon River, was in town to-day on business with the Customs and other departments. He states that some of the miners have done fairly well this year on the Yukon and tributaries, while others have had hard work to earn a living. Mr. Hamilton has great faith in the gold resources of that far away district, and carries with him a little nugget, which, in its natural state, contains 18 oz. of gold and is valued at over $200. Mr. Hamilton met Mr. Davis, ex-M.P., the new Collector of Customs, at Fort Cudahy, on his way up the Yukon River.

Commander Wakeham, International Fishery Commissioner for Canada, paid a flying visit to Ottawa to-day to consult the Minister on certain matters of departmental work. He returned, however, to Washington to-night. Captain Wakeham states that the report of Mr. Rathbun, his American co-commissioner, and himself will be a united one, both commissioners being agreed upon their recommendations.

Coroner Freeland has asked Acting Crown Attorney Lees to investigate into the death of James Watterson at Limebank, who was found dead in his bed on Friday last with his throat cut from ear to ear. The theory that Watterson suicided is not accepted, as no knife or other sharp instrument was found near the body, such as would be used in ending his life.

Bank

President Isaac Lewis of Sabina, Ohio, is highly respected all through that section. He has lived in Clinton Co. 75 years, and has been president of the Sabina Bank 20 years. He gladly testifies to the merit of Hood's Sarsaparilla, and what he says is worthy attention. All brain workers find Hood's Sarsaparilla peculiarly adapted to their needs. It makes pure, rich, red blood, and from this comes nerve, mental, bodily and digestive strength.

"I am glad to say that Hood's Sarsaparilla is a very good medicine, especially as a blood purifier. It has done me good many times. For several years I suffered greatly with pains of

Neuralgia

in one eye and about my temples, especially at night when I had been having a hard day of physical and mental labor. I took many remedies, but found help only in Hood's Sarsaparilla which cured me of rheumatism, neuralgia and headache. Hood's Sarsaparilla has proved itself a true friend. I also take Hood's Pills to keep my bowels regular, and like the pills very much." ISAAC LEWIS, Sabina, Ohio.

Hood's
Sarsaparilla

Is the One True Blood Purifier. All druggists. $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are prompt, efficient and easy in effect. 25 cents.

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month, $2.00 for six months.

Daily Examiner.

TUESDAY, NOVEMBER 17, 1896.

THE MAIL AND MR. TARTE.

The Mail and Empire has been adorning its editorial pages for some time past with alleged humourous paragraphs, insinuating, on the part of Hon. Mr. Tarte, in connection with his Northwest tour, epicurean eccentricities and [illegible] state, that are hardly consonant with the democratic simplicity that our circumst[illegible] this country demand. In effect the Mail has been inferentially, when not specifically, charging Mr. Tarte with gluttony and wine-bibbing, using the authority of a Rev. Mr. Fairlie. Not being conversant with the facts, one was inclined to regard the Mail's attacks on Mr. Tarte as practice exercises with the long bow, and circumstances prove that that view was correct. Now, the Winnipeg Tribune gives an explicit denial to the charges brought by a Rev. Mr. Fairlie, and published in the Mail, against Mr. Tarte and his party, to the effect that their visit to an Indian school in that province was of the nature of a "jamboree." The Tribune declares that Mr. Tarte and a number of the other leading public men who were present at the luncheon in question did not taste any kind of liquor at all, that others in the party did so very sparingly, and that there is not the slightest excuse for the gross charges and insinuations which have been made, either against Mr. Tarte or anyone who was with him. Mr. Tarte since his assumption of office, has developed an ability and energy that have made him popular. This and his enthusiastic reception in the Northwest evidently indicated to the organ that Mr. Tarte was becoming altogether too popular and that a systematic scheme of blackguardism and calumny were the indicated needs of "political exigencies." The Mail and Empire by the course it is pursuing towards Liberal public men, is bringing about the condition that leads to its attacks being regarded as anything but fair and honourable criticism. Retailing vulgar scandals is far removed from the proper province of high class journalism.

EDITORIAL NOTES.

A BRYAN journal claims that if it had not been for the foreign vote "free silver" would have carried the day. And now it is in order to withdraw a good many of the hard things that have been said about the "foreign element" in the United States.

To the chorus of approval from journals of all shades of political opinion of the wisdom of th appointment of Messrs. Cox and Mills to the Senate, the Hamilton Spectator contributes the following brilliant and high-toned criticism:—"What with Sir Oliver Mowat's stuttering and David Mills' buzzsaw speeches, the Senate will soon be a favourite place to keep out of." Such elegant language, while it may not seriously injure the gentlemen mentioned, must have a tremendous effect in advancing the fortunes of the great Conservative party.

THE Montreal Gazette having been sneering at the fact that certain Liberal ministers have seen fit to travel on official business in private cars, the Quebec Telegraph invinvites its attention to "the remark of one of the most experienced and popular of the Grand Trunk officials, who was present in the rotunda of the Chateau Frontenac on the night of the Laurier banquet, Said this gentleman, referring to the little change affected in Mr. Laurier's modest unassuming habits by his elevation to the highest office in the gift of the country: 'Why, he takes his seat as usual in the common parlour car like any ordinary traveller, and his great desire is to have no fuss made over him. I have taken the liberty of speaking to him several times about the propriety of his using the special car that has always been placed at the disposal of ministers, but he has invariably put me off with the remark that the public parlour car was good enough for him.'"

McKINLEYISM and Bryanism in the United States seem to be directly antagonistic. But at bottom they have much in common—both aim to levy contributions on the public at large for the benefit of private individuals or private corporations. A writer in the Montreal Herald points out the features of resemblance. McKinleyism is the proper name of a system which through protective laws increases the prices and profits of manufacturers by subsidies derived from the earnings of tax-payers. By the plan of duties and bounties the people are made to pay an increased price for all the necessaries of life in order to build up the wealth of the protected classes. Bryanism is the same thing with silver substituted in the place of wool, copper, lumber, glass and iron. Bryan demands coinage laws that will produce the same profit for the silver miners that the wool, iron and copper producers derive from protective laws of the McKinley model.

AN INTERESTING CASE.

Writ Against Major Denison for $1000 in Connection With a Pitch-in Near London.

London, Ont., Nov. 16.—Mrs. J. B. Jennings and Mrs. Geo. Pelton have instructed their solicitor, Mr. P. McPhillips, to issue a writ against Major Denison, late of No. 1 Co. R.R.C.I., Wolseley Barracks, but now of No. 2 Co., Toronto, claiming $1000 damages for injuries arising out of the unfortunate pitch-in on the Proof Line-road of a fortnight ago. It will be remembered that Major Denison's horse got beyond control while being driven on to the road from the Kennels driveway, and ran into a carriage in which the complainants were seated, throwing them, breaking Mrs. Pelton's arm and otherwise injuring both the ladies. The injured parties claim that the Major was "negligent and unskilful," and, further, that "he was not in a proper condition to drive." The London Hunt Club is made co-defendant in the action, which will be heard before the January Assizes.

WHO IS THIS MAN?

He Was Run Over in the London Yard by a Train and Mangled Beyond Recognition.

London, Ont., Nov. 16.—An unknown man about 50 years of age, apparently a working man, was run over by an east-bound freight at the Clarence-street crossing of the G.T.R. about 6 p.m. and mangled almost beyond recognition. Up to mindnight his identity had not been ascertained. Coroner Flock will hold an inquest in the morning.

TO FORTIFY ESQUIMALT.

A Despatch as to Britain's Intention to Make the Fortress Impregnable.

Chicago, Nov. 16.—A special from Victoria, B.C., says: Having made Esquimalt and Victoria, B.C., impregnable by land defences, the British War Office is now moving to make the former one of the strongest strategic points in the Empire. Private advices from Admiral Stephenson say the North Atlantic and North Pacific squadrons are to be rehabilitated at once. At Esquimalt the flagship Imperieuse, an armored twin screw cruiser of 8400 tons, is the only modern vessel, the five others being two third-class cruisers, two screw sloops and one gunboat. It is the intention to replace Satellite, one of the third-class cruisers, at once by Phaeton, a second-class cruiser of 4500 tons, and at intervals of a few months each of the others will be replaced by a modern steel armored cruiser, heavily armed and speedier than the present vessels. Three torpedo boat destroyers will be attached to the flagship.

At Halifax the present fleet will be reinforced by the Terrible, one of the first-class cruisers, of 14,000 tons, and a similar vessel will come to Esquimalt with three attendant torpedo boat destroyers. This will make a force of 5000 men at the station there under charge of the Admiral.

As to the Atlantic there will be two fleets, one at Halifax, and one at the West Indies, instead of one fleet summering north and wintering south. These will comprise the heaviest naval force maintained by Great Britain away from home waters, and the South African fleet may act with these in either ocean to protect a reliable route should any European power close the Sues Canal.

Plans are now being made, it is said, to provide protection along the line of the Canadian Pacific Railway, whenever great damage or delay might be caused by action of a hostile power.

Raid by Dervishes.

Suakim, Nov. 16.—Dervishes have raided the country in the vicinity of Tokara, killing five men and stealing a number of cattle. Troops have been sent in pursuit of the raiders.

REBUILDING

The Old and Broken-down House.

Keeping the Structure in Good Condition.

Filling it With Health, Comfort and Happiness.

When a house becomes dilapidated and beyond the possibility of repair, it is removed to make room for a structure that will have strength and permanency.

Our bodies, when not properly cared for, become frail, weak and broken-down, and when the work of rebuilding is not commenced in time, death surely claims the wasted and worn-out frame, and it is removed forever.

Can we rebuild our wasted bodies? Yes; the work can be done even though the spark of life glimmers but fitfully and feebly. This work of rebuilding is done through the use of Paine's Celery Compound, that marvellous medicine which has brought new life to so many in the past. This heaven-sent remedy acts directly on the great nervous system, giving new strength to every nerve, makes fresh vitalizing blood, increases weight, and gives fresh power to every bone and muscle.

When this is accomplished by Paine's Celery Compound, it is easy work to keep the rebuilt house or human structure in good condition. Ordinary care in diet, sleep and general living will surely keep up the good work. Then will the rebuilt man or woman be filled with true health, comfort and happiness, and life will be worth living.

Will you, dear reader, rebuild your broken-down system? The work can be accomplished by you if you call to your aid Paine's Celery Compound. No physician is required to aid you, and you have no heavy bill to meet after you are made well and whole. The work has been done for thousands of others; will you have your share of the good that it bestows?

All Women

Have Confidence and Faith in Diamond Dyes.

No distrust, no fear, no disappointment when Diamond Dyes are used for home dyeing.

The little child and experienced housewife know that the Diamond Dyes are reliable, and therefore use them with perfect confidence.

It matters not how heavy, coarse, light or fine your materials may be; if you follow the short and plain directions, success is yours, as far as beauty, brightness and fastness of colour are concerned.

If you would study economy in time and money; if you would avoid failures, see that your dealer gives you the Diamond Dyes when you ask for them. Do not allow any storekeeper to foist on you his poor and worthless dyes which are put up to imitate the popular Diamond Dyes.

MR. G.R. BLOUNT, Methodist minister, Dresden, Ont., says: "After a prolonged attack of La Grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

Constipation Cured.

Gents,—I was in very poor health for over four years; the doctor said it was constipation. Not wanting to spend too much cash I got three bottles of B.B.B. and took it regularly, I can certify that I am now in the very best of health and feel very grateful to B.B.B.

ALFRED TARDUX, Montreal, Que.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill, druggist.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagyard's Pectoral Balsam.

R. R. PHILP & CO.

370 GEORGE STREET.

Some Interesting Details.

The B. B. B. Pipes now in use would form a chain long enough to go around the great Ferris Wheel, which was at the World's Fair, 200 times.

Each B. B. B. Pipe in course of manufacture passes through 40 hands.

The total quantity of Tobacco used in B. B. B. Pipes since their introduction amounts to 3000 tons, assuming that each Pipe sold uses 1 oz. Tobacco per week, and that each Pipe has been used one month.

The B. B. B. Pipes now made if placed one on top of another would reach 1000 times to the top of Notre Dame Cathedral, Montreal, and if stood upon their stems would reach the summit of a mountain 44 times as high as Mount Everest.

Call and examine my new assortment of B. B. B. Pipes which arrived per steamer "Queensmore," direct from the manufacturers in London, England, yesterday. The stock cannot be equalled in Canada and the assortment of Smokers' sundries will dazzle the eyes of some of our smaller dealers.

There is only one Tobacconist here who handles Cigars, Tobaccos and Pipes direct from the English and Havana makers, and that is

ment of Trade and Commerce was issued to-day. It contains financial and customs returns for the period from July 1 to Sept. 30, also the new tariffs for Barbadoes, British Guiana, St. Lucia, Western Australia and amended tariffs for Bahamas, British India, Cape of Good Hope, Jamaica, Lagos, Natal, Queensland, etc. There are also interesting reports from Commercial Agents Larke, in Australia, Horsford of St. Kitts, Tripp of Trinidad, McLeod of British Guiana and Sontum of Denmark.

Capt. McElhinney, Nautical Adviser of the Marine Department, leaves to-morrow for Kingston to take command of the steamer Petrel, chartered from the Collins Bay Rafting Company for service between Capes Traverse and Tormentine during the winter. Capt. McElhinney will take the Petrel as far as Pictou and see her equipped for the winter's work.

Mr. Davies is perfecting plans for an expedition to Hudson's Bay, for which a sum of $3000 was included in the estimates last session. It is proposed to charter one of the Newfoundland fleet of sealing steamers, which are specially constructed and equipped for ice navigation. It was one of these vessels that Lieutenant Peary utilized in his last scientific and exploring expedition in Arctic waters. The object of the Canadian expedition is not only to determine the navigability of the Bay and Straits, but to collect information regarding the fishery resources of the Bay and flora and fauna of the Hudson Bay littoral. Representatives of different sciences will accompany the expedition.

The Department of Trade and Commerce has received an interesting report from the British Consul at Porto Rico. He points out that there are great possibilities for Canadian trade with that Island, although a great drawback is excessive rates of freight charges by Canadian railways, a barrel of flour paying 14 cents more to Halifax than to eastern ports of the United States. Ocean rates are the same from Halifax to Porto Rico as from New York, and a regular line of steamers between Halifax and Porto Rico has been started; the Consul believes a good trade could be built up if Canada were placed on even terms with the States.

Sad news is to hand respecting the Canadian emigrants who recently went to Brazil. Several have been stricken down with fever, and two of them, both Montrealers, have died. A well-founded suspicion prevails that the Brazilian authorities scrutinize letters sent from this country and stop those which speak of the hardships of these immigrants.

Senator Temple was here to-day on his way from Toronto to the Maritime Provinces.

Mr. Miall, Commissioner of Inland Revenue, is on the sick list.

Commander Spain leaves for Owen Sound on Wednesday to take a look at the Petrel and Dolphin before they go into winter quarters.

The Customs Department is advised of the seizure of ten barrels of whisky which were found on board a fishing schooner at Gaspe.

Sir Oliver Mowat left for Toronto this morning.

Sir Richard Cartwright leaves Kingston for Toronto to-night.

A chart of the whole of Georgian Bay, embracing several seasons' observation work of Commander Boulton and Mr. Stewart, has just been issued by the Admiralty. It is very full and clear, and will prove of great value to navigators.

To-morrow Sir Casimir Gzowski, K.C.M.G. to Her Majesty, will be sworn in as Administrator of the Government of Ontario during the absence of the Lieutenant-Governor of Canada.

A. C. Campbell of the Hansard staff has been appointed stenographer to the tariff investigation commission.

Fred. J. Boswell took action against the Government in the Exchequer Court for $25,000 damages for injuries he sustained in Banff Park, claiming that the accident was due to negligence on the part of the park officials. To-day Judge Burbidge dismissed the case, holding that Park Superintendent Stewart was in no way responsible.

Mr. Davies leaves for the Coast next Monday.

Chas. Fagan, constable at the C. A. Railway Station, who was caught Saturday evening robbing the till in the station ticket office, appeared before the Police Magistrate this morning and was remanded till to-morrow.

The Ottawa Gas Co. has decided not to appeal against the civic assessment on its mains, but will await decision of the courts on the Toronto Gas Co.'s case.

Messrs. Fielding and Paterson left for Toronto to-night to commence the tariff investigation. Mr. F. O'Hara, Sir Richard Cartwright's private secretary, also left for Toronto.

The City Council to-night, by a vote of 12 to 8, decided to adopt the Curfew bell bylaw for the Capital. Children under 14, unaccompanied by parents or guardians, must be off the streets by 9 p.m.

The Premier promised to-night that all the morning newspapers shall receive the terms of the school settlement simultaneously. This course was pursued by the late Government with respect to the Remedial order.

Messrs. F. Adler and A. Hill of London, England, had an interview with the Premier to-day regarding asbestos mining in the Eastern Townships.

Major Powell, Ottawa's Chief of Police, as a result of his visit to Toronto and other western cities, has recommended adoption of the patrol system in connection with the police force.

J. P. Whitney, M.L.A., is in the city.

A petition for the release of J. R. Hooper, formerly of Port Hope, and now serving a life term in Kingston Penitentiary, has been received by the Minister of Justice.

A TERRIBLE SCENE

Seven Persons Went Insane Over Religion.

FATHER, MOTHER AND CHILDREN

Stricken With the Mania—The Father Started to Drive the Devil Out of His Son and Nearly Killed Him—Part of the Family Sent to the Asylum.

Bowmanville, Nov. 16.—(Special.)—One of the most remarkable cases of epidemical insanity known to medical science, so we understand, has just transpired at Long Sault, a little back township hamlet ten miles north and east from Bowmanville—a most lamentable occurrence that has temporarily, at least, wrecked what has heretofore been a proverbially happy household.

of Darlington, in the county of Durham, situated on a well-ordered two hundred acre farm is the home of Mr. and Mrs. Elijah Rice, parents of fifteen children, all living at home, and, up to a few days ago, comparatively healthy. To-day the father, mother and five of the oldern children are mentally deranged, and the father and eldest son are patients in the Rockwood Infirmary at Kingston, it is feared hopelessly insane. One great mystery surrounding this sad affliction is that no one can account for the terrible malady.

The Rice family, prior to this melancholy episod in their history, has been regarded as one of the most intelligent and respectable in that community. Both parents are above the average in general intelligence, and they have given their children, so far as they have had opportunity, regular and satisfactory schooling at the Public school ner their home. On every Sabbath day when there was preaching at the Long Sault Methodist Church one of the commendable sights was to see Mr. and Mrs. Rice, accompanied by the majority of their three-fourths of a score of children, all cheerful, well and becomingly dressed, wending their way in groups to the house of worship. At the Sabbath school they were equally regular and always well-behaved and interested scholars. Indeed, in their demeanor in the comfortable home and away from home they were exemplary to a degree that has frequently elicited favorable comment. The Rice farmstead was also remarkable for its open door and generous hospitality, and many were the participators in it. Mrs. Rice was an exceedingly industrious little woman, in her person and her home the acme of neatness and cleanliness, and manifested an anxious desire always that her unusually large family should appear as respectable and attractive as possible consistent wth their work and circumstances. Mr. Rice was rather proud of his children, but ruled them with firmness and reason. He was a great reader and his children gave evidence of intelligence resulting from the familiar intercourse with their parents in the family circle By unceasing industry and careful management they were making some financial progress besides raising and educating this large family.

A short time ago the eldest son, Lewis, hinted to his father that he was thinking of setting up farming on his own account, but Mr. Rice expressed his disapprobation somewhat emphatically, and Lewis felt considerably depressed in spirits over his father's discouragement of his proposal. He did not openly demur very much, but felt keenly the situation, and was noticed to devote more time and consideration than ordinary in reading his Bible. One day, after having his attention rivetted on the Fifth Commandment, he expressed concurrence with his father's opinion on his proposition, and matters seemed to be satisfactory all round. This state of things was soon again disturbed, however, for Lewis became possessed with the belief that he was more than an ordinary man; in fact, that he was "the Prophet of the Sand Hills," this appellation being no doubt suggested by the nature of the soil in that vicinity. He further announced a commission he had received. Jesus Christ was not a perfect man, he claimed, but by His death He had made him (Lewis) a perfect man, and he was going to adjust the affairs of the nation. His mother remonstrated with him and he became somewhat violent. His father then undertook to drive the Evil Spirt of which he believed him to be possessed out of him, and belabored him with a chair so determinedly that he cut his head in four or five places clean to the skull and pommelled him, choked him and otherwise abused him, so that he was nearly killed.

By this time the father was very much excited, and a general jubilee of rejoicing occupied the remainder of the night, this initiation of the lamentable episode taking place shortly after 9 p.m. Lewis, who had been stunned so badly by the blows, began to revive about midnight, when the poor, demented father went at him again, saying he must subdue the devil.

The Rice homestead is quite a distance from any other house, so that they remained undisturbed in their maniacal jubilations all night, and when morning dawned the strain of mental tension, mingled with horror and grief, was so intense that father and mother, the two elder sons, aged 21 and 19 years, and the two elder daughters, aged 20 and 17 years, like Lewis, the eldest son, were all victims of this dementia or religious mania. They claimed that the trouble was due to the power of the devil trying to overcome the power of God. The father, therefore, imagined that he was taking the proper means to kill the power of the devil. During the night, when the work was accomplished to their satisfaction, they undertook to celebrate the Feast of the Passover, and such a period of shouting, singing and rejoicing was seldom or never before witnessed under similar distressing circumstances.

Tuesday morning, after a sleepless night, in the Rice household, with poor Lewis laid out on the bed with blood running freely from his unwashed and undressed wounds, some of the members went to W. R. Clemens, a neighbor, where the young minister of the Long Sault Church boards, to tell him that Lewis had been liberated from the power of the Evil Spirit, as they knew he had been praying for Lewis and would be glad to hear the news. Those who saw the excited brothers and heard their incoherent and unintelligible description of the process of deliverance little realized how nearly a tragedy had been enacted until they visited the Rice home. Then a shocking sight met their astonished eyes. In the dining room every article in it and the walls were covered with blood, and in the next the insane Lewis was lying on a bed with his gaping wounds undressed, and weakened by the beating and loss of blood. A messenger was despatched for Dr. J. C. Mitchell, Enniskillen, who arrived during the afternoon and dressed the young man's wounds and arranged for the neighbors to take turns in guarding and protecting the family until necessary papers could be filled out for sending the worst victims to a place of security. The elder members were then quite demented, all of them laughing and in high glee with each other. A consultation was held on Thursday between Drs J. W. McLaughlin, Bowmanville, and Dr. Mitchell, Enniskillen, and they decided to send the father and son Lewis to the Kingston Infirmary for treatment. So on Friday Chief Jarvis proceeded to Long Sault and induced the two to accompany him quietly to the station, and he succeeded in taking them without any trouble to Kingston. The other members are remaining quiet, and it is thought by the doctors will after a time regain their mental balance.

The demand for Ayer's Hair Vigor in such widely-seperated regions as South America, Spain, Australia, and India has kept pace with the home consumption, which goes to show that these people know a good thing when they try it.

BLAZE AT MIDLAND.

A Burning Brand Also Set Fire to a House Half a Mile Away.

Midland, Ont., Nov. 16.—During a gale on Saturday at midnight, the stables in connection with the American Hotel here took fire and were burned to the ground. In the ruins lie the roasted carcases of a valuable driving horse, a cow and some pigs. Loss over $1000, insurance $400. In the rear of the stable was a storehouse, containing 48 barrels of coal oil, which was under the charge of C. M. Peters, hardware merchant. This building and contents were burned. Three G.T.R. freight cars, on the track close to the stables, were burned. The surrounding property escaped, because the high wind whirled the cinders into the air and carried them until they expired. One cinder was an exception, for it traveled half a mile and fired and burned the home of Archie Campbell, a fisherman. Loss $2000, insurance $1300. Nothing was saved. The main fire was in the district covered with millions of feet of lumber, but the Midland fire department is one of the best-equipped among the volunteer corps of Ontario.

Rheumatism is caused by lactic acid in the blood. Hood's Sarsaparilla neutralizes the acid and cures rheumatism.

Children's Aid Society.

The canvasser for the sale of tickets for Rev. Dr. Milligan's lecture is now making his rounds. Those who wish to help the Children's Aid work have now an opportunity of doing so. The reverend gentleman gives his services free, and it is hoped that the people of the town will realize how necessary their assistance is to the success of the care of neglected children. The date of the lecture has been set for the evening of Tuesday, Nov. 24th, in St. Paul's church. The Society wishes to acknowledge the receipt of five dollars from one lady and one dollar from another. Both contributed without being solicited, but simply through having become acquainted with the nature of the work which the Society is doing.

A HARVEY WEDDING.

Celebration of the Nuptials of Miss Ella E. Moore and Mr. Harry Brumsell.

A very pleasant time was spent at the residence of Mr. and Mrs. Quinlin Moore, North Harvey, on Wednesday evening, Nov. 11th, on the occasion of the marriage of their daughter, Miss Ella E., to Mr. Harry Brumwell.

The ceremony was performed by Rev. J. W. Shier. The bridesmaid was Miss Etta M. Brumwell, sister of the groom, and the groom was assisted by Mr. W. Moore, brother of the bride.

After the customary congratulations the company were invited to the dining room and seated to a sumptuous repast, to which they did ample justice and last, but by no means least, "The Bride's Wedding Cake" as a toast, was proposed and was eagerly greeted.

After the guests had enjoyed themselves well into the small hours, refreshments were passed around and the assembly dispersed, each wishing Mr. and Mrs. Brumwell success and happiness. A number of useful and valuable presents were received.

HUNTING NOTES.

Return of the Roy-Rutherford Party With Nine Deer.

The Roy-Rutherford hunting party returned from the Gold Lake region, last night, after enjoying two weeks amongst the deer.

They had the good luck to shoot nine deer, five being bucks. Half a dozen others were shot, but escaped, and consequently the party are not favourably disposed towards the new amendments to the game laws.

The weather has been very rough in the north country and although the camp was pitched two weeks ago only eight days could be spent in hunting. The partridge are reported to be very thick, and if the hunters had taken their shot guns along with them whilst tramping to their different posts each day a big bag could have been secured each trip.

The party were most unfortunate in losing three dogs—Sam Ray's "Pete," and one of Jack Robinson's hounds, but as the former is an old stager on this ground he may be expected home any day. The other dog was Tom Rutherword's "Tip," and was hung on the way home, being tied under the wagon.

The party was composed of Messrs. Sam Ray, Thos. Rutherford, Wm. Snowden, Arthur Blade, Martin McFadden, T. E. Boddy and Larry Steele, and their luck is the best reported so far this season.

A Bobcaygeon hunter named Traynor had the good fortune to kill two fine deer with one bullet the other day. While out shooting near Bass Lake he saw the fresh tracks of two deer in the light snow and by careful stalking he got within range while the deer were standing together taking wind. His bullet went through the neck of one and in behind the shoulder of the other. The carcases were shipped to Lindsay this morning, one being purchased by Mr. F. Taylor, of the "Big 20" restaurant, and the other by Mr. J. Appleby for shipment home.

PERSONAL

Mr. E. B. Edwards is in Toronto on business to-day.

Conductor and Mrs. Pym, of Haliburton, are in town spending a few days with friends.

Mr. Arthur Allan, of Bowmanville, is visiting at the residence of Mr. W. Sharpe, George street.

Mr. George Edwards, of Denver, Colorado, is visiting his brother, Mr. E. B. Edwards, town.

"Money and Risks," a Toronto financial journal, supplies with this issue the most strikingly perfect portrait of Hon. Geo. A. Cox of the many that have been issued since his elevation to the Senate.

The Lindsay Post says:—"The Rev. J. W. Shier, of Bobcaygeon, passed through town to-day on his way home from Peterborough, where he occupied the pulpit of the Charlotte street church yesterday."

Dr. Kempt, of Peterborough, says the Lindsay Post, was in town to day, and received many hearty hand-shakes and congratulations from his numerous friends on the improvement in his health and eyesight.

Mr. Will Milne, who for the past seven years, has been connected with the THE EXAMINER office, leaves in the morning for Chicago. Will was a great favorite in town, and will be missed from his old position as point man on the printers' hockey team this winter.

Mr. Harry Phelan has joined his wife in Ottawa, where she has been for some weeks, being called there by the serious illness of her father. Mr. and Mrs. Thos. Brophy are also in Ottawa on the same errand, Mrs. Brophy being a daughter of Mr. Nagle, also.

See Grafton & Co's fine line of Double Breasted Beaver Overcoats, in blue and black $5.50, $7.50 and $10.

Madill's Cough Syrup

For coughs, colds or sore throats. Cure guaranteed.

C. H. Dorenwend Coming.

He will be here for one day only with a large stock of his famous goods. If you want a good truss or electric belt, or are deformed, see him while he is here. Read his advertisement.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Thanksgiving Entertainment.

The annual Thanksgiving concert and entertainment under the auspices of Courts Peterborough and Langton, Canadian Order of Foresters, will be held in Foresters' Hall, Simcoe street, on the evening of Thanksgiving Day (Thursday, 26th November). A first-class programme will be presented by the Williamson and Benson entertainment company, and a thoroughly enjoyable evening may be expected. Tickets 25c.

A Peterborough Boy Returns.

Commencing next Monday night, the Myra Collins Comedy Company open a week's engagement at the Opera House. This is a first-class company, playing at hard times prices, 10c and 15c. Dan Simons, who has pleased the Peterborough public on many occasions, is with this company, and the papers speak of him as a being a very clever comedian and wonderful dancer. Don't forget the opening next Monday night. 1d

She Has no Authority.

A woman is reported to be going about town collecting clothing, ostensibly for the poor, and using the name of Rev. J. C. Davidson, rector of Peterborough. Mr. Davidson has given her no such authority, and only gives his sanction to any person asking contributions for charitable purposes over his signature. To prevent imposition, any person on whom the woman calls might communicate the fact to the police.

PETERBOROUGH ENTERS THE SENIOR SERIES.

Our Hockeyists Aspire to Higher Honours.

NOT CONTENT WITH WINNING THE INTERMEDIATE CHAMPIONSHIP TWICE, THEY JOIN THE SENIORS.

The Local Club Will Put Three Hockey Teams on the Ice This Winter, and Make an Effort to Land the Senior, Intermediate and Junior Championships.

The annual meeting of the Peterborough Hockey Club was held last evening at the Oriental Hotel, and the attendance was such as to assure the greatest enthusiasm, being far ahead of that of any previous year and embracing the followers of every sport in the calendar. Verily from the appearance of things, all Peterborough will be on skates this year.

In the absence of Mr. H. S. Greenwood, the chair was taken by Mr. H. R. H. Kenner, the Vice-President.

Perhaps the most important business which was transacted during the evening was the decision which was arrived at, to enter a team in the senior series.

The subject was introduced by Mr. Geo. J. Horkins, who invited discussion on it, and discussion there certainly was for over an hour. The idea was strongly opposed by the chairman. He pointed out that if Peterborough could not win in the intermediate series last year it would be the essence of assurance to enter the senior league, and claimed that the University teams being picked from the best men of the country would

HAVE NO TROUBLE

in disposing of Peterborough on the ice.

In combating these views the advocates of the idea brought forward the plea that it was through unfair treatment that they were vanquished last year. That in the final match with the Granites in Toronto one player had his arm broken, another carried off the icefinsensible, and a Granite man after being put on the bench for a breach of the rules jumped into the game again at a critical point, without permission from the referee, who was decidedly partial in all his decisions. These and other reasons were mentioned as accounting for the failure of last year. It was mentioned that Peterborough would never have a chance to try its mettle against a senior team unless the upper league was entered, as in playing the Peterborough's at present the seniors would have everything to lose and nothing to gain. If they won it was no particular credit to win from an intermediate team, and if the game was lost to them it would make them a laughing stock. The only way therefore to test the Peterborough's was to enter them in the senior series. If the first match was lost they were not disqualified for the intermediates, but could drop back, as one game with the seniors did not disqualify them as intermediates.

These arguments were sufficient to

CARRY THE MEETING

by storm, and it was decided to aspire to the highest honour in Ontario Hockey Association circles—the senior championship of the province.

The membership of the club promises to be so large this year that it was decided to take the hockey rink for the six nights of the week and to place teams in the intermediate and junior series.

In picking the members of these teams the Executive Committee assumes a grave responsibility. Some very serious errors in judgment were made last year and it is hoped a repetition of them will be averted this year.

The report of the Secretary-Treasurer showed that nine matches had been played during the year, resulting as follows :

Date.	Teams.	Score.
Jan 10—	Peterborough vs Lindsay	12—1
Jan 18—	" vs Norwood	12—4
Jan 23—	" vs Volts	8—3
Feb 13—	" vs Kingston	13—1
Feb 25—	" vs Trenton	8—2
Feb 28—	" vs Toronto Granites	3—7
March 11—	" vs " Wellingtons	17—2
March 19—	" vs Ottawa Electrics	2—3
March 26—	" vs Cobourg	9—2

As will be seen two matches were lost during the season, viz., those against the Granites of Toronto and the Electrics of Ottawa.

THE TREASURER'S STATEMENT

was as follows :

Receipts.

Membership fees	$120 00
Lindsay game (not received yet)	2 25
Norwood game	74 00
Volts game (net)	4 00
King tea game	125 45
Toronto excursion	42 05
Granite match (net)	27 58
Wellington match	47 75
Electrics	59 75
Cobourg	10 50

EXPENDITURE.

Rink for Norwood match	$ 18 50
Review	5 00
W Stocker	2 00
Supper	6 00
Norwood team	6 50
L King's expenses from Toronto	9 35
Rink for Kingston match	31 50
Expenses Kingston team	35 00
Supper	6 00
Richardson (referee)	9 50
L King	5 00
Asse (referee)	5 00
Review	9 70
Times	1 50
W Stocker	5 50
Expenses for Wellingtons	29 00
W Stocker	12 15
Rink	3 60
Expenses for Electrics	66 00
" " Cobourg	15 00

Mr. Horkins explained that the receipts totalled up to $539.68 and the expenditures to $545.00, but that a couple of membership fees which were still owing would put the balance on the right side of the ledger.

THERE HAD BEEN

a surplus of about $45, but the Executive had been of the opinion that every year should look after itself, and so the surplus had been expended in the purchase of nine gold lockets—one each for the players who had participated in any Association match of the year, being Messrs. W. J. Montgomery, S. Adams, W. Phelan, R. Wasson, R. Davidson, J. Parsons, J. Hamilton, Lionel King and F. Lefevre. As a special mark of esteem a diamond was set in the face of the locket of Captain Montgomery.

Messrs. Montgomery and Lefevre were appointed auditors.

Officers were elected as follows :

Patron and Patroness—Mr. and Mrs. G. A. Hatton.
Hon. Pres.—W. G. Ferguson.
Chaplain—Rev. V. C. Clementi.
Pres.—H. R. H. Kenner.
1st Vice-Pres.—W. J. Montgomery.
2nd Vice-Pres.—W. A. Sanderson.
Sec.-Treas.—G. J. Horkins.
Capt.—Sam Adams.
Executive Committee—The officers and Messrs. R. J. Fife, Dr. McGrath and Walter Phelan.

Mr. Montgomery was pressed hard to again assume the captaincy of the team, but he firmly declined not even being positive about playing on account of having been forced to wear eye glasses, which he declares he will not use on the ice on account of the risk of having them driven into his eyes. He will play if he can get on without them, but if he finds that they are necessary the hockey rink will see him no more.

The representatives to attend the meeting of the Ontario Hockey Association on the first Saturday in December were not selected.

It was decided to recommend the Executive Committee to look into the question of giving several carnivals during the winter.

Enthusiastic votes of thanks were passed to the retiring captain, Mr. W. J. Montgomery, and to Mr. W. G. Ferguson, for many kindnesses extended to the Hockey Club during the winter.

The fee of non-playing members was fixed at $2, and that of playing members at $5.

The retiring president, Mr. Greenwood, was accorded a hearty vote of thanks after which the meeting adjourned

Amongst those present at the meeting were Messrs. W. J. Montgomery, S. Adams, Roger Davidson, Walter Phelan, F. Lefevre, R. Wasson, H. R. H. Kenner, G. J. Hoskins, W. A. Sanderson, Percy Rubidge, J. Watt, Chris Graham, F. Logan, Collins, F. Dobbin, W. Borland, F. Lynch, A. Ferguson, H. Macgachan, W. Crossley, H. King, W. English, Hollingshead, W. Stocker, R. Glover and G. White.

THE PETERBOROUGH BOOKSTORE. **A. H. Stratton & Co** 417 GEORGE ST. PHONE 285.

417 GEORGE STREET, November 16th, 1896.

CHRISTMAS IS COMING!

"More room! More room!" That's the cry from every department—and more room we must have. Our immense stock of Holiday Goods is coming on Steamship and Train, and we must unload our present stock at once. Upwards of ten tons of the newest novelties for the Christmas trade will be added to our stock in a short time. Space must be had, and there's nothing left for it but to unload present stocks by a heroic sacrifice of prices, and let a number of heavy lines float away.

Instead of waiting or whining, we begin this week with a series of **EVERY OTHER DAY BARGAIN SALES.** On

TUESDAY, WEDNESDAY and SATURDAY,

we let go the following important lines of goods at prices that must close them out. Fix you eye on these Bargain Days, but remember that the prices named are for these days only :

Books.

Pansy Books, 7 different titles for.. 6c
The famous "Favourite" series of cloth bound books, worth 75c for.38c
5 copies of 25c Paper Bound Books for.....50c
Cloth Bound Books worth 50c, for.21c
This is only a sample of our bargains in books, but we haven't time or space to specify further. Must ask you to come and see.
Prices for Sunday School Library Books will be lower than ever in these days.

Wall Paper.

Here is a chance that will upset your house and paper now :
500 Rolls Wall Paper finished in metal colourings 5c and 7c lines for..... 4c
800 Rolls Wall Paper of American and Canadian glimmers, new designs, 8c and 10c lines, for 6c
300 Rolls special line of Gilt Wall Paper, suitable for parlours and dining rooms, regular 15c and 20c lines for..... 9c
Come and see and be convinced that you can buy wall paper on our Bargain Days at prices never before offered.

Window Blinds and Cornice Poles.

55c Window Blinds for.....37½c
25c Dado Blinds for..... 19c
80c Fringed Blinds for..... 53c
25c Cornice Pole for 18c
45c Oak and Cherry Pole for..... 33c

Note Paper.

300 Quires of 5c Note Paper for.... 3c
200 Quires of 10c Note Paper for.... 5c

NIGHT SCHOOL

How many of the Young Men and Women of our town are anxious to improve their education. We give every opportunity to anyone wishing to spend their evenings in studying Arithmetic, Writing, Spelling, Book-keeping, or Shorthand, and Typewriting. Any or all of these subjects may be taken by the student.

Many have fitted themselves for better positions by attending our Night School. You can do the same.

Monday, Wednesday and Friday Evenings. 7 to 9 p.m.

PRINGLE & McCREA.
Opposite Post Office. *Business College.*

A VERY LITTLE MONEY

Spent in this store will improve your Tea Talk wonderfully.

Good Tea isn't necessarily expensive now-a-days. Do you expect to entertain visitors? Don't you like a cup of good Tea and Coffee? What is better?

If so we would say first, that you visit us at 370 George street, and try a pound of our Thirty-five cent Tea. This month for 25c

STROUD BROS.
Direct Importers,
370 George St., Peterborough,
Also at Montreal, Kingston, Toronto and Ottawa.

Daily Examiner.

TUESDAY, NOVEMBER 17, 1896.

LOCAL NEWS.

If your eyes trouble you in any way, have them tested by W. Madill, optician. *No* charge for examination.

New Furniture.

At A. Clegg's:—A large assortment of floor rocker cobler seats, in oak, natural birch and mahogany finish. These are of superior styles and finish and very cheap. Also a lot of reed and rattan rockers—cheap! cheap! Several cases of pictures, good subjects, complete, at less than you have been accustomed to pay for frames only. A. CLEGG, 427 George street.

Selecting Fruits.

Ladies cannot be too particular in the selection of their Raisins and Currants this year, as there is any quantity of medium and poor quality, with the better grades scarce. You can appreciate a good article in fruits, then see our stock. MASON & CO., 429 to 431 George street. 2d

Youngs Point Locks.

Mr. Wm. Walters, of Lindsay, left for home on Saturday evening from Young's Point, where he had been employed for the past six weeks superintending extensive repairs to the locks at that point. All of the masonry work has been pointed with cement, the gates have been re-built, as well as the piers under the swing. Only 15 men were employed, but they worked like Trojans from the outset, fearing that the weather would break and become so cold that they would be unable to finish.

PIPES! PIPES!

Why pay 25 to 50 per cent. more for a Pipe, when you can save that much by buying at Clegg's Retiring Sale? Pipes, Pouches, Tin Tobaccos, Cigars by the Box, all at cost price. H. B. CLEGG.

Foxes are Troublesome.

Farmers complain that foxes are becoming disgustingly numerous all over this country. They live in comparative security, as people are afraid to set out poison for them, lest their valuable dogs might get it. They feed upon the hen roosts, and destroy partridge, especially in winter. A friend in Westmeath has a grove of sugar maples, about four acres in extent, near his house, in which families of partridge lived for many years. Last winter the foxes cleaned them out, and only feathers and bones were to be seen in the spring.—Pembroke Observer. Sir Reynard doesn't have such a snap in this county, as when the hounds are not after deer, they spend all their time in running down foxes.

Pump Factory Started up Again.

Mr. G. Walter Green, who suffered such a serious loss by the destruction of his pump and fanning mill factory on the Dickson raceway a few weeks ago, has started up again bigger than ever. He has secured the splendid premises formerly occupied by the Lindsay-Seldon Furniture Co., across the river on the raceway in Ashburnham. These commodious premises are being fitted up with entirely new and improved machinery for carrying on the manufacture of his celebrated pumps and waterworks system by windmill power, which are his principal specialties. The new factory is being supplied with new lathes, boring machines, band saws, circular saws, planing, matching and jointing machinery. A new blacksmith's forge has been built a short distance from the main building for making the iron work required in his business. Facilities will be on an increased scale for turning out pumps, fanning mills, seed sowers, washing machines, lumbermen's cant hooks, and other new lines to be added in a short time. When everything is completed Mr. Green feels certain that he will have the largest and best equipped factory of the kind in the Dominion. Mr. Green is to be commended for his enterprise and pluck. His telephone is 93.

Mercer's

MR. LANGFORD'S LETTER ON OUR STREETS.

On the eighth page we print a letter from Mr. Langford, chairman of the Street and Bridge Committee of the Town Council, dealing in a somewhat critical way with the article of THE EXAMINER, founded on the judgment of the court in Jackson vs. Peterborough. But we do not complain if Mr. Langford reads somewhat carelessly and draws conclusions which our language does not warrant.

It seems that he assumes a pretty large responsibility when he undertakes to defend the administration of our streets in respect of the responsibility of the town for the accident on Park street, in face of the facts elicited at the trial. We pointed out that the trial judge emphasized the wretched condition of the walk, and fixed the responsibility for the accident directly upon the town by the circumstance that the town acknowledged the defective condition of the walk by repairing it immediately after the accident and afterwards removing it altogether. This in itself was a blunder in face of a pending suit for damages—an admission of the town's responsibility. The town knew that such a defective and dangerous walk existed and was to that extent to blame; if it did not know it was much more to blame. And that brings us to the point that with our streets in charge of a properly qualified and competent supervisor, who would be held to strict responsibility for the condition of our streets, such a walk would not have been permitted to remain and, there would have been no accident and therefore, no suit for damages and no judgment against the town.

Mr. Langford points out that the streets of the town are very expensive in the matter of maintenance. But in this particular case there was no question of expense. By his letter he leads one to infer that the simple nailing down of a plank would have prevented the suit for damages. Then why was not the plank nailed down? Simply because there is no proper supervision of the condition of our streets; no sufficiently concentrated responsibility. And here comes in the force of our strictures upon the defective system, to call it such, of attending to our streets. We need an official who in the first place is competent and experienced in street construction, who would be paid a salary in keeping with his special qualifications, a salary that would make such a person willing to accept the responsibility. The sense of this responsibility would make him keen to note the condition of our walks and to keep them in a condition that would reduce the possibility of accidents to a minimum. The EXAMINER did not say as Mr. Langford infers "that the employment of an expert would have saved the costs and damages in this suit." We did not try to make that point, but we endeavoured to show that the employment of an expert would result in the more economical and satisfactory expenditure of money, giving us better streets generally for the same expenditure, and of course, lessening the danger of accident from defective walks or streets.

Mr. Langford points out the self-evident fact that the streets of Peterborough are very expensive to maintain. But this only underlines the fact of the greater necessity of having our money wisely expended. The people feel, and there is abundant evidence on every side, that our streets are not in a condition that we should expect from the expenditure made, and this is due very largely to the fact that the money is not always wisely expended. There is an utter lack of permanent system, and a policy of patchwork is employed. If the same amount of money that is annually expended on our streets, were laid out under proper and regularly employed supervision, who will say that the results would not be better? A man unacquainted with the work could expend a thousand dollars upon a certain specified piece of street work, and not secure one-tenth as good results as would follow the expenditure of five hundred dollars by a properly qualified overseer.

THE EXAMINER has, in this matter, no quarrel with individuals—our quarrel is with the system, so called, and it is a very bad system. We know that in the past money has been spent on street work in the spring, with the result that in the fall the street was in a worse condition than it was previous to the so-called improvement having been made. We have been in the habit of putting on gravel of such a nature as to be easily convertible into mud, one season, and carting it off the next. We have only recently made any attempt at the proper construction of streets with macadam, and that work has not been properly done. The consequence is that we have streets that are not permanent, and require heavy expenditure to keep them in half passable condition. The town wants this system done away with. We want Patchwork to give way to Permanence. If ten thousand dollars a year is spent let it be spent in such a manner that the work will be lasting. A large proportion of our money is frittered away in peddling repairs that would not be needed if our streets were built right at first. We are following the policy of a man that builds a house with a cheap foundation that needs to be renewed every year. Let us have permanence in our street expenditure and then we shall have something like value for our money. We must have our money spent by persons that are acquainted with street work as an art. We can't expect a tailor to make a good pair of boots, and we can't expect a person who knows nothing, in an expert or engineering way, of the art of road construction, to build good streets, no matter how good his intentions may be. If we build only two blocks a year of permanent way on George street, let us do that well, but stop the system of everlasting patchwork.

But, to emphasize the need of expert knowledge in street work, we have had work that is called permanent that was not permanent. Mr. Langford refers to the cost of our bridges. That is indeed a large item, but do we get value for our money when a bridge like that over the creek on Hunter street is so built that the foundation is washed out by high water? Have we got value in the George street bridge at the Bay? This was built with too narrow an opening, and at a time when good work could not be done; the high water washed out the backing of the sub-structure, undermining the pier, which with the winter upon us, has, it is stated, not yet been put in repair. With proper management would these costly experiments be made? What we want is the best value for our money. Our citizens would more cheerfully pay their taxes if they could be assured that they would not be spent this year to do over work that was improperly done last year. Our battle cry in the matter of streets should be "permanence" versus "patchwork," and there is only one proper way to secure this and that is to have the work done right in the beginning.

THE EXAMINER is glad that Mr. Langford sent us his letter. It is a healthy sign when there is shown a disposition to discuss quietly and temperately the policy to be pursued in reference to our streets. We have not criticised Mr. Langford in writing of the subject. Our attack, if attack it can be called, is an impersonal one, directed, not against individuals, but against a system, and a very bad system too. Mr. Langford is as competent and, perhaps from his experience, more competent than any other councillor, to look after our streets. But we would not, nor would any reasonable ratepayer, ask him to devote, without payment, the exclusive attention to our streets that they demand. Our aim, in common with Mr. Langford and the council, is to have the best work possible done on our streets and at the least possible cost. And we believe a great improvement can be made if the ratepayers will uphold the chairman of the Street and Bridge Committee, whoever he may be, in taking the necessary steps.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Is this Indian Summer?

—The farmers are busy ploughing.

—The country roads are in a terrible condition.

—Court Forest Queen, C.O.F., meets tomorrow evening.

—A large number drove out from town to the big castle sale at Tom Eastwood's yesterday.

—The Y. M. C. A. Bible Class, conducted by the Rev. Jas. G. Potter, will meet on Thursday at 8 p. m.

—The Presbytery of Peterborough will meet in St. Andrew's church on Friday next for the consideration of a call to the Rev. Mr. Innis, of Bobcaygeon.

—An open meeting of the Daughters of England will be held in the S.O.E. hall Thursday evening of this week. A good programme has been provided. You are cordially invited. Silver collection at the door.

—If you want to economize burn the People's Coal Co's coal. All kinds of coal in stock, including best hard coal for stoves and furnaces, soft coal for grates, and smithing coal. Office—230 Charlotte street. Telephone 366.

—On Saturday night Mr. B. Leavitt's great burlesque and spectacular production, the "Spider and the Fly," will be the attraction at the Opera House. This company comes to us highly recommended. At the present time they are playing through Western Ontario, where they are playing large houses nightly. The press speak of it as being a first-class burlesque, without vulgarity. The prices for the engagement have been reduced to 50, 35 and 25c., the two front rows of reserved seats being placed at 75c. Seats are now on sale.

CAUGHT ON LIKE LIGHTNING.

The Crowds Enlarging Every Day at

ROUTLEY'S CLEAN SWEEP

Of Everything in the Store.

No time to be lost. Stock must be sold by the 31st December. Keep us busy as you like. The store service is so complete we are able to meet the largest demands. The sale has caught on like a prairie fire, and no wonder. ROUTLEY'S stock of

Fancy Goods and Wallpapers, China, Glassware and Crockery, Christmas Novelties, Toys, Pictures, Lamp Goods, Trunks, Valises, &c., &c.,

Has always been a Popular Priced Stock, but with the Sweeping Reductions during this Sale its popularity has gone away up. It's the sensation sale of the day.

379 GEORGE STREET.

A MARVELLOUS CURE.

Helped by the First Box—Could not Lift Fifty Pounds—Cured by a few Boxes of Dodd's Kidney Pills.

Arthur, Nov. 9. (Special).—Among his more intimate friends it has long been known here that Mr. J. C. Morrison had been gradually failing in health for many years. The acuteness of his sufferings was known only to a few. His complete recovery is a surprise here and is causing much talk. Of his cure he says:—"Yes I got help from the first box of Dodd's Kidney Pills and I have taken fifteen boxes. I kept getting better every day. When I commenced I could not lift fifty pounds; now I am as strong and well as ever in my life."

We recommend you to Grafton & Co's. the well-known clothing manufacturers.

ON DICKSON'S RACEWAY.

G. Walter Green's Pump Factory Started up Again.

I have secured the commodious Factory, on Dickson's Raceway, Ashburnham, formerly occupied by the Lindsay-Seldon Furniture Co., and am once more prepared to attend to all orders for my celebrated

Pumps, Windmills, Fanning Mills, Seed Sowers, Washing Machines, Lumbermen's Cant Hooks, &c.

I am fitting up these fine premises with entirely new and improved machinery, and having a splendid water power at my command and increased manufacturing facilities, I intend to go more extensively into my regular lines of business, as well as new lines, such as Planing, Matching, &c.

G. WALTER GREEN.
FACTORY—Dickson's Raceway, Ashburnham, north of Mr. Wand's Planing Mill.

Telling Effect!

So steady, so constant, has our Fancy Goods Business grown since opening up a few months ago, that it is producing a telling effect on local trade. We are working like beavers—elbowing our way closer to the front every day, and will soon reach

THE INSIDE TRACK.

The best arguments in our favour is our PRICE SURPRISES all over the store and EXCLUSIVE NOVELTIES—handled by no one else but ourselves. DOT IT DOWN:—Goods here will be found NEWER and Prices LOWER than the great bulk of old shop-worn goods offered at Clearing Sale Reductions. Harvest time here for Bargains all the time—and don't you forget it.

WESLEY & CO.,
393 George Street, Next to Bank of Toronto.

LOSS OF VOICE

After Acute Bronchitis

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

AYER'S LEADS ALL OTHER SARSAPARILLAS.

THE OLD THANKSGIVING DAYS.

Sitting silent by the window while the evening's fading beam
Turns to lonely gray the winter's silvered sky,
Not a voice to break the reverie of thought's too pensive dream,
Not a footstep, only memory and I,
From the past the veil seems lifted, and I am a child once more.
On the hearth again the old time fagots blaze.
Hush! Again I hear the voices of the guests about the door
In the greetings of the old Thanksgiving days.

All the air outside is frosty, and in gusts the blithe winds blow,
And I hear the distant sleigh bells faintly ring,
And against the rime touched windows comes the purring, stirring snow,
Like the brushing of a passing angel's wing.
But within, oh, see the faces that are smiling round the board!
How they shine with love and gratitude and praise!
Hushed the voices are a moment for the thanking of the Lord
In the blessings of the old Thanksgiving days.

That was years ago, and curfews for the loved have rung since then.
As tonight I watch the dawning evening star
In my dreams I see the mansions Christ prepared in heaven for men.
It is there tonight the absent kindred are.
It is there their feast is ready, and I hold the fancy dear
That they often turn to earth their loving gaze,
And perhaps they, too, are dreaming, as they see me sitting here,
Of the sweetness of the old Thanksgiving days.

—Philadelphia Ledger.

JEM HASTINGS' LUCK.

The Widow Wilson's farm had seen better and more prosperous days and now was traveling backward. It began at the top of Brindle hill, where it was bounded by the county road, and straggled down to the lake shore, its hundred acres or so wandering over hills and dipping into hollows until they terminated at the bay, with its rim of white and glistening sand.

One of the most picturesque spots of earth, and right in the center of it, crowning a rounded knoll, surrounded with stalwart oaks and butternuts, squatted the house of its owner.

It was always a difficult spot to reach in winter, when the drifting snows piled high their white billows against the low eaved structure and hid the windows from the outer world. But in summer it was a delight, this moss brown dwelling beneath the oaks, and at one time had been a home around whose hearthstone had gathered sons and daughters.

Now it was desolate. The passing stranger would have but added it to the category of deserted farms. No sign of life was visible this bright Thanksgiving morning. From its wide, paneled chimney no curl of smoke invaded the crisp and frosty air. The light fall of snow that had covered the ground the night before showed no trace of footsteps leading from the weather beaten door. And yet there was a stir of life in the farmyard, in the hollow among the trees, where the old barn tottered, ready for its fall. There a flock of fowl and turkeys wandered disconsolately about. In the adjacent stall an old horse stamped impatiently for his breakfast and a forlorn cow chafed restlessly at her stanchions. Except for these the old farm was as silent as when its first owner carved it from the virgin wilderness. A rustling of the shrubbery that fringed the tall, stiff ranked pines on the hill beyond the barn told that a visitor was coming to Lonely farm. A human head appeared in sight. It was crowned by a woolen cap, from beneath which peered a pair of black, bright eyes. Their owner took off the cap and mopped his brow. He was a rugged country lad of 18, well knit and sturdy, with a pair of ruddy cheeks, white teeth and lips rosy, but with a droop of sadness.

Now England, always hard to her children, had taken from this boy the home and mother that make Thanksgiving, even as it had taken from the widow all but the wretched framework of what had once been home.

"House looks like mother's used to after she got so she couldn't get about," soliloquized the boy, staring at the smokeless chimney. "I'll bet there ain't been nobody near the widder in a week, and I'll bet, while I'm a-bettin, that she needs somebody. Guess I'll find out what's the matter."

He strode down to the house and knocked. There was no response. Only the crow in the oak tree was disturbed by the unwonted noise and flew away, with a caw of alarm. A second knock startled the fowl in the barnyard which greeted him with a suppressed chuckle, but there was no answer from within. "Guess I might's well go in." He pushed open the the crazy door and entered the room which served as kitchen and sitting room all in one. A table stood in the center of it, covered with a snowy cloth and set as if for supper. A tall clock ticked in the corner under the stairs, but its rhythmic beats only seemed to make the silence audible. "It seems kinder creepy, that's a fact. Hope there ain't nothin happened to her. Wonder where she is? P'rhaps she's asleep!"

He rapped loudly, and then put his ear down to the keyhole, listening intently. At first there was no response. Then he thought he heard a faint, quavering voice.

"It's me—Jem Hastings. I've come to see if you need anybody."

"Come in." The feeble voice struggled with a cough. Then: "Yes, I'm so glad you've come. I was taken faint yesterday and had just strength enough to crawl to bed. Perhaps"—

"What, an you ain't had nothin to eat!"

"No," with a feeble smile.

"Well, if you'll let me try, I'll make a cup of tea."

Jem closed the door, set his gun in a corner and looked around for the place in which the widow kept her stores. The dressers ranged against the wall were bright with old fashioned pewter platters and china. Here he found a caddy of tea and then set about making a fire. A huge fireplace yawned at one side of the room, hung with a black iron crane from which was suspended a teakettle. The woodpile was outside, near the back door, and brushing off the snow Jem soon had some dry wood, with which he made a roaring blaze. It was not long before he had the satisfaction of seeing the kettle send forth a volume of steam, and a few minutes later he tapped again at the bedroom door with a tray, on it a tempting cup of tea and two well buttered slices of bread.

Wrapped in a shawl of Canton silk, the heirloom of a grandmother whose father once sailed from Salem to the Indies, the widow sank back into her comfortable armchair with a deep sigh of content. She closed her eyes from sheer weakness, while Jem tiptoed about the room, "setting things to rights" and preparing the table for a prospective meal. To be sure there was very little in sight, but he had faith that there might be something in the cellar and in the cupboards, for the widow was known in the township to have been a "good pervider" in her days of affluence.

"You've made me very happy, Jem—very thankful."

"Well, ma'am, I'm glad of it. It's Thanksgivin."

"What! Really Thanksgiving day! It's the first time I've forgotten it—ever. I must be growing old."

Jem grew bolder.

"There's a turkey out in the barnyard. He ain't very fat, but if you say so I'll help you fix a turkey dinner."

The widow urged no objection, and both fascinated at the prospect of a Thanksgiving dinner, with themselves as host and hostess, the boy trudged out to the barn.

Some sticks of hard wood were soon piled on the fire, and by the time Sir Turkey was ready for the oven the widow had peeled the vegetables and dropped them into the mysterious depths of the steaming kettles, Jem looking on with glowing but bashful appreciation.

A snowy cloth over a round table, with two seats opposite each other, is always an inspiriting sight, and when topped by a steaming brown turkey, with all the "fixings" of a turkey dinner, the feast is one to melt hearts harder than that of the lonely widow and the homesick New England lad.

"It is the happiest Thanksgiving dinner I have had in many a year, my boy," she said to him as he cleared away the dishes and brought out the dessert of fragrant quince preserves.

"May God bless you! And to think how the dreadful, gloomy morning has been turned to such bright sunshine by your coming!"

Jem turned to the window to hide some tears that would persist in squeezing themselves out of his eyes. "I wish she wouldn't be so sentimental," said he to himself quite wrathfully. But to the widow he said: "Why, ma'am, I ain't done nothin great—no more'n you'd have done for me, I'll bet. I ain't enjoyed a dinner so myself sence I can remember. I wish I could jest stay here all the time."

A new light came into the woman's faded gray eyes born of a thought that had been struggling for expression for an hour or more. "And why can't you stay, Jem?"

"I could, ma'am, if I could come as ——as partners."

It was out at last, the boy's yearning for something as his own and the chance he saw upon the widow's farm. "I

Continued on Seventh Page.

Thanksgiving History.

Historically the custom is traced to the earliest settlers of New England. It was the pilgrims who came over in the Mayflower, and those who joined them later, who originated the Thanksgiving which afterward was adopted by the whole of New England, afterward by New York, and ultimately became a national observance. Even the day, Thursday, adopted by the New Englanders, set the precedent for the future.—Selected.

The First Thanksgiving.

The Thanksgiving proclamation was originated by Francis Bernard, captain general and governor in chief in and over his majesty's province of the Massachusetts Bay. It was issued Nov. 4, 1767, and the form was that which has been, in substance, adhered to ever since.—Philadelphia Press.

Be Cheerful and Grateful.

The gathered harvests, the wealth of mine and mill, the product of sea, air and earth, the priceless jewels of liberty under law, all the fruits of material and intellectual vigor, warm the heart with the cheerfulness and gratitude of the true Thanksgiving spirit.—Selected.

When they put a man in jail, he cannot follow his natural inclinations. He cannot eat what he wants to—he is limited to a very frugal diet. Is it not equally true of a dyspeptic? For all of the real enjoyment he gets out of life, he might as well be in jail. He cannot eat what he likes, nor enough. He suffers much, gets little sympathy. At first, perhaps a little heaviness in the stomach, a little sourness, windy belchings and heartburn; headaches and billousness and a foul taste in the mouth in the morning. Chronic constipation is almost inevitable, and means that the body is holding poisonous, impure matter that should be gotten rid of. The poison is being reabsorbed into the blood and the whole body. Impurity in the blood may lead to almost any disease. Constipation is the start of it all. Dr. Pierce's Pleasant Pellets cure constipation, cure it so it stays cured. No other remedy in the world will do that.

Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N.Y., and receive Dr. Pierce's 1008 page COMMON SENSE MEDICAL ADVISER, illustrated.

Women nowadays are learning that it pays to be healthy, that it pays to be strong. Weak women make bad wives and worse mothers. A woman need not necessarily become an athlete in order to fit herself for the duties of wifehood and motherhood. If she will obey common sense rules of health, and be sure that the organs that constitute her womanhood are always healthy and strong, she will be a capable and healthy wife and mother. The best medicine for the treatment of weakness and disease of the organs distinctly feminine is Dr. Pierce's Favorite Prescription.

It is the discovery of a regularly graduated physician—an eminent and skillful specialist, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. There are on file at that institution letters of over 50,000 women testifying to the marvelous merits of the "Favorite Prescription." It acts directly on the organs that make wifehood and motherhood possible. It makes them strong and healthy. It cures all weakness and disease. It smoothes the way to almost painless maternity. It insures healthy children. All good druggists sell it.

Mrs. H. F. Reynolds, of North Fenton, Broome Co., N. Y., writes: "I thought I would write you a few lines as I have been taking your medicine and using it in my family. I have just taken another bottle of your 'Favorite Prescription' and it has done me lots of good. I think it is a grand medicine."

The newly-wedded wife, above all other women, needs a good medical book. Dr. Pierce's Common Sense Medical Adviser fills this want. It contains over 1000 pages and 300 illustrations. Several chapters are devoted to the physiology of the organs distinctly feminine. Send 21 one-cent stamps, to cover cost of customs and mailing *only*, to the World's Dispensary Medical Association, Buffalo, N. Y., for a *free* copy, paper-covered. If a cloth binding is wanted, send 10 one-cent stamps.

JEM HASTINGS' LUCK.

(Continued from Sixth Page.)

could fix things up," he went on eagerly, "and make the chickens lay eggs and the cow give milk and—and"—

Jem stopped, but the widow's respectful attention led him on.

"I could earn my board in saving things that's goin to waste. When I come through your wood lot this mornin, I noticed oords an oords of dead trees that ought to be cut an made firewood of. An as for timber, there's more'n $100 wuth there that'll be spiled if it ain't cut an sold pretty soon."

The boy hesitated, amazed at his audacity, but the widow nodded her head and smiled approval. "That's true, Jem. The farm is running down for the lack of some one to oversee out of doors. So, then, it is a bargain."

And so this strange partnership began. The first winter Jem spent in thinning out the superfluous wood in the neglected lots, stacking up behind the house enough fuel to satisfy even the cravings of that yawning fireplace for years to come and selling to the sawmill on the pond timber for shipment that came to quite $500.

As the spring opened he was soon afield, continuing the good work of improvement, and "planting time" found the farm with more and earlier labor performed than it had ever before experienced. In front of the western door he threw out a platform, protected by a lattice work covering, and here the widow passed all the spare time she could snatch from her indoor duties. It had never occurred to any one before that farm work might be made attractive. The widow had only looked upon the beauties of her farm around her through the kitchen window or during a hasty trip to the well or farmyard. The latticed porch was a revelation to her, and a haven of rest where she sat and mused during the long twilight of summer.

"I never thought I should take such comfort here," she said. "Before you came I was more than willing to give up the farm and go away. But now, Jem, I want to live here the rest of my life. I would not leave it for the world."

"That's so, ma'am. It would have been a great mistake to leave the old place. Why, there ain't a prettier view in all the world than this from your front door. If there is, then it is right there, down in the woods, where the great trees meet overhead, the brook sings a soft song of rest and the fern covered banks stretch down to the pond. I never traveled any yet, but I don't want to. This suits me." And he returned to his work with a cheery whistle that sent a thrill of satisfaction through the widow's heart.

A wonderful change had been effected by the time another year had rolled another Thanksgiving into the calendar. The roof of the old house no longer leaked. The barn had been raised from its attitude of deep dejection, and its mows were crowded to bursting with hay and grain. The old horse spent his days chiefly in the pasture, while a younger and more vigorous animal did the work, assisted by a yoke of big and handsome oxen. The solitary cow now had plenty of company, and frisky calves gamboled about her in the summer time. There was no longer any doubt as to the availability of any of the fat gobblers for a Thanksgiving dinner.

Thus the seasons succeeded one another with their measure of content. Each found the widow more and more dependent upon her stalwart helper. She clung to him as she might have clung to the son of whom she had been deprived in the springtime of her wifehood. As her tottering footsteps were supported down the aisle of the village church on a Sunday few of the congregation knew that the handsome young man who watched over her so assiduously was not in fact her own son. Those who were cognizant of the relations between the two shook their heads knowingly, saying to themselves and to each other: "Lucky boy that! Stepped right into the farm just as the old lady was about to leave it. He knows the side of his bread that has the butter on it."

But it is doubtful if Jem had ever given that a thought; so happy and content was he that the merely material conditions of his life had never troubled his consciousness. Only one thing troubled his thoughts of late. He was deeply stirred by the soft, brown eyes of pretty Susie Jones, a chorister in the church—Susie, who lived, as he had done, with friends for board and keep—another of New England's orphans.

He never mentioned this daring speculation, not even to the widow. But her eyes, though growing dim, were acute enough to penetrate his honest soul. His whole life lay centered in the farm, which had become as essential to it almost as the air he breathed. But now there must be young life there. A pair of brown eyes persisted in dancing before his face, in wood pile, in field, in garden.

And so it came to pass that there was a wedding next Thanksgiving in the little cottage, now pretty with vines and cheery within. Susie was glad of so pleasant a place for the troth which she was to plight with Jem, while he, lucky fellow though he was, could not take time to travel to Susie's home, far away over the rough, hilly roads. "A wife's a good thing," he remarked to the widow the evening before his marriage, "but there's cows to be looked after and hens to be fed—more'n you could 'tend to alone."

"That's so, Jem," said the widow, smiling brightly, "and thanks to you for it all."

Under branches of autumn leaves from the last reddening trees Jem and Susie promised all the things of the simple marriage service. Then came the country wedding supper.

When the last guest had gone, driven away in the farm wagons that had clustered around the door all afternoon, the widow turned to Jem and Susie, sitting bashfully in the firelight.

"You're my children, now, both of you," she said. "Call me mother just once, Jem and Susie."

"Mother!" cried Jem, taking the feeble hands together and kissing them tenderly. "My darling mother, dearest friend I ever had!"

She returned his loving glance lingeringly, gratefully, as they led her to the door of her room.

Next morning Jem knocked again at the Widow Wilson's door just as he had done on that lonely Thanksgiving day four years ago. This time not even a feeble voice answered his repeated calls.

Three days later, as the neighbors struggled back from the little cemetery on the hill, Squire Lothrop drew Jem apart.

"I s'pose you know the widder's left the farm to you? No? Sho! It's mighty strange she didn't tell you. She made her will more'n a year ago, and you're her only heir. She seemed to set a lot by you, the widder did, and"—looking around approvingly over the snow covered fields—"I d'no's I blame her. The last four years hev been the peacefulest of her life, and she's left her peace with you, for sure!"—Cleveland Plain Dealer.

Dr. Talmage Likes Turkey.

"I am cosmopolitan in my likes," said the doctor, "because I have traveled so much. Therefore pardon me when I say that I want my turkey stuffed with little English oysters and trimmed with French fried potatoes. Each year there is a little wicket fence of the brown potato strips placed around the turkey, and when he is brought in he looks like a picture in a child's story book. 'And can't the poor turkey get ont of that fence?' asked my little granddaughter once."—Exchange.

Serve Dinner at Midday.

An old fashioned Thanksgiving demands a midday dinner. Whatever fashion may dictate on other days she should not be listened to on this one, particularly when there are children to be considered.—Exchange.

Thoughts For Thanksgiving.

When you awake on Thanksgiving morn, you will doubtless feel a cynical questioning as to whether you have any cause for gratitude or not. You undoubtedly have. You should be thankful that convention does not require you to be publicly grateful but once a year.

Be thankful that nearly a month intervenes between the Thanksgiving turkey and the Christmas goose and that you have time to recover from the effects of one before attacking the other.

Think over the gifts you have to buy before Christmas and be grateful with your whole soul because the custom of making Thanksgiving presents does not prevail also.—New York World.

Catarrh in the Head

Is a dangerous disease. It may lead directly to consumption. Catarrh is caused by impure blood, and the true way to cure it is by purifying the blood. Hood's Sarsaparilla cures catarrh because it removes the cause of it by purifying the blood. Thousands testify that they have been cured by Hood's Sarsaparilla.

HOod's Pills are purely vegetable and do not purge, pain or gripe. All druggists. 25c.

MR. LEGATE, Traveller for McCormack & Co., London, says: "Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill druggist.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Tobacco Heart

Much heart and nerve weakness is caused by undue use of tea, coffee, and tobacco; palpitation, nervousness, irritability, excitability, lack of confidence, etc., are sure symptoms. Milburn's Heart and Nerve Pills bring ready relief, by steadying the nerves and regulating the heart. They are true heart and nerve food.

Dr. Fowler's Extract of Wild Strawberry cures Diarrhœa, Dysentry, Cramps, Colic, Cholera Morbus, Cholera Infantum, and all looseness of the bowels. Never travel without it. Price 35c.

A THANKSGIVING SONG.

It's comin 'long—Thanksgivin, with its pleasures an its joys—
An we're all a-lookin forward to the meetin with the boys,
An Sue will come from college, an Jimmy won't forget,
An we'll all feel mighty thankful that we're all a-livin yet!

The turkey's been a-spreadin of his feathers fat an fine,
An his "gobble, gobble, gobble" seems a-darin us to dine;
But the verdict's been ag'in him, an his execution's set,
An he makes us feel right happy that we're all a-livin yet!

There's folks will come from Texas, from Illinois an Maine,
New York will send us Billy, an Hampshire'll give us Jane;
We'll have a great hand shakin when all the friends are met,
An won't we feel right happy that we're all a-livin yet?

It's comin 'long—Thanksgivin, with all its love an light,
Its dinners in the daytime, its melodies at night.
The turkey's fat an juicy—the table silver's set,
An we're feelin mighty happy that we're all a-livin yet!

—Chicago Times-Herald.

You may eat cheap food and not be seriously hurt by it; but you cannot take cheap medicines without positive injury. If you use any substitute for Ayer's Sarsaparilla, you do so at the peril of your health, perhaps of your life. Insist on having Ayer's, and no other.

Shiloh's Cure

TEN YEARS TROUBLED

With Liver Complaint and Dyspepsia—Suffered Greatly and Found No Relief in the Scores of Medicines Prescribed.

South American Nervine Was Recommended, and Before Half a Bottle Was Taken Relief Came.

Have Since Improved Rapidly, and Am Now Completely Cured—So Says Mr. David Reid, of Chesley, Ont.

What ills come to humanity from a disordered liver! Henry Ward Beecher has said that it was impossible for a man to hold correct spiritual views if his liver was out of order. The liver is so important a part of the mechanism of man that when it ceases to work with ease the whole man is unable to do his work aright. Can we not appeal to thousands, nay, tens of thousands, for a verification of this fact? Certainly it is, that Mr. David Reid, of Chesley, Ont., felt that the enjoyment of life had been taken from him, through the unhealthy condition of his liver. For ten years he says he was troubled with liver complaint and dyspepsia. Employing his own language: "At times my liver was so tender I could not bear it pressed or touched from the outside. Had tried a great many remedies without any benefit. Was compelled to drop my work, and being worse than usual, I decided as a final resort to try South American Nervine, which had been recommended to me by friends who had been cured by it. I got a bottle from A. S. Goodeve, local druggist, and commenced taking according to directions. Before I had taken half a bottle I was able to go to work again, and I have improved steadily since. I can conscientiously recommend South American Nervine to any suffering from dyspepsia or liver complaint." This is Mr. Reid's story as he tells it in his own words. Were it thought necessary it could be corroborated by a host of witnesses. Mr. Reid has lived a long time in Chesley, and his case was known to be a very bad one. But that makes no difference to Nervine. This great discovery rises equal to the most trying occasions. Let it be indigestion, the most chronic liver trouble, as with Mr. Reid, nervous prostration, that makes life miserable with so many, sick headaches, that sap all the effort out of man or woman, Nervine measures to the necessities of the case. It is a great medicine and thousands to-day in Canada are happier and healthier men and women, because of its discovery. There is no great secret about it, and yet there is an important secret. It operates on the nerve centers of the system from which emanate all life and healthfulness, or if disordered, sickness, even death. Nervine strikes promptly at the nerve centers, hence, as with Mr. Reid, where ten years' use of other medicines had done no good, less than a bottle of Nervine brought about encouraging results, and a few bottles cured.

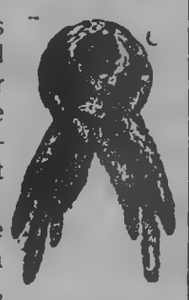
Fairweather's Fine Furs

They Can, But They Don't Like To.



The Ladies can go around all winter without nice warm Furs—but they don't like to.

Now the matter of a Fur Cape, Collarette, Ruff or Jacket is of vast importance to a lady's comfort, health and appearance—it's an article that for 6 months of the year is in constant use and should be attractive as well as durable.

It's the perfect fit of our Fur Garments — combined with faultless style, and a reasonable price—that places this store at the fore front of the Fur business in Peterborough, Toronto and Lindsay. Let us show you our stock.

FAIRWEATHER & CO.

George Street, Peterborough | 101 Yonge Street, Toronto | Kent Street, Lindsay

THE EXPENDITURE ON OUR STREETS.

To the Editor of the Examiner

DEAR SIR,—In the EXAMINER of Wednesday evening last, which I did not see until later, there appeared an article on "The Streets of Peterborough," regarding which, with your permission, I wish to make a few observations. The gist of the article, as I understand it, was that the streets of Peterborough are in a bad condition and that owing to their condition the town has had to pay damages and law costs. Further, that their condition and the consequent law suits are owing to the fact that councillors are ignorant of the first principles of road making, and that the remedy required is the employment of an expert at road making, who must be paid a good salary, and who would supervise the streets and keep them in good condition. And the City of St. Thomas was referred to as a city which had demonstrated the efficacy of the remedy suggested.

It seems to me that the writer had not fully considered the matter when he penned the article referred to. The law suit and consequent damages and costs, were owing to a piece of plank being out of a sidewalk, and a woman stepping into the hole. Was it because there was no one in the service of the Town who knew how to nail down a plank that this accident occurred? An expert—or the most valuable knowledge and experience obtainable—would not have aided in keeping that plank in its place, and consequently would have been of no benefit in preventing the lawsuit. The plank, so far as was shown, was only out of place that day, or part of the day, on which the accident occurred, and knowledge of how to construct a road would not have carried with it that prescience that would have let the expert know that the plank was out of place. So that it seems to me that the point which the writer set out to make—that the employment of an expert would have saved the damages and costs in this suit—was not made.

But the article aimed at a more general conclusion as well, namely, that with the same expenditure that has been made in recent years an expert would have given us "the best possible streets." I would like to see that demonstrated, for I would be happy to see it carried out, but I would not like to see the town engage an "expert' and start in to get the best possible streets and sidewalks and imagine it could be done without increasing the expenditure. St. Thomas has made a start, and it will be interesting to watch the results, but it is not enough to take one or two streets when the work is far enough forward to be described in a "Good Roads Bulletin," and argue from that that Peterborough should at once adopt the same method, especially if the people are misled to believe that it would involve no extra cost. St. Thomas spent in one year on the general improvement of the streets $3,500, but in addition to that it expended on sidewalks $6,017, on grading four streets $7,212, and on artificial stone $1,283, a total of $18,012. In another year it expended on general improvement $3,963, on sidewalks $8,183, and in addition on special streets over $21,000. On one street alone $10,700 was spent in grading—as much as is here given to construct and keep in repair streets, sidewalks and bridges over the whole town. An "expert" could do a great deal and so could some other men who might not lay claim to that title, if the money was provided in that handsome manner to do it with.

When it was pointed out that during the past three years $12,000 a year had been expended by the Street and Bridge Department, was the amount of work and ground that had to be covered with that sum taken into consideration? Some places have one or two bridges of more or less importance to keep up, and some have none, but did it occur to the writer to count up the number of bridges there are in this town? On the creek alone there are seventeen bridges, and one of them, at the corner of Brock and Aylmer streets, a double one; spanning the river there are three bridges, one maintained wholly by the town and two jointly with the county, besides a foot bridge upon which money has been expended, and there are two bridges across the Dickson raceway, besides several adjoining the factories and mills. In addition to these there are two water-courses that cause considerable expenditure—the stream that flows in the spring from the vicinity of the hospital and runs into the creek near Murray street, and another that crosses McDonel street at Downie street. Over these culverts of more or less width have been constructed and one of them is covered in for blocks. The creek and the other streams cause expense also in ice cutting and prevents floods. Yet all the money expended on these numerous bridges and watercourses is counted as if spent on the ordinary work of the streets, which is certainly misleading.

With money enough provided the streets could be paved and granolithic or artificial stone sidewalks could be constructed, but no expert, nor any one else, could keep the streets and bridges in repair and construct improvements of that character with the present appropriations. If the paving and other work was done—if the streets, sidewalks and bridges were once put in the "best possible" condition—then it would require the present expenditure to keep them in repair, but to talk of employing an expert and getting the "best possible streets" without increasing the expenditure shows "a good deal of lax" thinking and bad judgment."

And when the enormous expenditure had been made, and the streets all graded and paved and the sidewalks all laid in artificial stone, would there be no accidents? With the law as it has been expounded by Justice Ferguson in the Mason case and by Chief Justice Meredith in the Jackson case, would the town then be safe from being mulcted for damages on account of accidents? The granolithic or artificial stone walks get out of repair, and the walks are more liable than the plank walks to cause accidents in winter unless they are kept clear of ice. And to keep them in perfect condition—for perfection according to these judgments appears to be necessary—free from defects, from ice and from uneven surfaces when there have been heavy snow falls, would cause further heavy outlays or else the town would still be in danger from law suits, damages and costs, and would not have avoided what it set out to avoid.

If the law is as it has been interpreted by these learned judges, can any urban municipality be safe from law suits so long as the law remains as it is, whether the streets are supervised by "ignorant" councillors, a "conscientious, honest and anxious" inspector, or an "expert in road-making?"

Yours truly,
W. LANGFORD.

ABOUT THE BLOOD IS YOURS PURE?

If Pure You are Safe—Otherwise You are in Peril.

THE KIDNEYS ALONE.

Purify the Blood—No other Organ Can—Dodd's Kidney Pills Help and Heal the Kidneys when Weak and Sore.

Is your blood pure?

If it is, you are fit for all the duties and enjoyments of life, your eyes will be bright and your thought cheerful.

If pure you will have good digestion, strong nerves, and your heart will beat as regularly as a clock.

If impure your blood will carry its impurities along to every nerve, tissue, joint and to every organ of the body; it will carry the seeds of disease, decay and death.

And there is only one way, one means by which it can be purified, and that is by healthy kidneys, and by them alone.

We are, indeed, fearfully and wonderfully made, but we are made just right if we only know how to keep so.

It does not matter how these impurities come, their effects are inevitable unless the kidneys are doing honest work twenty-four hours every day.

You understand; there is no other organ that can do the work of the kidneys, and like the heart, they must keep right at it, tired or not.

But they are too often overworked by over imprudence in eating and drinking; they are disordered by chills, colds, shocks and injuries; and that they must be constantly looked to, and signs of distress promptly heeded.

Then, whenever they need help, give them the sovereign aid of the scientific discovery embodied in the kidney treatment of Dodd's Kidney Pills.

There is hardly anything more refreshing than a cup of good Tea. But then really good Tea is scarce and that is why so few understand the invigorating qualities of the herb. One of the most experienced "Tea-tasters" selects our best brands of household Teas. If you will try them in preference to what you usually use you will soon detect the difference and understand how refreshing a cup of good Tea really is. Prices according to quality.
M. L. HENRY & Co.

Protect Your Horses, etc.

Nothing is more needed for horses at this inclement season of the year than a waterproof horse cover. I make them to order and keep them in stock as well. Hoods, heads, backs and breasts in black waterproof, impervious to water, soft and pliable. Any kind or style of ordered goods required. Lap rugs, strictly waterproof. Also cheese covers as requested by members of the Cheese Board, and for covering all kinds of goods liable to damage from wet. A. KINGSCOTTE, Tent, Sail and Awning manufacturer, 344 Water street, opposite market.

Burdock Pills do not gripe or sicken. They cure Constipation and Sick Headache.

IN THE DARK VALLEY.

"Dodd's Kidney Pills have Saved My Life"—This is said by Thousands—Prevention the Safest.

"In the valley and shadow of death"—"Given up to die." There are many thousands of such living in Canada to-day who say, "Dodd's Kidney Pills have saved my life."

No matter to what stage the disease may have come, do not despair. The triumphs of Dodd's Kidney Pills have been won in exactly such fights for life.

People make mistakes and jump to wrong conclusions; doctors themselves don't always know. It is much safer to take Dodd's Kidney Pills than to take chances. Of course these grave cases have simple beginnings, and that is the time that a single box prevents—which is better than curing.

"Mikado" Still in the Market.

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blends of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER Millers.

One Every Night.

One Laxa-Liver Pill taken each night during 30 days will cure Constipation, oft-returning Headaches and irregular action of the bowels. Laxa-Liver Pills leave no unpleasant after-effect.

Defying the Probs

AND FORCING THE SEASON.

We Can't Change the Weather

BUT WE CAN CHANGE OUR PRICES.

At no time of the year are we satisfied to sell at regular prices. At no time of the year can we afford to allow unseasonable weather to clog our business. Our stocks must keep on the move. We're constantly running across lots of goods offered to us at Special Prices. That means ample opportunity to discount the trade in Clothing, Boots and Shoes, Hats and Furnishings without any trouble. Please remember that this business is PERSISTENTLY in advance of every other, and that prices here are always, with seldom an exception, the LOWEST.

We start off this week with a double head of steam to Reduce all our prices on all our stock, and make business boom in defiance of the mild weather.

WHEAT'S UP! CLOTHING'S DOWN! We quote below a few sample prices that tell the tale of how well we are loaded up with Bargains all over our two **BIG STORES**

Men's Clothing.

It's the young men's trade we cater to, any if any old men want to look young they should buy their Hats at Gough's.

Footwear.

Surprising Shoe-selling, another proof of the leadership of this best shoe store. Another proof of the helpfulness of its methods. First-rate Quebec Shoemakers were short of work during the summer, and they were glad to sink profits and move on the order we offered—for it bridged them over a bad gap and enabled them to keep their organization together. The Shoes are here:—

500 pairs Women's fashionable toes $1.50 Button Shoes, at	$ 1 50
300 pair Women's $1.60 Fancy Kd button Boots, with pointed toe caps, at	1 19
200 pairs Ladies' Fine Dongola Kid button Boots, regular $2.25 at	1 70

Ordered Work.

Tweeds and Worsteds must get a quicker move on like everything else. Boom! Boom! all along the Cloth Department. Well dressed men come here—this store appeals to gentlemen of refined taste, and provides most fully for all. Our Fall Stocks of Cloths and Tweeds for custom work will please all who prefer their garments made up to their own measure from carefully selected fabrics. We deny the right of High Prices to exist while this balmy weather hangs on.

Just imagine the condition of things where everything is held for a regular profit until sold. Gough Bros. the progressive and aggressive leaders of Low Prices, make prices the moving power all along the line. "Always Good (and Cheap) at Goughs," but especially during unseasonable winter weather like this.

Gough Bros.

The Wonderful Cheap Men, - 375-379 George Street, Peterborough

RUPTURED AND DEFORMED

C. H. DORENWEND,

Canada's Leading Authority on the Mechanical Treatment of Rupture and Deformity, will be in

PETERBOROUGH

—AT—

GRAND CENTRAL HOTEL

—ON—

THURSDAY, Nov. 19th

where he can be consulted with, free of charge. He brings with him the largest stock of Trusses, &c., ever shown in Canada. He makes a specialty of a Truss that HOLDS RUPTURE EXACTLY LIKE THE FINGERS. It is far superior to anything yet invented; the old principles of tight strapping and cumbersome appliances are avoided. It is light and strong, holds with ease, never allowing the Hernia to escape. In this advantage lies the secret of a cure without a risky operation. If Ruptured don't be deluded into an idea of security because you have a Truss on. IT MUST FIT PERFECTLY, and who can do better for you than one who attends hundreds monthly. Rupture is not exactly a disease, nevertheless it is positively dangerous if neglected.

If **DEFORMED** by Club Feet, Bow Legs, Knock Knees, Spinal Curvature or Hip Disease, you can have it corrected and obtain relief by mechanical means. CHILDREN ruptured or deformed should be attended to early to avoid future misery.

If suffering from **RHEUMATISM, NERVOUS DEBILITY, KIDNEY TROUBLE, DYSPEPSIA, &c.**, why don't you try Electricity? It is a great remedy and by a DORENWEND ELECTRIC BELT you can apply it simply and effectually; thousands used with best of results. Limited space prevents further details. For practical demonstration call as stated above—you are welcome.

All appliances first-class and prices reasonable. NOTE THE DATE.

DORENWEND E. B. & T. CO.

323 Queen St. W., Toronto. U. S. Agency 306 N. Broadway, St. Louis.

We have also the Cluthe Trusses and are selling them cheap. Will also be in **OSHAWA, at Bradburn House, Friday, Nov. 20th.**

NEWS FROM OTTAWA

Will the Duke and Duchess of York Visit Canada?

NO OFFICIAL NOTICE RECEIVED.

But Lord Aberdeen is Said to be Anxious That They Shall Visit the Dominion During His Term of Office—New Officers Appointed—Other Capital Notes.

Ottawa, Nov. 17.—(Special.)—The Premier informs me that no official confirmation has been received of the report that their Royal Highnesses the Duke and Duchess of York are to visit Canada next year. It is possible, however, that when Lord Aberdeen returns to Ottawa there may be definite news on the point. His Excellency is very anxious to have their Royal Highnesses visit Canada during his term of office, and will use his utmost endeavors with this object in view.

Hon. Clifford Sifton, Minister of the Interior, is to-night on his way back to Winnipeg. He was sworn of the Privy Council as Minister at 10 o'clock this forenoon by Sir Henry Strong, Deputy Governor. The ceremony took place in the Premier's office, there being also present Mr. Laurier, Mr. Scott and Mr. Mulock. Mr. Sifton will also be head of the Geological Survey Department and Superintendent-General of Indian Affairs.

Col. Blair, ex-Superintendent of the Experimental Farm at Nappan, is in the city on his way home to Nova Scotia. He has just paid a visit to some of the Western Ontario counties, including Lambton, Essex and Kent, and has carefully studied the work which is being done in those counties for reclamation of marsh lands. As a result of the information he has secured Col. Blair will start similar works in the Maritime Provinces.

A number of new appointments have been made in the Customs Department. Mr. R. O. Fish has been appointed Collector of Customs at Berlin, in the place of Mr. Bowman, who defaulted some time ago; Mr. R. Brownlee has been appointed Collector of Customs at Barrie; Mr. James H. Johnston has been appointed sub-Collector of Customs at Grafton. Northumberland County; John H. Fraser is the new Collector of Customs at Wallaceburg.

Mr. Hurley, M.P. for East Hastings, was in the city to-day on business with the departments. He states that the authorities of the Cape Vincent (N.Y.) hatchery are still engaged taking whitefish spawn from the Bay of Quinte. It has not been possible so far to get all the ova required, as the fish are spawning late this year, but if the weather keeps fine it is likely that the necessary quantity will be procured. Fishery Overseer Clark is watching operations for the Dominion Government.

At the Customs Department it is learned that the regulations established last spring for the convenience of United States bicyclists visiting Canada with their wheels, have worked admirably. Of the thousands of American wheelmen who visited the Dominion this year, less than half a dozen cases have been reported in which the regulation respecting utward entry of such bicycles was not obeyed. Visiting wheelmen had to deposit their league certificates with the nearest collector of customs, and this was accepted as an indication of their bona fides.

Representations have been received by the Government from the Boards of Trade of Montreal and Quebec, Halifax and St. John in favor of steps being taken to improve trade with Italy. But even supposing that the provisions of the French treaty are applied to Italy, trade with the latter country is not very encouraging. The imports from Italy last year only totalled $239,501, while the exports were valued at $31,325.

In the Exchequer Court yesterday the claim of George Julien for damages for the seizure of the schooner Rising Sun, was dismissed The schooner was seized for infraction of the customs laws.

Messrs. Macdonald and Moffat sued for $708 extras in connection with their contract for a wharf at Sidney Justice Burbidge gave judgment for $74

The residents of Hintonburg municipality, on the western outskirts of Ottawa, are in a great state of excitement, respecting the action of the Molsons Bank, which has placed the sheriff in charge of the village for money to the amount of $8000 This is the amount upon which two votes have been taken as to the best means of wiping out the indebtedness, but which have resulted in nothing being done. A representative of the bank states that the amount has been due since last March. The bank has done everything in its power towards settling the matter without legal proceedings, but, owing to the friction between the two factions in the village, no settlement has been arrived at, with the result that the aid of Sheriff Sweetland has been called in, and he is now in charge of all the civic books If a settlement is not soon arrived at he will proceed to collect enough taxes to pay the claim due the bank

Col. Domville, M.P., of the 8th N.B. Hussars and Captain Wedderburn of the same corps were in the city to-day en route home after taking a special course for cavalry at Toronto.

Mr. Kemp of the Fishery Department has finished inspection work which he was authorized to make in Nova Scotia, and is now at Shediac examining into the beds which were planted last year.

Hon. Mr. Davies has asked the Manitoba Government to name a representative to accompany the Hudson Bay expedition next spring.

Major Hughes, M.P., is in the city.

The Marine Department is advised that eleven American seiners are following mackerel along the western shores of Nova Scotia. The cruiser King Fisher is keeping them close company.

Mr. J. R. Booth went up the Parry Sound road last evening. It is stated that his trip is in connection with a new mill that he proposes to build up the line.

Mr. Tarte is still in Vancouver

Contractor Askwith of Ottawa is making good progress in the erection of the new drill hall at Halifax

SIFTON NOT TO BE OPPOSED.

The Minister of the Interior Will be Allowed to Go in by Acclamation for Brandon.

Winnipeg, Nov. 17.—(Special.)—Hon. Clifford Sifton will in all likelihood be elected by acclamation. Conservatives are quite as anxious as Liberals that Manitoba should not remain longer unrepresented in the Cabinet, and opposition to his return is extremely unlikely

The protest against the election of Hon. Hugh John Macdonald for Winnipeg is at such a stage that it will probably have to go through.

Winnipeg City Council last night decided to organize a Board of Control similar to that of Toronto.

Hon. J. D. Cameron was sworn in to-night as Attorney-General of the Greenway Government, succeeding Hon. Clifford Sifton.

ARCHDEACONAL CONFERENCE.

The Matter of Dividing the Diocese of Toronto Discussed at Cobourg—Other Topics.

Cobourg, Ont., Nov. 17.—The third Archdeaconal Conference of the Church of England opened here to-day, about 80 ministers and 25 laymen being present. Holy communion was celebrated, after which morning prayers and devotional exercises were conducted by Rev. Canon McNabb of Toronto. Rev. Mr. Allan, archdeacon, addressed the conference, and at the conclusion of the meeting Rev. Herbert Simmons of Ashburnham was re-elected secretary. The proposed division of the diocese of Toronto was discussed, and it was thought by the majority of those present that the diocese of Toronto should be divided.

"The early church, our pattern in the organization of a diocese," was spoken upon by Rural Dean Cooper, M.A., S.T.B. The topic of "What are to be the limits of the new diocese?" was ably dealth with by Mr. A. L. Colville of Campbellford." What amount of money is required, and how it can be raised," was discussed, John D. Burnham, Q.C., Ashburnham, and F. E. Hodgins, Toronto, each having 15 minutes to address the conference on this topic. The conference will continue all day to-morrow.

Pointer Beat Patchen.

Philadelphia, Nov. 17.—The attendance at Belmont Park to-day to witness the race between the pacers Star Pointer (2.03½) and Joe Patchen (2.03) was not so large as the attraction announced warranted. Star Pointer won in straight heats. In each heat he reached the quarter and half in exactly the same time—30½ and 1.01. The first heat was taken by an open length, the second by three and the third by five lengths. In the second heat Patchen broke twice. The time of the three heats was: 2.04½, 2.05½, 2.08.

WEPT AGAIN IN COURT

Mrs. Sternaman Was Overcome a Second Time.

MUCH SYMPATHY SHOWN BY WOMEN

The Recital of the Scenes About Her Husband's Deathbed Worked Strongly on Her Feelings. A Point in Her Favor Gained—Case Closes To-Day.

Buffalo, Nov. 17.—The dingy, ill-lighted little court room of United States Commissioner Fairchild was this afternoon crowded with women, either directly or indirectly interested in the outcome of Mrs. George Sternaman's examination.

The majority of them were members of the Order of Rebekah. Their presence was indicative of the intense sympathy aroused among the women for Mrs. Sternaman. Mrs. Sternaman was naturally the cynosure of all eyes. Remarks expressive of deep sympathy occasionally passed among the women.

When Mr. Sevenpiper, father of the defendant, entered the court room he shook hands with his daughter. He looked brighter and more hopeful than usual. Mrs. Sternaman herself did not exhibit as much levity as at previous examinations. She looked serious and much concerned.

Mr. Thayer first offered in evidence a certified copy of the testimony taken by Coroner Thompson of Haldimand County, Ont. It contained the testimony of the undertaker who conducted Sternaman's funeral. Mr. Thomas strenuously objected to the admission of this written testimony.

The gist of Mr. Thomas' objection was that papers unauthenticated to be used in contradiction to those properly authenticated were not admissible as evidence, according to the general statute of the United States law. He held that Mr. Thayer's written testimony was obtained subsequent to that of the Canadian Government and therefore invalid.

Commissioner Fairchild overruled Mr. Thomas' objection. Mr. Thomas has not had an objection offered by him in the case sustained by the court.

Mrs. Sternaman's face was radiant with joy when her attorney had obtained his point. It was vital with her.

Mr. Thayer then read the testimony of Mrs. Elizabeth Sternaman of Rainham Township, Ont., mother of the defendant's last husband. Her testimony was not of great moment. It dealt simply with the information sent her concerning her son's illness, and what occurred between the patient and herself after she came to Buffalo.

Mrs. Sternaham wept bitterly during the reading. She broke down completely and gave way to hysterical weeping when Mr. Thayer read a portion of the evidence dealing with the death scene. Mrs. Sternaman in her written testimony swore that her son told her shortly before his death that he wanted a post-mortem in order to clear Ollie (meaning his wife, the defendant).

The testimony concluded with a relation of the manner in which Sternaman received his medicine. It was in great part a repetition of the defendant's testimony, wherein she swore that she alone with the exception of a few times, administered his medicine.

The testimony of John Snyder, an undertaker in Rainham, who conducted Sternaman's funeral, was read the conclusion of Mrs. Sternaman's evidence.

"I think that I did not embalm the body. It was in good condition and I did not think it necessary. I simply punctured his intestines in order to let the gases escape. I would not say positively that I did not embalm the body."

Mr. Thomas is in possession of a written statement from Undertaker Snyder, wherein he positively swears that he did not embalm the body.

The testimony of Mrs. Charlotte Hunsberger, a first cousin to Sternaman's mother, was then taken. A hot spat followed between Mr. Thomas and Mr. Thayer. The Commissioner overruled the objection by Mr. Thomas. Mrs. Hunsberger swore that Undertaker Snyder told her that he could not swear positively whether he embalmed Sternaman's body.

Mr. Thomas was inclined to think that her testimony was worthless on account of her being a cousin of the defendant.

Dr. F. P. Vandenburg of this city, a practising analytical and consulting chemist, took the stand. He agreed with the testimony of Drs. P.P. Park and T. J. S. Harrison that Sternaman died from arsenic poisoning. He said that the Canadian doctors must have held the post-mortem examination with the intention of finding arsenic, otherwise they would not have used the Marsh test. He also said that the amount of arsenic found in Sternaman's stomach had nothing to do with the cause of his death, as only the arsenic which had *been* dissolved and conveyed to the vital parts would be of any consequence. He further stated that in the event of the body having been embalmed by injecting arsenical fluid in the stomach, the condition of the soil containing moisture and numerous alkaline deposits would have a tendency to draw the poisonous fluid to other parts of the body after six weeks of burial.

Dr. James J. McFadden of No. 173 Auburn-avenue swore that he treated Sternaman for a form of blood poisoning in August, 1895.

Elizabeth Sevenpiper, sister of the defendant, was recalled.

Mr. Thayer said: "Were you with Mrs. Sternaman when she paid Undertaker Snyder?"

"I was."

"What did she say to him?"

The witness replied that Mrs. Sternaman asked Snyder if the money she paid included the embalming. Snyder had replied: "It pays for embalming and all."

The case was adjourned at 3.50 p.m. until 10 o'clock to-morrow morning, when, according to agreement, the hearing must be closed with the exception of the presentation of the briefs and the arguments in summing up.

Another Collapse at St. John.

St. John, N.B., Nov. 17.—Another collapse has occurred at Sand Point in connection with harbor improvements now going on. This afternoon the crib works toppled over into the slip, and now the wreck is complete. So far $100,000 has been expended on these improvements, and not much is now left to show for this money except some dredging.

Nervous

People find just the help they so much need, in Hood's Sarsaparilla. It furnishes the desired strength by purifying, vitalizing and enriching the blood, and thus builds up the nerves, tones the stomach and regulates the whole system. Read this:

"I want to praise Hood's Sarsaparilla. My health run down, and I had the grip. After that, my heart and nervous system were badly effected, so that I could not do my own work. Our physician gave me some help, but did not cure. I decided to try Hood's Sarsaparilla. Soon I could do all my own housework. I have taken

Cured

Hood's Pills with Hood's Sarsaparilla, and they have done me much good. I will not be without them. I have taken 13 bottles of Hood's Sarsaparilla, and through the blessing of God, it has cured me. I worked as hard as ever the past summer, and I am thankful to say I am well. Hood's Pills when taken with Hood's Sarsaparilla help very much." MRS. M. M. MESSENGER, Freehold, Penn.

This and many other cures prove that

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills act easily, promptly and effectively. 25 cents.

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month, $2.00 for six months.

WEDNESDAY, NOVEMBER 18, 1896.

THE NEW APPOINTMENTS AND THE SENATE.

The Canadian Senate has had a bad name, and many feel disposed to assign it the same treatment as, proverbially recommended to a dog in the same predicament. But there is a possibility of mending, instead of ending, that august body. And apart from legislative methods, plainly the best way is that indicated by the action of the Government in making recent appointments. To make the Senate really useful is to infuse some strong, healthy blood, and this has been noticeably done by the appointment of Sir Oliver Mowat, Hon. David Mills and Mr. Geo. A. Cox. This is the universal sentiment. Money and Risks, a strictly non-partisan financial journal of Toronto, thus refers to the subject :—"Mr. Cox, besides being the President of the Canadian Bank of Commerce, one of the foremost banks in the Dominion, and now recognized as such not only in Canada but throughout the British Empire and in the United States, is closely identified with many other leading financial and mercantile institutions in the country. All this keeps him closely in touch with the country's business interests, and the financial and commercial acumen he can bring to bear on Dominion legislation, must be of material advantage to Canada.

We congratulate Senator Cox upon his recent honours, we congratulate life insurance workers in having one of their own fellow-workers in the Senate; we congratulate the financial interests of the Dominion in having an experienced and successful financier in Parliament; we congratulate the Laurier administration for its wisdom in selecting that type of man who is much needed in the Senate, and who, we are sure, will adorn his place in Parliament.

We think there can be no question that the appointments of such experienced legislators or financiers as Hon. Mr. Mowat, Hon. David Mills and Mr. George A. Cox, reflect the greatest credit upon the new Liberal administration. If this class of men is to be appointed to the Senate, we may eventually hope for something from that body, especially if the new blood introduces some reform features into it.

THE MINISTER OF THE INTERIOR.

Hon. Clifford Sifton, late attorney-general in the Manitoba Cabinet, was sworn in at Ottawa yesterday as Minister of the Interior in Mr. Laurier's Cabinet. He received by telegram the congratulations of Lord Aberdeen. Mr. Sifton is a young man, thirty-five years of age, but has shown a capacity for administration, which, with his special knowledge of the conditions and needs of the Northwest, points to a successful career as Minister. He remained in Ottawa only long enough to be sworn in, take formal charge of his department, and select Mr. H. R. Campbell, of the department, as his private secretary. Accompanied by the latter, he returned to Brandon to arrange for his election on Dec. 4th., but this is a mere formality and his return will be unopposed. The statute, which gives Mr. Sifton control of office as Minister of the Interior, also provides that he shall be superintendent-general of Indian affairs and head of the geological department.

Back-Ache, Face-Ache, Sciatic Pains, Rheumatic Pains, Pain in the Side, etc.

Promptly Relieved and Cured by

The "D. & L." Menthol Plaster

"Having used your D. & L. Menthol Plaster for severe pain in the back and lumbago, I unhesitatingly recommend same as a safe, sure and quick remedy; in fact, they acted like magic.—A. LAPOINTE, Hawkesbury, Ont.

VOTING FOR COUNTY COUNCILLORS.

It has been stated that a municipal elector can only vote in one county council division. But this is not the case. Any elector legally qualified may vote for a county council candidate in any division in which his name appears on the list as a qualified voter, but he can only vote once in any one division. The following section, of the County Councils Act of 1896, No. 13, applies to the case in hand :

13 The persons qualified to vote for county councillor shall be the persons qualified to vote at the election of members of the council of the local municipality, and all local municipal clerks and no others; and each person so qualified shall be entitled to as many votes as there are members of the county council to be elected in his county council division; and he may at his option when there are two county councillors to be elected, give both of his votes to one candidate, in which case he shall place two crosses within the division of the ballot wherein is the name of such candidate. But when any person, being a resident voter is on the voters list, for two or more municipalities within any county council division, he shall vote for county councillors in that municipality only in which he resides, and only at the polling subdivision in which he resides, if he is entitled to vote at such polling place. In case a voter is not resident within the division he shall vote only once within any division whether his name is on the voters' list of said division in more than one polling subdivision or not.

GALWAY.

From our own Correspondent.

Mr. W. Houghs, a son of Mr. John Houghs, one of our most influential farmers here, has secured a blacksmith shop in Kinmount and is working at his trade. He will no doubt give good satisfaction to the public.

Miss Julia Flaherty, who was living with her sister at Lockport, Pa., has returned home and will remain for some time with her parents.

Mr. Craig, of Hastings county, is visiting with his uncle, Mr. Wm. Hardy.

Notwithstanding the glut in the Toronto cattle market and the low prices that have prevailed there lately, Mr. Robt. Thompson, of White Lake, is around again looking up a car load of sheep and fat cattle. We believe Mr. Thompson is paying all he can possibly afford under the present circumstances. The farmers are losing money every day selling their two year-old steers at an average price of nine or ten dollars. It is utterly impossible to raise cattle at such ruinous prices. Farmers here must make up their minds to feed their steers at home and keep them until they are heavy enough to ship to the Old Country where higher prices can probably be obtained.

Mr. C. Scott has succeeded in getting a tenant for his farm. Mr. Burgess took possession last week and is busily engaged in ploughing.

Two other farms on the Reid Road that have been vacated for seven years are now owned and occupied by two sons of Mr. Spencely, of Bark Lake.

The land along the Reid road, which was built by the Ontario Government through the untiring efforts of Mr. J. R. Stratton, M.P.P., is fast becoming settled.

DOURO DOINGS.

(From Our Own Correspondent.)

Mr. Jas. Walsh and Mr. John O'Brien have returned home from Manitoba after spending the summer in that province. They are looking well, and we are glad to see them home again.

We are glad to hear that Miss F. Leahy, who has been ill for some time, is recovering. Miss Maggie Gilroy entertained some of her friends at a card party Wednesday evening.

Mr. T. Buck, Peterborough, is visiting his uncle, Mr. D. O'Brien.

We expect to have some excitement here over the municipal elections, as there will be, it is said, several new candidates for the reeveship.

IN THE DARK VALLEY.

"Dodd's Kidney Pills have Saved My Life"—This is said by Thousands—Prevention the Safest.

"In the valley and shadow of death"—"Given up to die." There are many thousands of such living in Canada to-day who say, "Dodd's Kidney Pills have saved my life."

No matter to what stage the disease may have come, do not despair. The triumphs of Dodd's Kidney Pills have been won in exactly such fights for life.

People make mistakes and jump to wrong conclusions; doctors themselves don't always know. It is much safer to take Dodd's Kidney Pills than to take chances. Of course these grave cases have simple beginnings, and that is the time that a single box prevents—which is better than curing.

OCTOBER HONOUR ROLLS.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c 50c. and $1.00.

One Every Night.

One Laxa-Liver Pill taken each night during 30 days will cure Constipation, obstructing Headaches and irregular action of the bowels. Laxa-Liver Pills leave no unpleasant after-effect.

A Prominent German Pastor

After 30 Years of Rheumatism, is Cured Completely by

RYCKMAN'S KOOTENAY CURE

The Medicine is Universally Acknowledged to be

THE BLESSING OF THE AGE.

HAMILTON, Aug. 10, 1896.

Mr. S. S. Ryckman,
Hamilton, Ont.:

DEAR SIR,—I take great pleasure in giving you a statement regarding my case of Rheumatism with which I was afflicted for over thirty years. The pain had gradually approached my breast and affected me so that I could not sleep on my left side. Another trouble I had was a kind of Dyspepsia, known as Gastric Indigestion, from which I suffered considerably. I had to be very guarded as to what I ate, otherwise I paid the penalty. At present, since taking your valuable remedy, known as "Kootenay Cure, I am able to eat my meals without any pain or bad feeling.

In addition let me add that my Rheumatism was so bad at times that I could not move myself. I am now like a different man and conscientiously recommend your medicine, "Kootenay Cure," to anyone suffering from Rheumatism or Stomach Trouble. I am glad to have found the Remedy and willingly furnish you with this information that it may help others who are similarly afflicted.

Wishing you success, I remain,
Yours truly,
(Signed) GEORGE BRAUN,
Pastor of the Evangelical Association.
Residence, 146 Market Street.

MR. G.R. BLOUNT, Methodist minister, Dresden, Ont., says: "After a prolonged attack of La Grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

Karl's Clover Root,

the great Blood purifier, gives freshness and clearness to the Complexion and cures Constipation, 25 cts., 50 cts., $1.00. Sold by John Nugent, 389 George street.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagyard's Pectoral Balsam.

STORM KING'S DOINGS

A Million Dollars or More Lost in the West

THROUGH WIND AND RAIN AND FLOOD

Portland, Oregon, Loses Heavily—Damage to Railroads Alone is Half a Million—British Columbia Suffers and So Does the Canadian Pacific Railway—Snowstorms Also.

Portland, Oregon, Nov. 17.—The damage by wind and high water as a result of the storm that has been raging in this vicinity for the past four days is widespread. Front-street in this city is partly flooded, and considerable damage has been done to goods in storage and wholesale houses. In the Willamette Valley snow has been falling heavily for the past six hours and still continues. Below Portland the Columbia River has spread far beyond its banks, and is sweeping everything before it. All overland trains are greatly delayed by washouts, which are reported to be general throughout this section.

A Million Lost.

Seattle, Wash., Nov. 17.—The storm which has swept Northwestern Washington and British Columbia for the past 48 hours is the most severe in the history of the country. It is estimated that the damage to railroads alone in Western Washington will exceed $500,000, and the loss to private property will be fully as great. While atmospheric conditions have improved slightly, the railroad situation is worse than ever. The city is absolutely shut off from communication by rail with the outside world, and from midnight Sunday until 4 o'clock yesterday afternoon all the telegraph lines were paralyzed. The overland Pacific express, which left Tacoma Sunday night, encountered a huge landslide near Easton, on the eastern slope of the Cascades, and returned to Tacoma yesterday afternoon. A few miles from Easton the Yakima River bridge is washed away. The damage beyond that point is not known, communication being interrupted.

The Portland branch of the Northern Pacific is likewise disabled by a big landslide in Cowlitz Valley, 50 miles south of Tacoma. The Great Northern Railway is the heaviest sufferer, and all its lines on the side of the Cascades are in a deplorable condition. From Snohomish to Skyhomish, in the Cascade Mountains, a distance of 52 miles, the road will practically have to be rebuilt, as it has been nearly all swept away and the bridges washed out. At Index the big railroad bridge was swept from its piers and carried down the Skyhomish River for a distance of half a mile.

At Snohomish the river is higher than ever before known, being from six to ten miles wide in places. The water is over a foot deep in the Great Northern depot, which stands eight feet above the level of the track. Yesterday steamers were cruising about over farm lands, picking up ranchers and stock.

Mount Vernon, in Skaget County, is in a sad plight, the Skaget River being unprecedentedly high, and the dykes are about to give way.

Avon, a village nearby, is under water, and the Beaver and Olympia marshes are inundated. Many of the farmhouses have water several feet deep in them. The Snohomish River at Everett is seven miles wide, and the Seattle and International bridge has been rendered unsafe by the great jam of driftwood.

Near Lowell the river is two feet above high-water mark, and the railroad track has been washed away for miles. Three feet of water is standing in the Everett and Monte Cristo tunnel for the the entire length of 700 feet.

New Whatcom is shut off from communication entirely, no trains having arrived or departed from there for four days. The Nooksack River has overflowed its banks, flooding hundreds of acres of valuable farming property.

In British Columbia the Canadian Pacific Railroad, for a distance of 100 miles east of Vancouver, has been seriously damaged. Many bridges are washed out and telegraphic communication with the east has been interrupted for 36 hours.

Fierce Snowstorm.

Portland, Oregon, Nov. 17.—A fierce snowstorm raged over the Willamette Valley last night, and snow still continues to fall heavily. Such a blizzard has not been seen for three years, and at this season it is remarkable. The Willamatte River is still rising, and the water is spreading over the lowlands below the city, carrying everything before it. No trains arrived on the Northern or Southern Pacific yesterday owing to the flood. All wires are down on the Northern Pacific, and how serious the washouts are on that line cannot be stated. The overland trains on the Southern Pacific Railroad are practically stalled and although the Oregon Railway and Navigation and Union Pacific trains succeeded in getting through, the tracks along the Columbia River are threatened by high water. The flood has torn out the wires in all directions, and communication with interior parts of the State is difficult.

The town of Woodland, Wash., is ten feet under water, as a result of the freshet in Lewis River, and unless the storm abates soon the entire Lewis River valley will be devastated. Of the other valleys on the Columbia, Cowlits, on the Washington side, has been inundated, and the inhabitants of Castle Rock were forced to flee to the adjacent hills.

Several trestles have been washed out by the flood.

At Cottage Grove, Oregon, several houses were washed away, and many families compelled to seek safety in the highlands.

The few incoming travelers last night stated a heavy snowstorm was raging up the valley, and regular blizzard weather prevails.

At Salem a great deal of damage is reported in the Mill Creek Valley and adjacent territory.

Unprecedented Floods.

Spokane, Wash., Nov. 17.—Unprecedented floods are prevailing throughout the section of the Northwest. Mountain streams which three days ago could be waded are now raging torrents. All the trans-continental railroad lines running through here are washed out in a dozen places, both east and west, and several bridges are gone. No trains arrived yesterday and none are expected for several days. Much damage is resulting to settlers along the valleys and lowlands in Northern Idaho, Western Mountain, and in Washington.

AN INSURANCE CASE.

Bauer v. Canada Life at Berlin A Case of Criminal Assault Also Before Judge Falconbridge.

Berlin, Ont., Nov. 17.—When court resumed this morning the case of Bauer v. Canada Life was resumed. The evidence of Mrs. Bauer and others was taken and at 12 o'clock the addresses of the counsel commenced, by 2.15 Mr. Aylesworth, for the plaintiff, and Mr. McCarthy for the defendant, were concluded, and the jury retired. To-night they brought in the answers to the questions which the judge gave them, all in favor of the plaintiff. Justice Falconbridge will give his decision in the morning. The only criminal case, that of criminal assault against John Carter of Galt, was next tried. W. Lount, Q. C., prosecuting. The offence took place in Galt on March 31 last and the complainant is a 11-year-old girl named Lillie Ann Hilborne. The evidence of the little girl and her mother was strong and there was practically no defence. The jury brought in a verdict against Carter of guilty of indecent assault. W. D Card, Galt, for the prisoner.

UNHAPPY NEWCASTLE.

For the Fifth Time This Year the Fire Fiend Visits the Municipality—Francis Waldon's House Burned.

Newcastle, Nov. 17.—The fifth fire in this municipality so far this year took place this morning. The residence of Mr. Francis Waldon, North-street, was burned. The fire originated in the kitchen from some unknown cause, and with a strong west wind the main part was soon a mass of flames, as well as the stables. The density of smoke awoke his son, who was sleeping in an upper room, and, calling to his father, who was asleep below, they both narrowly escaped suffocation, having only a few clothes on. The citizens, with the new hand-engine, were instrumental in saving the residence and barn of Mr. Joseph Coulson and Mr. P. Mangan's dwelling opposite. The wind carried large pieces of burning shingles, igniting the dwelling of Mr. Enoch Holmes on Mill-street, two blocks away, but it was extinguished with buckets of water. Mr. Waldon's loss will be considerable, he having only $1000 insurance on house and contents with the Royal.

CAPT. MAHAN RETIRES.

The Celebrated Writer on Naval Topics Placed on the Shelf at His Own Request.

Washington, Nov. 17.—Captain Alfred T. Mahan, United States Navy, was to-day placed on the retired list at his own request, after 40 years active service, in accordance with law. The announcement was received at the Navy Department with astonishment, as Captain Mahan would have been promoted to the rank of commodore in a few months, and could then have retired with increased pay. It is thought he must have been forced to act now by reason of his pressing literary engagements. Captain Mahan enjoys the distinction of being one of the most famous naval writers in the world. In accordance with the terms of his retirement he will at all times be subject to duty in case of war.

The demand for Ayer's Hair Vigor in such widely-seperated regions as South America, Spain, Australia, and India has kept pace with the home consumption, which goes to show that these people know a good thing when they try it.

QUEBEC LEGISLATURE.

The Fifth and Last Session Opened With the Usual Pomp and Ceremony Yesterday.

Quebec, Nov. 17.—The fifth and last session of the eighth Legislature of the Province of Quebec was opened with the usual pomp and ceremony by His Honor the Lieut.-Governor, Sir Adolphe Chapleau, at 3 p.m. His Honor was accompanied by Major Sheppard and Capt. Panet, A.D.C.'s.

In the Legislative Assembly several bills were presented. Hon. Mr. Marchand wanted to know the reasons why four counties were not represented in the present session. Hon. Mr. Flynn said that the Government would explain that later.

A MARVELLOUS CURE.

Helped by the First Box—Could not Lift Fifty Pounds—Cured by a few Boxes of Dodd's Kidney Pills.

Arthur, Nov. 9. (Special).—Among his more intimate friends it has long been known here that Mr. J. C. Morrison had been gradually failing in health for many years. The acuteness of his sufferings was known only to a few. His complete recovery is a surprise here and is causing much talk. Of his cure he says:—"Yes I got help from the first box of Dodd's Kidney Pills and I have taken fifteen boxes. I kept getting better every day. When I commenced I could not lift fifty pounds; now I am as strong and well as ever in my life."

Break Up a Cold in Time
BY USING
PYNY-PECTORAL

The Quick Cure for COUGHS, COLDS, CROUP, BRONCHITIS, HOARSENESS, etc.

Mrs. Joseph Norwick, of 58 Sorauren Ave., Toronto, writes: "Pyny-Pectoral has never failed to cure my children of croup after a few doses. It cured myself of a long-standing cough after several other remedies had failed. It has also proved an excellent cough cure for my family. I prefer it to any other medicine for coughs, croup or hoarseness."

H. O. Barbour, of Little Rocher, N.B., writes: "As a cure for coughs Pyny-Pectoral is the best selling medicine I have any customers will have no other."

Eye, Ear, Nose and Throat Cases.
Dr. Ryerson begs to inform the public that he will be at the Oriental Hotel, on Saturday, November 28th, for consultation in eye, ear, nose and throat cases.

Missionary Conference.
To-night Rev. A. P. McDiarmid, Rev. John P. McEwen and Rev. E. Bosworth will address a public meeting at the Murray street Baptist church, on the subject of the various missions they represent in connection withe Baptist churches of Ontario and Quebec.

Mrs. Appleby's New Fancy Goods Store, No. 426 Water St., is now open with an entirely new selection of the latest novelties in Fancy Goods. Look out for her grand Christmas Opening about 1st Dec.

Gave Him a Send-off.
Mr. Will Milne left this morning for Chicago, and last night the "Jolly Chums" Club, of which he has been a member since its inauguration, gave him a send-off. A pleasant evening was spent in the club rooms, which boast a piano, and afterwards the boys went down to McCallum's restaurant and had an oyster supper.

The Cox Banquet.
Mr. Robert Fair, secretary of the Banquet Committee, wishes it stated that there have been a number of applications for tickets, and others who intend applying are requested to do so this week, as the capacity of the dining hall is limited and consequently the number of tickets also.

Spider and Fly.
At the Opera House, Saturday night, Nov. 21st, the great spectacular scenic production, "The Spider and Fly," which has met with the most persistent success everywhere, will be the attraction. From the beginning to the end it is a great example of fun and frolic, and there is no outlet to this condition of movement until the curtain falls on the gorgeous transformation scene. Don't miss this great attraction. 1d

We recommend you to Grafton & Co's. the well-known clothing manufacturers.

Tuesday, Thursday and Saturday.
These three days of the week will be red-letter days at the Peterborough Bookstore. Santa Claus is coming, bringing with him about ten tons of holiday goods for the Christmas trade at A. H. Stratton & Co.'s and room must be made for them at once. To unload the present stock a series of every-other-day bargain sales has been started, the particulars of which will be interesting reading to the public. See advertisement in this issue.

To Establish the Curfew.
Mr. J. J. Kelso, Superintendent of neglected and dependent children, Toronto has received a communication from the President of the Association of County Agents at Grand Rapids, Mich., stating that they are thinking of establishing the curfew in some towns and cities in the States. As the curfew bylaw is in operation in a number of municipalities in Ontario, the County Agents in Michigan are asking for information, which will be given by Mr. Kelso.

CATHOLIC ASSOCIATION ENTERTAINMENT.

An Excellent Programme Presented Last Evening.

The assembly hall of the Catholic Literary Association was crowded to its utmost capacity last evening, and the programme presented was an excellent one in every respect.

Mr. L. V. O'Connor, Secretary, opened the entertainment with a short address on the aims of the Society, and the future entertainments to be held under its management.

The programme proper opened with a selection, "The March of the Brownies," by the Silver Spoon Orchestra, Messrs. F. McPherson, D. Costello, M. Galvin A. Waddell and Phil. Cregan. The number earned for them a recall. Miss Kate Dunn in her vocal number, "Afterwards," sang with excellent taste and expression. The violin duet by Misses Maud and Fox, "Click Click Galop," was excellently rendered, and these talented young ladies responded to a hearty encore with the "Ariel Galop." A banjo trio, Misses L. Mahoney, L. Hurley and Mr. Talbot, next contributed a catchy two-step, and were warmly encored. The little Misses McCormack and Costello showed themselves to be the possessors of excellent voices. These young ladies sang very sweetly "Blue Eyes," and being encored, rendered "Josephine." Messrs. Roadhouse and Hendricks, on the autoharp and guitar, contributed two very pleasing numbers, while the pianoforte duet, "Uhlan's Call," by M. Begley and M. Butler, was exceedingly well rendered. Little Aggie Patterson is indeed a talented elocutionist, and her rendition last evening of "Entertaining Sister's Beau," showed her to be a clever reciter. Her encore number, "At the Dentists," was excellently rendered, and this clever young lady has certainly a bright future ahead of her.

Miss K. Hurley, in her brilliant rendition of a pianoforte solo contributed a number which was warmly received. Mr. Osias de Leplante contributed a very clever serio-comic address on "The Province of Woman in the Dominion of Deceit," in which he endeavoured to point out the supposed existence of this evil in the fair sex, leaving the sterner sex severely alone in his denunciation. Mr. Leplante handled the question very ably, and the large number of ladies present seemed to take the address good naturedly. No doubt the other side of the question will be presented later on.

Mr. Phil Cregan contributed two comic songs to the programme, and a very enjoyable evening was closed with the National Anthem.

Misses K. Hurley, M. Butler, M. Begley and Mr. J. Armstrong played the several accompaniments very acceptably during the evening.

The Board of Directors desire to thank those who contributed to the evening's programme.

The next entertainment will be held the first week in December, when an interesting debate will take place between two representatives from St. Basil's Literary Union, Toronto, and two from the local Literary Association.

DIRTY LINEN.

There Was a Lot of it Washed in the Police Court This Morning.

Mrs. Bourne, of Perry street, had a summons issued for Mrs. Walker, of the same neighbourhood, yesterday afternoon and this morning the latter, who is an Italian, appeared before the magistrate.

Mrs. Bourne told a long story of the wrongs which she suffered at the hands of the little Italian woman, but as the informant is about six feet in height and the defendant fully two feet shorter, the court found it hard to believe that it was possible for the diminutive foreigner to have vanquished the stalwart English woman in a hand to hand struggle.

Mrs. Bourne acknowledged having dealt a few blows, but complained of Mrs. Walker's daughter taking a hand in the fight with a knife.

Both parties agreed as to there being a hot fight, but each swore that the other one started it. One thing was certain, and that is that if the language stated to have been used on this occasion was uttered, Perry street in this particular locality is not a very desirable place of residence.

The case was dismissed and the parties to it warned to keep the peace on pain of going to gaol.

DR. MILLIGAN'S LECTURE.

In connection with Dr. Milligan's lecture on behalf of the Children's Aid Society a correspondent writes as follows in his praise :

I was present at both services last Sabbath in Old St. Andrews, and I heard two sermons from the doctor which are worthy of what I may term continental repute. I have heard in New York and Brooklyn sermons by the late Rev. H. W. Beecher and Mr. Talmage, and when I unite these three in one I do not think I am attributing too extravagant praise to the former in thus elevating him to the standard of our foremost pulpit orators. The doctor may be regarded at times as being severe upon points of doctrine espoused by other denominations which are prescribed by certain limitations even to the extent of being unpleasantly personal and which often gives rise to bitter hostility against himself. Yet there is a cosmopolitancy about his preaching which presents our common Christianity to our hearts and consciences, that makes us all feel that the God and Father above us is as broad and generous towards the limitations of His children as the wide and beautiful universe above, beneath is broad and long, which He has created for them, and in this we have a prototype of what the doctor himself is. No matter how hard at times you may criticise his utterances, yet he is always ready to meet you with a smiling face and outstretched hand, and he is becoming more and better known in regard to this special characteristic of himself; giving a conciliatory touch to the keen edge of some of those utterances of his that otherwise would be painful.

TRAPPED AN OWL.

It Was Gradually Reducing a Flock of Poultry Belonging to a Bensfort Farmer.

Mr. Samuel Smithson, of Bensfort, recently had quite an adventure with poultry thieves. After missing quite a number of his poultry he decided to capture something. He set a trap large enough to hold anything within reason and captured a fine owl of the variety known as the eared owl. He is quite proud of his bird and brought it to town on Saturday to have it stuffed and mounted by Mr. Ed. Bicome, taxidermist.

LILY LAKE LITERARY SOCIETY.

A Successful Meeting Held—Good Programme Presented.

The third regular meeting of the Lily Lake Literary Society, Smith, met on Thursday, Nov. 12th, at which there was a good attendance. The chair was taken at 7.30 o'clock, and after the minutes of the last meeting were read and confirmed and the business was over, the following programme was rendered :

Address..... President
Reading..... Mr Vally Tully
Instrumental..... Mr Fred Agnew
Recitation..... Mr Melville Tully
Speech..... Mr Jas Middleton
Song..... Miss Ella Patten
Recitation..... Miss Ella Tully
Song..... Mr Geo A Reid
Recitation..... Miss Louisa Middleton
Reading..... Mr John Mahood
God Save the Queen.

THE MORGAN HOUSE ROBBED LAST NIGHT.

TWO ARRESTS IN CONNECTION WITH THE CASE.

Mark Lockington and David Welsh are the Suspects—What They to Say in Regard to the Matter—They Were out Together During the Evening.

Another burglary took place last night, and following so close upon the heels of those which recently occurred at the Oriental Hotel and John Marvin's butcher shop, it created great excitement which was increased when it became known that two suspects had been arrested in connection with the affair, and would be charged with complicity in the whole three burglaries.

It was the Morgan House which was entered last night or rather early this morning, as the burglary is supposed to have occurred at about one o'clock. At that hour Mrs. E. W. Cox, daughter of Mr. A. P. Morgan, who is at present staying at the hotel with her husband, heard a noise similar to the

BREAKING OF GLASS

down stairs, but paid only passing attention to it, thinking that one of the boarders was coming in late, and had upset something. A few minutes later, however, both Mr. and Mrs. Cox heard a crash and, becoming somewhat suspicious, both arose and looked out of the window. They saw a man of medium stature slip around the corner, and glancing below noticed a one armed man, who was recognised as Mark Lockington, passing the house, as he was not in sight when they first looked they were under the impression that he must have come out of the yard and, consequently, Mr. Cox prepared to go down stairs to ascertain if everything was all right.

He aroused Fred. Lund, one of the bartenders, and as they were descending the stairs Mr. James Gordon, night watch, entered the yard on his rounds and found the half glass side door of the bar open and a pane just above the inside bolt, broken.

The alarm was instantly given for the police and Constables Adams and Stewart were speedily on the scene. It was apparent that the door

HAD BEEN OPENED

by means of the breaking of the glass after which it was easy to slip the bolt and enter. The burglars had then climbed over the bar, as testified by the mud on its unusually bright and polished surface. The till in the cash register had been opened by someone apparently acquainted with registers as the three dollar button, which allows the drawer to be opened, had been pressed. Evidently the burglars at this point became flurried for some reason as the drawer dropped to the floor making the noise, presumably, which caused Mr. and Mrs. Cox to arise. The drawer contained $32.40. Of this $12.50 was missing. This amount was in the first compartment and the remainder was in the back portion of the till. It was evidently whilst pulling out the drawer to get into this rear compartment that it was dropped, as it was found on the floor turned upside down with $19.90 beneath it.

Hearing that Lockington had been seen passing the house, and that he and a young fellow named David Welsh had

BEEN IN THE BAR

at about a quarter to eleven, the police decided to arrest these two men on suspicion and search was begun for them at once.

Lockington was arrested in the house of Mr. Hull, near the locks, whilst lying on the lounge in his clothes, about two hours later. Welsh was found in bed at his boarding house at four o'clock in the morning.

At about 12.40, a one armed man, and another man were met just on the other side of the Hunter street bridge, in Ashburnham, walking rapidly towards town. On passing the gentleman who observed them, they lowered their umbrella, so that he could not see their faces, but on looking after them he observed an empty coat sleeve hanging at the side of one of the men.

Both men were before the Magistrate this morning, and were remanded until Monday next.

On being seen at the gaol this morning, Lockington acknowledged having being around drinking with Walsh during the evening. He says they were in the Morgan House shortly before eleven and went from there to the Bodega,

WHERE THEY SEPARATED.

After that Lockington says he was at the Oriental and other places and was also over in Ashburnham. He has been working at Croft's Hotel recently in the absence of the hostler, and says he went there to sleep but could not get in and then went down to Hull's and throwing himself on the sofa prepared to spend the night there. He states that he has often "bunked" at Hull's.

David Welsh, on being seen at the gaol, corrobrates Lockington's story in every particular, stating that he left him at Armstrong's saloon. He says further, that he then went home and was in the house at twelve o'clock.

Walsh, it is said, was sent to the Central Prison from Peterborough several years ago and spent a year in confinement for throwing stones at a train.

When the men were arrested both had money on their persons. The two prisoners will also be charged, it is stated, with being concerned in the burglaries at the Oriental and at Marvin's butcher shop. The chief of police says he is convinced he has a strong case against both men, and the department is very busy getting evidence.

Madill's Emulsion of Cod Liver Oil for bronchitis or long standing cough; pleasant to take; carefully prepared.

Annual Christmas Opening.
Miss Melville will hold her annual opening display of ladies' fancy goods and beautiful novelties for the Xmas trade on Thursday evening, November 19th. Store open from 7 until 10 o'clock in the evening.

Grafton's Special Bargain this week in Boy's two-piece Suits, worth $1.50, for 98c, $2 Suits for $1.25 and $2.50 Suits for $1.50. See them whether you want to buy or not.

A BAILIFF'S TRIBULATIONS.

B. M. Wylie Ejected from the Corry & Laverdure Stables.

The case of Wylie vs. Armstrong, in which B. M. Wylie, a bailiff, charges Jas Armstrong with assaulting him whilst in the discharge of his duty, was before County Police Magistrate Edmison yesterday at the Court House.

Wylie, it seems, went to the stables of Corry & Laverdure with a writ of execution, and was about to make an inventory of the contents of the barn, when Armstrong, who was in charge, discovered him and questioned him as to his right to be on the premises.

The bailiff states that he produced his authority, and was then violently ejected from the stables, but the defendant states that when he asked to be shown the writ Wylie refused to allow him to see it, so he put him off the premises.

He acknowledged that he told him the exact amount for which he was seizing, and the Magistrate is of the opinion that this could hardly be done without the production of the writ.

The defendant has been released on his solicitors' undertaking to produce him on Saturday for judgment.

NO INTERFERENCE.

To the Editor of the Examiner :—

SIR,—We desire to say that the very unusual display of posters put up about town are not in reference to a matter for which our firm is responsible, nor can our goods be sold to satisfy it. And further, that the attempted sale cannot and will not in any way interfere with our contract on the canal.

Your obedient servants,
CORRY & LAVERDURE.

LOCAL NEWS.

If your eyes trouble you in any way, have them tested by W. Madill, optician. No charge for examination.

A Good Judge of Meat

Is a blessing to any household. She knows that for prime roasts, juicy steaks and chops, fresh poultry and delicious sausage, J. J. HOWDEN'S, 461 George street, is the favourite meat shop for her. Hams, bacon and lard always on hand. Telephone 39.

New Furniture.

At A. Clegg's:—A large assortment of floor rocker cobler seats, in oak, natural birch and mahogany finish. These are of superior styles and finish and very cheap. Also a lot of reed and rattan rockers—cheap! cheap! Several cases of pictures, good subjects, complete, at less than you have been accustomed to pay for frames only. A. CLEGG, 427 George street.

A New Lake Boat.

Mr. Boyd, of Bobcaygeon, intends building a first class boat this winter for the Lindsay and Bobcaygeon route. One day last week a large quantity of white oak, purchased in Buffalo, and said to be for the new boat, passed through town, and other material is being prepared at Bobcaygeon. It is yet to be learned the proposed dimensions of the new vessel, but it is well known that Mr. Boyd does not do things by halves, and the prospects are that Capt. Lane will have a record breaking craft ready for the opening of navigation next spring.—Post.

The Dangers of the Woods.

A Gravenhurst correspondent writes to deny the statement that they had two feet of snow in Muskoka lately. There was a fall of four or six inches, which remained only a few days and was followed by fine weather. He adds:—"While on this subject allow me to protest against the indiscriminate sale of hunting licenses. During the past hunting season it was actually unsafe to be in the woods. There are a number of good sportsmen who come here who dearly love the pastime and are safe to shoot game only. But there are a number whose only ambition is a 'boose' and to shoot at any and everything from a sparrow to a deer or man, without first ascertaining whether the object that causes a rustle be a man or deer. Every year adds to the list of accidents caused chiefly by men of that stamp."

A Lindsay Counter Felter.

One day last week officers of the United States secret police arrested a young man at Dayton, Ohio, on two charges, of making and having counterfeit coin in his possession. A bogus silver dollar and a 50c piece, the latter still warm from the mould, were found in his room. It turns out that the young man is William Baldwin, 23 years of age, formerly of Lindsay. Five or six years ago he was employed in Lindsay by Mr. Geo. Metherall, bookseller, and being convicted of having aided his father to rifle a car in the G. T. R. yard there, was sentenced to three years in Kingston penitentiary. Baldwin, sr., being sent down for four years. The present charge against young Baldwin will likely lodge him behind prison bars for a long term, and his career should prove a warning to the reckless young men of Lindsay.

Mercer's

OF INTEREST TO INVESTORS.

The Most Perfect Combination of Safety and Profit—Inducements Offered by the Dominion Building and Loan Association, of Toronto, Ont.

(From the Mercantile and Financial Times.)

As the readers of this paper belong largely to that class, so numerous in the East, who have sums of money which they find it difficult to invest at home, where it will earn anything like even a fair rate of interest with absolute safety for the principal, we may render them a service by calling their attention to the unsurpassed combination of safety and profit presented by the Permanent Stock issued by the DOMINION BUILDING AND LOAN ASSOCIATION, of Toronto, Ont. This stock is of a par value of $100 a share and is sold at whatever premium the Directors decide from time to time, the premium at present being $5.00 a share.

This stock, as its name indicates, is a permanent investment upon which a good dividend is paid half-yearly, the dividend to date being seven per cent. per annum, which rate it is likely will be increased in future years, such expectation being fully warranted by the past record of progress and prosperity which has distinguished the history of the Association from the date of its incorporation in 1890.

There are probably few of our readers who will question that seven per cent. is a very liberal rate of interest as compared with that paid by savings banks, or the general run of high-grade investment securities; but many may assert that it is not the dividends earned, but the safety of the principal, which is the paramount consideration. This latter proposition it is not possible to dispute; but it is easy to prove that the security furnished to investors by the Dominion Building and Loan Association is absolute and ideal.

The investments of the Association are limited to first mortgages on productive real estate and this security is steadily increasing by reason of a monthly payment of interest, together with a portion of the principal. These loans are again re-loaned and repaid in a like manner. Thus it will be seen that the element of loss is practically eliminated—something which can be encompassed in no way save through building and loan associations.

The certificates of this Association are preferable to any individual investment in notes or mortgages, because the business of loaning, appraising, collecting and supervising can be effected at less cost than to an individual, and this economy insures larger net returns, together with greater security for the capital invested.

Under this system of collective investments the risk is distributed instead of being concentrated in the one risk of an individual loan on note or mortgage. This form of investment is especially adapted to the requirements of administrators, trustees, guardians, societies, officials and others holding or controlling trust funds, as well as of conservative investors in general.

Mention should also be made of the Fully-Paid Interest-Bearing Stock of this Association, on which no admission fees is charged, and which is sold at $100 per share. Upon this amount a semi-annual dividend is paid, and the amount paid for the stock will be repaid the shareholder at the end of any time from one to five years, stipulated by him when making application for the stock. This is a very desirable investment for those who have money which they know they will require at any stated future period. The seemingly remarkable earning capabilities of building and loan stock is easily accounted for by the fact that the loaning and reloaning of their funds on the monthly payment plan enables them to compound interest twelve times yearly, and this without imposing any onerous burden on the borrowers, from the fact that the monthly payments by individual borrowers are so small they cannot be compounded separately to advantage.

The first mortgage securities of the Association are reinforced by over $500,000 of fixed and permanent stock which cannot be withdrawn.

The Dominion Building and Loan Association can truthfully lay claim to being the largest and most successful organization of its kind in Canada, having now over $1,000,000 of paid-up assets, with over $3,000,000 of subscribed capital, over $500,000 of which is fixed and permanent stock which cannot be withdrawn.

Its Directors are men of weight and standing in the business, financial and professional circles of the Dominion, whose identification with any enterprise is a guarantee of its high character. The full list is as follows:

BOARD OF DIRECTORS.

J. R Stratton, M.P.P.; Thos. P. Coffee, Barrister; D. W. Karn, Organ and Piano Manufacturer; C. Kleopfer, M.P., wholesale Carriage Hardware Merchant; J. M. Lefevre, M.D.

OFFICERS.

TRENT VALLEY CANAL.

Woodwork to be Renewed on the Hastings Locks.

(Hastings Star.)

Messrs. John McNichol and John Foley for some days have been busy making buoys for the channel above Hastings, where the boulders referred to last week have been taken out. The wood work below the locks has been found rotten, and will be replaced by new. Mr. Rogers, engineer of the Trent Canal, informs us that the section between Peterborough and Lakefield will be completed by next fall. Inside of another year a navigable water stretch will likely exist from here to Balsam Lake.

C. H. Dorenwend Coming.

He will be here for one day only with a large stock of his famous goods. If you want a good truss or electric belt, or are deformed, see him while he is here. Read his advertisement.

THE FORTNIGHTLY CLUB.

Mr. David Spence Gives one of the Best Papers of the Season.

There was a very large attendance at the open meeting of the Fortnightly Club last night, a great many ladies being present.

Mr. David Spence read what proved to be one of the most interesting and instructive papers of the season. His subject was "Bells" and his essay was indeed written in a masterly manner. He referred first to the early history of bells and to their origin, afterwards proceeding to describe the material of which they are at present composed and their use. To add interest to the paper Mr. Spence had a number of models of bells and also one of the new tubular chimes on which Mr. Kenward Mark played a selection.

Mr. Alex McCallum also read a good paper on the same subject.

OBITUARY.

Death of Mr. James O'Connor in Toronto Yesterday.

His Lordship Bishop O'Connor was called to Toronto to-day through the sudden death of his brother Mr. James O'Connor, of that city.

Mr. O'Connor was for many years a mail clerk running out of Toronto, but has been living a retired life for some time. The funeral will take place to-morrow. Ven Archdeacon Casey left for Toronto this afternoon in order to be present at the obsequies.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—A young man was fined two dollars this morning for being drunk and disorderly in the City Hotel last night.

—Belleville is contemplating the converting of a large unsightly island at the mouth of the Moira river into a city park.

—Merchants are taking advantage of the mild weather to give their windows a final polish before winter sets in.

—The senior and junior football clubs of Warkworth and Campbellford will run up against one another on Thanksgiving Day.

—The steamer North Star has the contract of bringing to Peterborough the lorries and machinery from the Harwood mill, which is being abandoned.

—Rev. A. T. Dykeman will be here to assume his pastoral duties in connection with the Murray street Baptist church on the first Sunday in December.

—Mr. Alex. Patterson has returned from a hunting expedition with Tom Eastwood and his party. There were nine in the camp, and they got seventeen deer—quite a record.

—A case of allowing liquor to be drunk on the premises on Sunday was heard yesterday before County Police Magistrate Edmison. It has been enlarged until Monday, in order that more evidence may be procured.

—Up to date 225 deer arrived in Lindsay from the north country, as compared with over 300 last season. On Saturday the Haliburton and Coboconk trains brought down 64, and yesterday morning 60 represented about the last of the shipments.

—If you want to economize burn the People's Coal Coy's coal. All kinds of coal in stock, including best hard coal for stoves and furnaces, soft coal for grates, and smithing coal. Office—230 Charlotte street. Telephone 366.

—An old widow living in Belleville has complained to the police that she has been greatly annoyed by an aged suitor who wishes to make her his wife. The old lady says she is afraid of him and wants him locked up. She said that if he bothered her much more she would have to "blow his brains out with an axe."

—The opera house should be crowded the week commencing Monday, Nov. 23rd, when the Myra Collins' Dramatic Company will make its appearance in the latest comedies and dramas. Dan Simons, a Peterborough boy, is anxiously waiting for the time to come when he will be with his friends. Watch for the Myra Collins' Dramatic Company.

—At the social to be given by the Epworth League and Ladies' Aid in the school room of the George street church tomorrow evening, Mrs. W. W. Daly, formerly leading soprano in the choir of that church, but who has not sung in public for some time, and Miss McAllister of Dominion church, Ottawa, will assist in the programme. The committee in charge is to be congratulated on securing the services of these popular singers, who in connection with the local talent of several of the town churches, will contribute a programme of rare excellence.

PERSONAL

Miss Temple is visiting her sister, Mrs. S. Parks, of Hastings.

Mrs. M. Hope of town, is visiting at the residence of Mr. T. A. Choate, Warsaw.

Mr. R. F. Day, of the Port Hope branch of Gough Bros'. stores, is in town to-day.

Miss Fawcett, late of the law offices of Stratton & Hall, leaves to-day to take residence in Toronto.

His Lordship, Bishop O'Connor, will lecture on "Rome, Ancient and Modern," in Port Hope on Monday next.

Mr. Frank Yeigh, the well-known litterateur and lecturerer, who is connected with the library of the Parliament building, Toronto, was in town yesterday.

Rev. J. C. Davidson and Mr. R. M. Denistoun went to Cobourg to day to attend the Archdiaconal meeting of the Archdiaconate of Peterborough. Rev. Mr. Symonds went yesterday. All these will, at the conclusion of the conference, go to Toronto to attend a meeting of the Synod Committee.

Rev. Father Keilty returned to town today, after an absence of three and a half months. He is, his numerous friends will pleased to learn, greatly improved in health, but he will require considerdble rest before he can undertake his parochial duties. During his absence, part of the time was spent in the House of Providence Hospital, Kingston, and he was for a time in the St. Vincent Hospital at Brookville. It is now four months since the reverend Father was attacked with his present illness. He went out to Douro this afternoon.

Madill's Compound Healing Salve for burns, scalds, frost bites, or sores of any kind.

MORE ABOUT ANNIE STEIN.

Not the Annie Steen Whose People Live at Apsley.

To the Editor of the Examiner:

DEAR SIR,—Will you kindly give me the space in your column to explain to the public in reference to paragraphs that have recently appeared in the EXAMINER and other papers, that the name of the supposed suicide at Markham written on the birch bark was Annie Stein, and our name is spelled Steen. Therefore there is no connection between the former name and that of my sister Annie, who is at present in Rochester, N.Y.

Thanking you Mr. Editor for publishing this, I am

Respectfully yours,
HARRIET STEEN.

Apsley, Nov. 16th.

Is Your Piano in Tune?

THIS IS THE PLACE

WHERE YOU CAN BUY

Everything in the MEAT LINE

Don't forget we have Fearman's Hams, Bacon and Long Clear.

Did you know we have Leaf Lard and Lard rendered on the premises?

We have Chopped Suet.

OUR OWN SAUSAGES are without doubt the best in town. They are now made on our own premises, under our own supervision, with our own prime meat, fresh every day.

The Hamburg Steak is worth trying.

In fact everything we sell is of the best quality.

Bear in mind that Mr. J. Hutchison has the store on Water Street in his full charge.

KENNEDY & NELSON.

SOME STARTLING FACTS.

In ordinary Pipes the Tobacco at the bottom of the bowls becomes saturated to such an extent as to be unfit for use and about one-fifth part is therefore wasted.

There is no waste in using Mackenzie Pipes as every particle of Tobacco can be smoked.

The average consumption of Tobacco in this country is 1 lb. 10½ oz per head of population, and an economist has estimated that the use of the Mackenzie Pipe by every smoker would result in a saving of $500,000.00 a year.

Call and examine the new importation at CHARLES LeGROS, 329 GEORGE STREET, and do not buy a lower grade (being seconds and thirds) of them which have been put on the market by our smaller dealers which they purchased from Montreal jobbers.

ALIVE C. LeGROS.

LOSS OF VOICE

After Acute Bronchitis

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

Ayer's Cherry Pectoral

GOLD MEDAL AT THE WORLD'S FAIR.

AYER'S LEADS ALL OTHER SARSAPARILLAS.

Vegetable Toys and Dolls.

With some clean potatoes, some carrots, parsnips and toothpicks a rainy afternoon can be made so short that supper will come hours before it is expected. The potatoes should be small and knobby and queer shaped as it is possible to get them. The parsnips and carrots should be washed clean and the toothpicks should be of the cheap, common wooden kind.

With these materials, all or part of them, and a couple of knives, a whole menagerie of animals and a whole roomful of dolls can be made. The toothpicks are used to join the heads, arms, legs, etc., to the body of the animal or doll.

The pictures showing vegetable toys are sketches of some actually made. Of course, some of the originals of the pictures were rather difficult to make, but a little care will enable the young animal-maker to do wonders. Some of the

SOME VEGETABLE TOYS.

best toys illustrated were made by a girl not over 10 years of age, but then she had spent three of her ten years in a kindergarten, where she cut out all sorts of pretty designs in colored paper and modeled dogs and cows in modeling clay.

Sometimes a funny doll can be made with potatoes without cutting or shaping them at all, but it is more fun cutting the "murphies" to shape.

There are no rules to follow in making vegetable toys, for rules and regulations and directions spoil the fun.

You can't be well if your blood is impure, but you may have pure blood and good health by taking Hood's Sarsaparilla.

As Well as Ever.

Dear Sirs,—After suffering for two years from acute indigestion I tried B.B.B. I took only three bottles, which made me as well as ever I was. I highly recommend B. B.B. to all dyspeptics.

Mrs. John White, Austin, Man

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill, druggist.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c Children love it. Sold by John Nugent, 399 George Street.

To destroy worms and expel them from children or adults use Dr. Low's Worm Syrup.

Sickly Women!

Out of sorts—easily tired, haggard, pale and listless, try Indian Woman's Balm. It makes rich new blood, banishes backaches, headaches, heart palpitation, constipation and all other ailments to which women are so subject. It is suffering womanhood's greatest boon. Has cured thousands—Why not you?

Sold in Peterborough by J. B. Tully

MAHER BEAT CHOYNSKI.

In Six Rounds the Irishman Put the Californian to Sleep by a Blow on the Jaw.

New York, Nov. 16.—The first heavyweight boxing contest of importance held in this city under the new Horton bill was pulled off to-night in the Broadway Athletic Club, when Peter Maher and Joe Choynski met in a 20-round encounter at catch weights. Half an hour before the time set for starting the initial bout a ten-round affair between Patsy Kaley of Buffalo and Young Sisto of Providence took place. The building, capable of seating 4500 people, was crowded from floor to ceiling. A large delegation from Pittsburg, Boston and Philadelphia had seats by the ring side. There was a tremendous amount of interest taken in the Maher-Choynski go, but very little money was wagered. The men were in splendid condition, but in form Maher looked to have the best chance.

There was scarcely a vacant seat in the building when everything was ready for the stars' appearance. The crowd had been kept amused by a burlesque boxing bout while Maher and Choynski were putting on the finishing touches in the dressing room. Maher was the first to appear at 8.47. Choynski following a minute afterwards. Both came in for a generous share of hand-clapping. Maher was seconded by Peter Burns, Peter Lowry and Jack Quinn. In Choynski's corner were Tommy West, Paddy Gorman and Bob Armstrong. Maher scaled ... and Choynski 167. Little money changed hands, but Maher was a slight favorite.

Round 1—They shook hands at 9 o'clock. They sparred for an opening. Maher landed with a light left on Choynski's cheat. More sparring. Choynski feinted and shot a left that just brushed wind. Maher put a hard left on the body and they clinched. After a lot of clever feinting on both sides Maher put a left hook in the neck as Joe was turning around. The round was mainly devoted to sparring at long range.

Round 2—Maher missed a very rough right swing, and Joe put two lefts on the jaw. Maher sent in a left to his neck; in trying to get away Joe slipped and Peter shot the right on the body. Peter put a hard left on the neck and Joe got rattled. Peter jabbed his man hard with the left. Joe then put three straight lefts on the face, and staggered Peter with a left jab on the jaw. Joe landed on the face, but was countered with a right on the chin. It was Joe's round.

Round 3—Joe opened with a light left on the body and repeated a moment later. Choynski then sent the right to the face and Peter came back with the left twice. Joe sent a hard left on the body. Peter rushed and Joe dropped on his knee to avoid. Maher then pasted his man twice with the right on the neck and again on the same place. Joe shot his left to the face and missed with the left, but landed lightly on the face as the bell rang.

Round 4—Joe came in with a nice left on the body. Both were cautious. Finally Joe came in again on the body with the left. Maher stayed on the defensive and Joe came again with a left on the body. Maher got his man near the ropes and got in a right on the ribs. Joe feinted with the left and tossed right on the face. They exchanged lefts on the face, and then Maher swung at his man, missing the right, but landed the left on the body, and Joe clinched. Maher put a left on the neck as the bell rang. They were not sparring fast enough to suit the crowd.

Round 5—Choynski was doing the leading so far. He shoved a straight left on Peter's face and easily avoided the return. Maher pasted a good left on the body, but Joe evened up with a return. Maher led for the body and brought the right around on the neck. Choynski swung his left on the face and Maher countered on the body. Peter nailed his man on the face, and they came closer together, both doing pretty sparring and exchanging lefts on the face.

Round 6—Honors were about even. Joe led with a left on the face and forced the fighting, sending Maher staggering to the ropes with a left on the jaw. Fierce infighting followed, and then Maher floored his man with a left hook on the jaw. Maher rushed at his man and landed right and left on the jaw, flooring his man again. Choynski got up on the ninth count, only to be sent down again and knocked clean out with a right on the jaw. The police clambered into the ring, but no arrests were made. The referee awarded his decision to Maher. The round lasted two minutes and twenty-five seconds.

The Californian was not long in coming to all right after being helped to his corner, where he rested for a moment and then walked out of the ring.

M'LEOD'S RECORD BEATEN

Roy Miller of Hamilton Reduces the Figures for the Half and Quarter Mile —The Wind Helped Him.

Hamilton, Nov. 16.—(Special.)—Roy Miller of this city went after the quarter and half-mile Canadian professional bicycle records at the Jockey Club track this afternoon. Mounted on a "yellow fellow," and somewhat aided by a strong wind, he rode the half, from a flying start, unpaced, in 57 seconds, clipping the best previous mark of 1.02 2-5, held by Angus McLeod, by 5 3-5 seconds. Subsequently Miller rode a quarter, flying start, unpaced, in 26 seconds flat. The record for this distance was also held by McLeod at 27 seconds.

J. H. Wheeler made two futile efforts to crack John Davidson's amateur Canadian record of 27 2-5 seconds for the quarter, flying start, unpaced. His times were 27⅘ and 28⅕.

Arthur Hackett was sent after the boys' paced quarter record of 30 1-5, but could not do better than 30 1-2. The same rider later on in the afternoon rode a quarter, unpaced, flying start, in 32 seconds.

Little Grace Miller, 12 years old, a sister of Roy Miller's, rode a quarter, standing start, unpaced, in 47 seconds, and was heartily cheered for her plucky performance. The little lady rode an ordinary ladies' wheel of considerable weight.

A MESSAGE TO MEN.

Proving that True Honesty and True Philantrophy Still Exist.

If any man, who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge, the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-being to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind, but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 6c. silver to cover postage and address, Mr. Geo. G. Strong, North Rockwood, Mich.

Tobacco Heart

Much heart and nerve weakness is caused by undue use of tea, coffee, and tobacco; palpitation, nervousness, irritability, excitability, lack of confidence, etc., are sure symptoms. Milburn's Heart and Nerve Pills bring ready relief, by steadying the nerves and regulating the heart. They are true heart and nerve food.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Midnight Blaze in Montreal.

Montreal, Nov 16.—About midnight three alarms of fire called the entire brigade to a fire which had started in the H. R. Ives Foundry on Queen-street. The fire was in a dangerous locality and the whole brigade was accordingly called to the scene. The fire, which was in the main shop, was prevented from spreading and was quickly got under control. The loss will be about $2000.

Burke Got a Day Off.

Chicago, Nov. 16.—John Burke, who is serving a term of 30 years in the penitentiary at Joliet for murder, came to Chicago Saturday to attend the funeral of his mother. Her dying request was that this privilege be granted, and friends applied to Gov. Altgeld for permission. The Governor found a precedent for releasing the man for the day, under guard, and a deputy brought him to the city in the morning, attended the funeral and the burial and in the evening took Burke back to prison. This is the second time in the history of the penitentiary that such action has been permitted.

When they put a man in jail, he cannot follow his natural inclinations. He cannot eat what he wants to—he is limited to a very frugal diet. Is it not equally true of a dyspeptic? For all of the real enjoyment he gets out of life, he might as well be in jail. He cannot eat what he likes, nor enough. He suffers much, gets little sympathy. At first, perhaps a little heaviness in the stomach, a little sourness, windy belchings and heartburn; headaches and biliousness and a foul taste in the mouth in the morning. Chronic constipation is almost inevitable, and means that the body is holding poisonous, impure matter that should be gotten rid of. The poison is being reabsorbed into the blood and the whole body. Impurity in the blood may lead to almost any disease. Constipation is the start of it all. Dr. Pierce's Pleasant Pellets cure constipation, cure it so it stays cured. No other remedy in the world will do that.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N.Y., and receive Dr. Pierce's 1008 page COMMON SENSE MEDICAL ADVISER, illustrated.

Many a buisness man who is envied by his associates and acquaintances as a "lucky fellow" stands but a step from the grave. He has purchased success at the cost of health. For every step forward in wealth he has taken two backward in health. Now that he has almost achieved his ambition as a money-getter, he is standing on the verge of his grave. Just one more big business strain—just one more step backward in health—and he will step into his grave. No man has the right to gain money at the expense of health. He owes something to wife and children—something to himself. He may have health easily.

Dr. Pierce's Golden Medical Discovery makes men and women strong and well. It wards off disease. It makes pure blood, solid flesh, and strong nerves. When the arteries are filled with rich, pure blood, a man doesn't easily break down or get sick. He can stand almost any amount of work or strain. The "Golden Medical Discovery" corrects the all-embracing disorders that cause all manner of disease. It corrects disorders of the digestion, irregularities of the bowels, and impure blood. Druggists sell it.

"I was afflicted with pimples and boils, and running sores on face and neck," writes Robert S. Wert, of No. 615 Galloway Ave., Columbus, Ohio. "Nothing did me any good. I took Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets;' before I had taken four bottles I was cured."

Every family should have Dr. Pierce's Common Sense Medical Adviser. The book was cheap at $1.50—its regular price. Now, for a limited time, it may be had *for nothing*. 31 one-cent stamps, to pay the cost of customs and mailing *only*, will procure you the book in strong paper covers, post-paid. Or you can have the book in elegant cloth binding, for 50 stamps. World's Dispensary Medical Association, Buffalo. N.

THANKSGIVING TURKEY.

Various Toothsome Ways to Prepare the Delightful Bird.

If you have the spirit of thankfulness in your own heart, and want to awaken a corresponding glow in the heart of your lord and master, you will serve your turkey boned and so get rid of much of the difficulty in carving.

An easy way to bone a turkey is to slit the skin down the back with a sharp knife, and, raising one side at a time with the fingers, separate the flesh from the bones until the wings and legs are reached; unjoint these from the body, and, cutting through to the bone, turn back the flesh and remove the bones. The flesh may be reshaped by stuffing. Stuff with forcemeat made of veal and a little pork chopped fine, and season with salt, pepper, sage or savory, and the juice of a lemon. Sew in shape, and press the wings and legs close to the body, and tie all firmly, so that the upper surface may be smooth and plump. Lard the breast with narrow strips of firm, fat pork, and bake until thoroughly done, basting often with salt and water and a little butter. Serve with a giblet dressing, to which has been added a cup of strained tomatoes.

To make a giblet dressing for roast turkey, put the giblets and neck in a saucepan with cold water and add an onion, salt and pepper, and a slice of dry bread that has been made very brown in the oven. Boil until the giblets are done, then strain the stock. Chop the giblets fine and put them and the stock back into the saucepan, dredge with a little flour, add the brown gravy from the bottom of the pan in which the fowl was cooked, after skimming off the fat. Serve hot in a gravy boat.

A good, old fashioned stuffing is made by mixing with a loaf of stale bread half a cup of butter, an egg, salt, pepper, sage and thyme or celery to taste, all brought to the consistency of mush by the addition of hot water.

An oyster dressing is considered an improvement upon the old recipe. It is made by adding to half a loaf of stale bread crumbled half a cup of butter and salt and pepper to taste. Drain off the liquor from a pint of oysters, heat it and pour over the bread crumbs; add an egg and mix all the ingredients well together. A little sweet milk is a great improvement.

Most delicious of all is a chestnut stuffing, the rich nuts giving a peculiarly delicate taste to the fowl. To make it boil the chestnuts, remove the shells and brown skins and mash them. Mix them with a few grated bread crumbs and moisten with sweet cream, add a little butter and season with pepper and salt. In filling the turkey do not crowd in the stuffing. Sew up the openings and tie or skewer the legs and wings in shape. Rub thickly with butter and salt and dredge with flour. Place in a dripping pan and put half a cup of water in the pan. Use a moderate oven and cover the turkey with another pan for the first 40 minutes. Baste frequently and turn the bird occasionally to expose all parts to the heat. It should be tender and moist and a golden brown all over when done. Garnish the dish with small balls of fried sausage or fried oysters and parsley. Serve with a giblet dressing and cranberries.—St. Louis Globe-Democrat.

AN ATTORNEY'S RUSE.

How He Escaped Prison and Substituted the Sheriff.

The old lawyer was in a reminiscent mood. "Talking of contempt of court," he said to a New Orleans Times-Democrat reporter, "here is one that's a good one, and true. A good many years ago a well-known member of the bar got into a dispute with a brother lawyer with whom he was trying a case, and some hard words passed—in fact, so many that the judge sent the lawyer who had used the hardest words down for contempt. So off the lawyer was marched with the deputy to the parish prison. Now the lawyer, after the manner of his kind, was a very shrewd man. That was how he got his living, and that was how he got out of going to jail. As they proceeded to the prison this shrewd lawyer proposed that they get a little dinner on the way. The restaurant was at hand, of inviting appearance, and the deputy, after the manner of deputy sheriffs, a thirsty man. They went into the restaurant and dined and also wined, withal, until the deputy, having at length his thirst slaked, and being full of generous wine, did not know himself from the lawyer. The lawyer pretended not to know, either, but he did. He kept up the pretension, however, got the deputy into a cab, picked his pocket of the commitment, drove the deputy to the parish prison, and handed him over to the sheriff as '—— ——, Esq.,' member of the bar, committed for contempt, videlicet himself in his own place and stead. Some colleagues, friends of the lawyer, went to his house that evening to explain his absence to his wife. They were met by the lawyer, who came to the dooor in his slippers.

The Best Way To Cure

Disease is to establish health. Pure, rich blood means good health. Hood's Sarsaparilla is the One True Blood Purifier. It tones up the whole system, gives appetite and strength and causes weakness, nervousness and pain to disappear. No other medicine has such a record of wonderful cures as Hood's Sarsaparilla.

Hood's Pills are the best after-dinner pill; assist digestion, prevent constipation. 25c.

Mr. Legate, Traveller for McCormack & Co., London, says: "Miller's Compound Iron Pills restored me to health after a month of prostration from nervous shock and loss of blood." He says, "Their effect on me was simply marvellous; people say they never saw me looking so well." Sold in Peterborough by Wm. Madill druggist.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

How Lincoln Kept Books.

In his early life Abraham Lincoln had a primitive method of keeping books. At the time his law partner, John T. Stuart, represented the Springfield district in congress, Lincoln was forced, much against his will, to keep an account of some kind. The plan he adopted was somewhat remarkable. When he received a fee he divided it in halves. His half he put in his pocket; Stuart's portion he put in an envelope and, labeling it "Stuart's half," threw it into a drawer until his partner's return from Washington.

Virtues of Lemon Juice.

Lemon juice and water without sugar will oftentimes relieve one of a sick headache in a short time, and a half a gill of lemon juice three times a day in a little water is said to be good for rheumatism.

You may eat cheap food and not be seriously hurt by it: but you cannot take cheap medicines without positive injury. If you use any substitute for Ayer's Sarsaparilla, you do so at the peril of your health, perhaps of your life. Insist on having Ayer's, and no other.

THE EYES OF THE WORLD

Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognized this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organs which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why should anyone suffer distress and sickness while this remedy is practically at their hands?

Fairweather's Fine Furs

They Can, But They Don't Like To.

The Ladies can go around all winter without nice warm Furs—but they don't like to.

Now the matter of a Fur Cape, Collarette, Ruff or Jacket is of vast importance to a lady's comfort, health and appearance—it's an article that for 6 months of the year is in constant use and should be attractive as well as durable.

It's the perfect fit of our Fur Garments — combined with faultless style, and a reasonable price—that places this store at the fore front of the Fur business in Peterborough, Toronto and Lindsay. Let us show you our stock.

FAIRWEATHER & CO.,

George Street, Peterborough | 101 Yonge Street, Toronto | Kent Street, Lindsay

Y.P.S.C.E. NOTES.

Paragraphs of Local Interest to Endeavourers Supplied by the County Union.

WORLD'S CHRISTIAN ENDEAVOUR PRAYER CHAIN.

(Subject of Prayer for November.)

Pray that Canada may be a God-fearing, law-abiding, Christian land. Pray for every wise effort to advance the Christian citizenship.

A CALL TO ARMS.

Loudly would I sound the bugle call that will summon the Christian Endeavour hosts in Canada to arms! There is battle to be waged in our land which must strain every nerve and test every sinew if we would win. It is a fight for the Lord and His Day. The growing laxity and indifference among professing Christian people in the matter of Sabbath observance is too sadly apparent to need comment. One thing is evident; unless the friends of the Sabbath buckle on their armor, and hasten to its defence, it will be lost as a day of rest and worship beyond all recovery. What can we do? you ask; and it is because I have something definite to propose that I sound this call to arms. This question is not a local or municipal one; it is provincial. The observance of the Sabbath in Ontario is governed by a provincial law which applies with equal force to all parts of the province. Under this law what can be done in Toronto may be done in Parry Sound or anywhere else; and what cannot be done in Parry Sound may not be done in Toronto. No municipal law can override or interfere with its enforcement. Thus if under it Sunday cars are illegal, no popular vote or city bylaw can empower them to run. Now there exists in Ontario a society known as the "Lord's Day Alliance," the object of which is to preserve our rest day from desecration. This Alliance is testing the legality of Sunday cars under the provincial act before the Court of Appeal, and decision will probably be given this month. Now, should the judgment be adverse, the Alliance will probably go to the Legislature in the spring and ask them to so amend the act as to make it cover Sunday cars; should the judgment be favorable, the street railway companies will probably seek an amendment of the act to permit of Sunday cars. In any case a battle royal will be fought in the Ontario House, and the side which can exert the greater pressure will probably win. From this you can understand that heavy expenses must be incurred and a large membership throughout the province would be a great strength to the Alliance. No organization is in a better position to secure such members than our Christian Endeavour Societies. Let our city and county unions take this up. An annual fee of 50 cents makes one a member. Send at once to Mr. A. E. O'Meara, Confederation Life Building, Toronto, for membership blanks, etc., and begin an immediate canvas in your church and neighbourhood. We should be able to secure at least 10,000 members in Ontario by January, 1897. Now, then, altogether and let the battle cry be, "For the Lord and His Day."—Endeavour Herald.

Mr. O'Meara will address the Union meeting of local Endeavourers to be held in St. Andrew's church on Monday night, Nov. 30th, on the above topic. Citizens interested in this movement should make an effort to be present at this meeting.

FOR THE ARMENIANS.

In the columns of the Montreal Witness on Saturday we notice that the baby society of the county is credited with contributed $5 to the fund to alleviate the sufferings of these martyred Christians. Surely the effort put forward by North Monaghan should be an incentive to the older societies in the country to come to the relief of these people.

ST. ANDREW'S SOCIETY.

Held its regular meeting on Monday night. There was a large attendance. Miss Rae led the meeting, and read an excellent paper on the topic, "A good education; what it is, and how to get it." The leader pointed out that one might get all knowledge, and their education still be at a fault if they had not received the wisdom which is given by the Spirit of God through the study of His word.

The leader divided her subject into three heads—the three essentials to success:

1. A desire to get the education.
2. The best text book.
3. The best teacher.

The leader went on to show that the best text book was God's word. The fear of the Lord is the beginning of wisdom, and that the best teacher was the Author Himself—"I will instruct thee and teach thee in the way which thou shalt go."

The Society is arranging for a lecture to be given on the 27th inst. Watch for further particulars.

BETHEL—KEENE CIRCUIT.

We held our first meeting in the basement of the new church. We had a good attendance, and it was also the first meeting led by the new officers. After a few remarks made by the newly elected president and singing "Blest be the tie that binds," prayer was offered for a blessing on our work in the coming term, and as we have started our work in the new building we, as a society, desire to consecrate ourselves anew to God. Miss Addie Pallin read the Scripture reading, and Miss Williams, of Villiers, who we are pleased to have with us again, and who has been a help to us many times, read an excellent paper on the topic "The most interesting thing I know about foreign missions." We were carried in imagination to the foreign mission field, and saw the great work there is for us to do. And it no doubt aroused the interests in mission work in our society. Mr. Andrew Rennie conducted the prayer meeting, and although there were not as many led in prayer as we would like to have had, the president asked that they would ask God to help them not to be ashamed to speak for the Master. When the spirit prompts them to speak may God help us all not to be ashamed to testify for him.

PIPES! PIPES!

Why pay 25 to 50 per cent. more for a Pipe, when you can save that much by buying at Clegg's Retiring Sale? Pipes, Pouches, Tin Tobaccos, Cigars by the Box, all at cost price. E. B. CLEGG.

MILLBROOK.

(From Our Own Correspondent.)

The Port Hope Guide contains the following:—

"The solid gold medal awarded to Miss A. L. Wood, of Millbrook, at the commencement exercises last Friday night, for Honors in Mathematics, at the July examinations in connection with our High School, is a trifle more in circumference than a half-dollar, has a raised border and a wreath of maple leaves encircling on one side "Honours in Mathematics." On the other side is the name beautifully engraved. A badge of blue ribbon with a golden fastener is attached and the trophy is certainly one to be proud of. It was given by Mr. W. Upton Runnalls, who is a great admirer of mathematics."

Miss Wood is the third daughter of Mr. A. Wood, banker, of this place, and is now attending Trinity University, Toronto. Her many friends will be pleased to hear of her glowing success at Port Hope, and hope that she may be as successful in her studies at Toronto.

Mr. James Browne, of Peterborough, spent Sunday in town with friends. Mr. Brown's fine tenor voice was heard to great advantage in the Methodist church on Sunday evening, when he sang with good effect a solo entitled "Angel Faces."

Rev. Mr. Potter, pastor of St. Andrew's church, Peterborough, preached on Sunday afternoon to the Presbyterian congregation in the town hall.

Rev. N. Harris, of Beaverton, will deliver a lecture on "Prison Life," in the lecture room of the Methodist church, on Tuesday, Nov. 24th.

Miss Maggie Wood is visiting friends in Toronto.

Mrs. Fitzgerald, of Colborne, is visiting her mother, Mrs. Robt. Lancashire.

Miss Elena Eyres is visiting friends in Port Hope.

Miss Emma Hetherington, teacher in the public school, has been compelled to give up teaching for some time owing to rather serious illness.

Mr. Fred Pendrie was in Toronto last week on business.

Mr. James Collings, of Lindsay, spent Sunday in town.

Messrs. Hetherington, Southern and (Rev) Phelps returned on Thursday from back north, where they had excellent luck deer shooting.

Mr. J. Brent and sister from near Bowmanville spent Sunday here, the guests of Miss Nugent.

Miss Carrie Syre, of Millbrook, was warded the general proficiency prize in the Primary Class in connection with the Port Hope High School.

Mrs. Geo. A. Leach, of Montreal, is visiting Mrs. A. Leach.

The members of the local Court of C. O. F. paid their Mount Pleasant brethren a visit on Monday night.

Mr. W. Archer, boot and shoe merchant, has moved into more commodious quarters in the Midland Loan Building. Mr. Archer now possesses the largest plate glass front it town.

Safe, Sure, Painless.

Just what you need if you are troubled with aching corns. Putnam's Painless Corn Extractor acts in this way. It makes no sore spots, acts speedily, removing the worst corn in twenty-four hours. Putnam's Corn Extractor, the only sure corn cure.

Protect Your Horses, etc.

Nothing is more needed for horses at this inclement season of the year than a waterproof horse cover. I make them to order and keep them in stock as well. Hoods, heads, backs and breasts in black waterproof, impervious to water, soft and pliable. Any kind or style of ordered goods required. Lap rugs, strictly waterproof. Also cheese covers as requested by members of the Cheese Board, and for covering all kinds of goods liable to damage from wet. A. KINGSCOTTE, Tent, Sail and Awning manufacturer, 344 Water street, opposite market.

NORTH HARVEY.

(From Our Own Correspondent.)

We had quite a snow storm here on Friday last, followed by a hard frost the same night. Saturday it looked as if the winter had set in, but by Monday everything had changed, and it was warm as summer. It is to be hoped that it will remain so for some time yet.

There were very few deer taken out by the hunters on Saturday last when they left here, whatever was the cause. There were only two cases of lawbreaking, both on the same charge—that of shooting deer in the water, and shooting on Sunday. Both fines were paid.

Mrs. W. D. Ventress and Miss Etta Ventress, who were visiting friends in Reaboro, have returned home.

Mr. W. Brandon of Reaboro is visiting friends here.

Mr. W. Tate has returned home after spending the summer in Smith.

There is hardly anything more refreshing than a cup of good Tea. But then really good Tea is scarce and that is why so few understand the invigorating qualities of the herb. One of the most experienced "Tea-tasters" selects our best brands of household Teas. If you will try them in preference to what you usually use you will soon detect the difference and understand how refreshing a cup of good Tea really is. Prices according to quality.
M. L. HENRY & Co.

"Mikado" Still in the Market.

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blends of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER Millers.

The Wabash Railway Trains

running every day in the year between Detroit, Chicago, St. Louis and Kansas City are the finest known to the railway service; they are complete and solid vestibuled rom end to end, the entire train being a moving palace of connected apartments, all furnished with the most luxurious elegance and perfection of accommodation known to car builder's art. They include free reclining, palace, sleeping, and dining cars of the latest and best paterns. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

Defying the Probs

AND FORCING THE SEASON.

We Can't Change the Weather

BUT WE CAN CHANGE OUR PRICES.

At no time of the year are we satisfied to sell at regular prices. At no time of the year can we afford to allow unseasonable weather to clog our business. Our stocks must keep on the move. We're constantly running across lots of goods offered to us at Special Prices. That means ample opportunity to discount the trade in Clothing, Boots and Shoes, Hats and Furnishings without any trouble. Please remember that this business is PERSISTENTLY in advance of every other, and that prices here are always, with seldom an exception, the LOWEST.

We start off this week with a double head of steam to Reduce all our prices on all our stock, and make business boom in defiance of the mild weather.

WHEAT'S UP! CLOTHING'S DOWN! We quote below a few sample prices that tell the tale of how well we are loaded up with Bargains all over our two **BIG STORES**

Men's Clothing.

Men's Clothing at Boys prices. A few minutes reading will show.

Men's Hard Felt Hats, from 25c up.	

It's the young men's trade we cater to, any if any old men want to look young they should buy their Hats at Gough's.

Footwear.

Surprising Shoe-selling, another proof of the leadership of this best shoe store. Another proof of the helpfulness of its methods. First-rate Quebec Shoemakers were short of work during the summer, and they were glad to sink profits and move on the order we offered—for it bridged them over a bad gap and enabled them to keep their organization together. The Shoes are here:—

500 pairs Women's fashionable toes $1.50 Button Shoes, at	$ 1 50
300 pair Women's $1.60 Fancy Kd button Boots, with pointed toe caps, at	1 19
200 pairs Ladies' Fine Dongola Kid button Boots, regular $2.25 at	1 70

Ordered Work.

Tweeds and Worsteds must get a quicker move on like everything else. Boom! Boom! all along the Cloth Department. Well dressed men come here—this store appeals to gentlemen of refined taste, and provides most fully for all. Our Fall Stocks of Cloths and Tweeds for custom work will please all who prefer their garments made up to their own measure from carefully selected fabrics. We deny the right of High Prices to exist while this balmy weather hangs on.

Just imagine the condition of things where everything is held for a regular profit until sold. Gough Bros. the progressive and aggressive leaders of Low Prices, make prices the moving power all along the line. "Always Good (and Cheap) at Goughs," but especially during unseasonable winter weather like this.

Gough Bros.

The Wonderful Cheap Men, - 375-379 George Street, Peterborough

RUPTURED AND DEFORMED

C. H. DORENWEND,

Canada's Leading Authority on the Mechanical Treatment of Rupture and Deformity, will be in

PETERBOROUGH

—AT—

GRAND CENTRAL HOTEL

—ON—

THURSDAY, Nov. 19th

where he can be consulted with, free of charge. He brings with him the largest stock of Trusses, &c., ever shown in Canada. He makes a specialty of a Truss that HOLDS RUPTURE EXACTLY LIKE THE FINGERS. It is far superior to anything yet invented; the old principles of tight strapping and cumbersome appliances are avoided. It is light and strong, holds with ease, never allowing the Hernia to escape. In this advantage lies the secret of a cure without a risky operation. If Ruptured don't be deluded into an idea of security because you have a Truss on. IT MUST FIT PERFECTLY, and who can do better for you than one who attends hundreds monthly. Rupture is not exactly a disease, nevertheless it is positively dangerous if neglected.

If **DEFORMED** by Club Feet, Bow Legs, Knock Knees, Spinal Curvature or Hip Disease, you can have it corrected and obtain relief by mechanical means. CHILDREN ruptured or deformed should be attended to early to avoid future misery.

If suffering from **RHEUMATISM, NERVOUS DEBILITY, KIDNEY TROUBLE, DYSPEPSIA, &c.**, why don't you try Electricity? It is a great remedy and by a DORENWEND ELECTRIC BELT you can apply it simply and effectually; thousands used with best of results. Limited space prevents further details. For practical demonstration call as stated above—you are welcome.

All appliances first-class and prices reasonable. NOTE THE DATE.

DORENWEND E. B. & T. CO.

323 Queen St. W., Toronto. U. S. Agency 306 N. Broadway, St. Louis.

We have also the Clothe Trusses and are selling them cheap. Will also be in **OMEMEE, at Bradburn House, Friday, Nov. 20th.**

It's a REAL TREAT
